

Configuration Management Tools Corporate Training

Drive Team Excellence And System Integrity With Expert-Led Automation

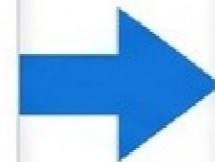

The Infrastructure Management Paradigm Shift

Manual Configuration

Manual Configuration

High risk of system drifts, discrepancies between environments, and slow recovery from outages.

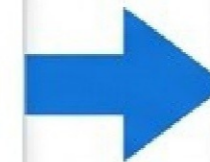

Edstellar Expert-Led Training

Edstellar Expert-Led Training

Implementing Infrastructure as Code (IaC) and standard practices via customized group training.

Automated Integrity

Always-deployable states, uniform compliance, and resilient, scalable IT infrastructure.

Executive Summary Of Training Operations

32 - 40 Hours
Duration

Instructor-Led
Group Training

Virtual / On-Site / Off-Site
Modalities

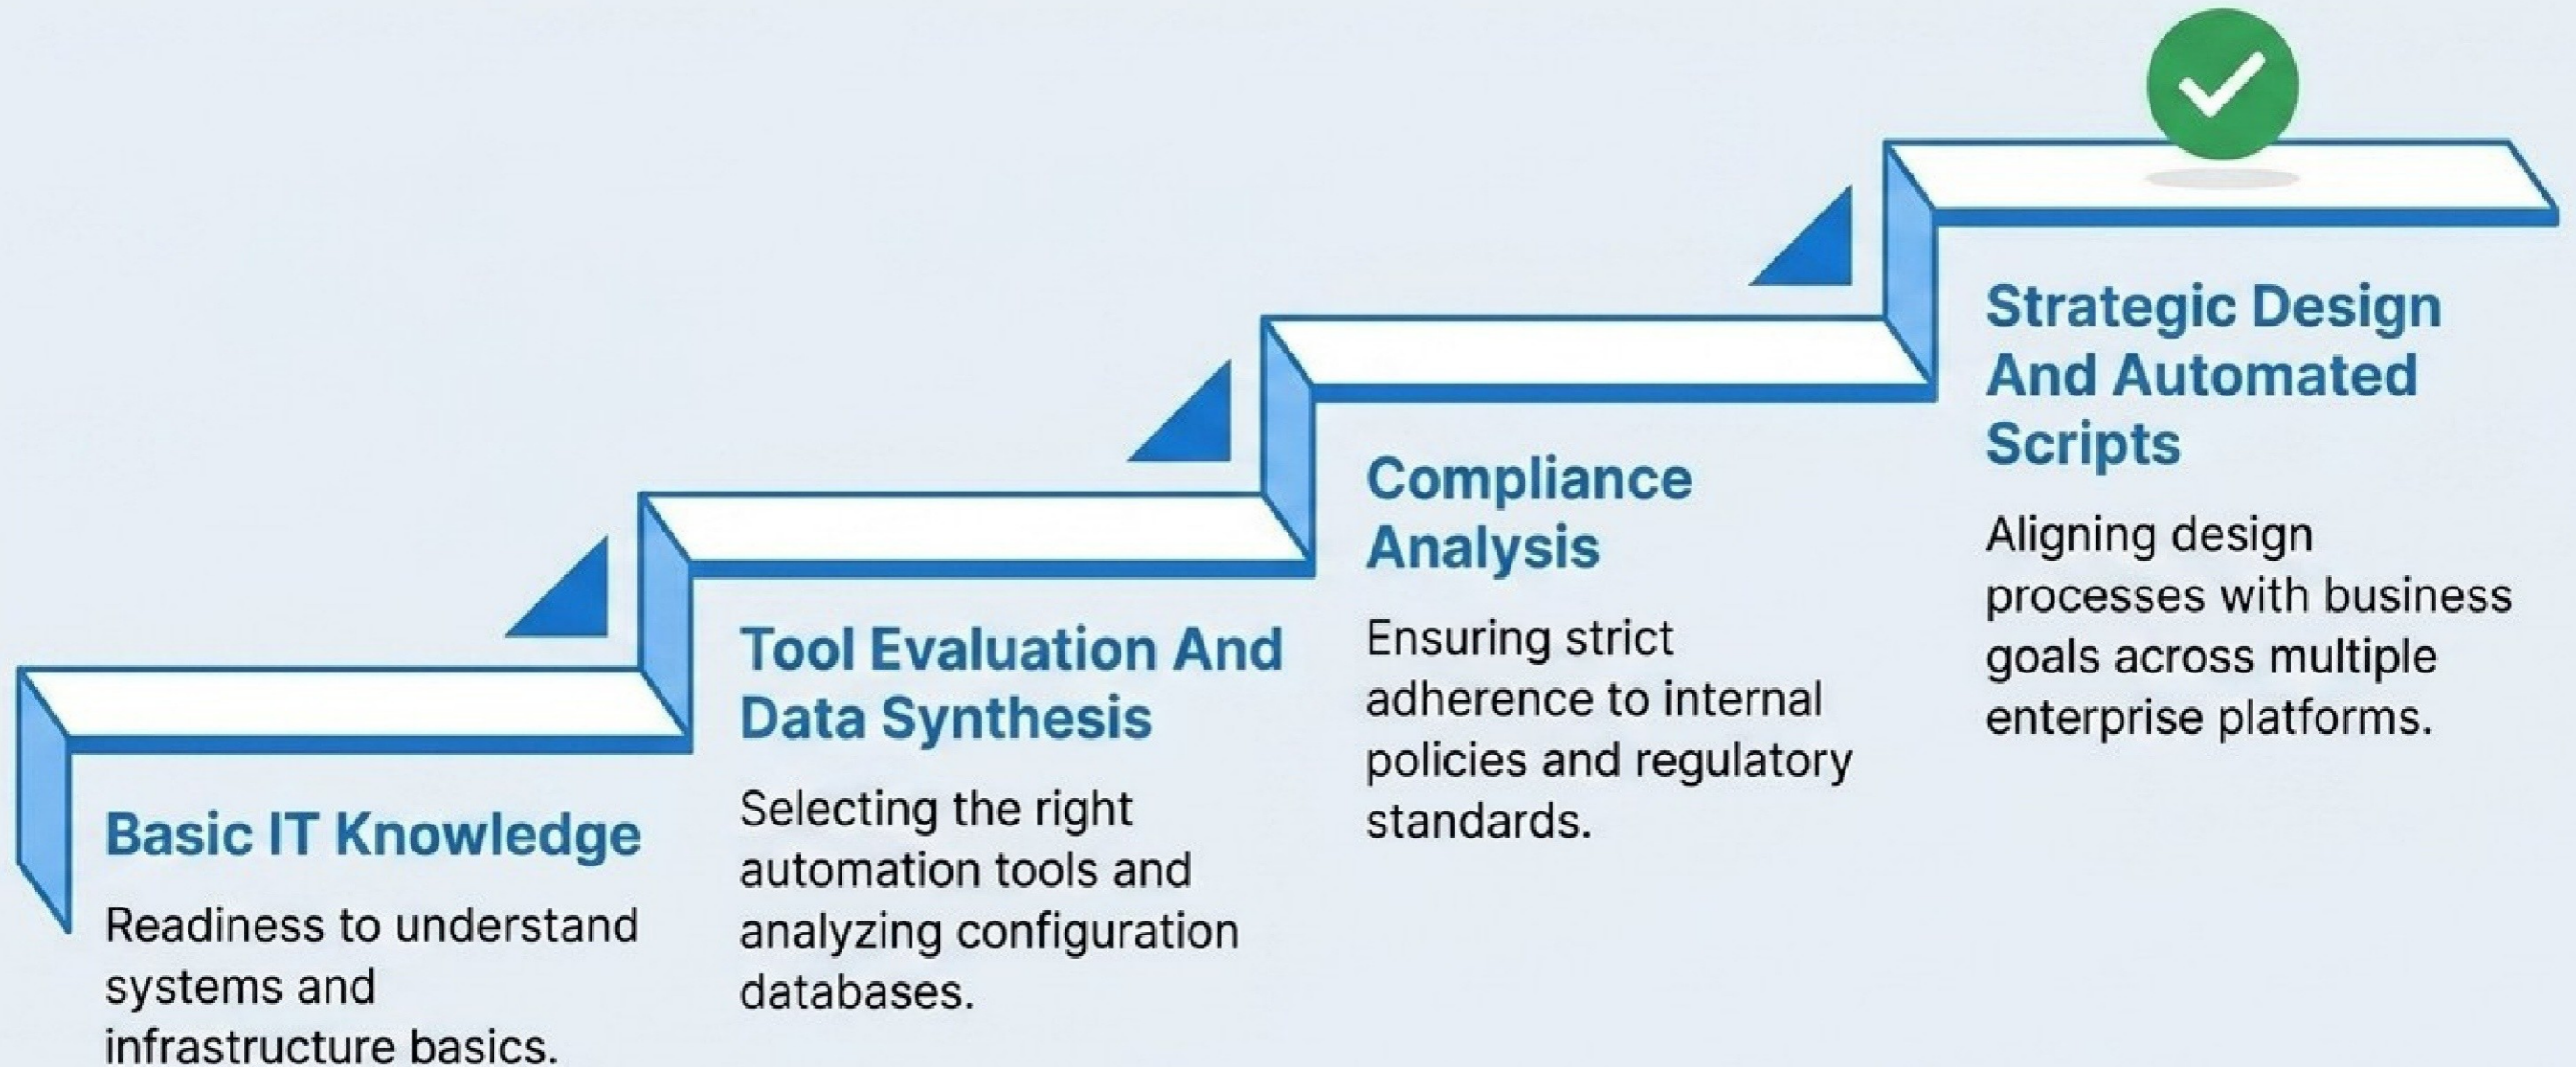

10,000+
Certified Trainers

Course Completion
Certificate

The Capability Activation Staircase

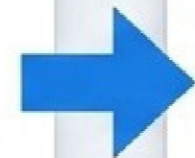

A Three-Phase Blueprint For System Integrity

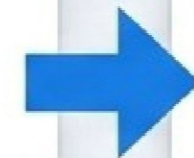

Foundation (Introduction)

Grasping Infrastructure as Code and desired state configuration.

