

# Corporate Agile Estimation Training Course

Drive Team Excellence with Agile Estimation Mastery

# The Core Challenge & The Paradigm Shift

# Course Overview & The Edstellar Advantage

Empower employees to drive accurate project timelines by effectively gauging work complexity and duration.

## Experienced Experts

Highest quality instruction from seasoned industry experts delivering immersive, hands-on experiences.

## Customizable Scale

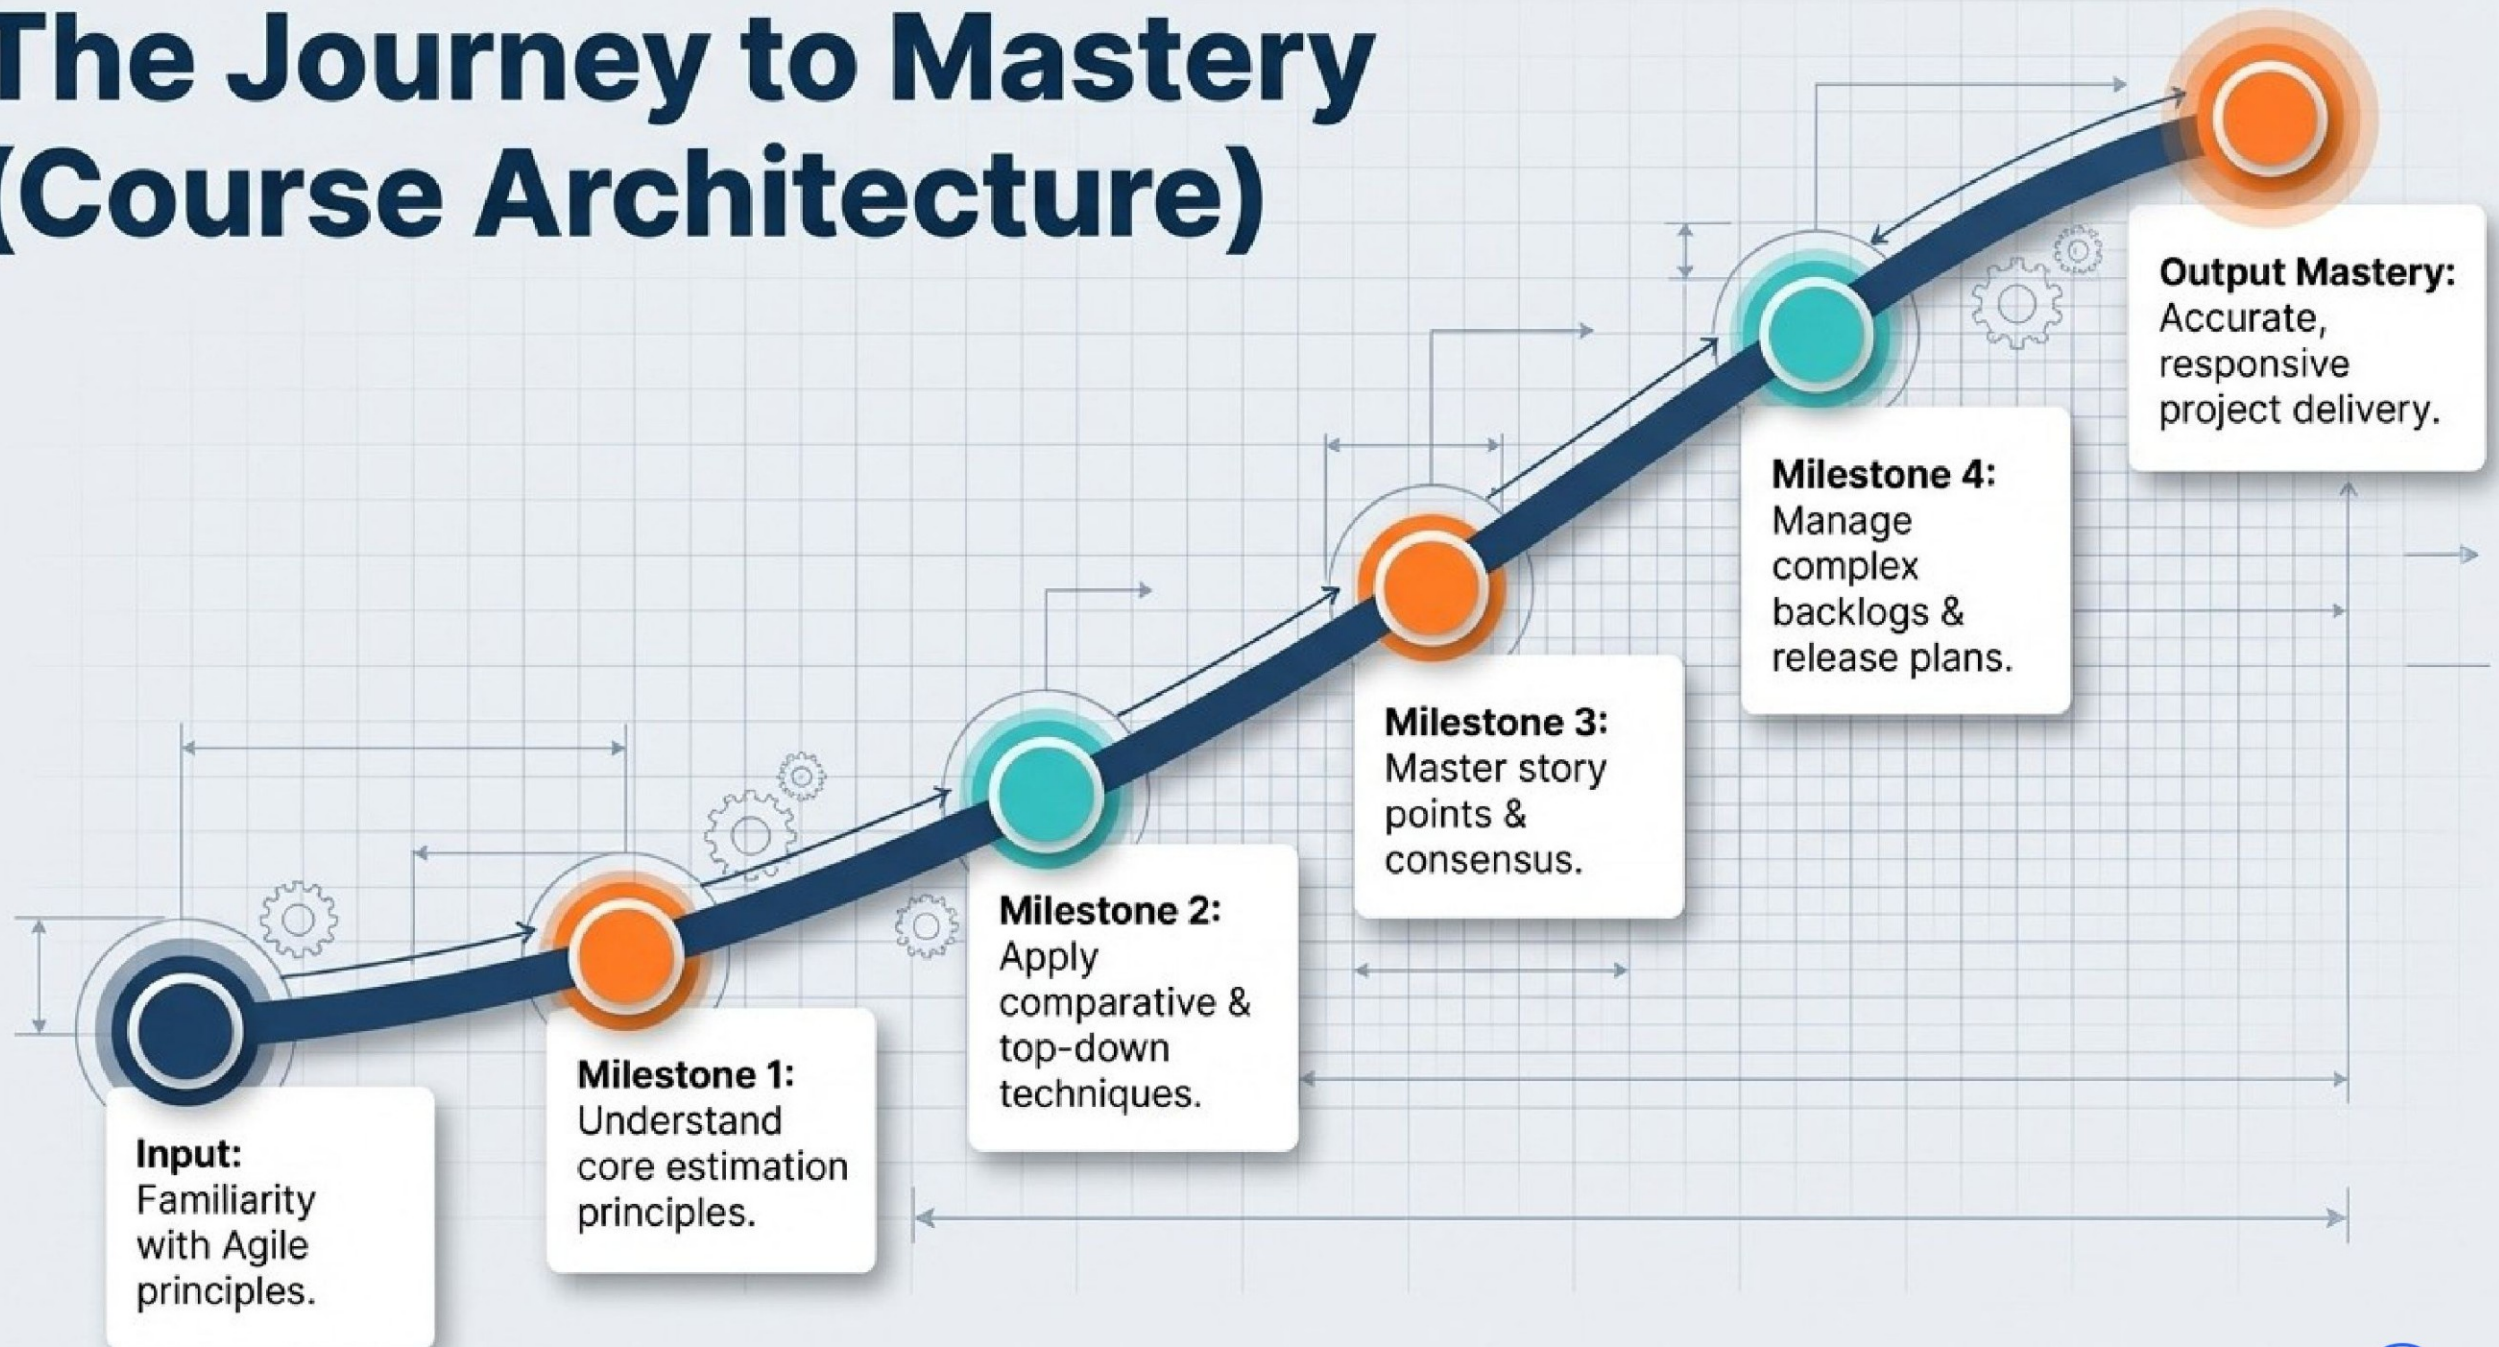

Tailored to your organization's unique needs, scaling from small teams to large enterprises across 100+ countries.

## Multilingual Reach

Consistent training quality globally, available in English, Spanish, Mandarin, German, Arabic, Portuguese, Hindi, French, Japanese, and Italian.

# The Journey to Mastery (Course Architecture)

# The Agile Estimator's Toolkit

## Agile Estimation Fundamentals

Predicting project timelines and resource needs in Agile environments.

## Facilitation Techniques

Guiding discussions to resolve conflicts and achieve estimation consensus efficiently.

## Agile Estimation Techniques

Executing practical methods (Relative Sizing, Poker) for precise sprint planning.

## Project Planning Alignment

Synchronizing project goals, timelines, and resources with stakeholder expectations.

## Collaborative Communication

Fostering synergy and sharing critical feedback on complexity and effort.

