Exclusively applicable to bearing housing

Plummer Block housings of the SN500 series are designed for self-aligning Roller bearings mounted on an adapter sleeve, or direction shaft. The bearing seat within the housing is machined to tolerance class G7. The standard material used is grey cast iron GG20. Alternative materials can be provided upon request.

As a default option, we offer felt seals for these housings.

SN500/600

SN3000

The SN500 series of plummer block bearing housings is designed for the use of self-aligning ball bearings and self-aligning roller bearings on adapter sleeves. The bearing seat inside the housing is manufactured to the G7 tolerance class. The standard material for these housings is grey cast iron. However, upon customer request, other materials can also be provided. We offer felt seals as the standard option.