Automation (Ansible, CFEngine, Chef)

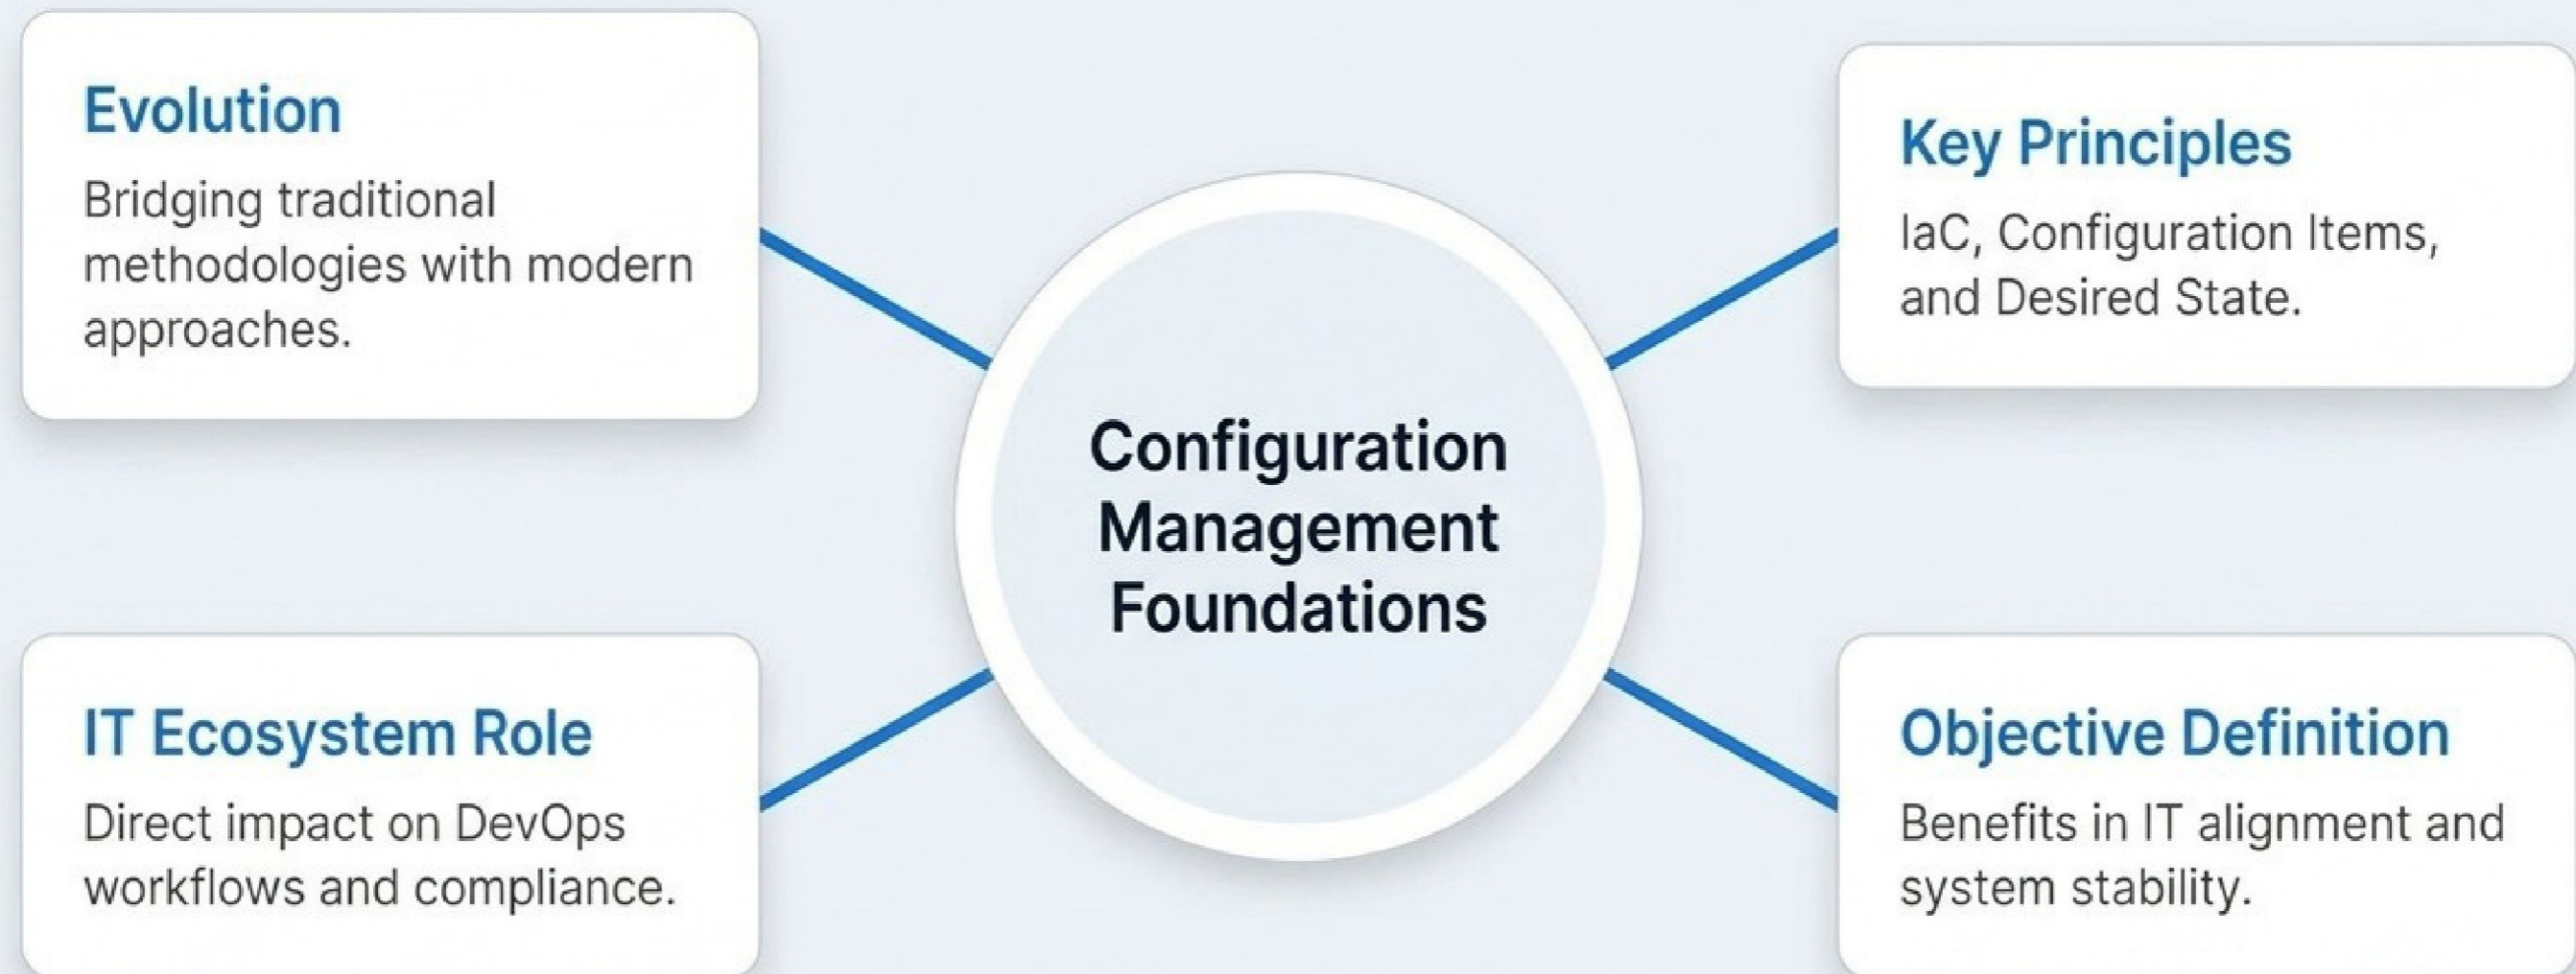

Establishing client-server models, writing playbooks, and developing recipes.

