

Module Specifications

Year/Level: 5
Programme: Business and FinTech

Module:	Sustainability Impact Project	Module Code:	5FBS2159	Credits:	30
Module Description:				Mandatory	

This module develops students' ability to design and evaluate sustainability initiatives that create organisational and societal value. Students apply systems thinking, sustainability principles, and project management approaches to develop innovative solutions that address real-world business challenges and contribute to the UN Sustainable Development Goals (SDGs).

Module:	Live Business Challenge	Module Code:	5FBS2157	Credits:	30
Module Description:				Mandatory	

This module develops students' ability to solve complex business challenges through interdisciplinary collaboration and applied problem-solving. Students work with real-world business scenarios, apply business theories and digital tools to evaluate organisational issues, and develop evidence-based recommendations that support sustainable and ethical business practice.

Module:	The Modern Financial System	Module Code:	5FBS2161	Credits:	30
Module Description:				Mandatory	

This module develops students' understanding of the structure and operation of modern financial systems. Students evaluate financial institutions, markets, and instruments, analyse the influence of monetary policy and market dynamics, and apply financial principles to support informed business and investment decisions.

Module:	Data Analysis for Fintech	Module Code:	5FBS2162	Credits:	30
Module Description:				Mandatory	

This module develops students' understanding of data analysis and financial modelling in FinTech. Students apply statistical and econometric techniques to analyse financial data, develop predictive models, and communicate evidence-based insights that support financial decision-making.

Module:	Developing Personal and Business Professional Practice (DPP)	Module Code:	5FBS2155	Credits:	0
Module Description:				Mandatory	

This module supports students' continued academic, personal, and professional development as they prepare for final-year study and future careers. Students reflect on their progress, develop their professional identity through personalised development planning and portfolio-building, and engage in career-enhancing activities to strengthen their employability and professional practice.
