# A day to remember

Our TTP Patient Support Group Meeting was a great family affair as you can see with attendees of all ages and walks of life.

The event brought together patients, carers and professionals from multiple specialties and Trusts to share valuable service information, experience and ideas about how to make TTP care better for everyone involved. There was time to chat, learn and most of all appreciate each other.

*Thank You*

Thank you to everyone who came, got involved and donated to the charity. A fantastic £500 from the raffle was raised for the Liverpool TTP Patient Welfare Fund Charity.