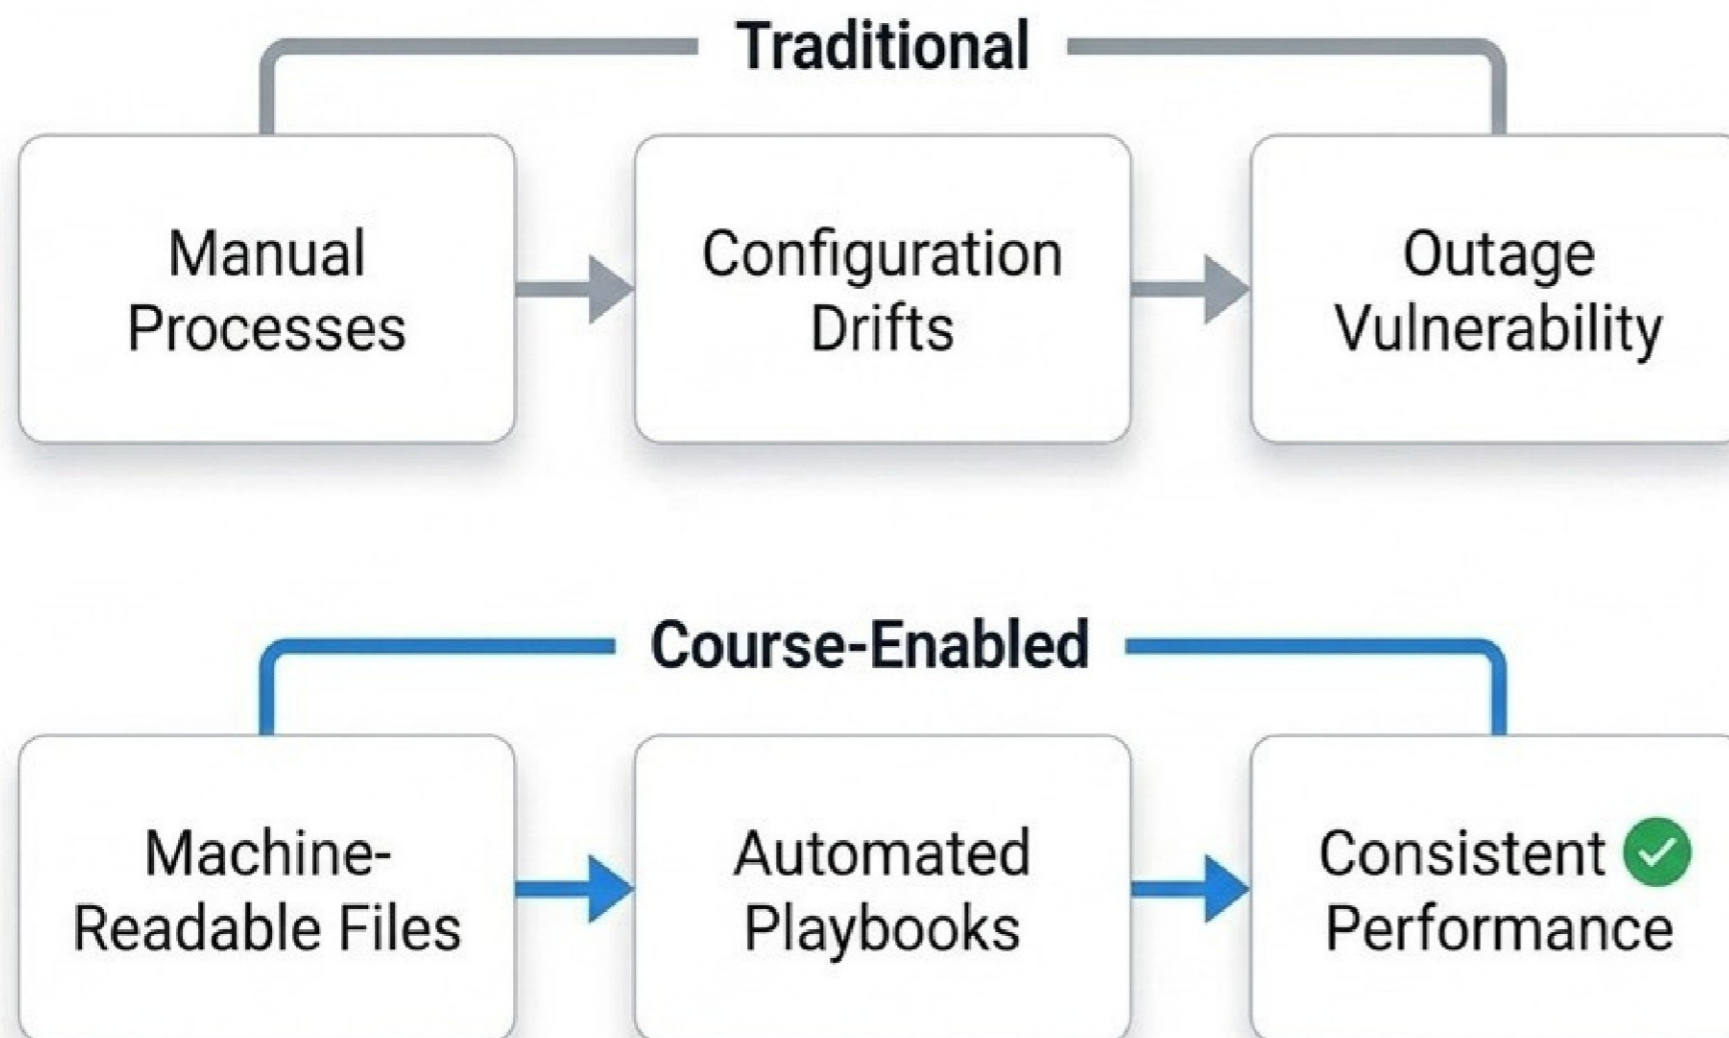

Orchestration (Puppet, Salt)

Crafting manifests, utilizing advanced Salt states, and event-driven infrastructure.

Phase 1 Establishing Infrastructure As Code Core

Phase 2 Transitioning To Automated Provisioning

1. Ansible Architecture

Bridging applicassives aares configuration management. Alc.

