

The Vanguard of User-Centric Design

Corporate UI/UX Training Course: Equip your teams with aesthetic design skills and design thinking to drive brand domain success.

The Shift in Organizational Upskilling

Fragmented Ecosystem

Vendor reliability issues, content update delays, and logistical complications across geographies.

The Edstellar Platform

Centralized training management, verified industry-expert trainers, and seamless HRMS integration.

Scalable Excellence

Seamless UI/UX capability building with a 5x to 10x scale in training administration and uniform learning outcomes globally.

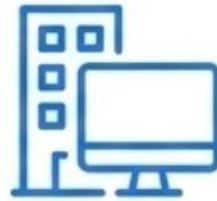

The UI/UX Course Architecture

16 - 24 Hours
Course Duration

Instructor-led
Group Training

Virtual, On-site,
or Off-site
Delivery

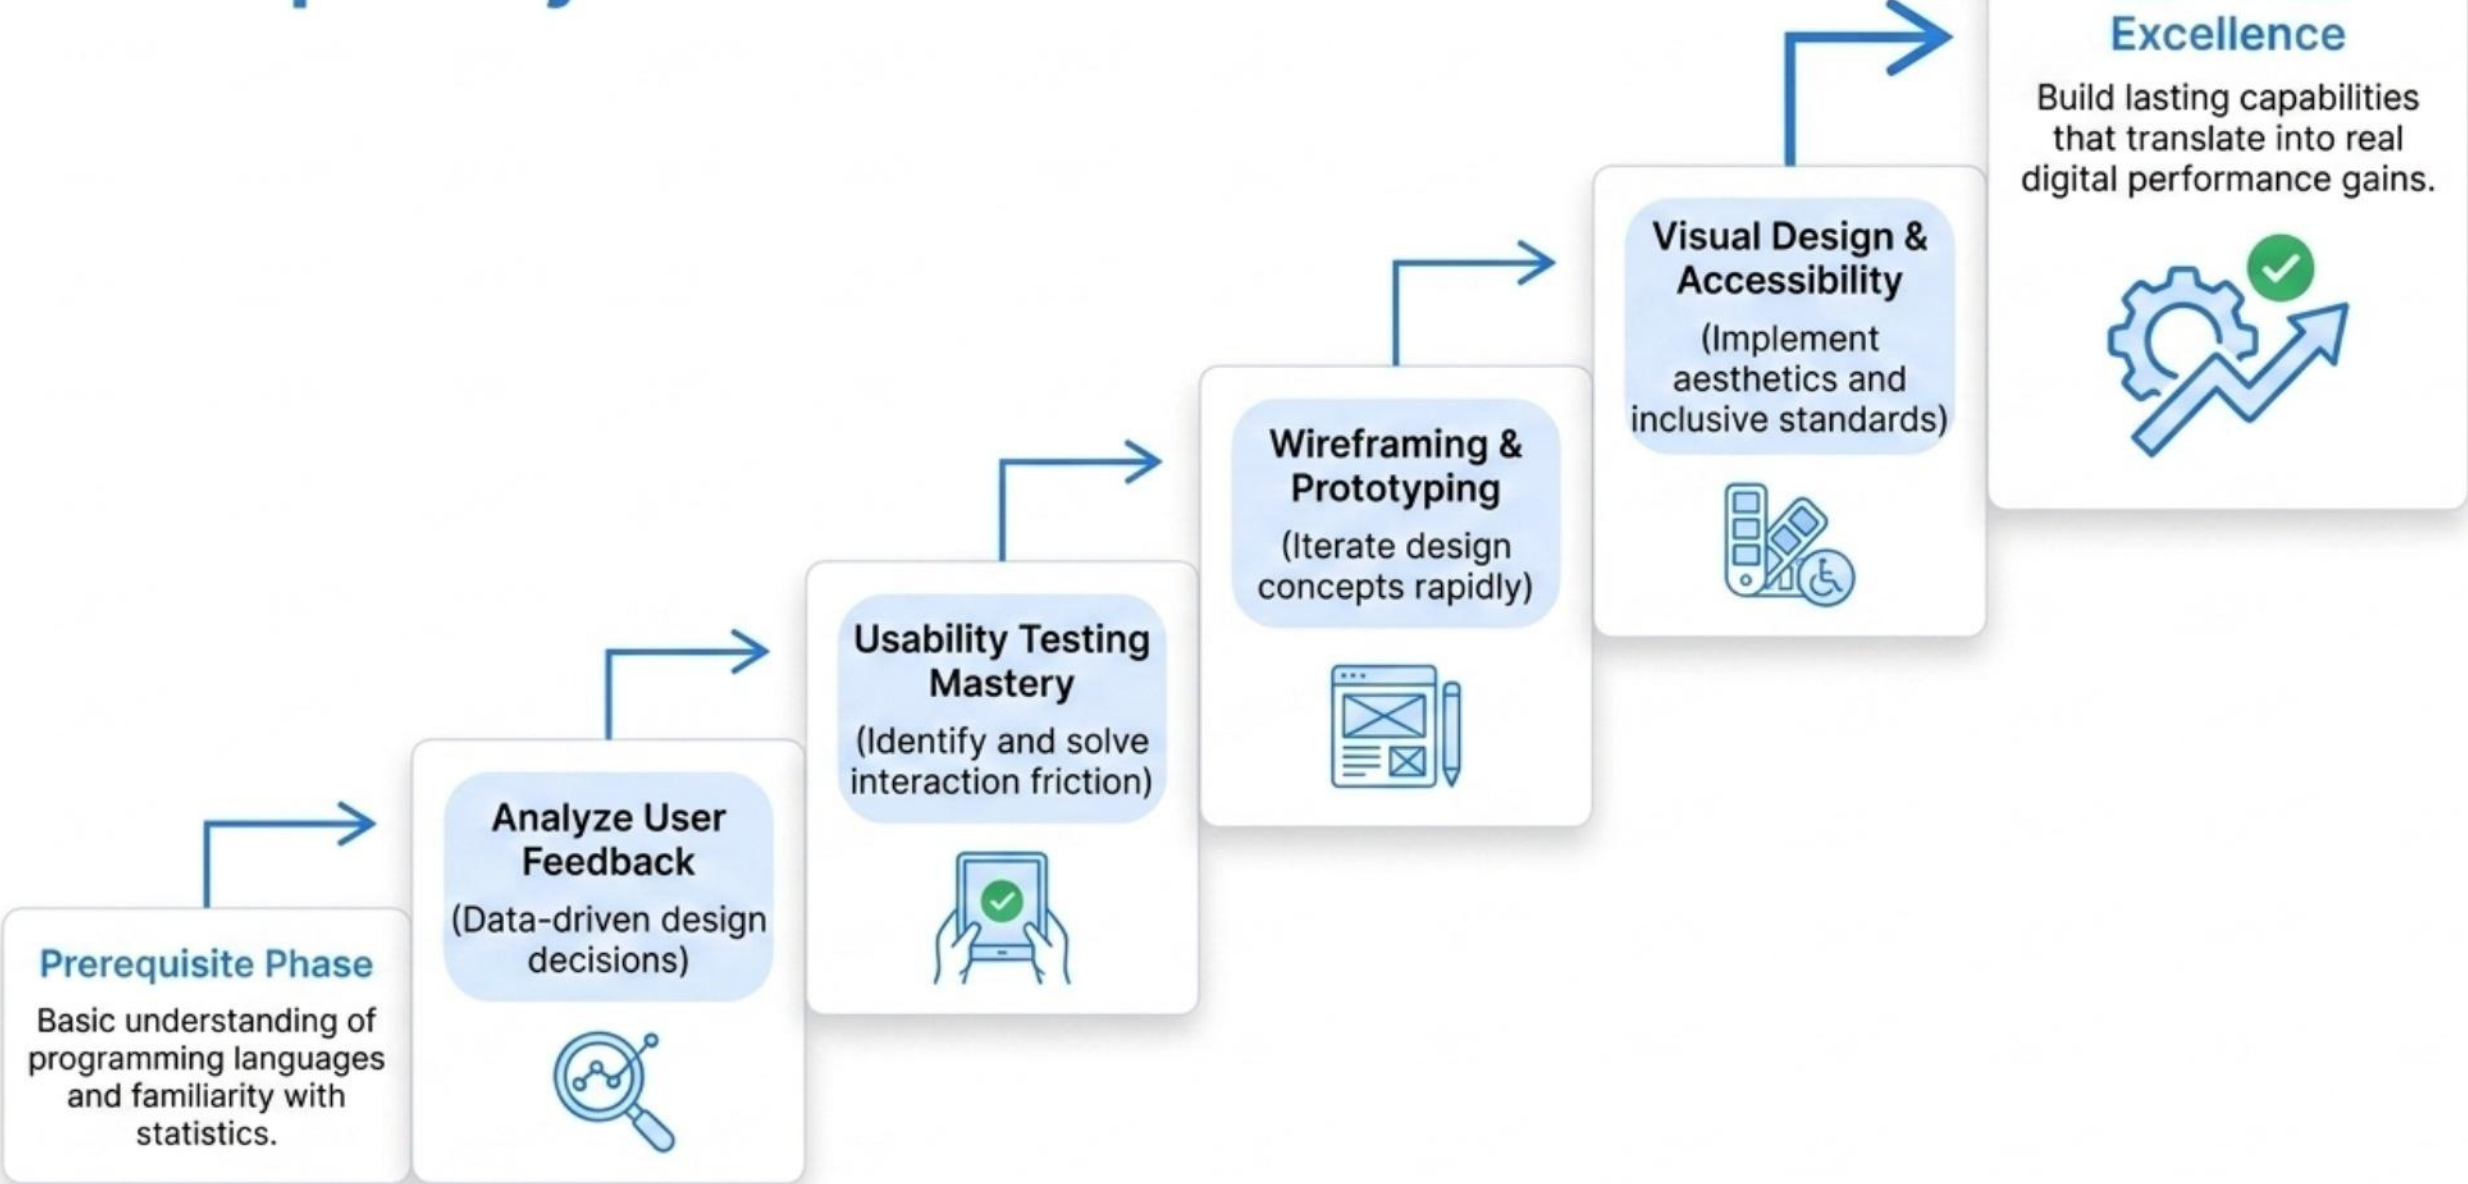

10,000+ Verified
Trainers Globally

The Capability Activation Curve

The Phased Transformation Strategy

Phase 1: Conceptual Foundations

Modules 1 & 2

Mastering the historical evolution, core characteristics, and the practical implications of UI vs UX in product design.

