Why Most Students *Fall Short*

Time Management

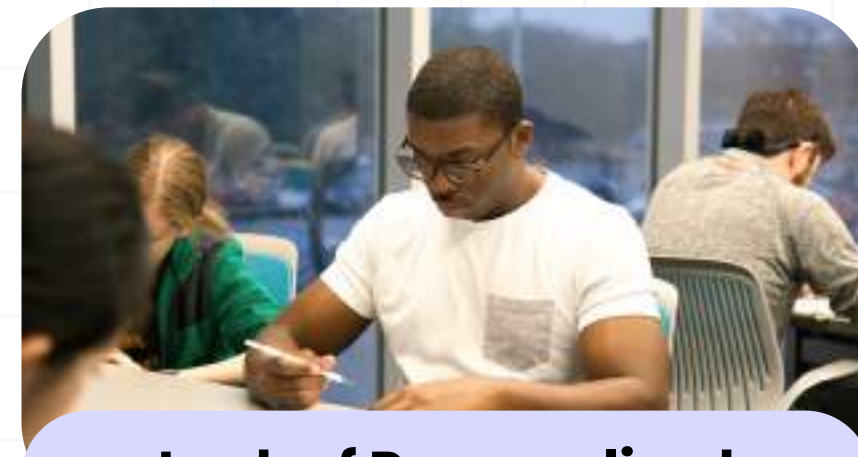

Test Anxiety

Weak Foundational Skills

Inconsistent Strategies

Lack of Personalized Mentorship

***Our SAT program
is built to tackle
each of these
with precision.***

SAT *Exam Format*

Section	Duration	No. of Questions	Modules
Reading & Writing	64 minutes	54	2 Modules (Adaptive)
Math	70 minutes	44	2 Modules (Adaptive)
Total	134 minutes	98	4 modules total

The SAT is divided into two modules per section. Your performance in the first module decides the difficulty of the second. This makes the test shorter, more personalized, and more accurate.