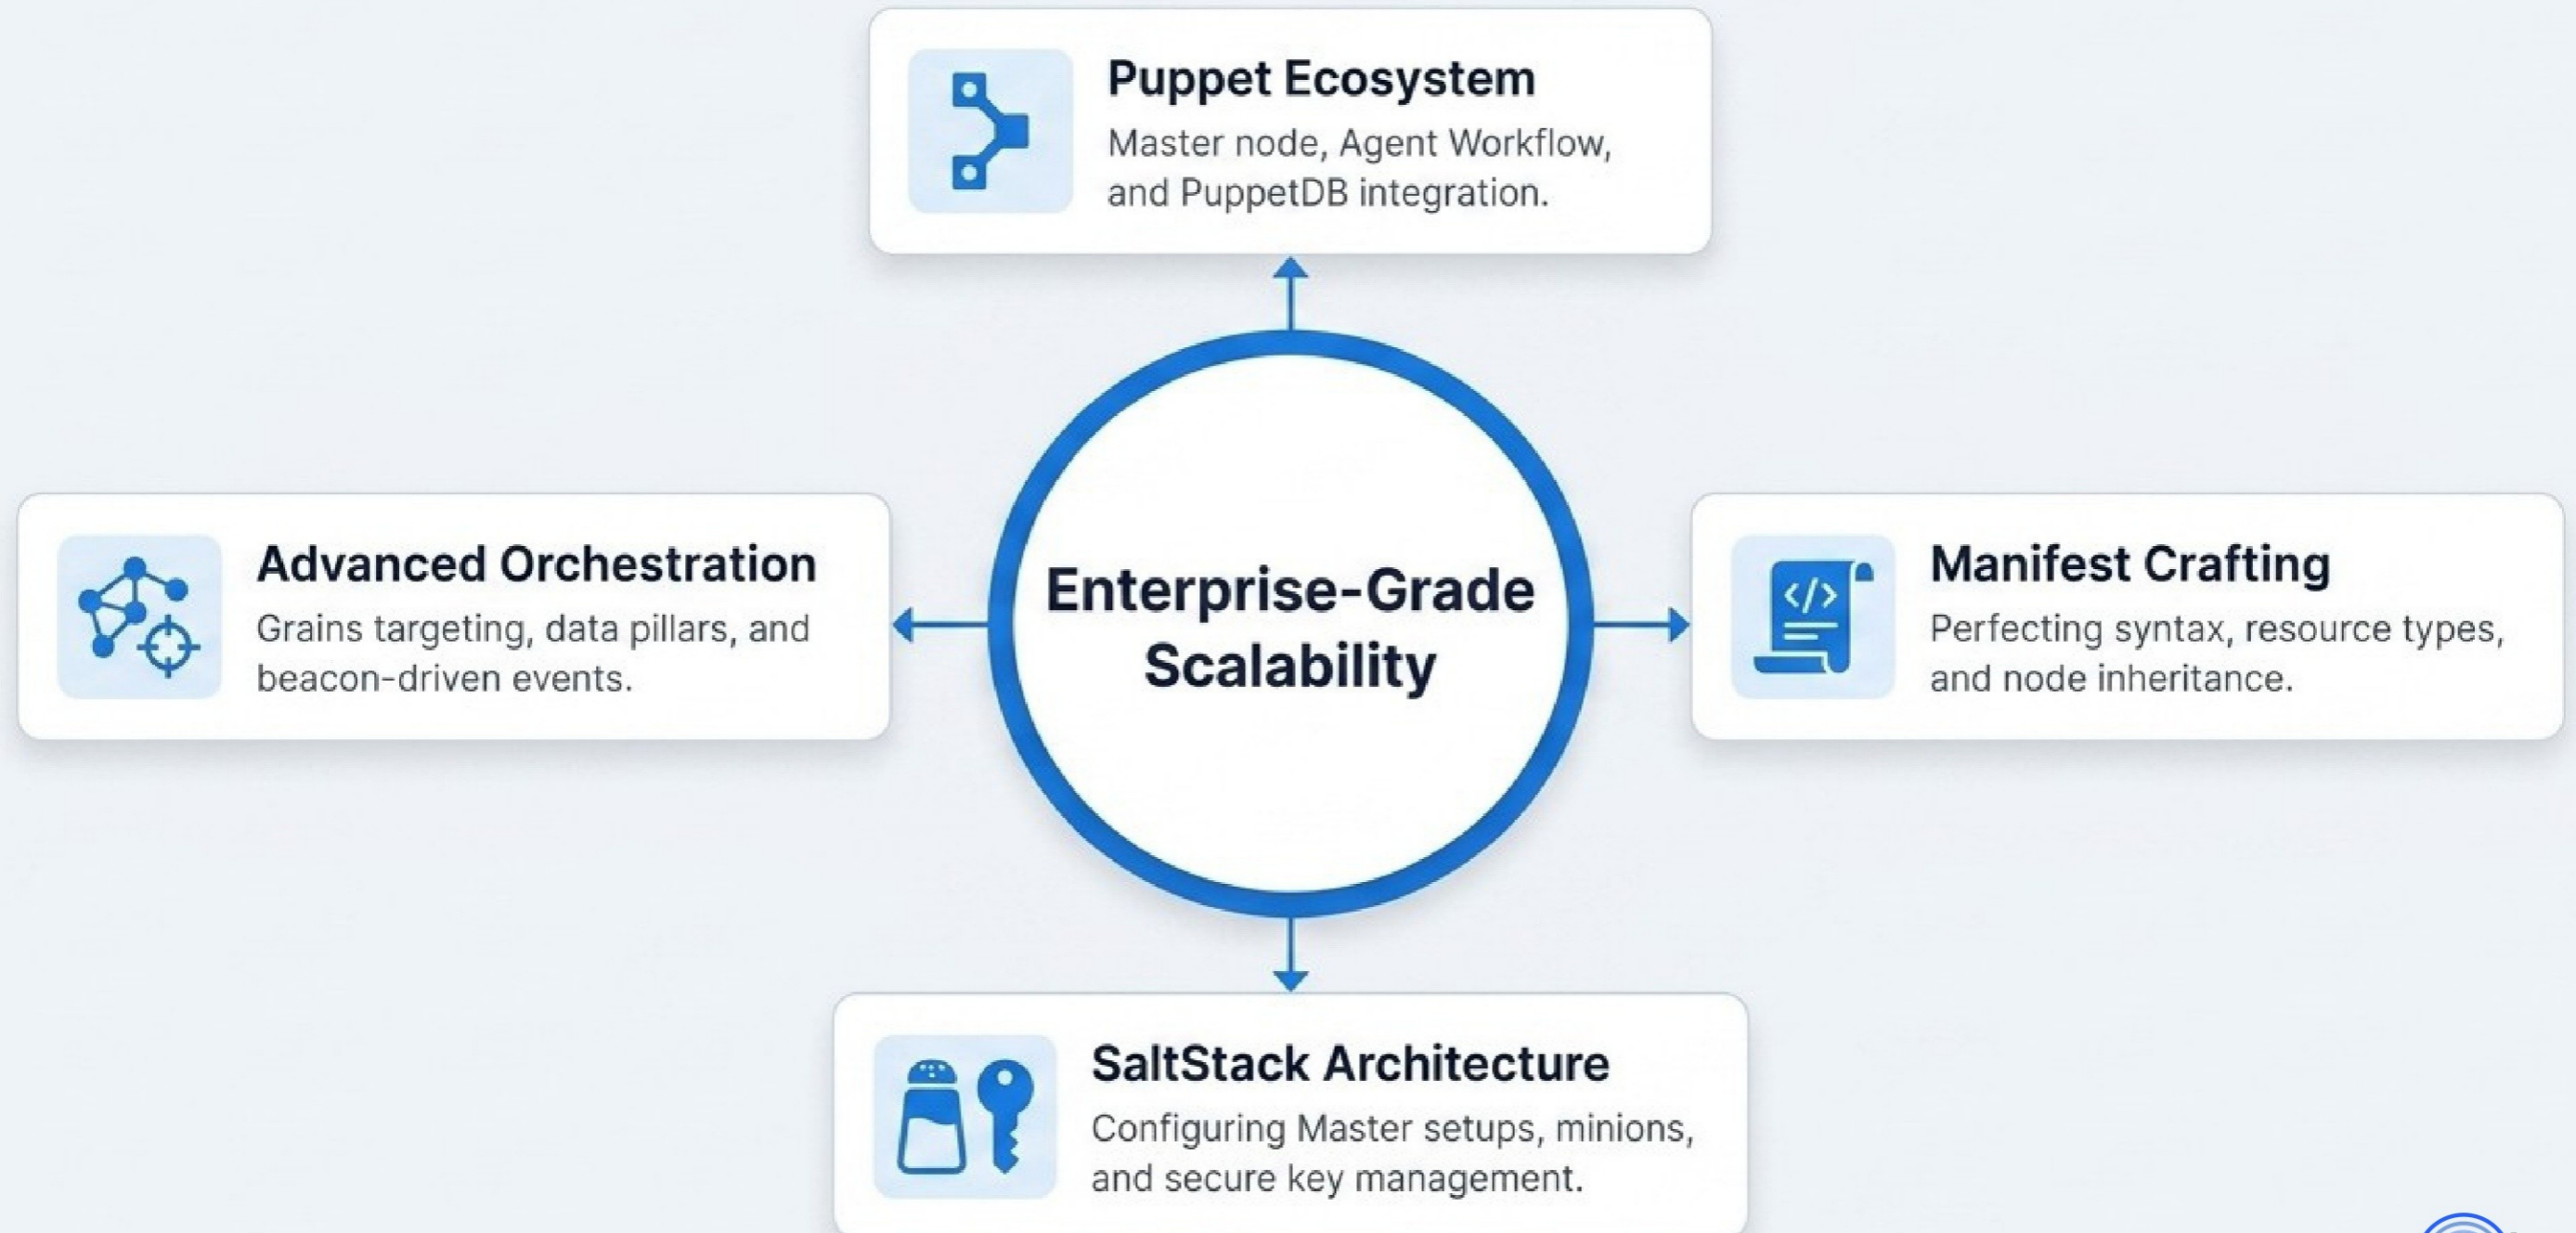

2. CFEngine Policies

Developing configuration vstent policies and a desired state.

