Notes to Transaction Fees:

Any replenished display quantity from the Reserve Quantity of an order will be treated as adding displayed liquidity, and thus, will be eligible for the rebate for "Add displayed liquidity."

Co-Lead Incentive:

A Member that qualifies for the Co-Lead Incentive for a calendar month will receive the "Add displayed liquidity - Co-Lead Incentive" rate set forth in the table above for executions across all of that Member's MPIDs, during that month. The Co-Lead Incentive does not apply to executions in any security identified by the Exchange as a "LIP Enhanced Security."

Definitions and Notes to Co-Lead Incentive:

A Member will qualify for the Co-Lead Incentive if the Member has an NBBO Time of at least 20% in an average of 2000 securities priced at or above \$1 (excluding LIP Enhanced Securities) per trading day during the month.

For the purposes of this section, the terms set forth below shall have the following meanings:

The term "MPID" shall mean market participant identifier.

The term "NBBO Time" shall mean the aggregate of the percentage of time during the Regular Market Session during which one of a Member's MPIDs has at least one round lot displayed at the NBBO.

The term "quoting requirement" shall mean the requirement that a Member's NBBO Time be at least 20% for a particular security on a particular trading day.

On a daily basis, LTSE will determine the number of securities at or above \$1.00 (excluding LIP Enhanced Securities) in which each of a Member's MPIDs meets the quoting requirement for that day. LTSE will aggregate the number of securities in which each of a Member's MPIDs meets the quoting requirement, provided that a single security in which more than one of such Member's MPIDs meets the quoting requirement for that day will only be counted once for this purpose.

Each month, LTSE will calculate the average number of securities in which such Member meets the quoting requirement per trading day by summing the number of securities in which each of such Member's MPIDs met the quoting requirement during the month then dividing the resulting sum by the total number of trading days in the month. The quoting requirement with respect to a security must be met by a single MPID and LTSE will not aggregate the NBBO Time across all of the Members MPIDs to determine if the quoting requirement has been met.

The Exchange excludes from its calculation of whether a Member qualifies for the Co-Lead Incentive: (1) any trading day that the Exchange's system experiences a disruption that lasts for more than 60 minutes during the Regular Market Session; (2) any day with a scheduled early market close; and (3) the "Russell Reconstitution Day" (typically the last Friday in June).

2. Liquidity Incentive Program

The LTSE Liquidity Incentive Program ("LTSE LIP" or the "Program") is designed to provide greater liquidity in both LIP Enhanced Securities and LIP Standard Securities, as defined below. The Program is available to all LTSE Members.

Incentive 1: Per LIP Enhanced Security	Eligibility Requirement	
	Displayed quote in a LIP Enhanced Security of a Minimum Quoted Size, for at least 30 Percent Time at NBBO of the Regular Market Session in a calendar quarter.	Applicable rebates in Section B.1 (Transaction Fees)+ a share of 80% of the LTSE SIP Quote Revenue for that LIP Enhanced Security, distributed proportionally across all qualifying member firms within the calendar quarter.
Incentive 2: For all LIP Enhanced Securities	Eligibility Requirement	
	Available to all Members	Fees to Remove Liquidity in LIP Enhanced Securities will be as follows: Securities >= \$1.00 \$0.0020 Securities < \$1.00 0.20% of TDV
Incentive 3: Per LIP Standard Security	Eligibility Requirement	
	Must be eligible for Incentive #1 in at least 50 LIP Enhanced Securities AND have a displayed quote of at least one round lot in a LIP Standard Security for at least 25 Percent Time at NBBO of the Regular Market Session in a calendar quarter.	Applicable rebates in Section B.1 (Transaction Fees)+ choice of EITHER: 1) A share of 50% of the LTSE SIP Quote Revenue for that LIP Standard Security, distributed proportionally across all qualifying member firms, OR 2) A quarterly credit of \$75 per LIP Standard Security per MPID to be used against fees for removing liquidity.

Notes to LIP:

- Minimum Quoted Size will be calculated for each LIP Enhanced Security and published at least quarterly on the Exchange's website. If the Exchange changes the Minimum Quoted Size mid-quarter, it will issue a notice to Members at least one business day prior to the effective date of such change.*
- Incentive #1 and Incentive #3 will be calculated, and eligibility determined, on a quarterly basis rather than monthly.
 - a. For the fourth quarter of 2025 only:
 - i. A Member that has qualified for Incentive #3 will share in 20% of the LTSE SIP Quote Revenue for that LIP Standard Security, distributed proportionally across all qualifying member firms within the calendar months of October and November.
 - ii. A Member that has qualified for Incentive #3 will share in 50% of the LTSE SIP Quote Revenue for that LIP Standard Security, distributed proportionally across all qualifying member firms within the calendar month of December.
- Revenue will be shared proportionally based on quoting activity. All quoting requirements and incentives reset each calendar quarter.
- "Percent Time at NBBO" means the average of the percentage time during the Regular Market Session where a Member has a displayed quote at the national best bid ("NBB") or national best offer ("NBO"). For the avoidance of doubt, only displayed quotes that are at the NBB or NBO during the Regular Market Session count towards the Percent Time at NBBO calculation.
- The Exchange excludes from its calculation of Percent Time at NBBO: (1) any trading day that the Exchange's system experiences a disruption that lasts for more than 60 minutes during the Regular Market Session; (2) any day with a scheduled early market close; and (3) the "Russell Reconstitution Day" (typically the last Friday in June).

* When the Exchange revises the Minimum Quoted Size during a calendar quarter: (i) a Member's qualification for Incentive #1 shall be determined separately for each calendar month within that quarter based on the Minimum Quoted Size in effect for such month; and (ii) a Member shall be deemed to qualify for Incentive #1 if the Member meets or exceeds the Minimum Quoted Size applicable for each month of the quarter in which the incentive applies.

Definitions:

"LIP Enhanced Securities" shall mean a list of securities designated as such, that are used for the purposes of qualifying for the incentives within the LIP. The universe of these securities will be determined by the Exchange and published on the Exchange's website.

"NBBO" means the national best bid or best offer, as set forth in Rule 600(b) of Regulation NMS under the Act, determined as set forth in LTSE Rule 11.410(b).

"NBBO Joiner" means an order that establishes a new BBO on the Exchange that matches the NBBO first established on an away market.

"NBBO Setter" means an order posted on the Exchange that establishes the NBBO.

"LIP Standard Securities" means a security not defined as a "LIP Enhanced Security" and traded on LTSE.
