The Moore House (Lloyd Wright, 1958) Palos Verdes, CA (2009)

Paradise School Section 106 Report and Historic Assessment, Clark County, Las Vegas, NV (2006)

Citywide Historical Resources Surveys

Santa Monica Citywide Survey

Architectural Historian; intensive-level survey and completed DPR 523A and B forms
2009–2010

Beverly Hills Citywide Survey

Research Associate & Field Surveyor; intensive-level pedestrian survey work
2006

Daniel D. Paul

Regulatory Compliance

Cultural resources technical reports are planning documents wherein Federal (NEPA / Section 106), State (CEQA 15064.5 / California PRC 5020 and 5024) and occasionally local (municipal ordinance) regulatory settings are applied. Provided they receive concurrence by reviewing agencies, such documents are capable of preserving important historic properties identified through the survey process, contextualized in the technical report, and assigned a California Historical Resources Status Code.

Programmatic Agreements (PA) and Memorandum of Agreement / Memorandum of Understanding (MOA/MOU)

PAs and MOAs/MOUs are complex documents involving the coordination, agreement, and approval of numerous consulting parties and government agencies to resolve and guide a potential undertaking relative to historic preservation concerns.

2013 Neighborhood Stabilization Program 2 (NSP2), Michigan State Housing Development Authority (MSHDA) / U.S. Housing and Urban Development (HUD) Architectural Historian

Subconsultant under HUD working with the MSHDA to facilitate the Section 106 review for the preservation or demolition of numerous properties in NRHP historic districts across Michigan, as part of the federal Neighborhood Stabilization Program round 2 (NSP 2) funding effort. Assisted in drafting Memorandum of Agreement (MOA) for historic district in Saginaw, Michigan. Made findings of effect and drafted SHPO correspondence for properties in Wyandotte and Highland Park, Michigan.

2007–2009 USDA Rural Utilities Service Broadband Initiatives Project, U.S. Department of Agriculture (USDA), Washington, DC Section 106 Technical Analyst

Worked directly under Federal Preservation Officer, Laura Dean, and closed Section 106 on 40 undertakings in a one-year span. This work was part of an ARRA-funded initiative to construct approximately 67,000 miles of broadband fiber in rural areas across the United States. Coordinated with applicants, State Historic Preservation Officers (SHPOs) and other federal agencies, determined effects, and drafted programmatic agreements.

Daniel D. Paul

Regulatory Compliance

Transportation

California High Speed Rail Project, Los Angeles to Anaheim Segment, Historic Architecture Survey Report (HASR); Finding of Effects Report, EIR/EIS cultural resources chapter. *Principal Architectural Historian*
Responsible for the documentation, context, evaluation of 2,300 parcels within Area of Potential Effects (APE). 2015-2021

Anaheim Rapid Connect Fixed Guideway Project EIR / Environmental Assessment (EA)
Project Manager & Researcher Managed all cultural resources EIR/EA chapter writing; researched and authored cultural resources technical report and identified the Disneyland-Alweg Monorail System ("The Monorail") as NRHP-eligible. 2013

DesertXpress/ XpressWest High-Speed Rail Project Cultural Resources EIR/EIS Chapter and Section 106 Review, California and Nevada *Task Lead*
Conducted all aspects of the Section 106 work along proposed ROWs for Desert Xpress, a proposed highspeed rail project from Victorville, California, to Las Vegas, Nevada, which included research, survey work, and writing of historic context statements, and identified a thirty-mile stretch of U.S. Route 66 called the Mojave River Corridor, with a period of significance from 1926 to 1958, as NRHP-eligible. 2007-2010, 2019-2021

Selected Caltrans Work

Multiple California Department of Transportation (Caltrans) Historic Property Survey Reports (HPSR) and Historic Resource Evaluation Reports (HRER) *Principal Architectural Historian*
Supervised, authored, and completed over twenty-five technical reports relative to Caltrans project work from 2006 to 2021. SHPO concurrence received upon all finished reports.

McKinley Avenue Grade Separation, Riverside, CA.

Caltrans District 8. Historical Resources Compliance Report (HRCR). Field Survey, historic context regarding Santa Fe Railroad in Riverside, CA. 2020-2021

High Desert Corridor, Ste Route 162 (Pearblossom Highway). Caltrans District 7. HPSR update, Field Surveyor, Drafted APE maps. 2020-2021

SR-91/Adams Street Interchange Project, Riverside CA. Caltrans District 8. All aspects of HPSR Package, including HRER, APE maps, DPR forms. 2017-2020

Daniel D. Paul

Regulatory Compliance

Caltrans (cont'd)

Interstate 605 Corridor Improvement Project. Parsons Transportation Group (in conjunction with Galvin Preservation Associates), Caltrans District 7. Built environment task lead and signatory historian for Caltrans Historic Resources Evaluation Report (HRER). 2019-2020

Cajalco Road Widening Project- Riverside County, CA, Caltrans District 8. HPSR Package; Signatory Architectural Historian. 2012-2020

SR 55/Meats Avenue Interchange PA/ED—City of Orange, California

Served as Signatory Architectural Historian, all built environment aspects of HPSR package. 2014–2017

1st Avenue Bridge Replacement Project, Barstow, CA. Caltrans District 8.

