

Microservices Architecture Corporate Training

Empower Your Teams to Streamline Software Development Processes and Accelerate Time-to-Market.

The Development Paradigm Shift

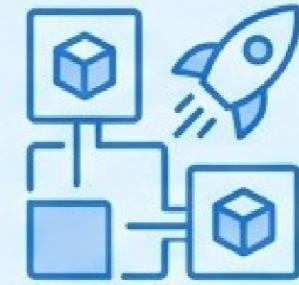

The Monolithic Bottleneck

- Slow Content Update Delays
- Coupled Systems Preventing Scaling
- Non-Centralized Training Administration

Edstellar Instructor-Led Intervention

- Expert-Led, Customized Group Training
- Decoupling Monolithic Architectures
- Hands-On Learning From Industry Experts

Scalable, Agile Systems

- Faster Development and Deployment Cycles
- Independent Scaling for Fluctuating Demands
- Resilient, Observable Application Environments

The Program Blueprint

32 - 40 Hours

Instructor-Led
Group Training

Virtual, On-Site,
or Off-Site

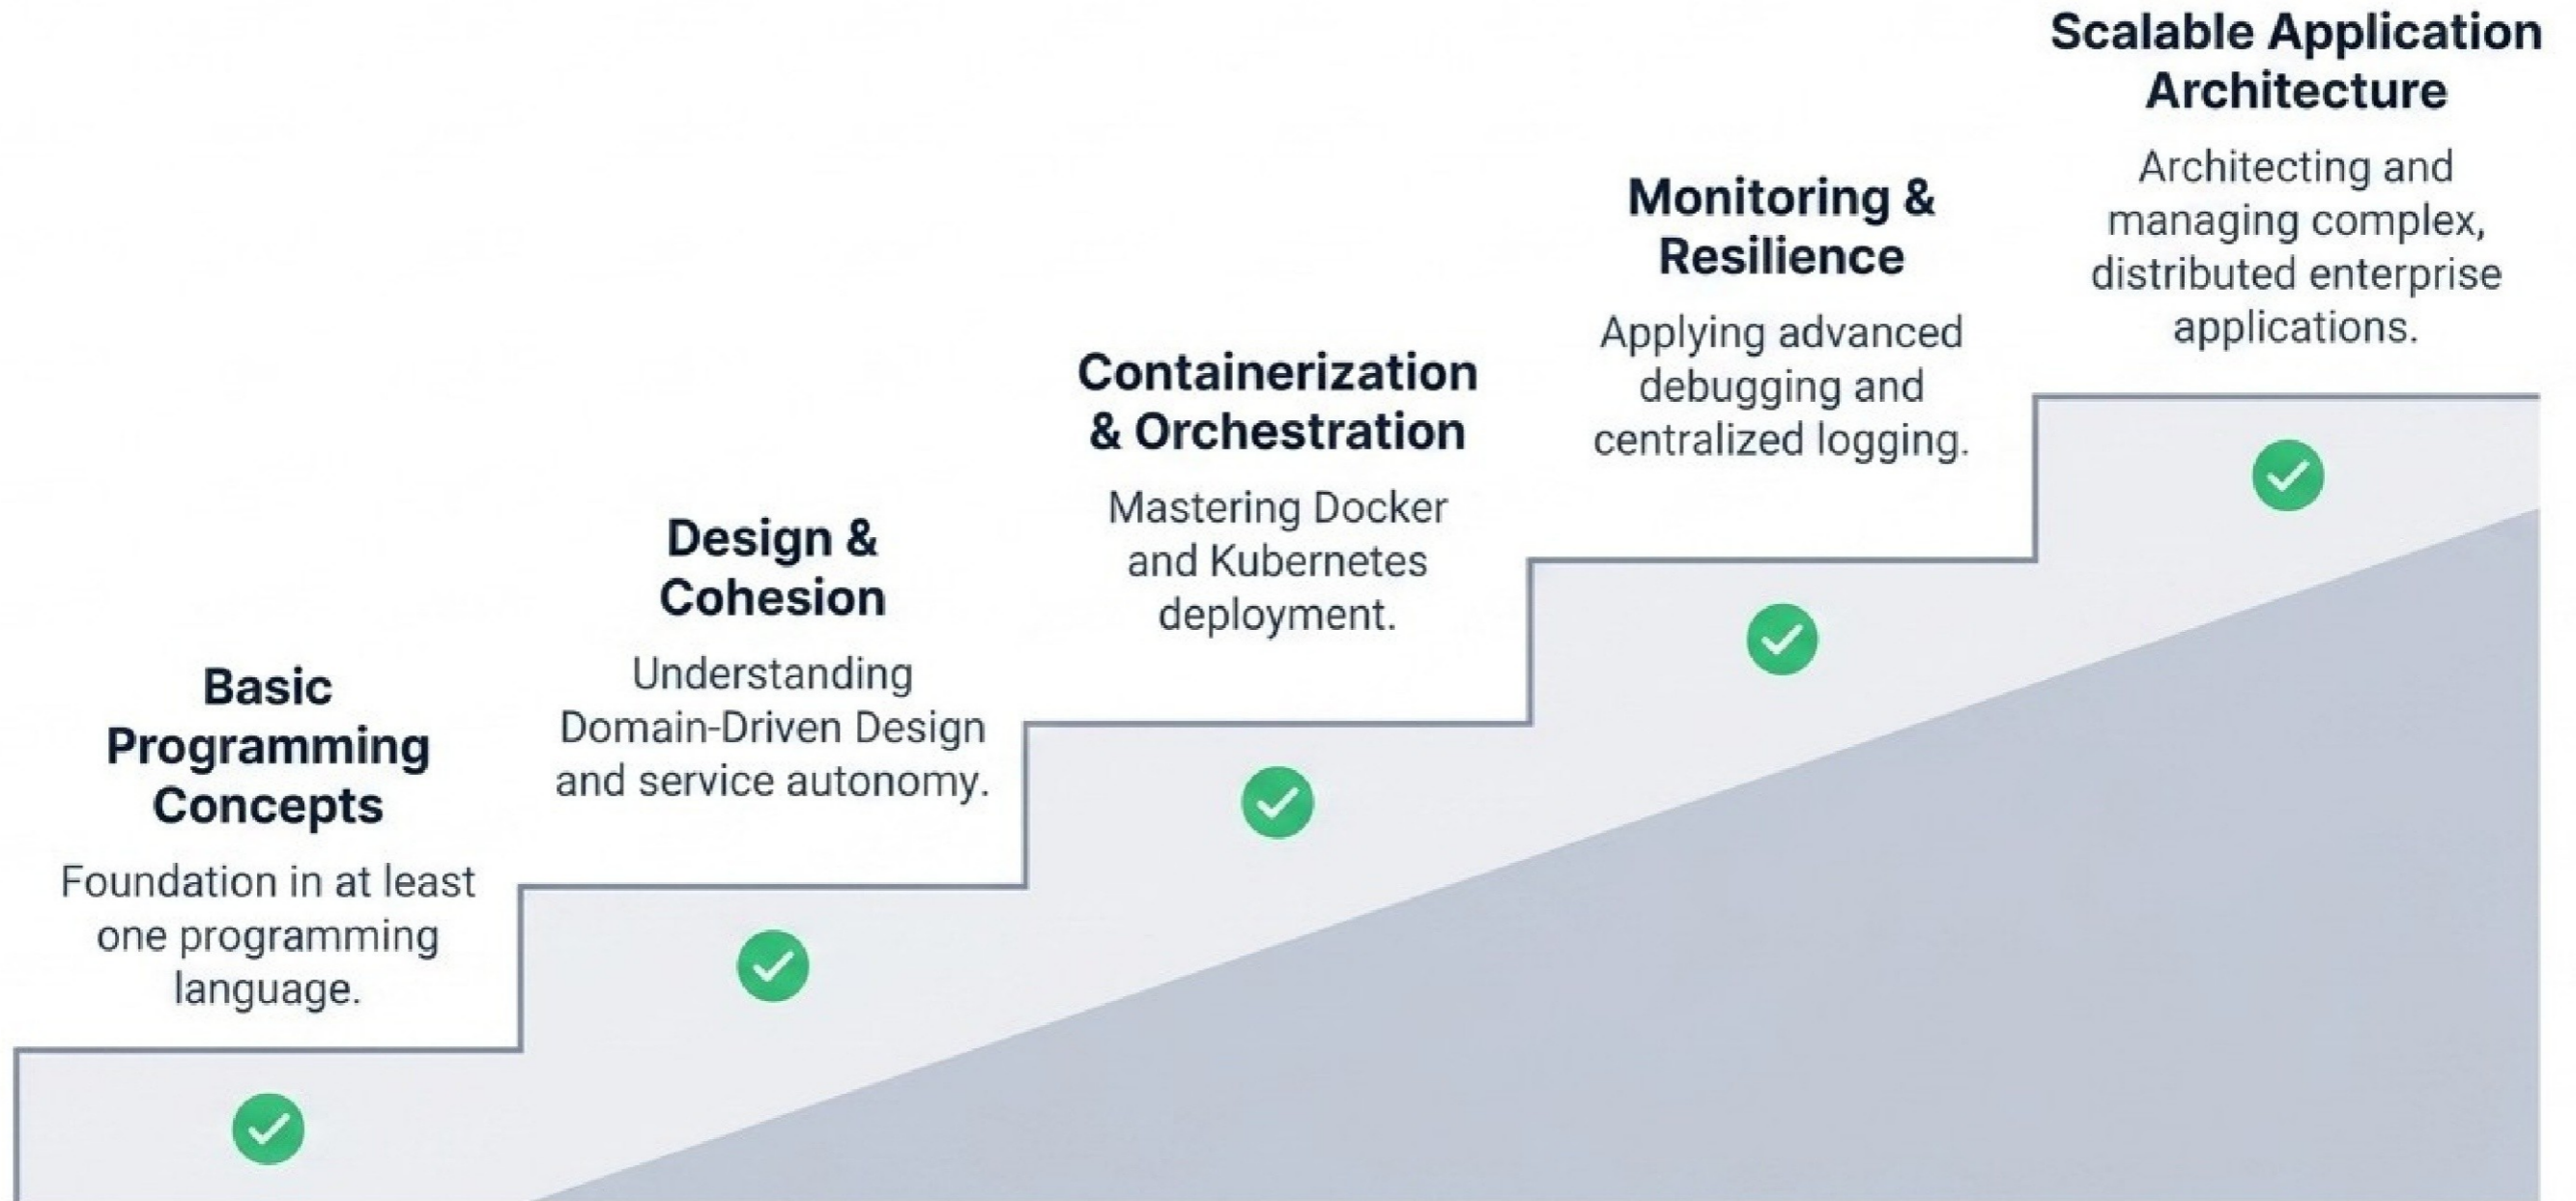

10,000+ Verified
Trainers

Course Completion
Certificate

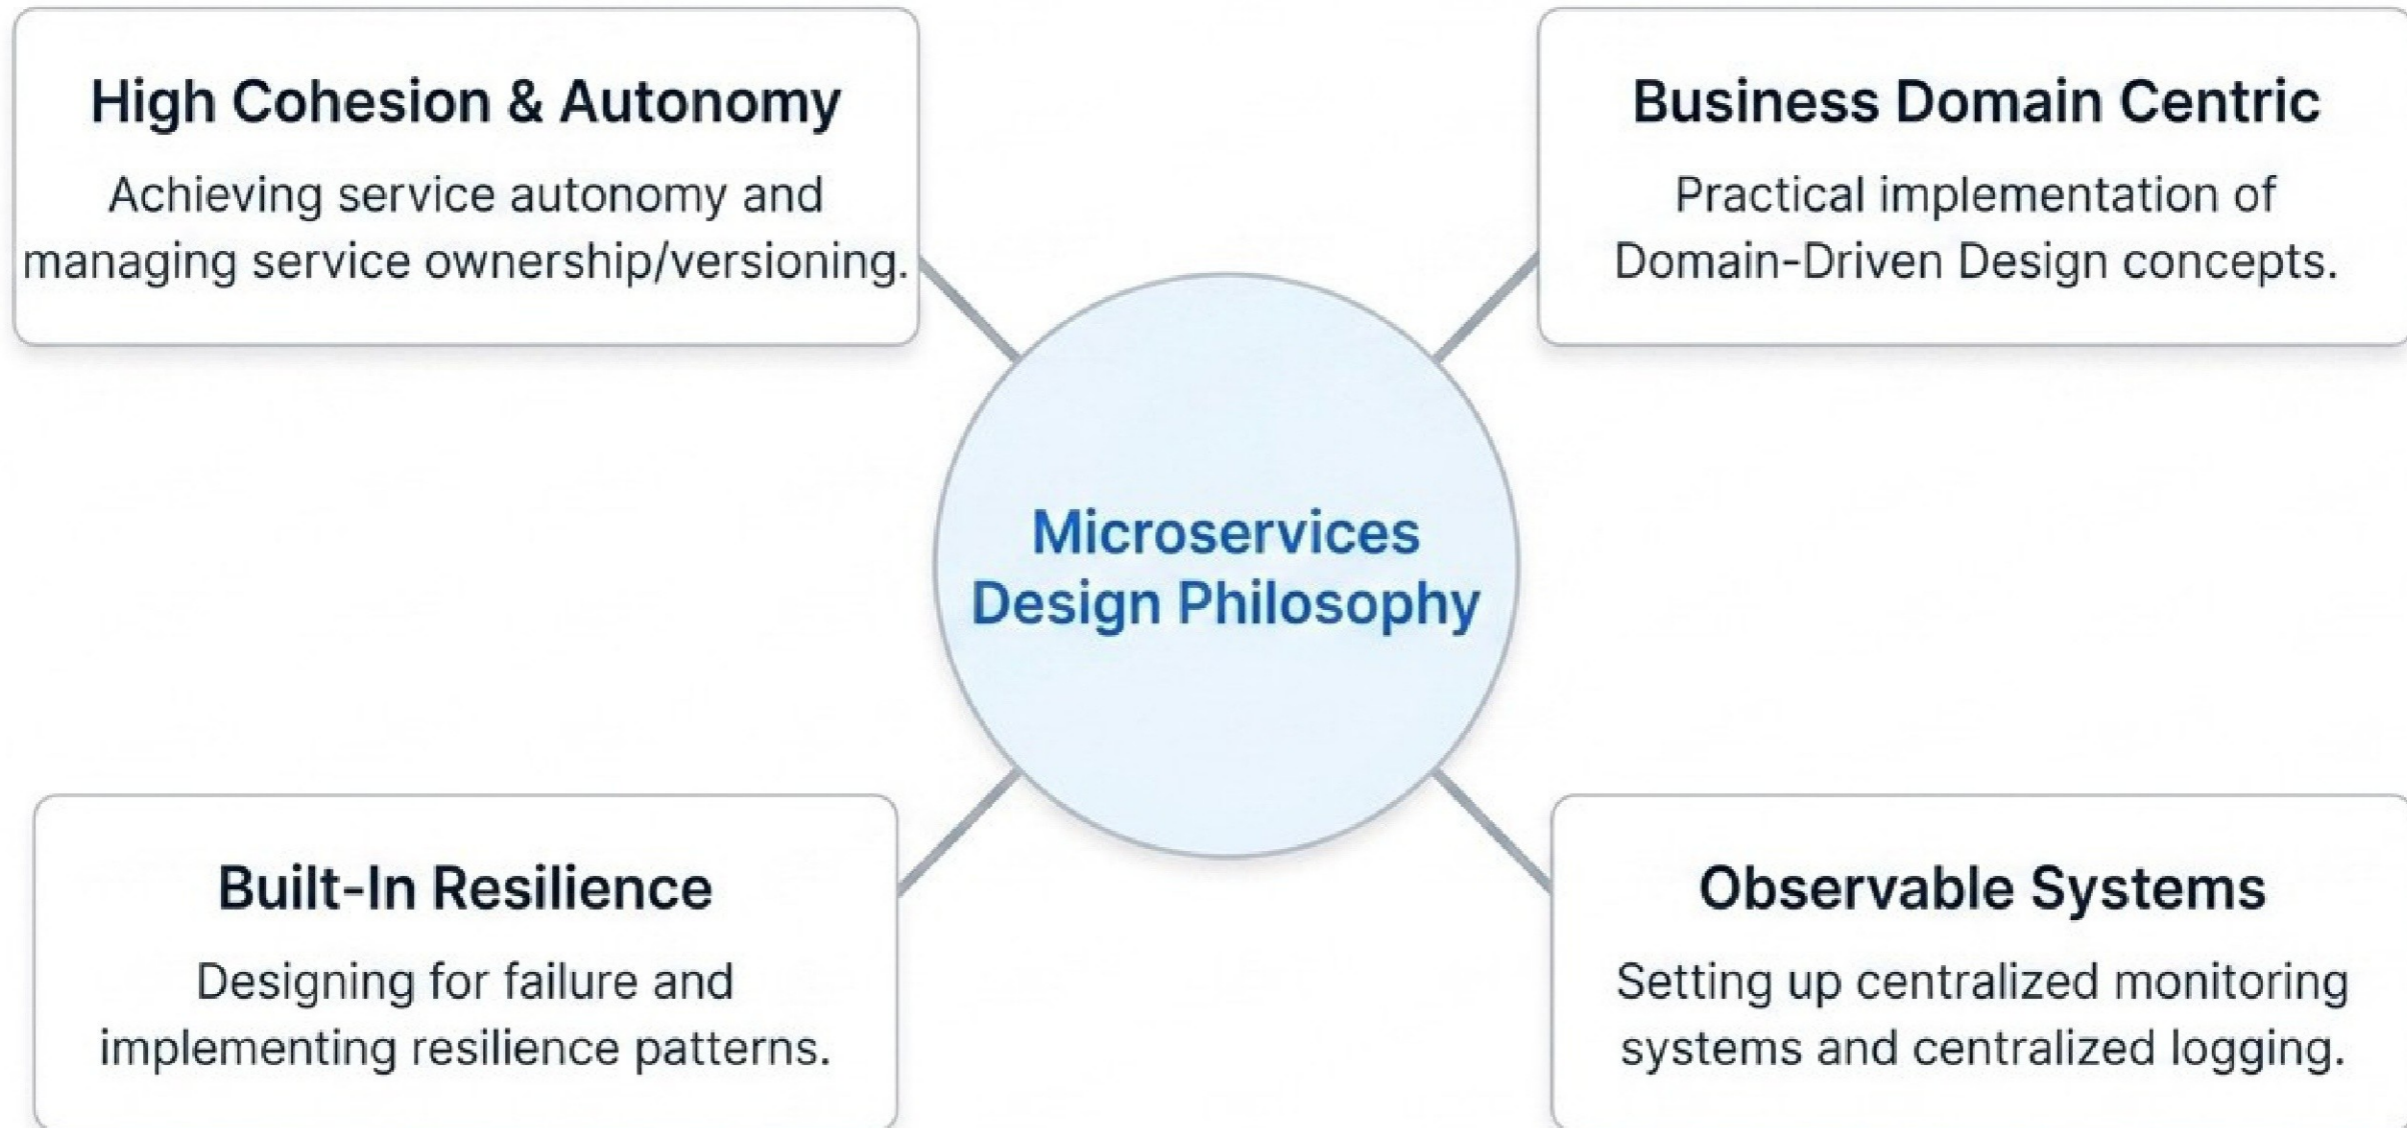

