

Wall Stacker Outfeed

SPECIFICATIONS

Overall length, width, height	41 x 5.9 x 1ft
Working height	10.63in
Safe working load	11000lb
Machine mass	2300lb
Operational noise	50dB
Operating temperature	32 - 104°F
Electrical requirement	460V 8A 3Ph

* Specifications shown reflect a typical configuration. Machine design, layout and features may vary depending on final configuration and customer requirements. Details will be confirmed at the time of order.

OVERVIEW

The Wall Stacker Outfeed is designed as a station to accumulate finished frames as a bundle/stack, then convey the bundle over the forklift pockets for loading.

FEATURES

- Reversible drive to centering position of finished stack of frames when ready for lifting with forklift
- Guide rails prevent forks from catching under conveyors

OPTIONS

- Can be custom built to individual factory requirements
