Public Speaking Program

Unlock Your Child's Voice. Build Confidence. **Speak Boldly.**

1 out of 3 students **fear public speaking** — let's change that!

Our holistic course builds confidence, clarity, and real-world speaking skills

Our Public Speaking Program: A One-Stop Solution for Every Parent Concern

I **want** my child
to **build fluency in**
English

I **want** my
daughter to **speak**
confidently with
others.

They're **shy** and
avoid participating
in class.

My child **struggles**
to **express clearly**.

My child **has**
stage anxiety.

I want my son
to **perform at**
TEDx events.

One program. All your concerns — addressed.

Our 3-Stage Learning Model

We Hear You. And We've Built This Program With You in Mind.

Concern	Our response
Can public speaking be taught online?	Yes! With 1:1 coaching, visual tools, and recorded practice, students improve faster — without stage pressure.
My child struggles to focus online.	That's why we use 1:1. Sessions are tailored, distraction-free, and fully engaging.
Isn't group learning better?	Both matter. 1:1 builds skills. Group classes build confidence. We offer both — by design.
Will this help with TEDx-style speaking?	Absolutely. We train voice, expression, and body language — and students present monthly.

Talk. Create. Perform.

That's How *We Teach*

Storytelling with props

Extempore speaking

Debates & discussions

Role play

Group showcases

Ted-style presentations

Saturday Group Classes: Controlled Exposure. Real Confidence.

Confidence grows when *kids speak – and feel heard.*

Weekly group classes help kids speak in front of peers, get feedback, and build real-world confidence – in a safe, encouraging space.

Monthly Events & Showcases: From Learner to Leader

We turn practice into *performance*.
& *performance into confidence*.

Children present in *virtual events, competitions, and online showcases* —
building stage presence, poise, and pride.

Direct communication and accomodating

Direct communication, very accomodating, and the tutors themselves have a welsoming energy and make the student feel comfortable even when the student is struggling, the tutors are very patient and take time to relate to the student on a personal level. Definitely going to stay in touch if I need future tutoring help.

Mentors are here to help!

The introduction was well explained and the free intro class was ideal to see exactly how things would go for my son. His teacher is very knowledgeable and helpful. She shows encouragement and sends practice problems to help increase his understanding and progress in class. My only problem is that I would have found Mentor Match sooner!

Made a huge impact on academic performance

The one on one personalised tutoring and comprehensive approach in explaining the subjects sets mentor match apart from the other platforms. Would definitely recommend!

Mentor match has helped my child a lot...

Mentor match has helped my child a lot by maths. As my child learns to grow each day. I would highly recommend people to try this platform which helps the students keep on track on the learning field and experience fun with education.

Behind the Scenes: What You Don't See — But We Do!

Instructional Quality

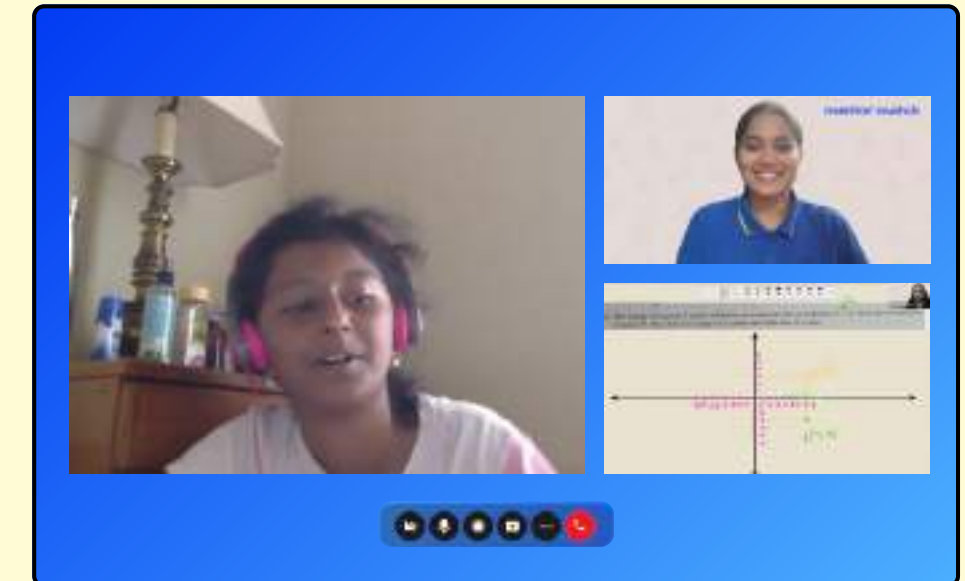

- Are concepts explained clearly?
- Was the pace right for your child?
- Were doubts handled patiently and correctly?

Student-Tutor Compatibility

- Does the tutor understand your child's learning style?
- Is there warmth, connection, and trust?

Student Engagement

- Did your child feel involved?
- Were they encouraged to think and excited to learn?
- Were appropriate tools used to support your child's learning?

Every class is monitored with care — so your child always feels seen, heard, and supported.

Join **Mentor Match** — and invite a friend to get rewarded!

*Refer a friend and if they join, you
will receive **8Classes** as a
welcome bonus!*

Here's how it works:

- Enroll in any plan.
- Share your referral code *or name with a friend.*
- *Once they sign up, your child gets 8 free bonus classes added to your package.*

It's the perfect way to get started — together.

After the demo, we reserve your child's spot for the next 72 hours.

To book your preferred time and mentor, ***simply purchase your plan and start your learning journey***

**Because when it comes
to **Quality education,**
timing matters.**
