PRIVATE LIST BUILDING, DONE FOR YOU

BeSpoke

Contact lists built fresh, on the day you order.

A database sells you what it stored months ago. We build your list from 1,000+ live sources at the same time, check that every person still works there, and verify every email on the day we deliver.

1,000+
LIVE SOURCES, READ AT THE SAME TIME

UNTIL YOUR FREE 10-RECORD SAMPLE PROVES THE FIT

Start free: send your brief, get 10 real records, typically inside 24 hours.

A database can only give you *what it stored last time.*

SOUND FAMILIAR?

Emails bounce. *People have left the company.* *Mobiles ring the front desk, or nobody.* *Your buyer has no filter at all.*

1	10	20	1,000+
SOURCE	SOURCES	SOURCES	LIVE SOURCES
A traditional provider: one stored database.	A list seller mixing several databases: the same records, copied from file to file.	A waterfall tool: about 20 databases, one after another.	**BeSpoke:** public records, company websites, registries and data providers, read the moment your list is built.

THE RESULT *Almost no way for an outdated contact to reach you.*

Brief us. Check a free sample. *Get the full file.*

1

You send the brief

Who you want to reach, where, which details, how many. Any criteria you can write.

2

We build a free sample

10 real records to your exact brief, typically inside 24 hours, each with the public source it came from.

3

You approve and pay

Once the invoice is paid, your file usually reaches you within 1 business day up to 10,000 records, and at most 3 business days up to 50,000.

Larger builds, after the invoice is paid: 3 to 4 business days up to 100,000 records, and 3 to 5 up to 250,000.

BUILT FOR YOU Nothing was assembled in advance and left waiting for a buyer. Every record is researched for your order.

8 reasons BeSpoke beats *every other data provider.*

01

More contacts

1,000+ live sources at the same time. In some cases 2 to 3 times more than other providers can supply, and up to 50% more direct numbers.

02

Fresh the day it lands

Built when you order. Never pulled from a file compiled months ago.

03

No past employees

Not just the email: every person checked as still working at the company.

04

Every bounce replaced free

Every email verified live on the day we deliver, not the day we found it.

05

Phones checked, not passed on

Dead numbers, the company's main number and numbers that aren't really mobiles are taken out of your direct dial (desk line) and mobile columns.

06

Proof you can open

Every sample record links to its public source, and full files carry the link wherever a public source exists. Revenue and employee count come with their proof when they matter to you.

07

Any criteria, any country

No filter limits. If you can write it, we build it, anywhere in the world.

08

Yours alone

Built for your brief and yours to keep. We never sell your file to anyone else, and never rebuild your exact brief for another buyer.

Every data point gets its own check. Not one check for the whole row.

Emails are the easy part.
We check the person and the phone too.

EMAIL

Verified live on the day we deliver

If we deliver your file today, every email in it was verified today. Any address that bounces is replaced free.

THE PERSON

Still at the company

Checked against LinkedIn, company registrations, government and online sources. No past employees.

Up to 50% More direct numbers than other providers can supply

THE PHONE

MOBILE	The person's mobile, confirmed as a real mobile.
DIRECT DIAL	Their desk line. Rings the person, not the front office.
COMPANY LINE	Kept out of your direct dial and mobile columns. Never sold as a direct dial.
DEAD	Taken out before delivery.

Most providers pass numbers on exactly as they got them, and their customers see very bad cold calling results. We check every direct dial and mobile first, and the phone network behind each number.

BeSpoke against *the big databases and waterfall tools.*

WHAT YOU RISK BEFORE YOU PAY: NOTHING

"I believe you should never pay for a list you have not seen prove itself. That is why every BeSpoke build starts with a free 10-record sample, and why every email gets its final check on the day we deliver, not the day we found it."

BARIS ZEREN, FOUNDER & CEO, BOOKYOURDATA

- ✓ **Pay nothing until the sample proves the fit**
- ✓ **Every bounce replaced free**
- ✓ **Reworked to match the sample you approved**
- ✓ **Never rebuilt for anyone else**
