

DUBLIN UNIVERSITY CENTRAL SOCIETIES COMMITTEE
GRANTS POLICY DOCUMENT
FINANCIAL YEAR 2026/27

1. PURPOSE & AEGIS OF THE GRANTS POLICY DOCUMENT

The Dublin University Central Societies Committee, hereafter abbreviated as CSC, allocates grants to University Societies as recognised by it in accordance with the CSC Constitution Section 3. The Grants Policy Document serves to guide the CSC Executive in its consideration of such grant applications in tandem with the discretionary powers of the Executive.

2. FINANCIAL RECORDS

- 2.1 The University Society Financial Year (USF Year) is defined as the period from and inclusive of the First Day of March in a given Calendar year to and inclusive of the Last Day of February in the immediately following Civil Calendar Year (that is 1st March through the following 28th/29th (as appropriate)). The Committee's Financial and Reporting Year (the Dublin University Central Societies Committee's Financial and Reporting Year or CFR Year) is defined as from and inclusive of the First Day of September in a given Calendar year to and inclusive of the Last Day of August in the immediately following Calendar Year (that is September 1st through the following August 31st).
- 2.2 Every society must operate its financial affairs through a bank account. **Cash transactions should only be used when absolutely necessary.** All transaction details of whatever type (bank transfer, cash payment, lodgement, and direct debit) must be noted in detail by the Society Treasurer in the online accounting system established for this purpose by the CSC. All receipts must be retained and marked to correspond with the appropriate accounting entry. The onus is on the Treasurer of the society to accurately account to the CSC for all of its income and expenditure. **Societies are not permitted to set up PayPal accounts.**
- 2.3 Only bank accounts approved by the relevant CSC Treasurer may be operated by University Societies, and statements for these bank accounts must be maintained by the society Treasurer. Bank statements are to be downloaded every 3 months by society treasurers in the first instance. Society treasurers may also visit the CSC office to scan copies to their society email account.
- 2.4 Immediately after a society's AGM, the new committee members—Chair, Treasurer, Secretary and PR Officer—must be communicated to the CSC Secretary.
 - (i) The signatories on the society Bank Account must include the society Treasurer who should be aware of all transactions being made in the name of the Society.
 - (ii) The society's bank account will be so arranged with its bank that each transaction must be signed off by the Treasurer and one of either the Chairperson or the Secretary.
- 2.5 In addition to the Chairperson and Treasurer of each society, all other signatories are responsible to the society and to the CSC for all the monies spent during their term of office. The Chairperson, Secretary and Treasurer will be individually responsible in whole or in part for the duties of their office within the Society in any financial year in which they serve.
- 2.6 The Chairperson, Secretary and Treasurer of the Society are individually and jointly responsible for properly safeguarding the society's finances, for ongoing maintenance of proper financial records, and for the presentation of complete and proper financial records to the CSC in accordance with its regulations for that period in which an office was held.

2.7

- (i) In accordance with the CSC's own duties to the Capitation Committee, where financial negligence or incompetence, misappropriation of funds, or misuse of property, including digital property, has occurred within a University Society, the Executive committee shall, at the recommendation of the Treasurer, require of the University Society that it remove the person or persons responsible from their University Society Committee with immediate effect. Failure to act at the Executive's request shall result in the suspension of the said University Society and such other measures as the Executive deems necessary.
- (ii) An individual who has been removed from a University Society Committee for reasons of financial negligence or incompetence, misappropriation of funds, or misuse of property, including digital property, may not serve on any other University Society Committee for the remainder of their studies in College.
- (iii) In the case of gross financial negligence or incompetence, misappropriation of funds, or misuse of property, including digital property, the CSC Executive may ask the College to prevent registration by and to withhold degrees from the persons responsible until the deficit incurred has been made good.

2.8 All treasurers are required to attend training with the treasurer of the CSC before the end of Michaelmas Term. At this meeting the grants procedure will be explained.

