* Specifications shown reflect a typical configuration. Machine design, layout and features may vary depending on final configuration and customer requirements. Details will be confirmed at the time of order.

OVERVIEW

The Dropsaw Table is designed to hold a drop saw for cutting bevels or compound cuts on the way through to the main saw.

FEATURES

- Custom table to make mitre/compound cutting easy
- Attaches between the infeed and the main saw
- Quality, robust steel constructed table
- Accommodates most drop saws
- Easily adds to infeed table