Phase 2: Design & Prototyping

Modules 3 & 4

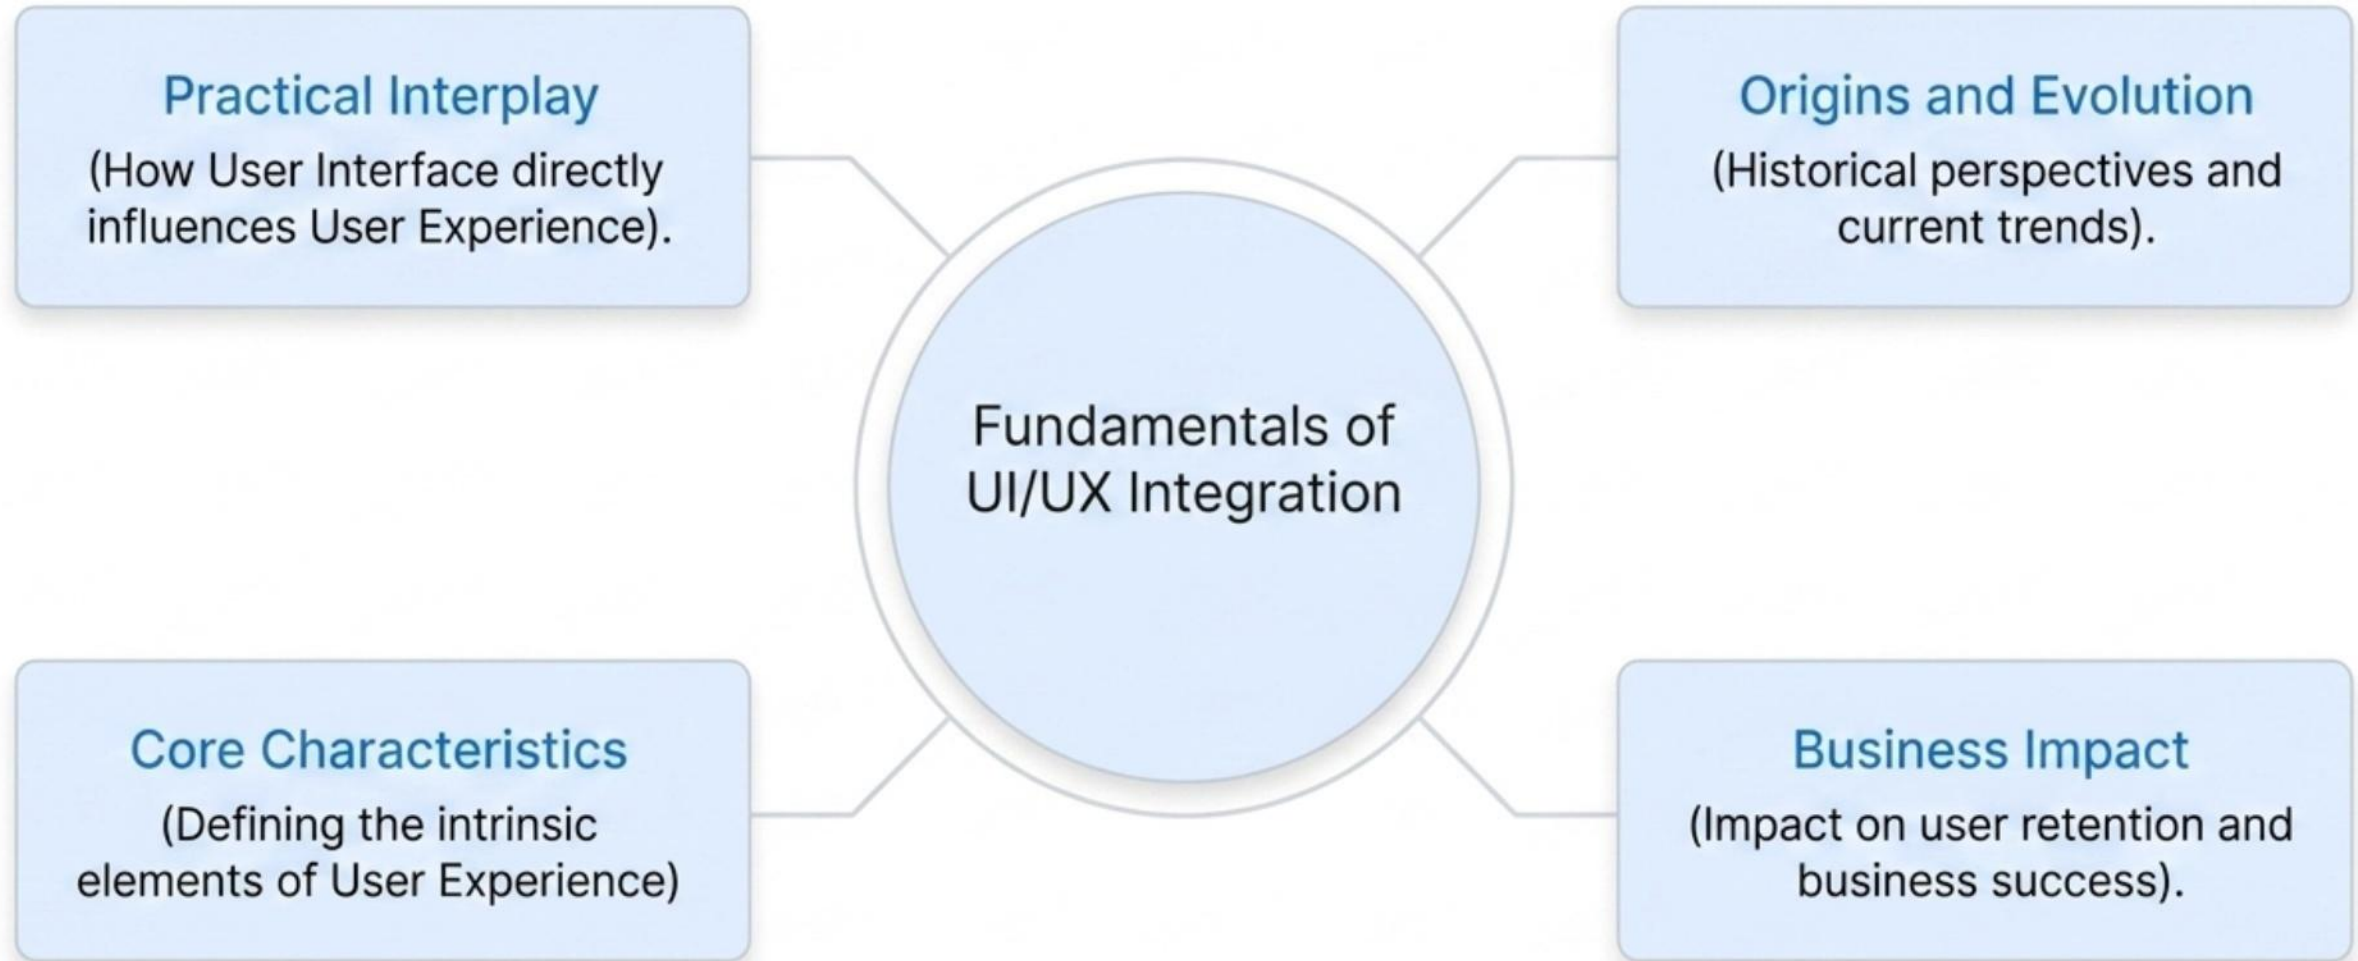

Executing user-centered methodologies, empathy in design, and visual UI styling using industry-standard prototyping tools.