2.9 All changes of committee must be notified to the CSC immediately. New Treasurers must arrange a training session with the CSC Treasurer as soon as possible.

2.10 The CSC's Treasurer may request a society to furnish up-to-date financial records at any time during the financial year. In such a case, the society Treasurer will receive 21 days' notice to submit these financial records, which must be accurate and complete, up until at least the date on which the request was made.

3. CRITERIA FOR DETERMINING ALLOCATIONS

3.1 Scale of activities as determined by a Society's Annual Activity Report. This report should include the following:

- (iv) A detailed description of activities during the immediately prior USF Year.
- (v) Total membership as at the end of the said USF Year.
- (vi) A list of all those elected or co-opted to office during the said USF Year.
- (vii) A description of the meetings or other activities of the society during the said USF Year including the number of meetings, attendances, names of speakers, titles of films shown, reports of field trips etc.
- (viii) Extent and nature of use of society rooms during the said USF Year.
- (ix) Details of any constitutional changes adopted during the said USF Year.

3.2 Grants in the previous USF Years, and use made thereof.

3.3 The originality, creativity, expertise and enthusiasm of the members of the society as demonstrated with the Society's Annual Activity Report and its plans for the current USF Year.

3.4 The overall financial position of the society, as determined by previous USF Years' financial records.

- 3.5 The interest shown by the general College body in the activities of the society.
- 3.6 And any other stipulations which may be introduced into the Constitution from time to time.

4. GRANT APPLIATIONS

- 4.1 The University Society Grant Year (USG Year) is defined as the period from and inclusive of the First Day of September in a given Calendar year to and inclusive of the Last Day of July in the immediately following Calendar Year (that is 1st September through the following 31st July). Only items purchased during this period, pending no other grant heading restrictions on spending, will be eligible for grant reimbursement. All receipts for grant reimbursements must be submitted on or before 31st July, the final day of the USG Year. No grant monies will be disbursed to any Society after the close of the Committee's Financial and Reporting Year. Any unclaimed grant monies shall, at that time, revert to the CSC's general funds.
- 4.2 Grant applications cannot be considered until confirmation that the Society's Constitution held on record by the CSC is that governing the operation of the society; and that the Society's Financial Records and its Annual Activity Report for the immediately prior USF Year have been received by the CSC.
- (i) Both the University Society Financial Records and the Society's Annual Activity Report for a given USF Year must be submitted on or before their respective deadlines of the given USF Year. Specifically, the University Society Financial Records must be submitted before 1st June, and the Society's Annual Activity Report before 1st July of the year in which the last day of the given USF Year falls.
 - (ii) Financial Records arriving late will be automatically deemed unsatisfactory.
 - (iii) Financial Records which are, in the judgement of the Treasurer of the CSC, to be incomplete or to fail to properly account for all of the Society's income and expenditure will be automatically deemed unsatisfactory.
 - (iv) University Society Financial Records deemed unsatisfactory will usually result in the Society being subject to a financial penalty. The financial penalty applied by the Executive will usually be, but is not limited to, the restriction of grants under section 5.6 (Purchase of Equipment & Capital Items) and section 5.9 (Society Travel). Limitation of such probation is outlined in [4.3](#) below.
 - (v) No grant monies will be disbursed to any Society after the close of the USF Year (February 28th/29th (as appropriate)) until such time as the Society's Financial Records have been received the CSC and deemed to be satisfactory by the CSC Treasurer as being submitted in a timely manner and as representing a complete, accurate and true account of the Society's financial activities during the reported USF Year.
- 4.3. Notwithstanding 4.2 above if, during the period of the Executive's general consideration of society grant applications, a particular society is found to have failed to submit either its Financial Records or its Annual Activity Report for the immediately prior USF Year, the Executive, at its discretion, may both consider the said society's grant application and in doing so enforce the following limitations to the society's grant:
- (i) Grants will not be given under section 5.6 (Purchase of Equipment & Capital Items).
 - (ii) Grants will not be given under section 5.9 (Society Travel).