Math Section

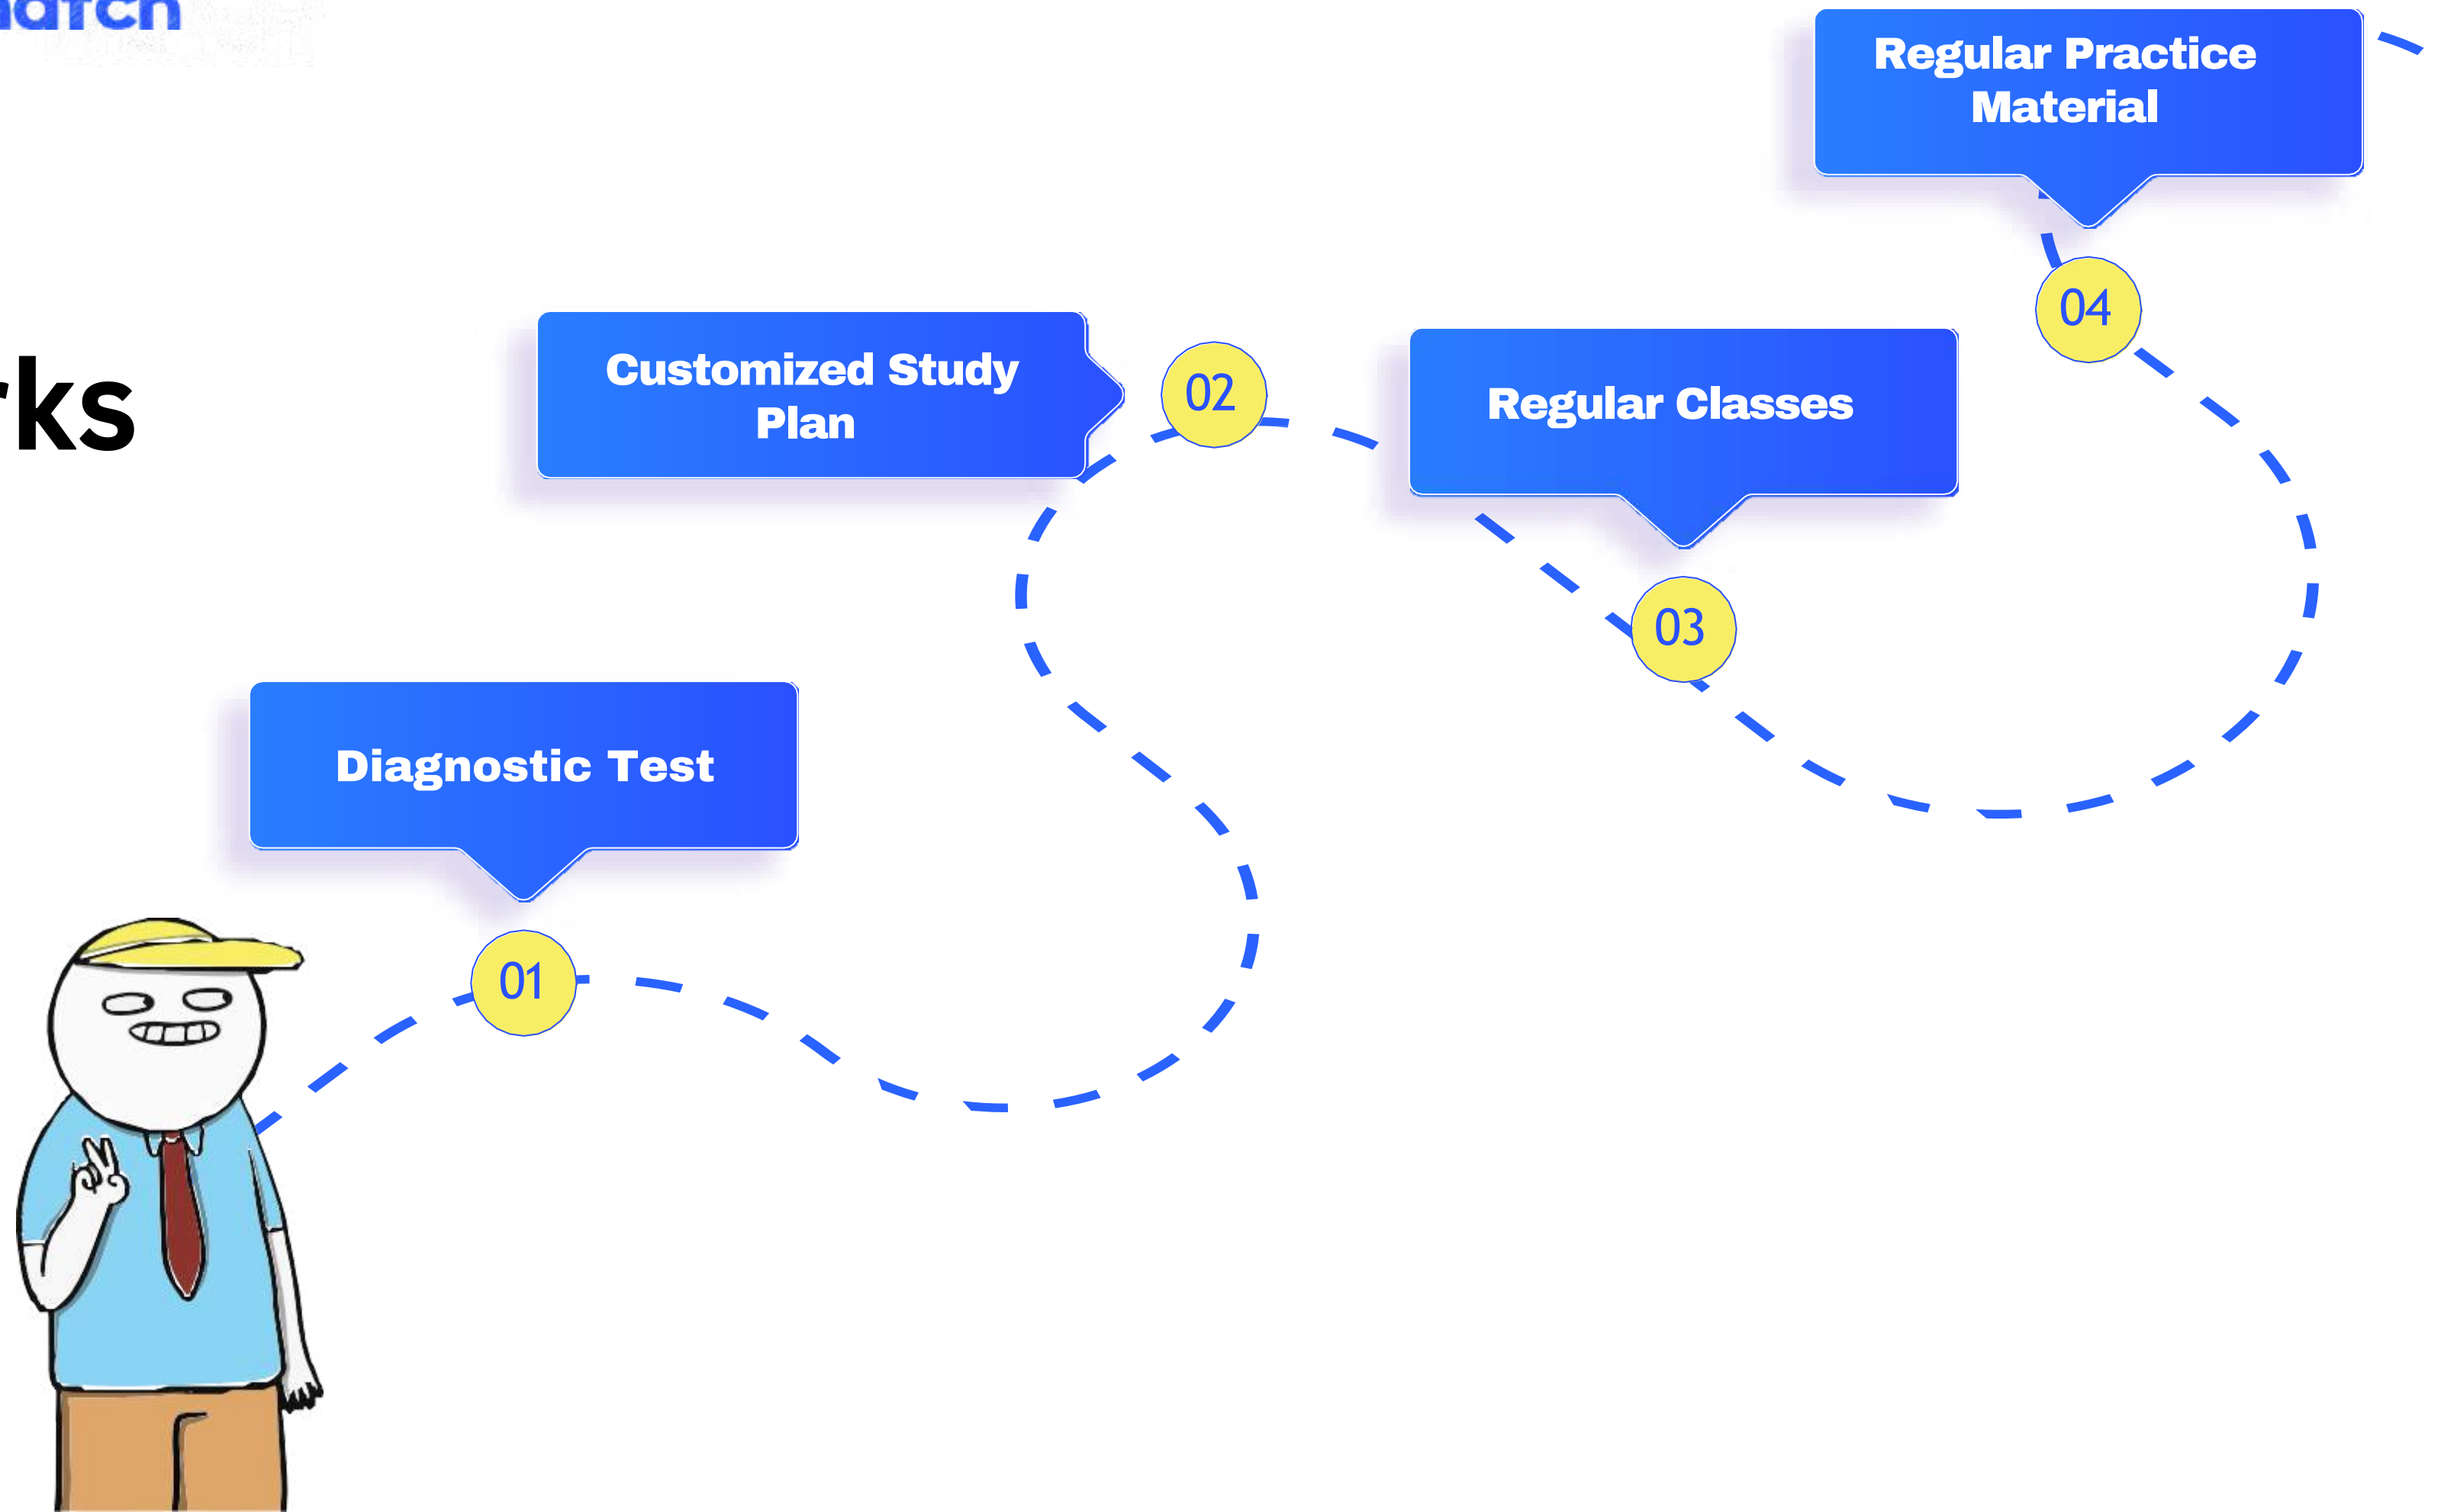

Domain	Sub-Topics Included	Skills Tested
Algebra	Linear equations, inequalities, graphs	Solving, interpreting, creating equations
Advanced Math	Quadratic equations, functions, rational expressions	Non-linear math, multi-step problems
Problem Solving & Data Analysis	Ratios, percentages, statistics, probability	Data interpretation, real-world math applications
Geometry & Trigonometry	Angles, area/volume, right triangle trigonometry	Basic geometry, applying formulas and theorems

All questions allow calculator use (Desmos embedded)

Reading & Writing Section

Domain	Sub-Topics Included	Skills Tested
Craft & Structure	Word choice, transitions, purpose, tone	Analyzing structure, author's intent, flow
Information & Ideas	Main idea, supporting evidence, data interpretation	Reading comprehension, critical reasoning
Standard English Conventions	Punctuation, grammar, sentence structure	Error detection and revision
Expression of Ideas	Sentence placement, cohesion, conciseness	Logical flow, clarity, eliminating redundancy
Vocabulary in Context	Meaning of words in context	Decoding advanced academic vocabulary

Before Mentor Match

After Mentor Match

“Coming from CBSE, the SAT felt completely different at first. My tutors helped me understand the test style, build my basics again, and practice smartly. I never imagined I’d cross 1500!”

— Rohan, SAT Mastery Student (1550)

Bridging the CBSE-SAT Gap: Rohan’s *Success Roadmap*

Week 1

Started at 1040, struggled with SAT-style wording and **had weak basics** from CBSE

Week 2-8

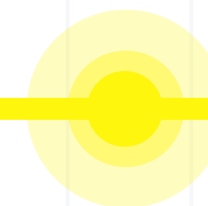

Tutors rebuilt Math and English foundations **while** bridging CBSE-to-SAT exam strategies and terminology.

