

Our Tuition Model

We work with each individual family to find a price that works for you.

At Hope Academy, we determine the family “*fair share*” costs on a sliding scale. We meet with every new family to understand your unique financial situation, but use this payment estimator to help estimate what a Hope Academy education would cost for your family.

1. Based on your Adjusted Gross Income and the number of children in your household, select the number on this grid that most closely represents your situation.
2. Enter your number from the grid _____
3. If the selected number from the grid is in gray, enter 1. For all others, enter number of students you plan to enroll at Hope Academy _____
4. Multiply line 2 by line 3 (this is your estimated monthly amount) _____