Phase 3: Validation & Delivery

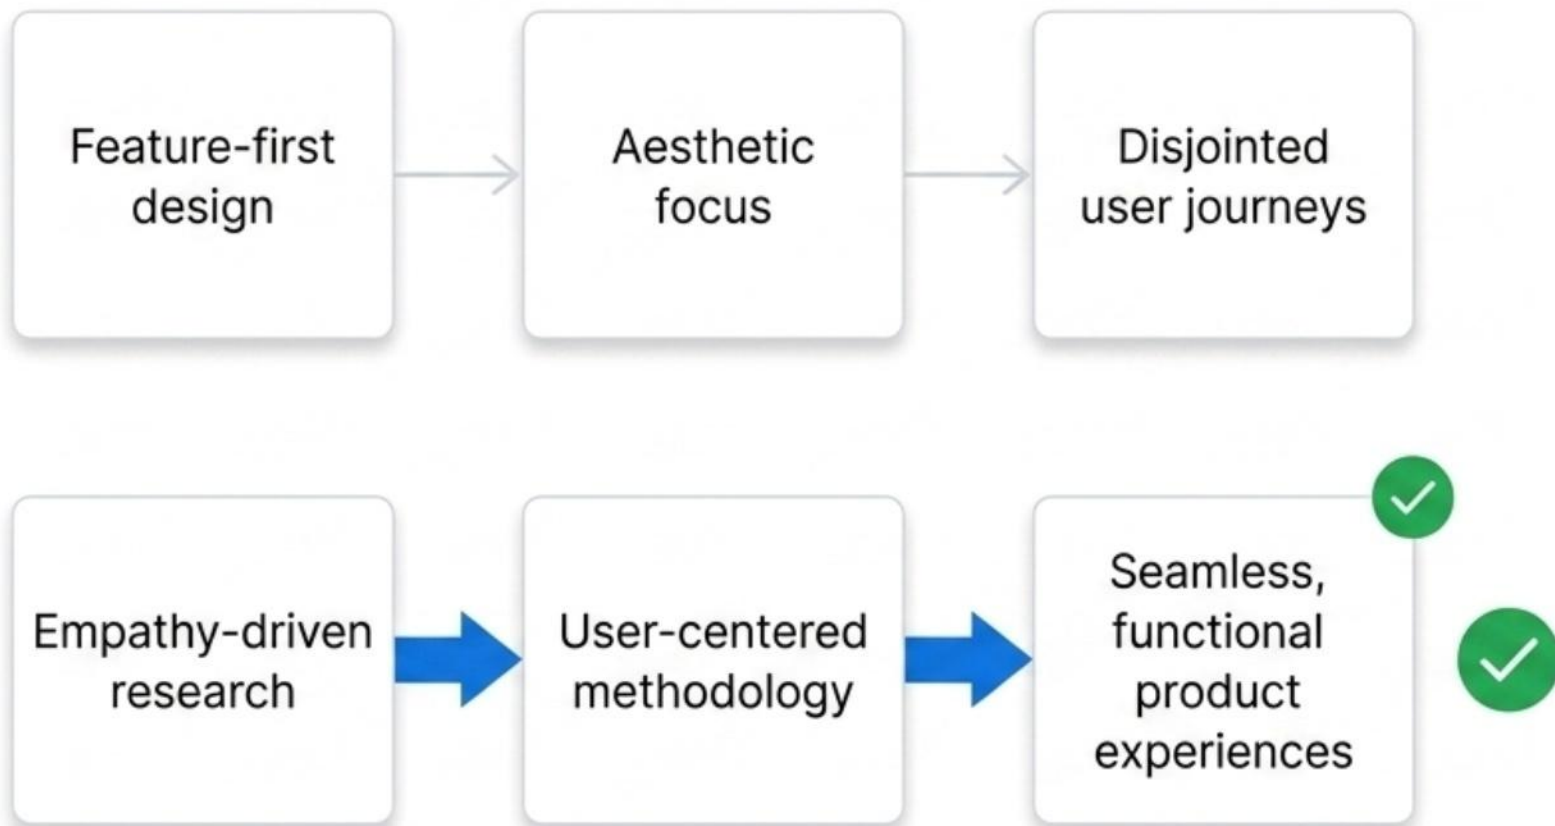

Modules 5 & 6

Conducting advanced UX research, user testing, and synthesizing feedback into a peer-reviewed, storytelling-driven professional portfolio.

