

Corporate Angular Training Course

Instructor-led — Virtual, On-site, Off-site

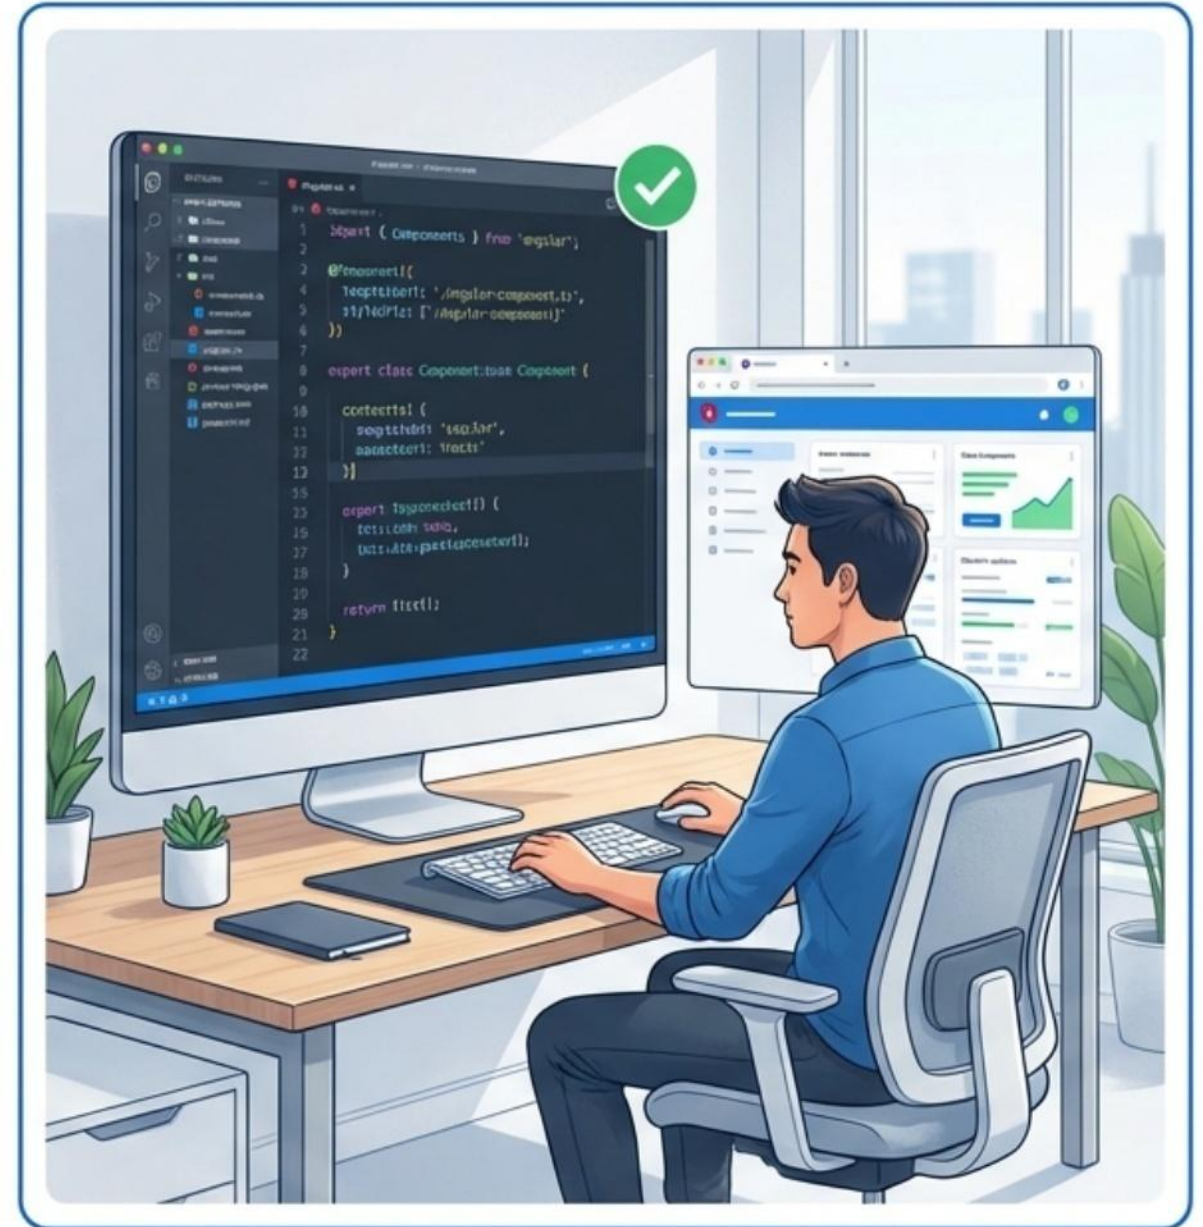

Angular Core Concepts

Two-Way Data Binding

Component-Based Design

Single-Page Applications

Services and Dependency Injection

Training for Global Web Dev Teams

24-32 hrs

Duration

**10
Languages**

Available In

**100+
Countries**

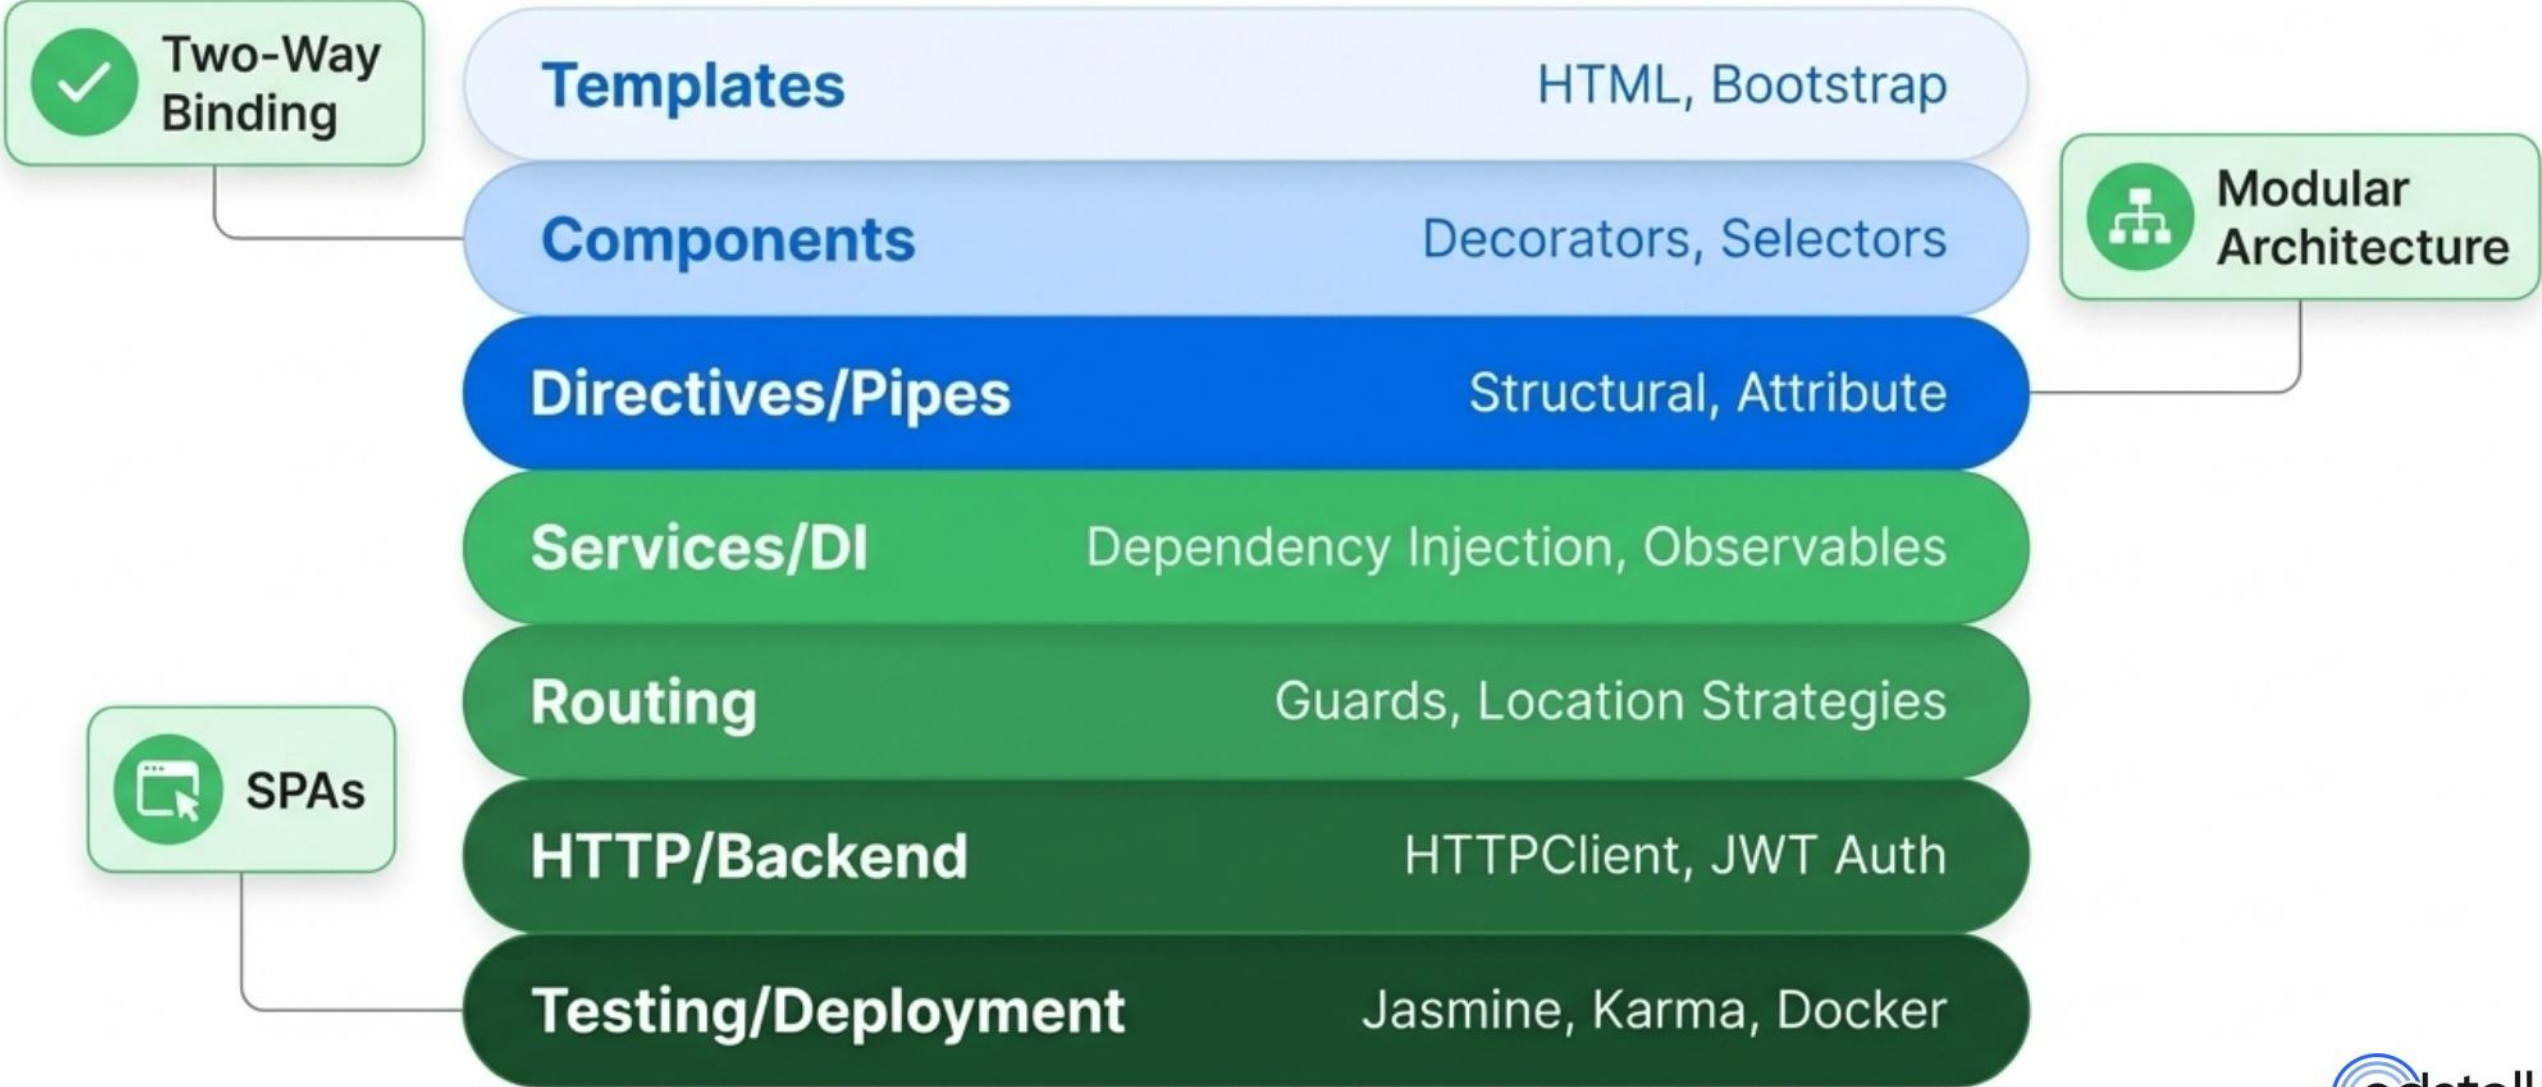

Global Reach

10,000+

Expert Trainers

Angular Architecture Overview

10 Comprehensive Training Modules

1. Getting Started with Angular

2. Angular Components and Data Binding

3. Angular Directives and Pipes

4. Angular Services and Dependency Injection

5. RxJS and HTTPClient