This period of "probation" will lapse at the CFR Year end provided that the society's financial records requisite for the concurrent USF Year have been submitted and deemed to be satisfactory. However, should a new committee be formed the CSC Executive may use its discretionary powers to waive any grant application restrictions.

- 4.4 University Societies should submit their Grant Application Form online, as soon as it becomes available. It should be noted that Annual Grant Applications must be submitted before 1st December in order to be considered.
- 4.5 For budgetary purposes, the Executive will set a budgetary limit on the amount of granted funding each society can be paid during the fiscal year. This budgetary limit may be increased at the discretion of the Executive.
- 4.6 In order to apply for a budgetary limit increase, a supplementary grant request must be submitted. It generally covers unforeseen circumstances. Supplemental grants must normally be submitted for consideration before 30th April of the given USG Year in order that the current membership gets the benefit. It will not receive priority.
- 4.7 Any society which is unhappy with its allocation may appeal a decision of the Executive to a General Meeting. University Societies must, in the first instance, go back to the Executive with a more detailed application. Where an appeal is heard, other items granted by the Executive may be altered in light of any new information being presented.

5 GRANT APPLICATIONS

The CSC Executive at its discretion may make money available under the following headings or for any purpose it deems appropriate in accordance with the CSC Constitution.

5.1 BASIC RUNNING COSTS

The Executive will base its allocation primarily on a society's general level of activity. Money granted under this heading is intended to fund things like costs for printing and promotion, web hosting/domain registry, stationery, general subscriptions, non-alcoholic refreshments for weekly meetings, etc. The CSC will not, however, fund web and/or graphic design. **The maximum grant allocation is €635.**

5.2 SPEAKERS' EXPENSES

- (i) In order to qualify for funding, it is necessary for a society to adequately publicise events and meetings. University Societies must ensure that details of all meetings and events including the names of speakers, etc. are published on forums such as the CSC website, College event calendar, social media, posters, and similar.
- (ii) All submissions must be made online in advance of the event taking place.
- (iii) The cost of a speaker's travel (air, rail and taxi fares), accommodation and entertainment will be provided as set out below. For the purposes of payout, the figures in each category will be considered maximal totals, though payments for each speaker will not exceed the individual grant limit:
- (iv) The cost of a speaker's travel (air, rail and taxi fares), accommodation and entertainment will be provided as set out below. For the purposes of payout, the figures in each category will be considered maximal totals, though payments for each speaker will not exceed the individual grant limit:
 - a) **Speakers' travel:** Speakers from overseas will have their travel costs subsidised to a maximum of **€250** and a limit of **€80** will apply to speakers from Ireland. Travel fares are not normally provided for speakers from Dublin. Overseas and Irish speakers whose travel costs are in excess of the above maximum may be applied for on a case by case

basis. The executive will decide whether to fund them under normal travel or under "Other".

- b) **Speakers' accommodation:** Accommodation will be subsidised at the rate of the cost of College guest rooms (currently **€160** per night) for up to two nights in the case of a speaker from overseas and for one night for an Irish speaker from outside Dublin. Again, no accommodation will be provided for speakers from Dublin. Speakers, where possible, may be put up in College rooms, bookable through the Accommodation Office.
- c) **Speakers' entertainment:** speakers' entertainment will be subsidised at a maximum of **€40** per person. (A Society may wish to give a gift instead of taking a guest for a meal – this subsidy may be used for that purpose.) The CSC will fund members of the society to accompany their guests according to the following table:

Society Guests	Society Representatives
1	1
2	2
3	2
4	3
More than 4	3

- (v) Receipts should be submitted with the names of all those attending for whom money is being claimed and should be signed by the guest.
- (vi) Speakers will not normally be funded for meetings held on Saturdays, Sundays or out of term or for meetings held off campus. Special arrangements must be made for such meetings.
- (vii) Speakers' Expenses must normally be dated on or before 31st May of the given USG Year.

