**Senior Planner 7+ Years' experience
(June 2026)**

About us

Brady Shipman Martin is a long established inter-disciplinary practice delivering excellence in the planning, design and construction of the built environment, for a strong private and public client sector base.

Brady Shipman Martin is seeking to recruit an enthusiastic and ambitious Senior Planner for our Dublin office, who will work within our Planning Team and with our wider inter-disciplinary team including our in-house, Environmental, Landscape, Urban Design / Master Planning and Visualisation Teams.

The Role

The Practice is seeking a qualified Planner with 7+ years of proven professional experience in all areas of planning, with a particular focus on development planning, master planning and environmental planning.

The successful candidate will have a proven ability to work within planning and design teams, and be able to demonstrate professional determination and willingness to grow, quality of workmanship and management skills. The role will involve working across wide range of sectors including large scale residential, commercial, and retail development, town regeneration projects, tourism, master planning, infrastructure planning, and environmental planning.

We offer a diverse and inclusive work environment, flexible when needed, and a positive work-life balance. Your job will look beyond the day-to-day planning role, to offer the opportunity of engaging in master planning, and forward planning, planning and environmental policy and legislation, strong client liaison and relationship building, and developing the business.

- BSM support Professional Membership and CPD as essential parts of this role.
- Our range of benefits are tailored to suit individual needs.
- The position is full time based in our Dublin office in Ranelagh, Dublin 6.

Key Requirements:

- 7+ years post-graduate work experience
- A recognised (accredited) degree/qualification in Planning and Membership of IPI and/or RTPI, or recognised equivalent
- Extensive experience and understanding of planning and environmental legislation
- Experience of providing strategic planning advice in project direction or forward planning related projects
- Experience of working in a range of market sectors, with a specific focus on large scale residential developments in the Greater Dublin Area, for public and private clients.
- Experience of development planning, feasibility analysis, environmental planning, and lodgement of planning applications, appeals and submissions.
- Experience in engaging directly with and managing client requirements.
- Experience in managing multi-disciplinary project teams across a wide range and scales of projects and be able to demonstrate good organisational skills
- Excellent communication, report writing, presentational & organisational skills
- Proficiency in relevant software including MS office, GIS, Adobe Creative Suite
- Self-motivation, attention to detail and commitment to high-quality delivery
- Capability to respond to tight reporting requirements, deadlines, and internal reporting arrangements
- Strong inter-personal skills with ability to work as part of a wider in-house inter-disciplinary team

Salary

Negotiable - commensurate with skills and experience
