From the first day of its establishment, Nuhpanel has adopted the principles of creating values as its most important responsibility to our industry. These values are mainly shaped up around intangible assets as human capital and innovation. Our aim is to become a competent and responsible solution partner to our customers and serve as integrated systems provider with an understanding of beyond quality requirements and environmental sensitivity with over 500 skilled full employees in production and installation.

We take pride in our reputation for expertise, craftsmanship, durability and commitment to site services. We are proud to be one of the leaders in pre-manufactured industrial buildings in our territory serving to global contractors who are listed in ENR Top 250.

Our export markets grow in time and reached to more than 35 different countries like below;

Iraq, Turkmenistan, Gabon, Azerbaijan, USA, Colombia, France, Nigeria, Russia, Ivory Coast, Oman, Greece, Iran, Georgia and more...

Nuhpanel applies its mission to meet the needs of its customers, environment and the community at the design and production level. This is applied via high quality product development and solutions with a common engineering and technical consultancy approach to the customer. Nuhpanel

has great competitive advantage in delivering high quality products for lower cost since sources only raw chem- icals and steel sheets and manufactures all of its products in an integrated system. This brings us over 100 Million USD revenue annually.

We have earned the confidence of our customers who are concentrated on the oil and gas, mining, engineering and construction industries. We have helped them with their short and long term worker camp and accommodation needs and they keep on coming back to reuse and expand existing structures for same or different projects with very low cost second time investment.

CREATING THE BEST IN CLASS PLACE TO WORK

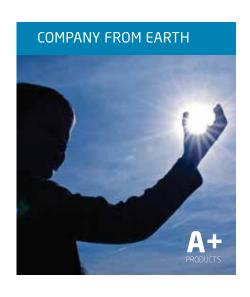

In business life where our company is evaluated with intangible assets such as knowledge and innovation, relationships and brands, we are directing our market capital by developing our capacity in attracting, satisfying and keeping the best talents.

Every individual is respected in our group. Everything we have succeeded has been realized with a common effort. We believe that we are ready to open every door with the talents we are equipped with.

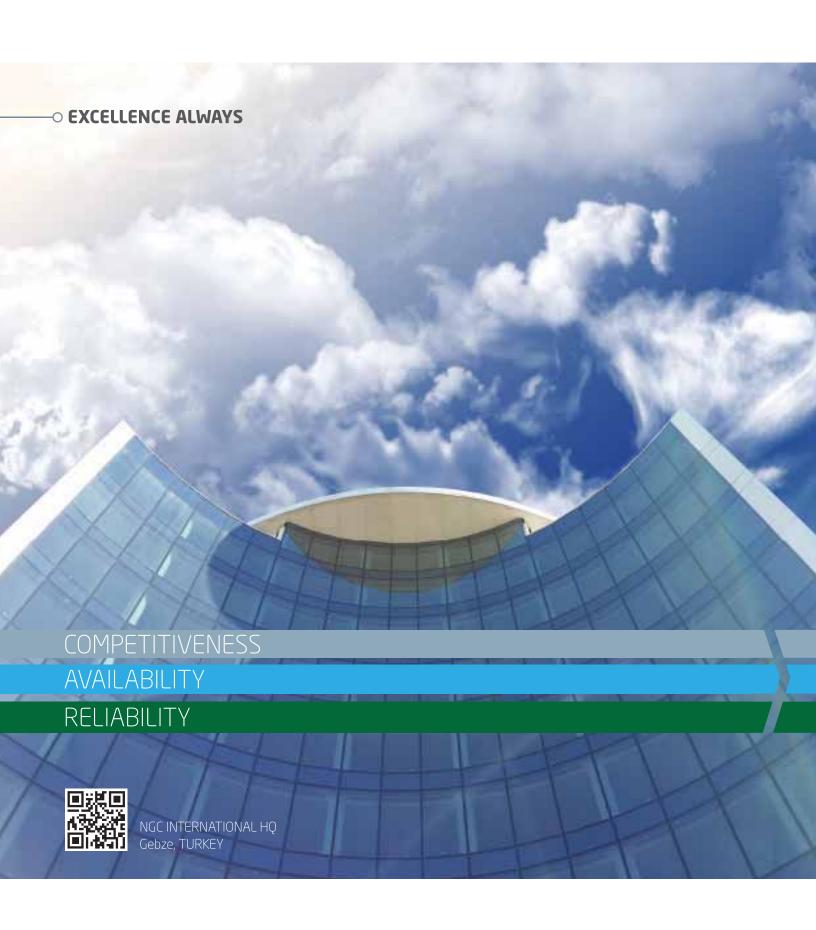

Implementing innovative human resources systems to ensure that organization structures are in line with the strategic plans and targets of our company and our human resources are managed efficiently to keep employee satisfaction at the utmost level.