5.3 RECEPTIONS

- (i) The expenses for receptions following meetings of a University Society may also be covered but only where the reception is open and free to all members of the society and the meeting prior to it has been well publicised on forums such as the CSC website, social media, posters, and similar.
- (ii) The total amount available to a University Society for all of its post-meeting receptions will not exceed **€500** per annum. The grant will be calculated at a rate of **€3** per member for the first 60 members and **€1.75** for each one thereafter up to the said maximum.
- (iii) Expenses under Receptions must normally be dated on or before 31st May of the given USG Year.

5.4 CLASSES & WORKSHOPS

- (i) University Societies wishing to hold classes or instruction sessions which are relevant to the aims of the society may have the expenses involved defrayed by the CSC. Details of all costs and admission charges will be required. A society will not normally be granted funding to pay students or staff of the college for providing instruction.
- (ii) The CSC will normally provide funding on a profit-and-loss basis. Applications must indicate clearly the payment to be made to the instructor per class, provide a best estimate of the number of members expected to attend, and specify the amount to be charged to each member.
- (iii) Classes must be well publicised, and in order to satisfy this requirement, the meeting must be forums on such as the CSC website, social media, posters, and similar.

- (iv) Where particular materials are required for classes, the relevant section of the grant application form must be completed, giving details of what materials are required and how much they will cost.
- (v) Expenses under Classes/Workshops must normally be dated on or before 31st May of the given USG Year.

5.5 HIRE OF ITEMS & PURCHASE OF ONCE-OFF MATERIALS

- (i) Where a society buys once-off materials or hires articles for short-term use, the cost of hiring or purchasing these may be subsidised. A detailed breakdown must be submitted of what items are required and to what purpose they are to be put. Where multiple items are requested, a list in which the items are prioritised should be included: i.e. rank them from 1 on in the order of need (1 = vital, if we get only one thing then let this be it).
- (ii) The CSC recognises the fact that University Societies will wish to show films and videos from time to time. The College has a licence which allows University Societies to show rented films from most major distributors to their members. No fee may be charged. Illegal video showings are considered a major disciplinary matter within College.
- (iii) Expenses under Hire of Items & Purchase of Once-off Materials must normally be dated on or before 31st May of the given USG Year.

5.6 PURCHASE OF EQUIPMENT & CAPITAL ITEMS

- (i) When a Society needs to purchase specialist equipment or other expensive items necessary for its continued existence, an application should be made in a similar form to 'Materials' above, including details of what security arrangements are intended to safeguard the items.
- (ii) Expenses which are to be claimed under Equipment & Capital Items should normally be purchased before the end of Michaelmas Term in which the current USG Year falls, as defined in the College Calendar, in order that the current membership gets the benefit. However, this deadline may be extended at the discretion of the Executive on a case-by-case basis. Societies seeking an extension of the capital grant spending deadline should submit a formal request before the end of Michaelmas Term outlining the reasons for the extension, and the Executive will review and grant extensions as appropriate.

5.7 COMPETITION ENTRY FEES

Where a society wishes to enter an individual or team in a competition which is of direct interest to the furtherance of its aims, the entry fees may be subsidised by the CSC. The individuals entered should have their names recorded on the reverse of the receipt if they are not all already mentioned on the front.

5.8 AFFILIATION FEES

Necessary affiliation fees to external organisations may be granted. Details of the body to which the society wishes to be affiliated and the benefits accrued must be presented. CSC will fund for branch or group affiliation only and not for individual members. In the case where group affiliation is not available, the CSC will fund for one or two members to be affiliated and any information can be disseminated through them to the Society.