6. Angular Routes and Navigation

7. Handling Forms in Angular

8. Validating Angular Forms

9. Authentication with JWT and Security

10. Testing and Application Deployment

Key Skills Employees Gain

Angular Core Concepts

Component-Based Design

Services and
Dependency Injection

Two-Way Data Binding

Single-Page Applications (SPAs)

Dependency Injection
Architecture

Key Learning Outcomes

- ✓ Understand the core concepts and architecture of Angular to build robust foundations.
- ✓ Apply two-way data binding to create dynamic, real-time responsive applications.
- ✓ Design highly modular applications utilizing Angular's component-based architecture.
- ✓ Develop seamless Single-Page Applications (SPAs) using Angular's routing mechanisms.
- ✓ Implement Angular services and dependency injection to optimize code reuse and application efficiency.

What Your Team Will Master

TypeScript

Components

Routing

JWT Authentication

Jasmine/Karma Testing

Docker Deployment

Scale modular Angular applications easily

Ensure consistent quality across projects

Reduce reliance on external consultants

Build faster, highly responsive web apps

Manage components independently without breaking systems

Who Is This Training For?

Prerequisite: Basic HTML, JavaScript, and TypeScript

**Web
Developers**

**Front-End
Developers**

**Full-Stack
Developers**

**JavaScript
Developers**

**UI/UX
Designers**

**Software
Engineers**

**Mobile App
Developers**

**Technical
Leads**

**Software
Architects**

**DevOps
Engineers**

**Quality
Assurance
Managers**

**Test
Engineers**

Prerequisites for This Course

Basic HTML and JavaScript Knowledge

Basic TypeScript Knowledge

Note: Modern Angular is entirely TypeScript-based. This training focuses on the modern 2+ framework, differing significantly from older, JavaScript-based AngularJS.

Flexible Corporate Training Delivery

Virtual Live Instructor-Led

- Train teams anywhere, highly scalable for large groups, consistent global quality, uses interactive engagement tools.