Phase 1: Conceptual Foundations

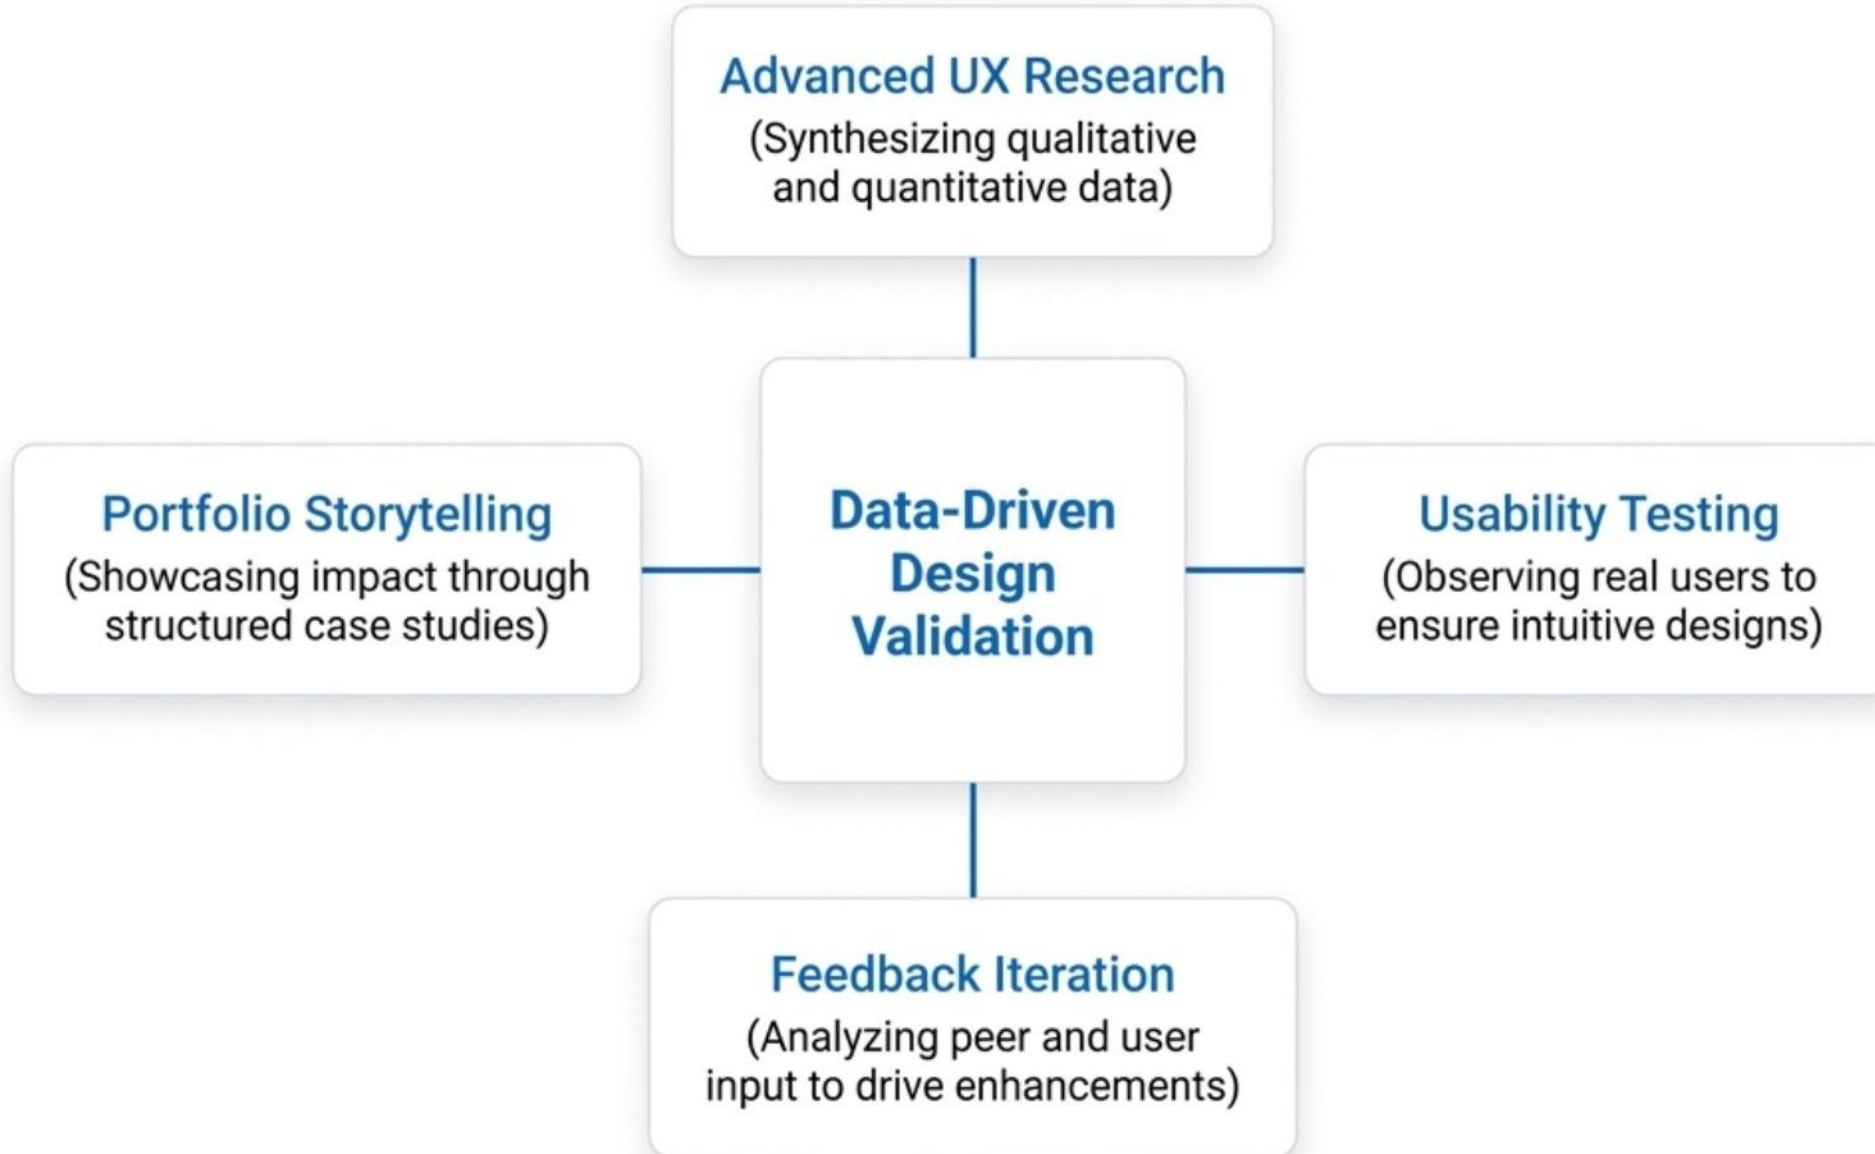

Phase 2: Design and Prototyping

Acquired Toolkit

-  Wireframing and Prototyping
-  Visual Design Principles
-  User Experience Best Practices
-  Accessibility Implementation