5.9 SOCIETY TRAVEL

- (i) All applications for travel will be considered in the context of current public health guidelines being issued by the Government and the College.
- (ii) University Societies are reminded that any travel must be for *bona fide* purposes to further the aims of the society and that only those trips agreed beforehand will be funded. The trip should be open to all and only paid-up members of the society. Only *fully paid-up* members of the society will be subsidised. In order for such travel to be eligible for funding, the following requirements must also be met:
 - a) A list of those who are to travel must be given to the CSC prior to the trip. This list is to be submitted online and will contain the following details: name of member travelling; College ID; College email; name of next of kin and contact details for next of kin. **If this list is not with the CSC prior to the trip no grant will be issued.**
 - b) An itinerary of the proposed trip must be submitted with the grant application. In order to conserve resources the Executive may limit the number of persons that will receive a subsidy. Any cancellation fees incurred by the society will not be subsidised by the CSC. The Executive has determined that, when necessary, checks will be made to ensure that the itinerary as presented has been fully undertaken.
 - c) A report, detailing the activity during the trip, separate from the Annual Activity Report, must be submitted to the CSC within three weeks of returning from the trip. Any University Society which fails to submit the said report will not be considered for a Travel Grant for the following two financial years.
- (iii) Students travelling on society trips will not have personal accident cover or travel insurance. Third party bodily injury or property damage insurance may be provided on a case by case basis on consultation with the CSC.
- (iv) To support a move to sustainable travel, for trips where the travel by ferry, train or bus takes more than 12 hours, a plane ticket can be partially reimbursed on the basis of an economy class ticket. A plane ticket can also be reimbursed if the destination is over 800 km or sustainable modes of travelling are not possible because of pressing time-table reasons. If sustainable travel is chosen, the grant limit can be exceeded to support this.

5.9.1 **Society Travel Budget**

The Treasurer shall be responsible for determining an annual total budgetary limit for monies which may be granted towards society travel. **This will be disbursed on a first come, first served basis.** The Treasurer shall further be responsible for determining individual limits for each of the categories within which societies may apply for travel grants. These categories shall be: Conference Travel; Competition Travel; Travel for the Purposes of Representation at National/International Bodies; Expert-Facilitated Non-Academic-Credit-Field Trips/Society Trips; Non-Expert-Facilitated Society Trips. General stipulations for each of these respective categories as laid out in subsections 5.9.2 and 5.9.3 below.

5.9.2 **Conference Travel; Competition Travel; Travel for the Purposes of Representation at National/International Bodies.**

- (i) Travel for these purposes may be funded by the CSC and is intended to facilitate the attendance of a small number of delegates.
- (ii) Delegates may be subsidised at a higher than normal travel rate.
- (iii) Travel under this heading MAY NOT be booked prior to the society's informing and receiving approval from the CSC Executive. If travel is booked under this heading prior to

the society's informing and receiving approval from the CSC Executive no travel grant will be considered.

- (iv) The cost of registration, admission or entry fees may be subsidised.

5.9.3 Expert-Facilitated Non-Academic-Credit-Field Trips/Society Trips; Non-Expert- Facilitated Society Trips.

- (i) Society field trips, excursions, etc. may be funded by the CSC. The number of participants subsidised in a given year shall not exceed 20% of membership, or 40 people, whichever is the lesser.
- (ii) On the basis of the submission of a satisfactory itinerary, a grant for travel and accommodation will be paid at the rate of up to a maximum of **€75** per person.
- (iii) Travel under this heading MAY NOT be booked prior to the society's informing and receiving approval from the CSC Executive. If travel is booked under this heading prior to the society's informing and receiving approval from the CSC Executive no travel grant will be considered.
- (iv) Travel under this heading will not normally be granted in two consecutive years.
- (v) The cost of admission to events of relevance to University Societies may be subsidised.

5.10 LENDING LIBRARY EXPENSES

- (i) Where a society currently operates a library, funding may be provided to purchase books, DVDs, CDs, periodicals and/or sheet music. Only University Societies that already operate efficient libraries will normally be funded and the Secretary and Amenities Officer of the CSC will inspect its lending procedures and storage before the grant will be released.
- (ii) Items which are to be claimed for under Library Expenses should normally be purchased before the end of Michaelmas Term in which the current USG Year falls, as defined in the College Calendar, in order that the current membership gets the benefit.

