

Quality Policy

Simulation Software Limited, industry specialists in the development and supply of high performance software solutions for pipelines in water, oil, power and gas industries. Our core objective is to supply products and services of a quality that will provide continuing customer satisfaction to new and existing clients.

The company is committed to a process of continual improvement of quality management. Systems are in place to assess the effectiveness of the quality system with regular meetings being held to review performance and set/review quality objectives with any additional quality objectives / measures introduced as considered necessary by the management in line with the Company's business requirements. These reviews will also consider the continuing suitability of the Quality Policy.

All members of the company are required to work within the framework of this policy, processes and procedures and are responsible for carrying out business related activities, services and processes in accordance with the requirements of BS EN ISO 9001:2015. Quality objectives are selected through business risk assessments and progress reviewed through the management review process.

This policy is made available to the organisation via internal office display, internal circulation and to other interested parties via the company website.

This policy is approved by the undersigned representative of top management and is the authoritative document relating to quality management within the company.

A handwritten signature in black ink, appearing to read 'Jonathan Theakston', is positioned above the printed name and title.