Phase 3: Validation and Delivery

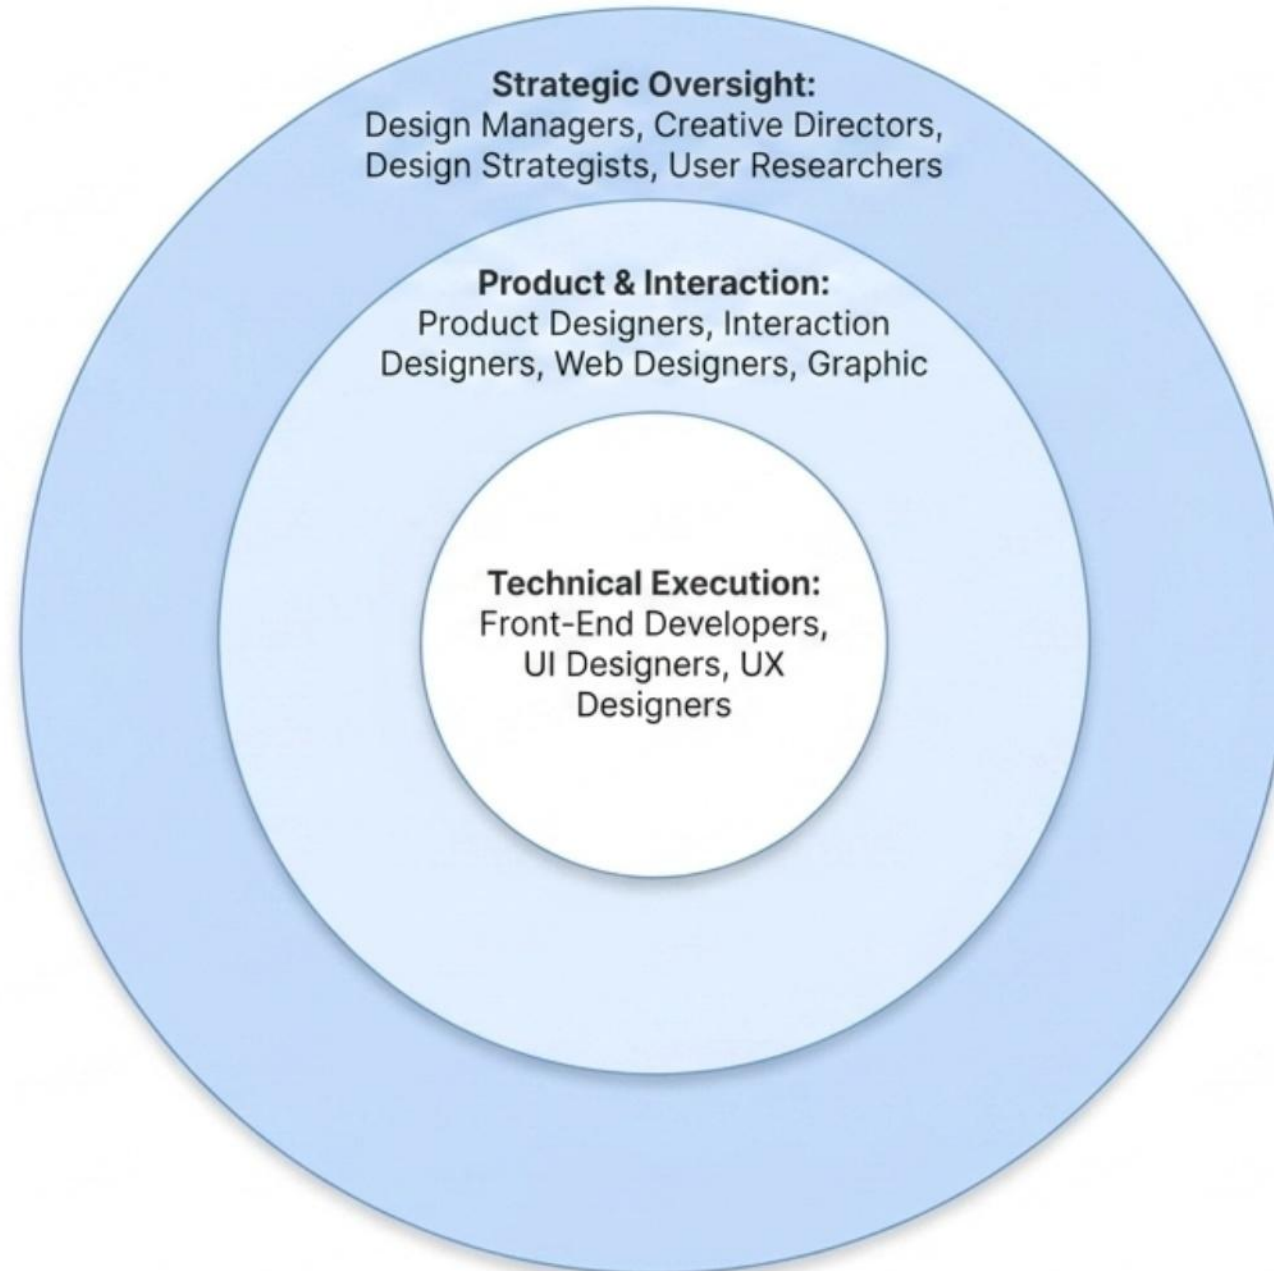

Strategic Challenge Resolution Matrix

Enterprise Challenge	Course Module Solution	Platform Advantage
Disconnected User Experiences	Modules 1 & 2: User-Centered Design Principles	Tailored curriculum mapped to specific business goals.
Inefficient Product Iteration	Modules 3 & 4: Prototyping Tools & Techniques	Live virtual or hybrid hands-on labs for instant application.
Lack of Data-Backed Design	Modules 5 & 6: UX Research and Usability Testing	Real-time analysis and centralized skills matrix tracking.

The Edstellar Efficiency Engine

Target Audience Alignment

Flexible Global Delivery Modalities

Virtual Live Instructor-led

- Global reach from various locations.
- Consistent training quality and uniform outcomes.
- Interactive tools to enhance learning engagement.

On-site Face to Face

- Workplace environment tailored to requirements.
- Demonstration of processes for hands-on learning.
- Team collaboration improves training effectiveness.

Off-site Face to Face

- Distraction-free environment improves engagement.
- Team bonding improved through activities.
- Boosts employee morale and reflects commitment to development.

Proof of Impact

“The UI/UX training exceeded my expectations in every way. As a Principal Android Engineer, I gained comprehensive knowledge of user interface design that transformed my approach to design thinking. The hands-on [exercises were] incredibly practical and immediately applicable. My ability to architect solutions and solve complex problems has improved substantially. The instructor’s expertise in usability testing made complex concepts crystal clear and actionable.”

Ian Grant

Principal Android Engineer

IT Services and Solutions Provider

Borderless Upskilling Infrastructure

Delivery Capability
Across **100+ Countries**

Training Available in
10+ Languages
(Including English, Spanish, Mandarin,
German, French, Japanese)

Accelerate Your Design Transformation

Empower your teams with verified, expert-led UI/UX training. Schedule a tailored group training consultation to address your organizational skilling gaps today.
