Mission Trip to Duluth: Garrett talked about how transformational it was for the kids that attended. They had a great time and did a lot of service projects to help the community. 12 kids and 3 adults went. Thank you chaperones for supporting our youth! Youthworks was great to work with and we would consider using their program again in the future.

Education Handbook Review: Education committee met prior to the council meeting and made revisions. The updated handbook draft was passed around for council to review. Calina will make a few slight changes at the discretion of council and will bring it to the next council meeting for approval.

Youth Trip Guidelines: These were discussed during the education subcommittee meeting and reflect in the handbook.