On-site Face-to-Face

- High engagement in your own office, tailored to your workplace environment, real-time live demonstrations, fosters team collaboration.

Off-site Face-to-Face

- Distraction-free immersive environment, improves team bonding, dedicated scheduling, boosts employee morale.

Why Choose Edstellar

Experienced Trainers

Vetted, certified industry experts.

Quality Assurance

Global track record for engagement and retention.

Industry Curriculum

Expert-designed to meet current tech demands.

Customizable

Tailored directly to your enterprise architecture goals.

Comprehensive Support

Dedicated pre- and post-training assistance.

Multilingual

Delivered seamlessly across 10 global languages.

Training Packages for Every Organization

Starter

120 Licenses

64 hours group training

Tailored for SMBs.

Most Popular

Growth

320 Licenses

160 hours group training

Ideal for growing SMBs.

Enterprise

800 Licenses

400 hours group training

Designed for large corporations.

Custom

Unlimited Licenses

Unlimited duration

Designed for massive scale.

What Our Clients Say

Sarah Stevens

Senior Software Engineer, Enterprise Frontend Solutions Provider

"...productivity and technical capabilities have increased dramatically..."

Balint Toth

Senior Software Engineer, TypeScript Development Company

"...enabled us to secure a transformative contract with a Fortune 100 organization..."

Qasim Wasim

Senior Software Engineer, Angular Consulting Services Firm

"...automated 18 critical business processes, reducing manual effort by 70%."

Aditi Rao

L&D Head, A Global Technology Company

"...instrumental in strengthening our engineering teams and building future-ready capabilities..."

