### Notes to Transaction Fees:

Any replenished display quantity from the Reserve Quantity of an order will be treated as adding displayed liquidity, and thus, will be eligible for the rebate for "Add displayed liquidity."

### Co-Lead Incentive:

A Member that qualifies for the Co-Lead Incentive rebate ("Co-Lead Incentive") for a calendar month will receive the "Add displayed liquidity - Co-Lead Incentive" rate set forth in the table above for executions across all of that Member's MPIDs, during the following month, as described below. The Co-Lead Incentive does not apply to executions in any security identified by the Exchange as a "LIP Enhanced Security."

Upon initially qualifying for the Co-Lead Incentive, a Member will be eligible to receive a one-time enhanced Co-Lead Incentive rebate, as described below.

*Definitions and Notes to Co-Lead Incentive:*

A Member will qualify for the Co-Lead Incentive if the Member has an NBBO Time of at least 20% in an average of 1000 securities priced at or above \$1 (excluding LIP Enhanced Securities) per trading day during the month.

For the purposes of this section, the terms set forth below shall have the following meanings:

The term "MPID" shall mean market participant identifier.

The term "NBBO Time" shall mean the aggregate of the percentage of time during the Regular Market Session during which one of a Member's MPIDs has at least one round lot displayed at the NBBO.

The term "Qualification Month" shall mean a calendar month used by the Exchange to determine that a Member satisfied the quoting requirement and therefore qualifies for the Co-Lead Incentive in the following month. The applicable Co-Lead Incentive will apply to all executions of securities priced at or above \$1 (excluding LIP Enhanced Securities) by that Member during the following calendar month.

The term "quoting requirement" shall mean the requirement that a Member's NBBO Time be at least 20% for a particular security on a particular trading day.

On a daily basis, LTSE will determine the number of securities at or above \$1.00 (excluding LIP Enhanced Securities) in which each of a Member's MPIDs meets the quoting requirement for that day. LTSE will aggregate the number of securities in which each of a Member's MPIDs meets the quoting requirement, provided that a single security in which more than one of such Member's MPIDs meets the quoting requirement for that day will only be counted once for this purpose.

Each month, LTSE will calculate the average number of securities in which such Member meets the quoting requirement per trading day by summing the number of securities in which each of such Member's MPIDs met the quoting requirement during the month then dividing the resulting sum by the total number of trading days in the month. The quoting requirement with respect to a security must be met by a single MPID and LTSE will not aggregate the NBBO Time across all of the Members MPIDs to determine if the quoting requirement has been met.

If, based on the calculation described above, a Member satisfies the quoting requirement for a given calendar month, that calendar month shall be deemed a Qualification Month for the purposes of the Co-Lead Incentive, and the Member will be eligible to receive the applicable Co-Lead Incentive during the following calendar month, as described herein.

Upon initially qualifying for the Co-Lead Incentive, the Exchange will apply a one-time time enhanced Co-Lead Incentive rebate of \$0.0057 per share to all executions of securities priced at or above \$1 (excluding LIP Enhanced Securities) by that Member during the calendar month immediately following such Qualification Month, up to the number of qualifying shares executed by the Member during the Qualification Month. Any qualifying executions in excess of that amount during such month will receive the standard Co-Lead Incentive. Beginning with the next calendar month thereafter, all qualifying executions by the Member will receive the standard Co-Lead

Incentive, provided the Member continues to satisfy the Co-Lead quoting requirement during the Qualification Month.

The Exchange excludes from its calculation of whether a Member qualifies for the Co-Lead Incentive: (1) any trading day that the Exchange's system experiences a disruption that lasts for more than 60 minutes during the Regular Market Session; (2) any day with a scheduled early market close; and (3) the "Russell Reconstitution Day" (typically the last Friday in June).

- The optional monthly credit of \$25 for Incentive #3 expires at the end of the calendar month a year after it was earned, on a rolling basis.
- Revenue will be shared proportionally based on quoting activity. All quoting requirements and incentives reset each calendar month.
- "Percent Time at NBBO" means the average of the percentage time during the Regular Market Session where a Member has a displayed quote at the national best bid ("NBB") or national best offer ("NBO"). For the avoidance of doubt, only displayed quotes that are at the NBB or NBO during the Regular Market Session count towards the Percent Time at NBBO calculation.
- The Exchange excludes from its calculation of Percent Time at NBBO: (1) any trading day that the Exchange's system experiences a disruption that lasts for more than 60 minutes during the Regular Market Session; (2) any day with a scheduled early market close; and (3) the "Russell Reconstitution Day" (typically the last Friday in June).