5.11 OTHER

A society may apply for subsidy for anything not covered above, provided it is demonstrated that the purpose is to further the aims of the society. Very detailed information is required in order to allow the fair consideration of such an application. Applications under this heading will be considered on their individual merits. Please contact the treasurer@csc.tcd.ie for guidance.

5.12 COLLEGE SECURITY CHARGES

The CSC will pay up to a maximum of six regular security charges per year directly to College on behalf of a society. These payments shall not be deducted from the relevant society's grant. Further charges may be considered in unusual circumstances.

5.13 AMENITIES & FURNISHING

Furnishing and room requirement requests should be sent directly to the Amenities Officer of the CSC (amenities@csc.tcd.ie). The cost of such requests shall not be deducted from the relevant society's grant.

5.14 POSTGRADUATE FUNDING

5.14.1 Purpose and Eligibility

The CSC Executive may make funding available to CSC recognised University Societies for initiatives, events and projects primarily designed to benefit postgraduate members. Funding under this heading is intended to support postgraduate engagement, networking, academic and professional development, research related activities, community engagement and other initiatives which demonstrate a clear and identifiable benefit to postgraduate members and further the aims and objectives of the relevant University Society. Applications may be initiated by a Society Committee, a postgraduate representative or an individual postgraduate member, but all funding must be applied for and financially administered through a CSC recognised University Society.

5.14.2 Eligible and Ineligible Activities

Eligible applications may include, but are not limited to, postgraduate focused events, networking events, workshops, conferences, research presentation costs, educational or skill development activities, project materials, shared resources, community engagement projects, postgraduate publications and travel directly associated with a postgraduate focused initiative. The fund is not intended to provide additional annual grant funding for the ordinary or routine activities of a society, nor should it be used to duplicate expenditure already funded through another CSC grant heading. Events or activities which are primarily intended for a society's general membership, rather than demonstrating a distinct and substantial benefit to postgraduate members, will not normally be eligible.

5.14.3 Funding Limits

A University Society may ordinarily make up to three successful applications for Postgraduate Funding during an academic year, with each individual application normally limited to a maximum of **€500**. Notwithstanding this, where the CSC Executive considers that an exceptional, substantial or particularly impactful postgraduate initiative merits greater support, the Executive may, at its sole discretion, approve a single allocation of up to **€1,500**. The approval of such an allocation shall not constitute a precedent for future applications.

5.14.4 Applications and Payment

Applications shall demonstrate the purpose and expected impact of the proposed initiative, its benefit to postgraduate members, its connection with the aims and objectives of the relevant University Society, a proportionate and clearly outlined budget, and the anticipated timeline and outcomes. Applications shall normally be made in advance of the proposed expenditure and may be submitted in the format and within the timeframes prescribed by the CSC Treasurer. Grants shall not be awarded retrospectively and, unless otherwise determined by the CSC Executive, shall be reimbursed on a receipts basis in accordance with the general provisions of this Grants Policy Document.

5.14.5 Reporting

Following the completion of a funded event, project or initiative, the relevant University Society shall submit a brief report to the CSC Treasurer outlining the activities undertaken, the outcomes achieved, the impact upon postgraduate members and the manner in which the funding was utilised. The report shall normally be submitted within two weeks of the completion of the funded activity. Failure to submit a required report may be taken into consideration by the CSC Executive when considering future applications for Postgraduate Funding.

