Electrical requirement	115V 10A 1Ph

* Specifications shown reflect a typical configuration. Machine design, layout and features may vary depending on final configuration and customer requirements. Details will be confirmed at the time of order.

OVERVIEW

The Mitre Pin Box is designed to manipulate components prior to cutting to achieve required mitre angles. Available for saws up to and including Gen 10 - not available for later generation saws.

FEATURES

- Compact box to fit onto any table configuration required
- Automated pushers set component at pre-programmed mitre angle
- Adjustable pusher pins allow for various mitre angles to be achieved

OPTIONS

- Left or right hand configuration
- Can be paired with a variety of tables/saws as required