Served as Signatory Architectural Historian and Task Lead. Completed Caltrans technical reports (HPSR and HRER) and all attachments including DPR forms and APE maps for proposed bridge replacement project located in Barstow, CA. 2013-2016

I-215 HOV Lane Gap Closure Project HRER—Caltrans District 8/LSA, Riverside and San Bernardino Counties, California

Served as deputy project manager. Supervised four historians completing various context statements, formatting, and DPR forms 523a, 523b, and 523d. This project included the evaluation of unincorporated county properties and the streamlining of District DPR documentation. 2012–2013

Hageman Road Extension HPSR and HRER—Caltrans, Bakersfield, California

Served as signatory architectural historian and principal investigator. Performed intensive-level survey and historic research, wrote DPR texts, and supervised historic contexts. 2009-2011

I-15 Corridor Improvement Project HRER—Caltrans/Riverside County Transportation Commission, Riverside, California

Served as architectural historian. This project involved a field review of approximately 2,000 parcels within the project vicinity, many of which included post-World War II housing. The study was completed in compliance with Caltrans and FHWA procedures for evaluating properties adjacent to highway projects under NRHP criteria and applied the Section 106 programmatic agreement to exempt properties from further evaluation if they were built within the past 50 years or were substantially altered. 2008-2014

SR 91 Westbound Widening Project—Caltrans District 12, Orange County, California

Served as signatory architectural historian and principal investigator. Supervised completion of historical resources compliance report/HRCR for Caltrans D12 and wrote historic context statements. This project involved widening and sound wall construction along the north shoulder of westbound SR 91 between SR 57 and I-5. The APE contained numerous single-family ranch-styled residences from the post- World War II era. Contexts were written documenting the advent of the ranch style in conjunction with rapid postwar population growth in north Orange County. 2007-2010

Daniel D. Paul

Regulatory Compliance

Caltrans (cont'd)

I-215 Scott Road to Nuevo Road HPSR and HRER—Caltrans District 8, Perris, California

Served as principal investigator. Supervised junior staff members, wrote HPSR text, and oversaw completion of HRER. This widening project involved the evaluation of a single resource dating from the immediate postwar era. Worked with Caltrans to adjust temporary construction easements to possibly bypass this resource. Caltrans still opted to conduct the HRER, which ICF completed in a thorough, efficient, and timely manner. 2009-2010

Riverside Avenue Grade Separation HRER and HPSR—Caltrans District 8/Moffatt Engineering, Riverside, California, 2010

Served as signatory architectural historian and principal investigator. Defined the APE, wrote all applicable historic contexts, and supervised completion of the HRER. Historic context and evaluation was conducted on a 1920s Tudor Revival neighborhood, a postwar ranch tract, standalone 1930s residences, and an 1885 house, already a City Structure of Merit.

Streeter Avenue Grade Separation HRER and HPSR—Caltrans District 8/T.Y. Lin Engineering, Riverside, California, 2008-2009

Served as signatory architectural historian and principal investigator. Performed intensive-level survey and historic research, wrote contexts, and supervised completion of the HPSR and HRER.

SR 94 Widening Project—Caltrans, San Diego County, California

Served as signatory architectural historian and principal investigator. Conducted intensive-level survey work, researched and wrote historic context statements, and wrote DPR 523a and associated forms for HRER and HPSR. 2006-2007

SR 2 Freeway Terminus Improvement Project IS/EA—Los Angeles County Metropolitan Transportation Authority, California, 2007. Field surveyor

Rail

California High Speed Rail Project, Los Angeles to Anaheim segment: Built environment task lead and principal author: HASR, EIR/EIS, FOE. Client: California High Speed Rail Authority, Prime: STV Incorporated, 2015-2020. A substantial, high-profile project with intense deadlines; oversaw the Historic Architectural Survey Report (HASR), the Finding of Effect and EIR Section. Supervised field survey and CRHR (CEQA) and NRHP (NEPA/106) eligibility findings for over 2,300 parcels, supervising authorship of over 40 historic context statements, QAQC of all DPR forms, drawing the Area of Potential Effect, and coordinating with the California High Speed Rail Authority. HASR SHPO concurrence granted May, 2019.

