

Job Title: Investment Manager – Healthcare Secondaries (Private Equity)

Location: Basel, Switzerland

Fund Structure: Semi-Liquid Evergreen Private Equity Fund

Focus Area: Healthcare Secondaries

Seniority Level: Mid to Senior Level

About MTIP

MTIP is a leading Swiss-based private equity firm investing in high-impact, fast-growing healthcare companies across Europe. With a proven track record and strong sectoral expertise, MTIP is now expanding with a semi-liquid evergreen private equity fund structure — an innovative vehicle designed to offer continuous capital deployment and liquidity options while maintaining long-term investment discipline.

The Role

We are seeking a highly driven and analytically strong **Investment Manager** to join our growing team and take primary responsibility for **identifying, evaluating, and executing secondary transactions** within the healthcare space. This is a unique opportunity to shape a core function in a new fund structure, enabling access to high-quality healthcare companies via secondary market opportunities.

Key Responsibilities

1. Deal Origination & Sourcing

- Proactively identify and source attractive secondary opportunities in healthcare, including LP-led and GP-led transactions.
- Build and maintain strong relationships with intermediaries, placement agents, secondary advisors, and GPs across Europe and the US.
- Develop and execute thematic sourcing strategies across relevant healthcare subsectors.

2. Investment Execution

- Lead and manage the full transaction lifecycle: due diligence, financial modeling, valuation, deal structuring, and execution.
- Prepare high-quality investment memos and present to the Investment Committee.
- Negotiate legal documentation with sellers, GPs, and legal counsel.

3. Portfolio Monitoring & Value Creation

- Collaborate with the portfolio team to monitor secondary investments post-close.
- Support strategic decision-making around follow-ons, exits, and liquidity management.
- Assess and optimize NAV accuracy, pricing models, and risk exposures.

4. Market Intelligence & Strategy

- Track and analyze secondary market trends and pricing developments.
- Contribute to MTIP's thought leadership in healthcare secondaries and evergreen fund innovation.
- Collaborate with the team to continuously refine fund strategy and portfolio construction.

Required Qualifications & Experience

Technical & Professional

- 5+ years of relevant experience in private equity secondaries, investment banking, fund-of-funds, or transaction advisory.
- Demonstrated experience executing secondary transactions (buy- or sell-side), ideally within healthcare.
- Strong understanding of fund structures, transaction dynamics, and valuation techniques in the private markets.

Healthcare Sector Knowledge

- Deep interest in and understanding of healthcare industry trends, technologies, and business models.

Education

- Strong academic background with a degree in finance, economics, business, or a healthcare-related field

If you are a proactive, organized, and entrepreneurial individual who wants to play a key role in our company, we look forward to meeting you. Please send your resume and a cover letter detailing why you are the ideal addition to our team to
