MOTIVATION

Making sure the park remains clean and ordinances are followed as well as assisting users of the park

MOTIVATION

Staff has a lot of experience in this park, they love seeing the area evolve and change

GAIN

Lead staff's voices are heard and considered by leadership when making decisions

KEY INSIGHTS

Staff focused on their assigned job, but offer insightful observations of the surrounding environment

Roles are often cross-disciplinary

Infrastructure does not support current park use

"band-aid" solutions to much larger societal problems

11

Seculit B

Internal politics and resources dictate the staff's ability to do better and create change

Staff has an emotional connection to the park and its visitors. They are self-driven to create change.

IMPERATIVES/ RECOMMENDATIONS

THE DESIGN SOLUTION SHOULD MAKE CROSS-FUNCTIONAL JOBS MORE EFFICIENT & IMPACTFUL WITHOUT ADDITIONAL RESOURCES.

ORGANIZATION

Explore the leadership chain of commands that goes from top to bottom and left to right.

PERSPECTIVES

Make sure that everyone's voices are heard so that the experiences of every cross-functional group is heard.

Understand the pain points associated with not only roles close to yours, but all over the park

COMMUNICATION

What are the biggest goals for the park overall? How can each team make do with what they have to achieve them?

COMPROMISE

THANKS

Does anyone have any questions?