Daniel D. Paul

Regulatory Compliance

Rail (cont'd)

Anaheim Rapid Connection Fixed Guideway Project and Street Car LNTP (Anaheim Streetcar). City of Anaheim/Hill International, California. NEPA/ Section 106 Analysis; EIR/EIS built environment chapter. 2014-2016

Mid-Coast Trolley Cultural Resources Analyses—San Diego Association of Governments (SANDAG)/ Parsons Brinckerhoff, San Diego County, California
Southern California Regional Interconnector ((SCRIP)- later renamed “LinkUS”) 2013

Supplemental EIR/EIS—Los Angeles County Metropolitan Transportation Authority/HDR Engineering, Los Angeles, California, 2013-2020

California High-Speed Train from San Jose to Merced EIR/EIS and Technical Reports—California High-Speed Rail Authority/Parsons Transportation Group, San Jose to Merced, California.

Oversaw staff in survey, research, writing, APE maps, and general compilation of HPSR and HASR technical documents. 2010-2013

Anaheim Regional Transportation Intermodal Center Cultural Resources Chapter—Orange County Transportation Authority (OCTA), Anaheim, California Served as contributing author/architectural historian. Completed historic context of Anaheim during the post contact period. Completed DPR 523a, 523b, and associated forms for the 1966 “Big A” baseball scoreboard, which was found eligible for the CRHR. 2010

San Bernardino Passenger Rail Project—San Bernardino Association of Governments (SANBAG)/HDR Engineering, Redlands, California Served as architectural historian. Completed Section 106 cultural resources technical report for Redlands First Mile EIR/EIS. 2008-2010

DesertXpress (XpressWest) High-Speed Rail Project Cultural Resources EIR/EIS Chapter and Section 106 Review—CirclePoint, California and Nevada Served as author/architectural historian. Conducted all aspects of the Section 106 work along proposed ROWs for Desert Xpress, a proposed high-speed rail project from Victorville, California, to Las Vegas, Nevada. The project included research, survey work, and writing of historic context statements. A 30-mile stretch of U.S. Route 66 called the Mojave River Corridor, with a period of significance from 1926 to 1958, was identified as NRHP eligible. 2006-2009; c.2018-2020

Extracurricular

Directed Research

John Pastier Oral History Project

Writing for the Los Angeles Times from 1969 to 1975, John Pastier the newspaper's first architectural critic.
2023

Historic Building Brochures, U.S. General Services Administration (GSA)

Project Manager, Lead Editor & Author

Wrote concise description and significance essays for twelve brochures distributed to the public at various GSA owned federal buildings built from 1842 to 1964 that are located across the United States
2014

U.S. Border Inspection Stations Website Project, GSA

Project Manager

U.S. border inspection stations from the period of 1931–1943; authored historic context statements of various revival design systems and the border stations as a purpose-built, vehicle related property type
2014

Duncan Canyon Pole Replacement Project, Caltrans District 8, Fontana, CA

Author & Researcher

Prepared memorandum and researched the history of a transmission line at the request of Caltrans to determine age; researched revealed a recent age, which negated the need for an HRER for a nearby bridge replacement project
2012

The City's Evolving Skyline (Modern Skyline Walking Tour)

Tour Author

Wrote docent script for all Late-Modern skyscraper architecture featured in Los Angeles Conservancy's downtown walking tour
2011

Daniel D. Paul

Extracurricular

Nisience Church (Chapel of the Jesus Ethic)

Tour Author

Wrote docent script for Los Angeles Conservancy Modern Committee's "City of the Seekers" architectural tour
2009

Archives Assessment, Port of Los Angeles

Archivist & Researcher

Completed cursory review and documentation of more than 10,000 linear feet of archives
2007–2008

Historic Calendar, Port of Los Angeles

Research Architectural Historian

Researched events of note at the Port of Los Angeles archives so that the Port could release a "this day in history" calendar
2008

Water Usage History at Las Encinas Hospital, Pasadena, CA

Researcher

Using primary source materials, completed analysis showing continued usage of water on site from historic nineteenth-century well on behalf of Signature Healthcare (Pasadena Life Properties, LLP)
2007–2008

VDL II Research House (Neutra VDL Studio and Residences)

Tour Author

Wrote docent script for Los Angeles Conservancy Modern Committee twentieth anniversary tour
2004

Old Trappers Lodge Folk Art Environment

Tour Author

Wrote docent script for Los Angeles Conservancy Modern Committee's "How Modern was my Valley" tour
2000

Cruising the South Bay

Tour Author & Producer

Researched, wrote, and co-produced all tour materials for architectural driving tour of South Bay cities for Los Angeles Conservancy Modern Committee
1997

Grandma Prisbrey's Bottle Village

Author & Researcher

Researched and wrote historic information for website and on-site docent script
1995–1996