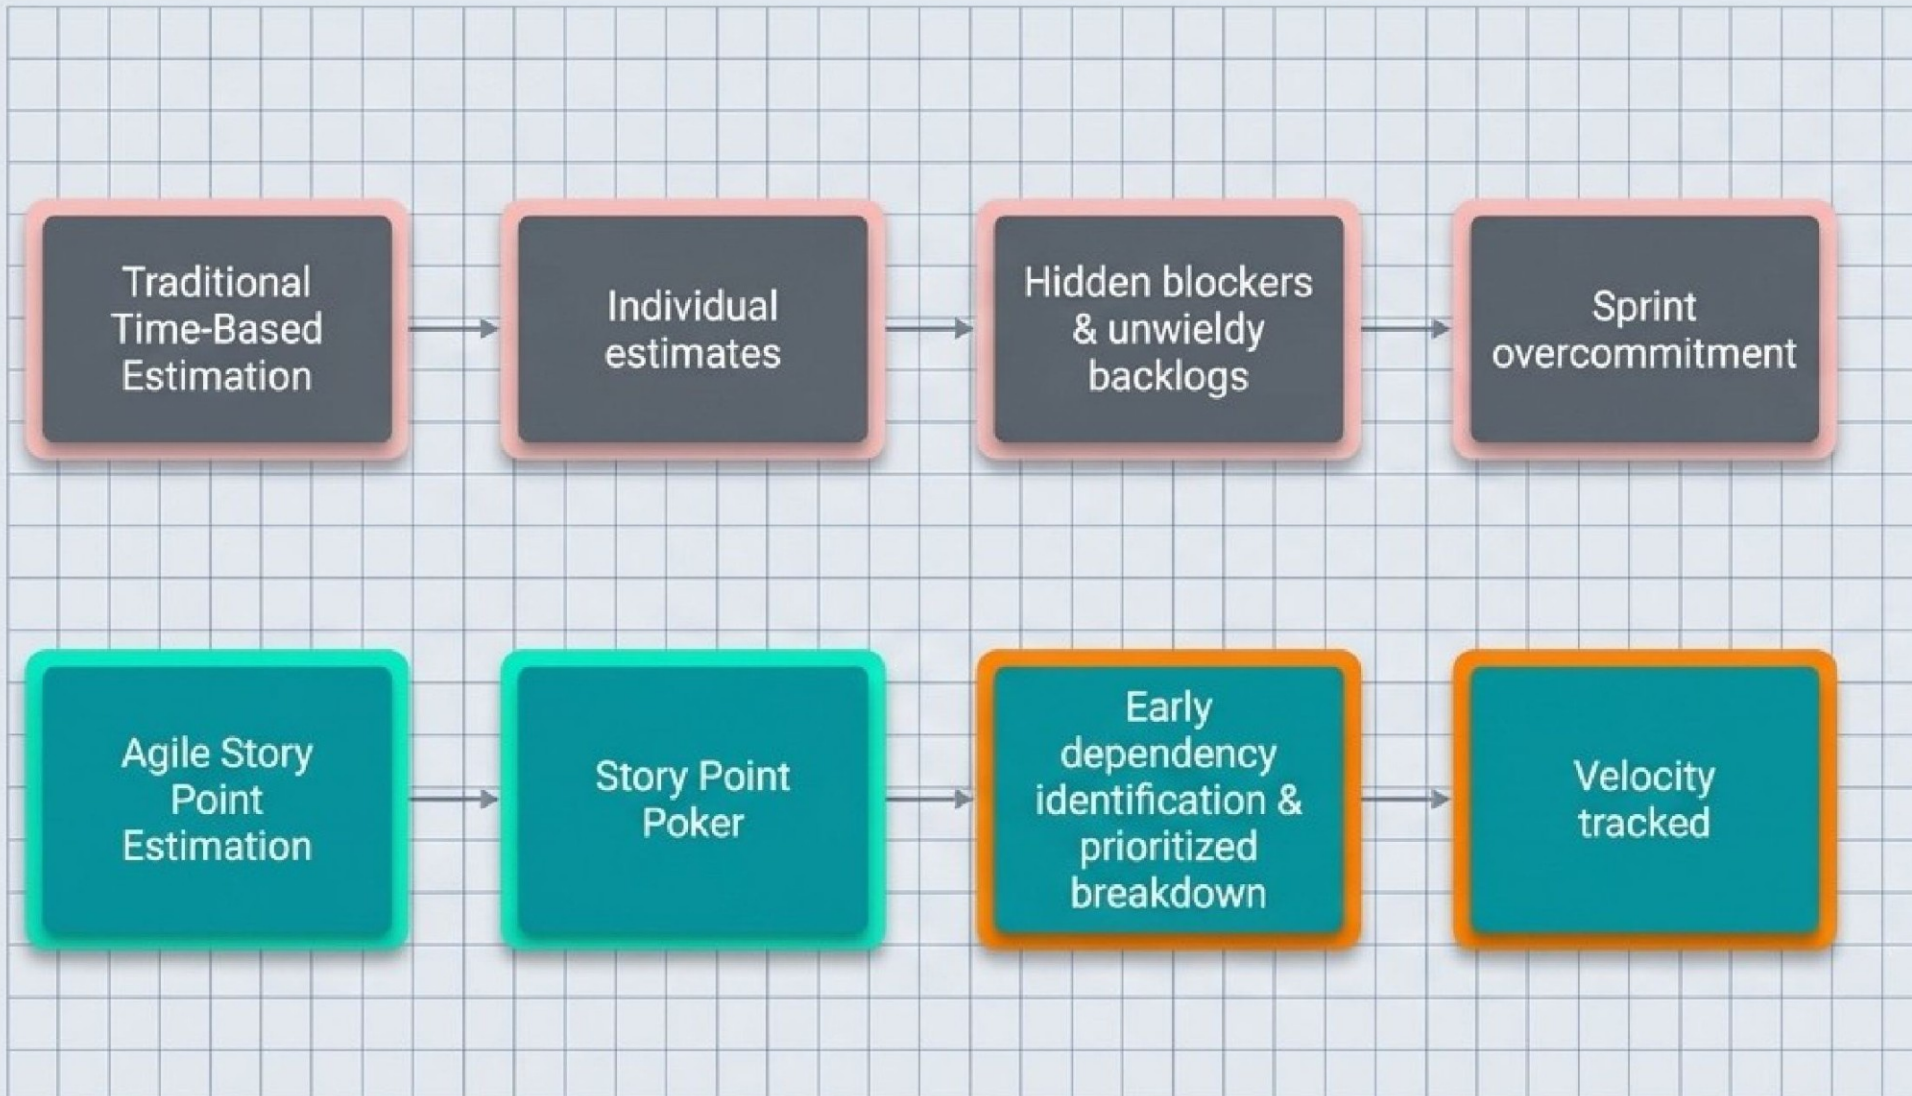

## Active Listening

Fully concentrating on team insights to build trust and uncover hidden sprint blockers.

# Phase 1 – Agile Estimation Principles and Techniques

# Phase 2 — Story Points and Complex Backlog Management

**Story Points & Fibonacci:**  
Relative sizing ensures consistent, bias-free effort estimation.

**Team Consensus:**  
Poker builds shared understanding and collective ownership.

**Dependency Management:**  
Identifies critical blockers early.

**Advanced Forecasting:**  
Monte Carlo simulation and velocity tracking.

# Phase 3 – Agile Estimation in Release Planning

# The Diagnostic Matrix: Techniques vs. Outcomes

	Comparative Estimation	Story Point Estimation	Release Planning
Core Technique	Planning Poker & T-shirt sizing	Fibonacci sequences & Story Point Poker	Burndown charts & scope balancing
Key Method	Delphi technique & analogous estimation	Story points vs. time-based trade-off analysis	Monte Carlo simulation & velocity forecasting
Business Outcome	<b>Collaborative estimation</b> that reduces individual bias	<b>Consistent effort sizing</b> that reduces overcommitment	<b>Realistic release timelines</b> that align with business priorities

# The Business Impact & ROI

## Engine Flow Diagram

# Who Should Attend

# Flexible Delivery Modes for Global Teams

## Virtual Live Instructor-Led

- Scale learning for large, multi-location groups.
- Train in your own space without travel requirements.
- Interactive tools maximize engagement.

## On-site Face-to-Face

- Immersive, tailored learning right in your office.
- Improves team collaboration.
- Allows hands-on demonstration of internal processes.

