

**TRANSPORK**  
ADVANTAGE

# TRANSPORK ADVANTAGE SEMI-TRAILERS

## The superior design of Eby's Advantage Series gives operators the upper hand

Eby's aluminum semi-trailers are engineered to ensure the safe and healthy transport of cattle, hogs and sheep—as well as efficient and comfortable operation for their handlers. The Trans Pork Advantage Semi raises the bar with innovative features that provide the ultimate in operator convenience and livestock health. Unique, adjustable slats allow operators to control ventilation with precision, while the interior design provides easy clean-up and maximum protection against animal disease.

### Clear Advantages:

- Ability to control air flow
- Easy to wash
- Thicker wall sheets, with limited seams on inside
- Eliminates need for panel box
- Durable aluminum closures
- Bio-secure

# Trans Pork Advantage Semi-Trailers

**TRANSPORK**  
ADVANTAGE

## Innovative slat design for precise ventilation control

Five-point adjustment handles below each set of slats on the sides, front and back of the Trans Pork Advantage Semi allow operators to precisely control the airflow throughout the trailer.

## Easy-to-clean interior

Smooth interior walls allow for easy cleaning.

Back side of aluminum closures are easily washed from inside the trailer.

Eby is a proud member of The National Association of Trailer Manufacturers, dedicated to improving trailer safety and performance. Eby trailers are manufactured in compliance with NATM guidelines.
