

# Capital. Connected.

# Health systems face significant capital challenges

Managing capital effectively is crucial for sustainable growth and operational efficiency in health systems.

## Budget Constraints

Limited financial resources impacting infrastructure and equipment upgrades.

## Resource Allocation

Difficulty in allocating capital efficiently across departments and projects.

## Data Discrepancies

Inaccurate or outdated data leading to poor decision-making.

## Compliance & Regulation

Navigating complex regulatory requirements and compliance standards.

# CCM<sup>®</sup> connects your entire capital ecosystem

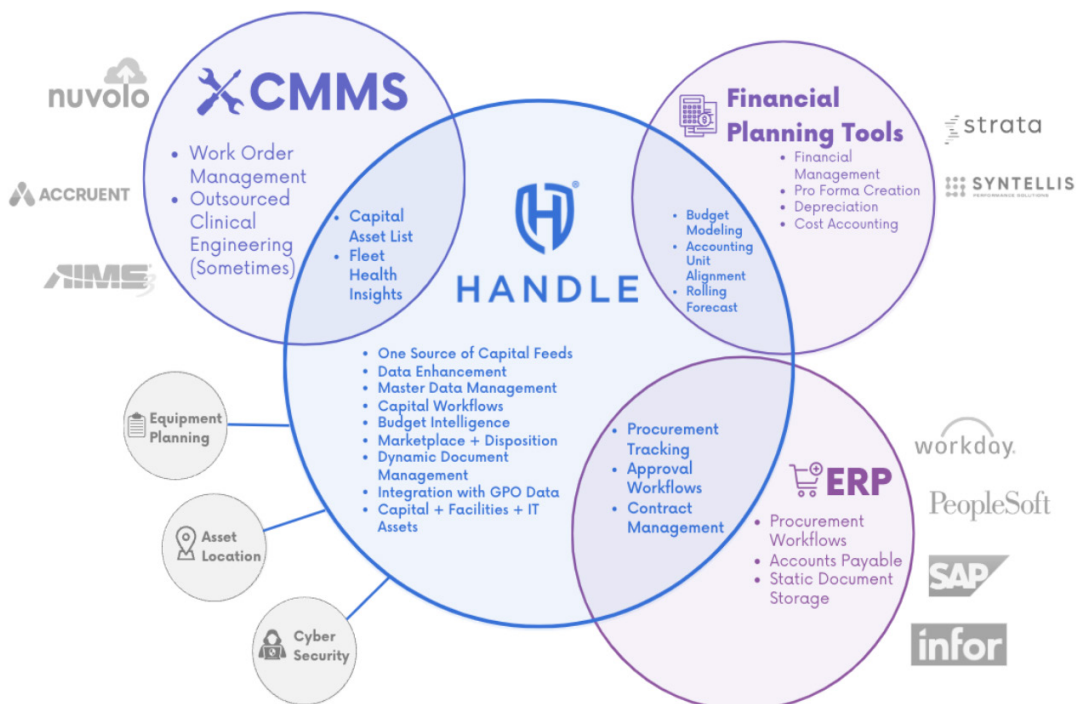