Globally Trusted by Top Clientele

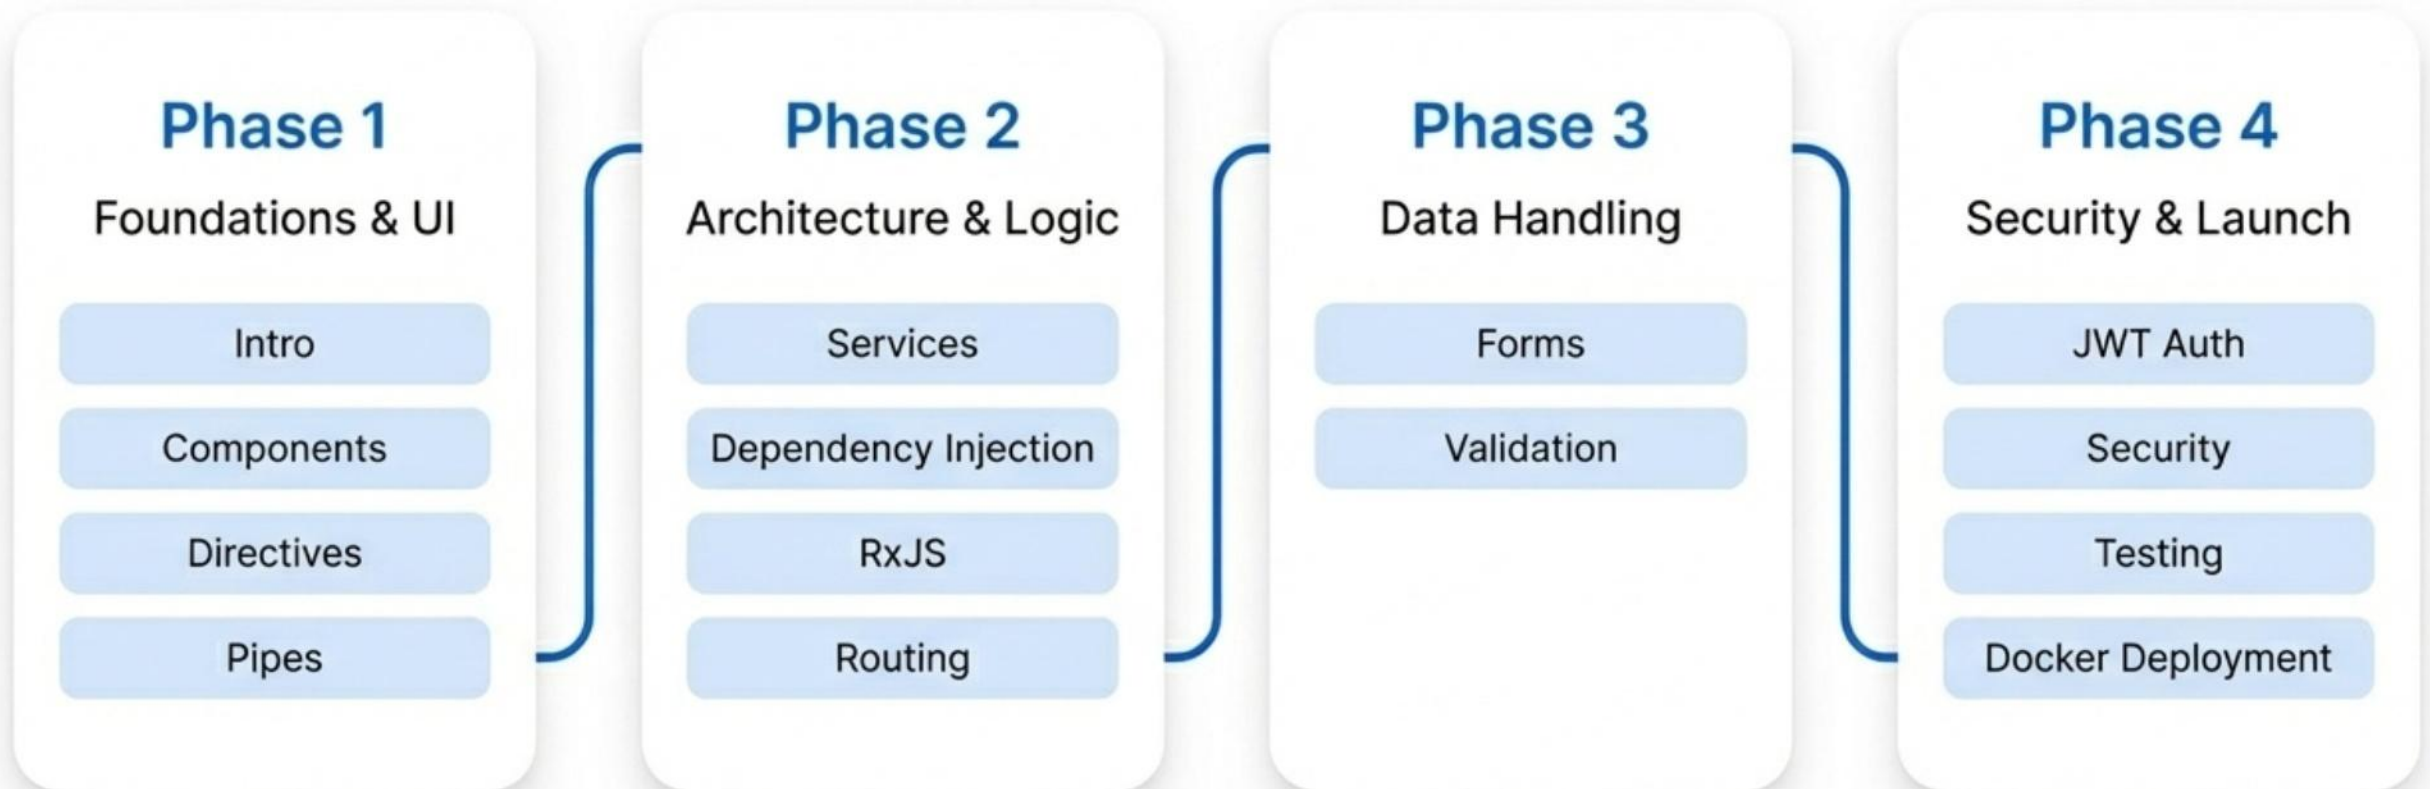

Course Completion Certificate

Validate your team's newly acquired skills with globally recognized credentials that inspire ongoing professional development.
