FLORIDA VIRTUAL CAMPUS

FY 2026/27

ABOUT

Florida Virtual Campus (FLVC) provides educational support services to all public postsecondary institutions within the Florida College System (FCS) and State University System (SUS), as well as the broader K-20 education community. FLVC collaborates with Florida's 28 public colleges, 12 public universities, technical colleges, K-12 school districts, and other education partners to provide services that help students succeed and prepare for life after graduation.

CORE SERVICES

Organizationally, FLVC is divided into two primary units – Library Services, and Distance Learning & Student Services – each serving the unique needs of Florida's students, parents, educators, and institutions.

Library Services

FLVC's Library Services division manages the integrated library system for Florida's 40 public colleges and universities, providing access to millions of library resources. It oversees the statewide higher education e-resources collection, negotiates group licenses for e-resources, and manages digitization and preservation platforms that expand access to Florida's scholarly and cultural resources. It also provides library staff training and operates FLVC's statewide Help Desk. Together, these services support academic success, research, and library access for students, faculty, and staff statewide.

Distance Learning & Student Services

FLVC's Distance Learning & Student Services (DLSS) division provides a comprehensive suite of academic advising, career readiness, distance learning tools, and educational resources for students, educators, and administrators throughout Florida. These resources help technical college, state college, and university staff provide effective support to students and faculty while expanding access to centralized online information anytime, anywhere. DLSS delivers these online tools and resources to students, parents, and educators through the FloridaShines.org website and mobile app.

COST-EFFECTIVE SERVICES

FLVC's centralized shared-services model delivers greater efficiency, value and cost savings by leveraging economies of scale, reducing duplication, and streamlining operations. In FY 2025–26, FLVC saved the State of Florida $43 million while providing flexible, responsive support statewide and making effective use of institutional staff and resources.

FLVC Programs and Services Support Users Across Florida

40
public colleges & universities

50 +
