

Subject: New Hidden Liquidity Statistics Report

The Long-Term Stock Exchange ("LTSE" or the "Exchange") is now offering a *Hidden Liquidity Statistics Report* ("Report") on its website. The Report will be updated daily and will highlight areas where Members can interact with hidden orders on the LTSE Order Book, offering all liquidity takers on the Exchange unique insights into untapped liquidity and reinforcing LTSE's commitment to long-term transparency and efficiency.

The Report will include the top 50 symbols on the Exchange, sorted by:

- 1) Number of minutes that the symbol had hidden liquidity during the previous trading day, and
- 2) Aggregate shares of hidden liquidity for all orders for the entire previous trading day.

The Report can be accessed via <https://ltse.com/trading/product-data> and ltse.com → Trading → Product Data.

The Exchange believes the Hidden Liquidity Statistics Report, in conjunction with a fee structure meant to incentivize Members accessing hidden liquidity, will make it easier for Members to trade with this valuable liquidity source. If you have any questions about this report, please contact Market Operations at marketops@longtermstockexchange.com or (813) 575-2602.