3. Chef Workstations

4. Ruby DSL Recipes

Phase 3 Scaling With Advanced Orchestration

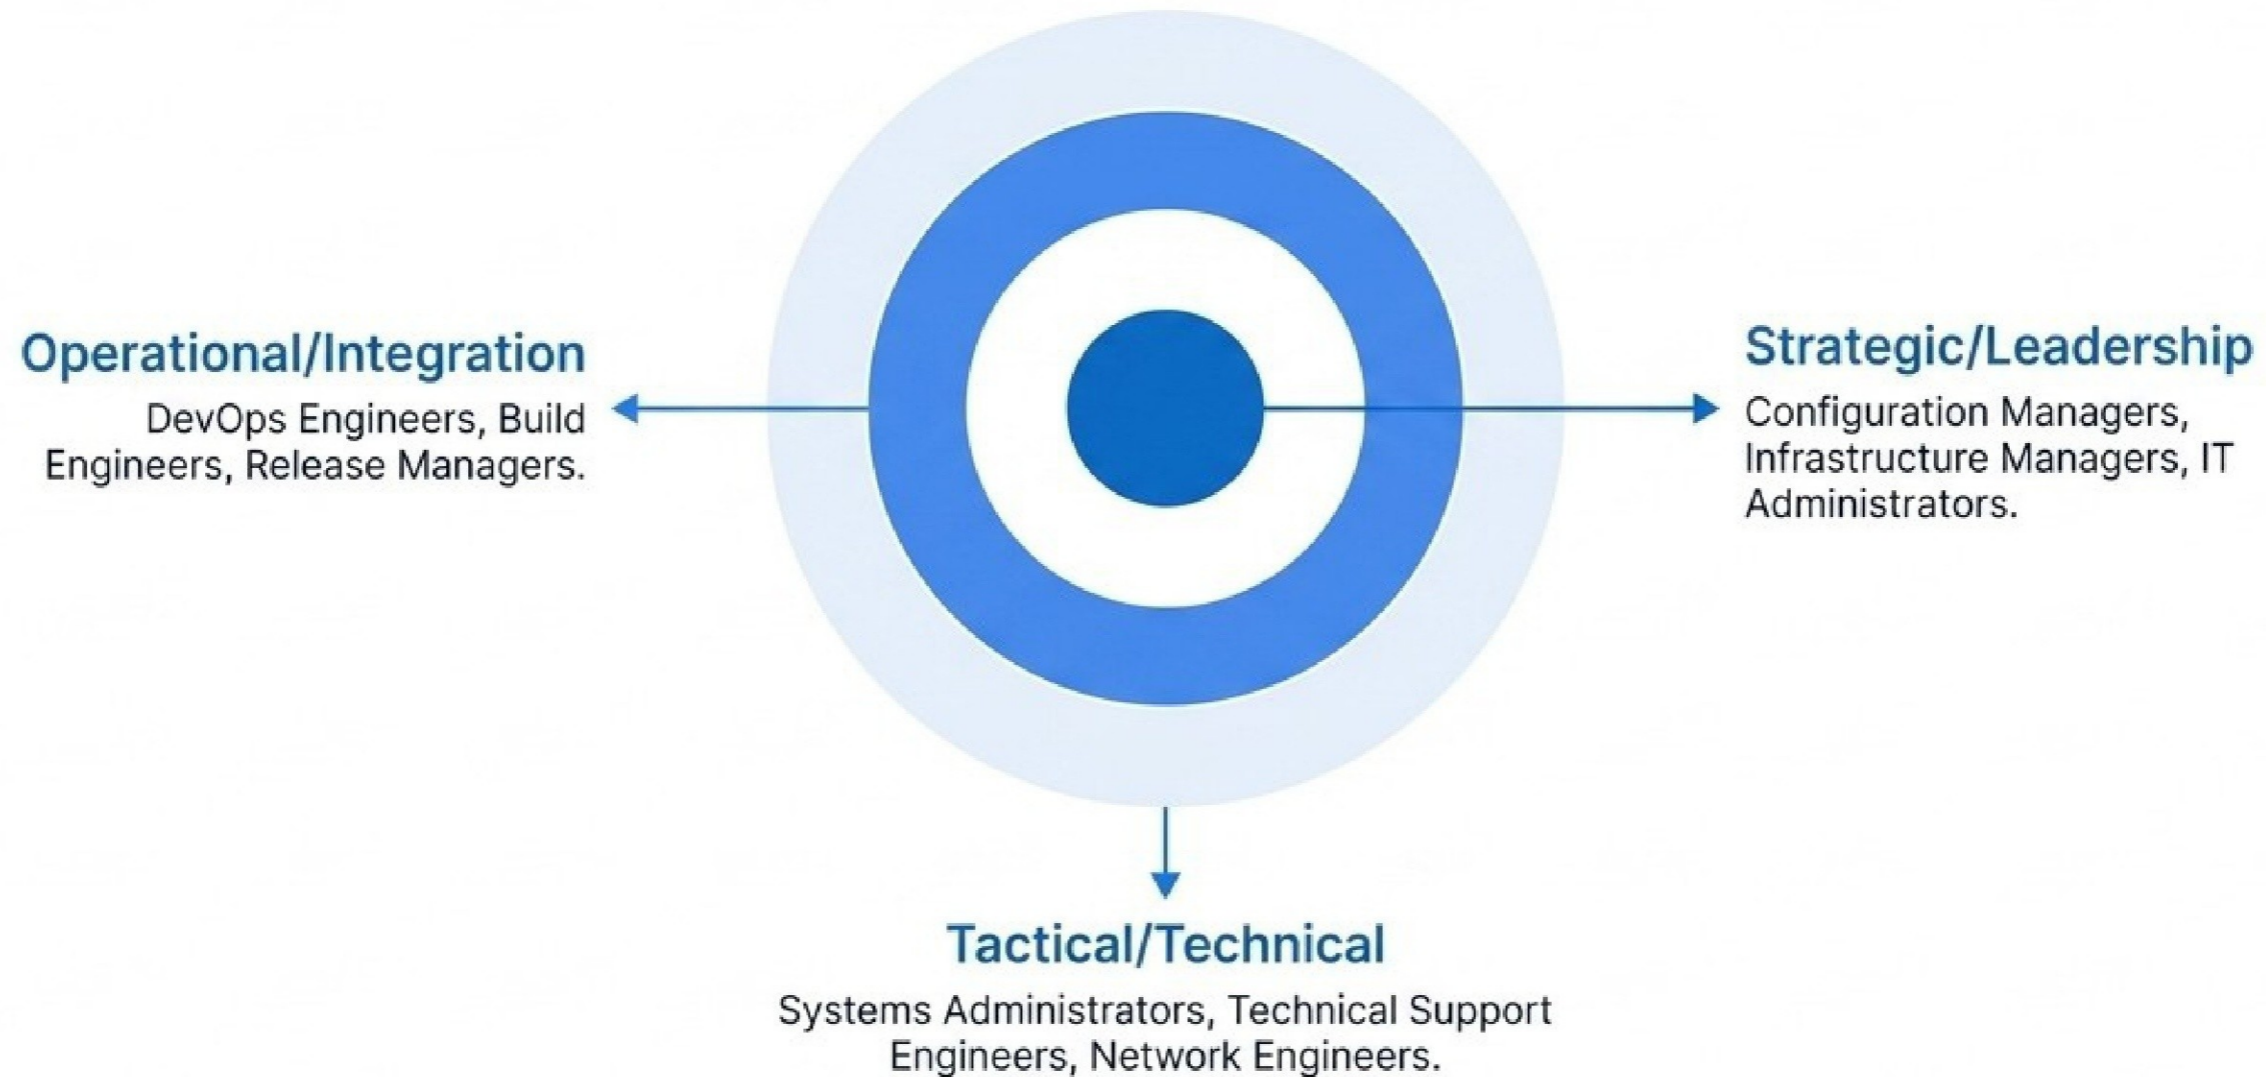

Targeting Organizational Skill Gaps

Role	Targeted Skill Acquisition	Business Outcome
DevOps Engineers	Tool Evaluation And Automated Scripts	Ensures Systems Are In Deployable State
IT Administrators	Monitoring And Reporting	Faster Recovery From Outages
Configuration Managers	Compliance Analysis	Uniform Application Of Security Measures

The Transformation Engine For Business ROI

Target Audience Alignment

Flexible Enterprise Deployment Options

Virtual Live Instructor-Led Training

Global reach for scattered teams.

Interactive tools for engagement.

Eliminates travel constraints.

On-Site Face To Face Training

Tailored to workplace environment.

Direct hands-on process demonstration.

High team collaboration.

Off-Site Face To Face Training

Distraction-free focus.

Dedicated scheduling.

Boosts employee morale and bonding.

Proof of Impact

“The Configuration Management Tools training exceeded my expectations in every way. As a Configuration Manager, I gained comprehensive knowledge of configuration automation that transformed my approach to Ops... My productivity and technical capabilities have increased dramatically.”

Barrett Ferguson

Configuration Manager

A major DevOps consulting and services firm

Global Reach And Delivery Capability

A faint, light gray world map is visible in the background of the slide, centered behind the text boxes.

Delivery Across 100+ Countries

Seamless global logistics for
enterprise teams.

Available In 10 Languages

English, Español, 普通话, Deutsch,
العربية, Português, हिंदी, Français,
日本語, and Italiano.