Streamlining Capital Management with a Unified Solution

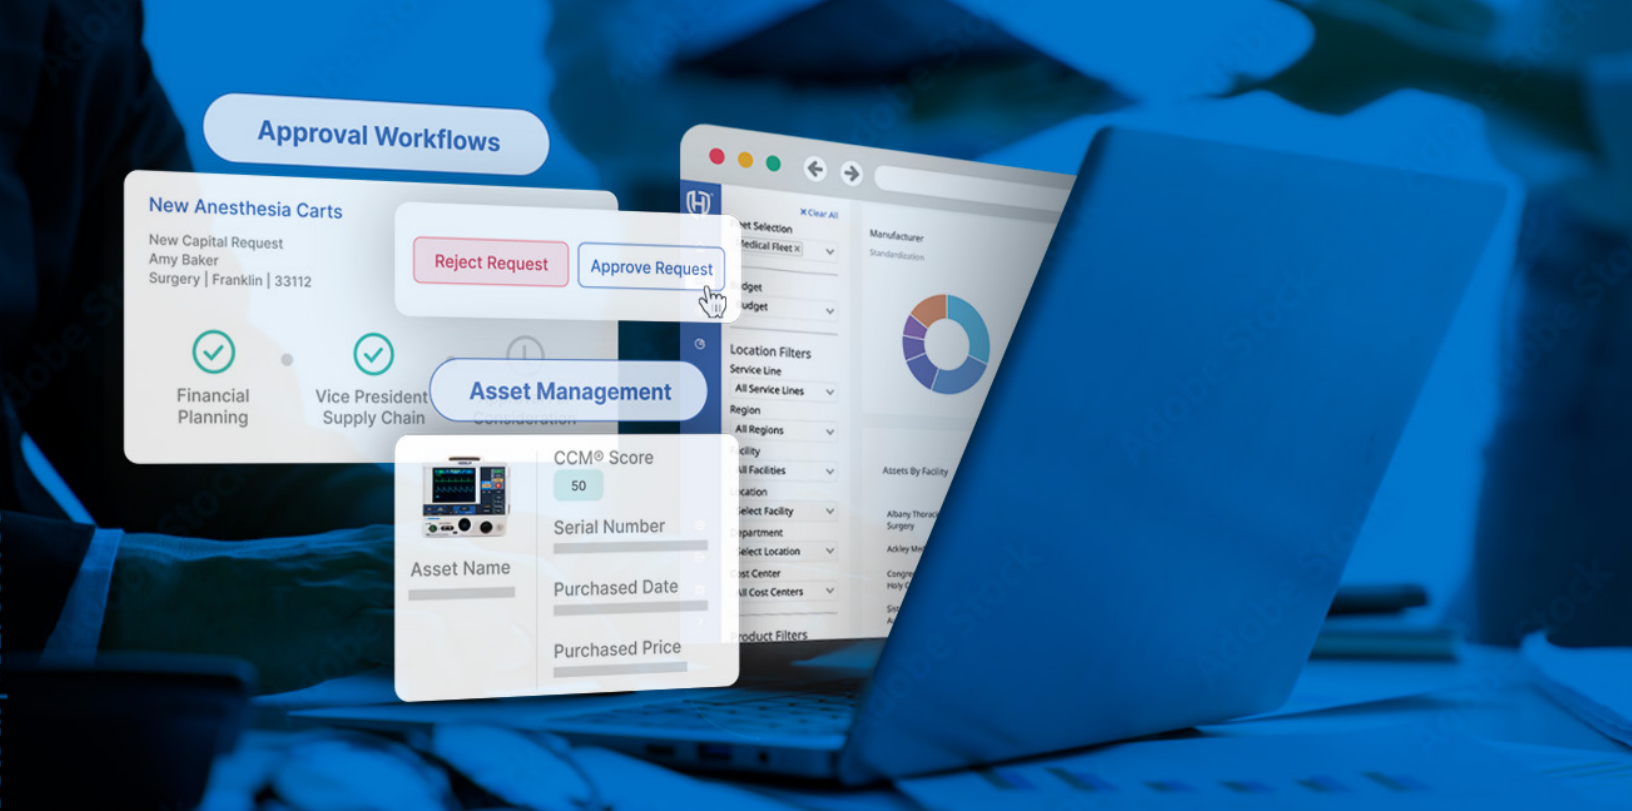

## CCM<sup>®</sup> Is The Single Source Of Truth

Access your entire capital fleet (Clinical, Infrastructure, and IT) through one CCM<sup>®</sup> login.

OEM standardization and rollup analysis empower Finance and Supply Chain professionals during sourcing negotiations.

Enhance capital budgeting through data-driven validation and customizable approval workflows.

# The CCM<sup>®</sup> Platform Experience

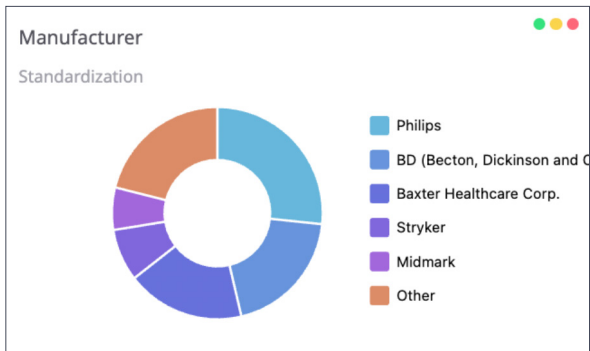

## Fleet Health

- Prioritize capital needs by age or customizable risk score
- Multi-Year forecasting

Asset Information	
Digital Sound Level Meter 100
