Integrated arched headers & cast aluminum corner caps come standard for added strength and style, eliminating out-dated bolt-on tarp caps.

Maxi-Seal® Defender® Modular Harness System is easily accessible for lighting connections and backed by a 10 year warranty.

4" roller wheels on the trap doors slide with ease and require little maintenance. Stainless steel trap doors with rack & pinion gearing for long term reliability.

Cast aluminum tarp bow sleeves make it easy to remove and replace tarp bows.

STANDARD FEATURES

No ridge straps and self-cleaning sloped top rails that allow grain to slide back in, rather than fall over the sides.

Updated and improved horizontal glad hands with a secure air line connection eliminating the possibility of disconnecting on tight turns.

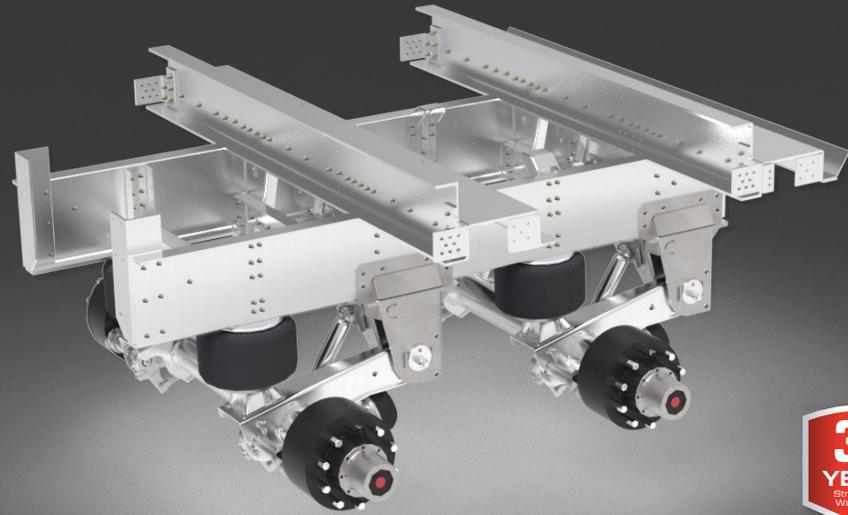

Mechanically fastened trap frames. Knock rails on all four sides.

Industry leading **Shur-Co 4500 HD Power Tarp Systems** made with an integrated ridge pole and exclusive Diamondcore tarp.

Jost aluminum dolly legs & tapered upper coupler bolsters. An adaptation inspired from Eby's legendary livestock trailer. Designed for durability, maneuverability and to maximize tire clearance.

DURAFRAME

Eby's Duraframe is built with massive 13-inch "Z"-shaped aluminum beams secured with huck bolts for maximum structural strength. Galvanized suspension hangers reduce rust and corrosion in critical areas, and every Eby Generation trailer comes equipped with a Hendrickson INTRAAX® Air Ride suspension system.

Signature Package with under glow lights shown.

Optional trap light kits between the tubs

Forward facing bogie lights in a stainless steel box

Optional interior tub lights

POPULAR OPTIONS

Minimizer fenders available in a variety of colors. Mounting holes come standard.

Shur-Co power trap openers are a simple plug-and play addition.

Updated JOST 2-Speed Opener with a new and improved sealed gearbox, stronger door locking, and 1-to-3 gear reduction for smoother, easier unloading.

Full or partial width rear mudflaps and weights.

Stainless steel hubcaps & lug nut covers	•	•	•	•

Sight glass view port windows allow you to inspect grain quality without having to climb on top.

Updated vibrator control system stays protected from the elements to help knock loose stubborn material from the tubs and unload grain fast.

Add on lift axle kits offer flexibility, extend tire life, improve maneuverability and increase payload capacity.

Hendrickson disc brakes improve stopping power with significant weight savings over similar designs.
