

Empower your HR team to work smarter with Computacenter and Apple

Organisations across all industries are experiencing increased competition for skilled employees – and it's down to their HR (people and talent) teams to attract and retain talented individuals. Computacenter, an Apple Premium Business Partner, can help equip HR teams with the technologies they need to perform their jobs more productively, securely and with greater satisfaction.

Persona priorities

HR teams need reliable, powerful devices that enable them to work efficiently from any location. For organisations looking to roll out employee choice schemes, HR teams are a good place to start as they're often the champions of such programmes.

The solution

Working with Computacenter, organisations can offer their HR personnel the choice of working on a Mac, and establish integrated deployment and management models to support them.

Apple devices are ideal to support HR processes and workflows with their high level of security to protect sensitive employee and pay data, mobility to support modern working practices and ease of use to maximise efficiency. From case, contract and document management to employee support, performance reviews and talent planning, using Apple devices helps HR personnel deliver digital processes.

To ensure HR teams get the most from their Apple technologies, Computacenter provides comprehensive services and solutions.

- A Mac Pilot will help establish deployment strategies and ensure optimal user experiences.
- Whether they're an HR executive, consultant, trainer or a recruiter, our Workstyle Analysis helps identify the right Apple device, based on their workstyle.
- Computacenter's Device-as-a-Service increases efficiency as we take responsibility for Apple device sourcing, deployment, management, and retirement, freeing up IT teams for other tasks.
- Our Managed Mac service delivers seamless support for HR personnel to minimise downtime, combining help desks, tech bars, self-service capabilities and onsite resources.

Working with Computacenter and Apple to establish an employee choice scheme for HR personnel contributes to a culture of empowerment that aligns with today's discerning workforce.

Apple devices meet modern working demands:

Familiar user interface | High processing power | Long battery life | Convenient mobility
Robust security | Easy remote management | Seamless working between devices

Enhance productivity in HR

Enable smarter workstyles with best-fit technologies

Boost employee satisfaction with seamless experiences

Support digital HR processes more effectively

Attract and retain HR talent