5.14.6 Executive Discretion

Postgraduate Funding is a distinct and supplementary funding stream, separate from a society's annual grant allocation and the ordinary grant headings contained within this document. The categories of activity outlined above are illustrative rather than exhaustive, and the Executive may consider applications outside those categories where it is satisfied that the proposed expenditure is consistent with the purpose of the fund. All applications shall be considered individually and on their merits, having regard to the available funding, the

anticipated benefit to postgraduate members and the overall objectives of the scheme. The CSC Executive retains absolute discretion to approve, partially approve or decline any application, and no society shall have an entitlement to funding under this heading solely by satisfying the general criteria set out above.

6. SPONSORSHIP AND PROFIT-MAKING EVENTS

- (i) A Society may seek sponsorship from other sources, though the CSC must be kept informed, and all monies must be accounted for on the online system.
- (ii) If there is a contractual agreement being made with an external body/organisation, the society must inform the CSC Treasurer and seek approval for the same, prior to confirmation of the agreement.
- (iii) In seeking sponsorship, University Societies should be aware of College policies in relation to allowing outside bodies access to College campus, and indeed the College alcohol policy. If in doubt, contact CSC staff in the first instance.
- (iv) The CSC will not tend to fund events that are self-financing and all charitable fund-raising events must also be self-financing.

7. PAYMENT OF GRANTS

- (i) Grants will only be paid over to a society after it has incurred expenditure and then only on production of receipts and/or other documentary evidence.
- (ii) Furthermore, receipts or other documentary evidence are required in support of all income and expenditure, regardless of whether or not it has been supported by CSC monies, and should be submitted with the society's financial records.
- (iii) In the case where a grant has not been collected or where payment has been specifically deferred by the CSC Executive to the following year, all allocations for the year are null and void after the 31st July each year.

8. GRANTING RESTRICTIONS

8.1 Provisionally Recognised University Societies

- (i) Grants to Provisionally Recognised University Societies shall only be considered under the headings of Basic Running Costs, Speakers Expenses, Receptions, Classes/Workshops, Hire of Items, Competition Entry Fees, Affiliation Fees and College Security Charges.
- (ii) Provisionally recognised University Societies shall not normally be given grants under the headings of Purchase of Equipment & Capital Items, Society Travel, Lending Library Expenses or Amenities unless the Executive can be satisfied that such grants are necessary to the survival of the society.

8.2 University Associations (Vexillary)

- (i) Grants to University Associations (Vexillary) shall only be considered under the headings of Basic Running Costs, Speakers Expenses, Receptions, Hire of Items, Competition Entry Fees, affiliation Fees and College Security Charges.

- (ii) Grants to University Associations (Vexillary) shall not be granted for Language Classes as said University Societies are prohibited from holding such classes. University Associations (Vexillary) may apply for other classes or instruction sessions which are relevant to the aims of the society.
- (iii) Grants to University Associations (Vexillary) under the heading of Other prior to its attaining Full Recognition will normally be restricted unless the Executive can be satisfied that such grants are necessary to the survival of the society.
- (iv) University Associations (Vexillary) shall not normally be given grants in the areas of Purchase of Equipment & Capital Items, Society Travel, Lending Library Expenses or Amenities unless the Executive can be satisfied that such grants are necessary to the survival of the society.

8.3 University Auxiliaries

- (i) Notwithstanding 8.1 above, grants to University Auxiliaries shall normally only be considered for the areas of Basic Running Costs, Affiliation Fees & Hire of items.
- (ii) The CSC will normally only fund costs associated with ticketed or self-financing events on a profit/loss basis. University Auxiliaries should submit an income and expenditure projection for these events with their annual grant application in order for such expenditures to be considered.

8.3 University Commissaries

- (i) Notwithstanding 8.1 above, grants to University Commissaries shall normally only be considered for the areas of Basic Running Costs.

9. TRAINING

- (i) All recognized University Societies are required to attend CSC-organised trainings as a condition of grant eligibility. Societies must have a committee representative(s) attend every training session in order to be eligible for full grant reimbursements.
- (ii) Failure to meet the attendance requirement will result in a reduction of a Society's eligibility for grant reimbursements on a scale proportional to the number of trainings missed.
