Discover Wine Through Region

Mission Statement

Region was born of partnerships formed with local wine makers and a desire to connect wine drinkers to their region through wine. We've redefined the tasting experience, offering dozens of independent, hard-to-come-by wines available to taste, sip, or take home. By connecting makers with drinkers in a comfortable and communal environment, we strive to further wine's mission to bring people together. Founded by a team who is genuinely excited about all things wine – from where it's grown, how it's made, and how it tastes, we strongly believe that wine is crafted to be enjoyed, not to be judged. We encourage all to explore your Region, drink what you like, and find it here.
