

### The Happy Start's Accessibility Statement Last updated on December 10, 2025.

We strongly believe the internet should be available and accessible to everyone. Our company is dedicated to ensuring our website is accessible to the widest possible audience, regardless of ability.

We strive to adhere closely to the World Wide Web Consortium's (W3C) Web Content Accessibility Guidelines 2.1 (WCAG 2.1) at the AA level. These guidelines outline how to make web content accessible to individuals with various disabilities, including blindness, motor impairments, visual impairments, and cognitive disabilities. By following these standards, we aim to ensure our website is inclusive and user-friendly for everyone.

To achieve this, we have partnered with [accessiBe](#), a team of experts specializing in digital accessibility and ADA compliance. For additional assistance navigating our site, simply click the accessibility icon located in the bottom left-hand corner of the page.

The screenshot shows the top navigation bar of 'The Happy Start' website. The logo is on the left, followed by links for 'Products', 'Giving Back', 'Our Story', and a 'Buy Now' button. A globe icon with a dropdown arrow is on the far right. Below the navigation bar, the 'Our Story' section is visible, featuring a red 'Our Story' header. To the left of the text is a red arrow pointing down to a black square icon with a white accessibility symbol (a person with a cane). The text in the 'Our Story' section begins with '3 minute read' and describes how a pediatric occupational therapist, Maria, started her business. To the right of the text is a photograph of Maria and a woman sitting on the floor with a baby, playing with colorful toys.