Week 9-10

Applied learning through **timed mocks**, Desmos practice, and US-style reading passages.

Week 12

Scored 1550, mastering **both content and strategy** with improved confidence and speed.

"I didn't have time for a long prep, but my tutors showed me exactly where I was going wrong. The small fixes made a huge difference in my score in just a few weeks!"

— Jasmine, SAT Sprint Student (1370)

Diagnose. Fix. Excel: Sarah's 10-Week SAT Plan

Week 1

Started at 1180, needed a quick score boost but couldn't identify where mistakes were happening.

Week 2-5

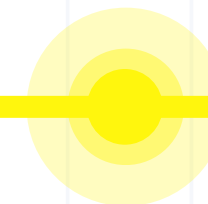

Tutors ran focused diagnostics and helped break down careless errors and misunderstood concepts.

Week 6-8

Intensive practice + mocks improved time management and reduced repeated mistakes.

Week 9-10

Reached 1370, gaining +190 points by fixing blind spots and sharpening accuracy.

Mentors are here to help!

The introduction was well explained and the free intro class was ideal to see exactly how things would go for my son. His teacher is very knowledgeable and helpful. She shows encouragement and sends practice problems to help increase his understanding and progress in class. My only problem is that I would have found Mentor Match sooner!

Direct communication and accomodating

Direct communication, very accomodating, and the tutors themselves have a welcoming energy and make the student feel comfortable even when the student is struggling, the tutors are very patient and take time to relate to the student on a personal level. Definitely going to stay in touch if I need future tutoring help.

Behind the Scenes: What You Don't See — *But We Do!*

Instructional Quality

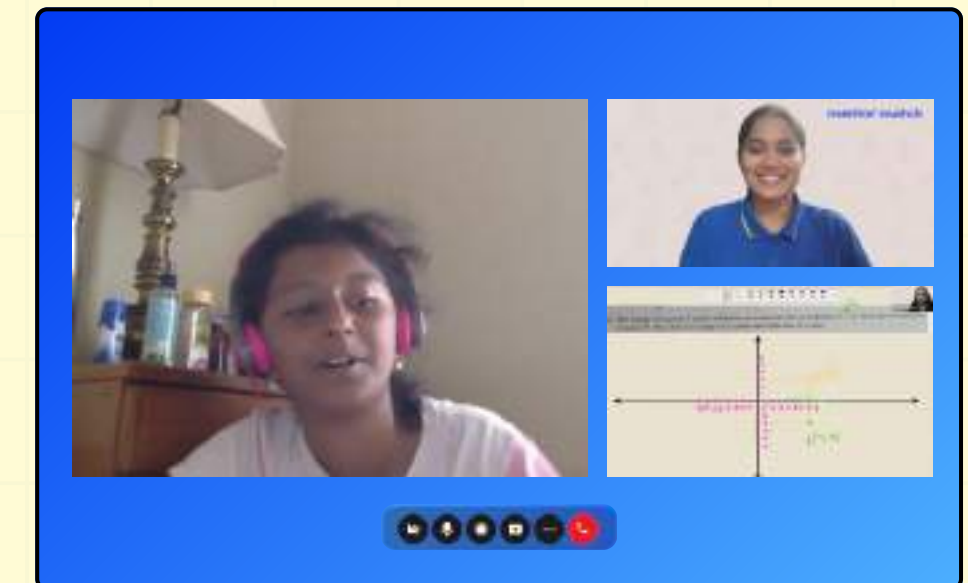

- Are concepts explained clearly?
- Was the pace right for your child?
- Were doubts handled patiently and correctly?

Student-Tutor Compatibility

- Does the tutor understand your child's learning style?
- Is there warmth, connection, and trust?

Student Engagement

- Did your child feel involved?
- Were they encouraged to think and excited to learn?
- Were appropriate tools used to support your child's learning?

Every class is monitored with care — so your child always feels seen, heard, and supported.
