

Dust Collector

SPECIFICATIONS

Overall length, width, height	7.87 x 3.57 x 10.49ft
Net weight	903lb
Motor	10hp 3Ph
Inlet diameter	14in
Air volume	10600 CFM
Bag capacity	48gal x 2
Bag size (top dia. x depth)	5 x 60.2in
Bag size (bottom tank)	48gal
Impeller diameter	18in
Static pressure	2300pa
Electrical requirement	460V 15A 3Ph

* Specifications shown reflect a typical configuration. Machine design, layout and features may vary depending on final configuration and customer requirements. Details will be confirmed at the time of order.

OVERVIEW

The Dust Collector UFO-1100H is our recommended dust extraction component for a number of our Spida machines.

The UFO-1100H has been chosen because of its compatibility with our machines, and its capability for dust extraction.

Our automated linear saws - the Tornado M500 and the PieceMaker, as well as our Sheather 5 Gun 2 Saw, create sawdust. The Dust Collector is fit for purpose, collecting sawdust particles created by the cutting mechanisms from these machines.