## Off-site Face-to-Face

- Distraction-free environments that boost morale.
- Encourages deep team bonding.
- Focus exclusively on capability building.

# Industry Proof: Measured Impact

The Agile Estimation course revolutionized how I approach my daily responsibilities. My productivity and technical capabilities have increased dramatically since applying these concepts. The instructor's insights have proven instrumental...

**Christopher Lewis, Principal Change Manager**

We delivered a high-visibility enterprise project two months ahead of schedule. The detailed exploration of real-world case studies provided methodologies I leverage in every engagement.

**Salvatore Rizzo, Lead Delivery Manager**

The course expertly covered advanced methodologies, elevating our operational effectiveness. We've successfully deployed these across all regional operations centers.

**Vivek Sinha, Senior Operations Manager**

# Customized Pricing Packages at Scale

## Starter

**120 Licenses**

64 hours of group training.  
Tailored for small-to-medium businesses.

Most Popular

## Growth

**320 Licenses**

160 hours of group training.  
Ideal for expanding organizations.

## Enterprise

**800+ Licenses**

400+ hours of group training.  
Designed for large global corporations.

All tiers include pre- and post-training support, customizable curriculum, and multi-language delivery options. Request a customized quote from Edstellar.

# Sharpen Your Agile Estimation Precision

Equip your teams with the estimation techniques, story point mastery, and release planning skills to deliver accurate timelines, reduce cost overruns, and build lasting stakeholder confidence.