The Capability Activation Curve

Phased Curriculum Architecture

Design Principles Hub

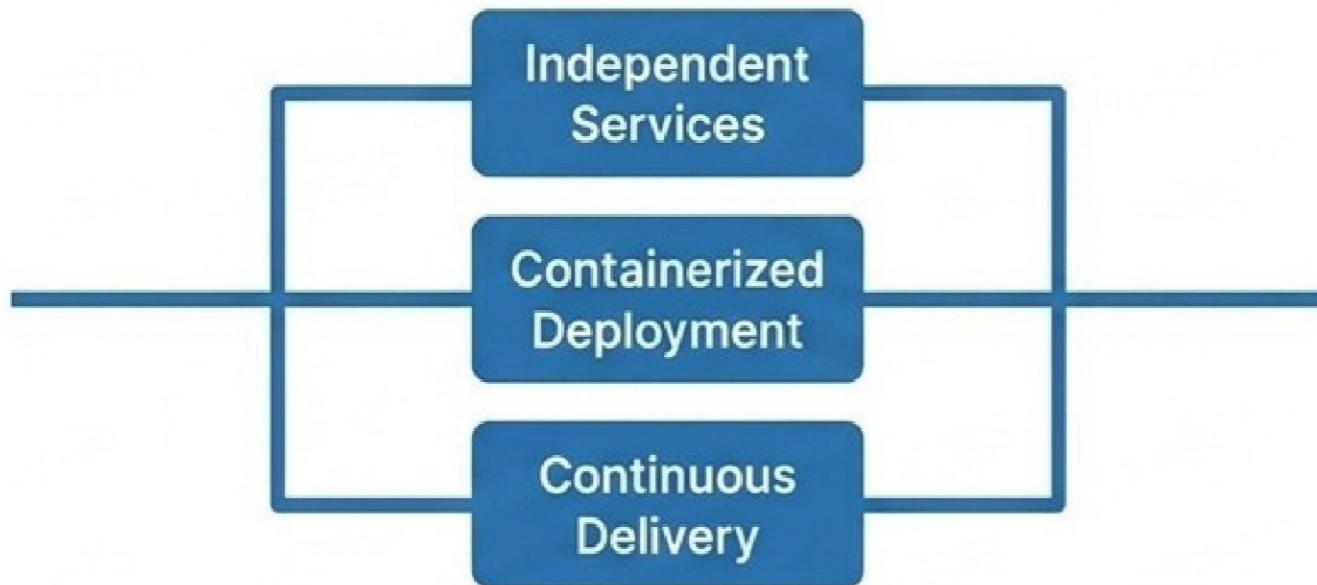

The Technology Ecosystem

Traditional

Course-Enabled

Containerization with Docker

Packaging applications and dependencies

Orchestration with Kubernetes

Managing containerized applications across clusters

API Management

Understanding and implementing API Gateways

Automation Tooling

Integrating CI/CD continuous deployment practices

Enterprise Migration Strategies

The Brownfield Context

Understanding and planning adoption within existing legacy environments.

The Greenfield Approach

Starting fresh with design and development best practices.

Database Migration

Managing data consistency, integrity, and distributed transactions.

Advanced Reporting

Developing data aggregation solutions in distributed applications.

Microservices Adoption & Transition

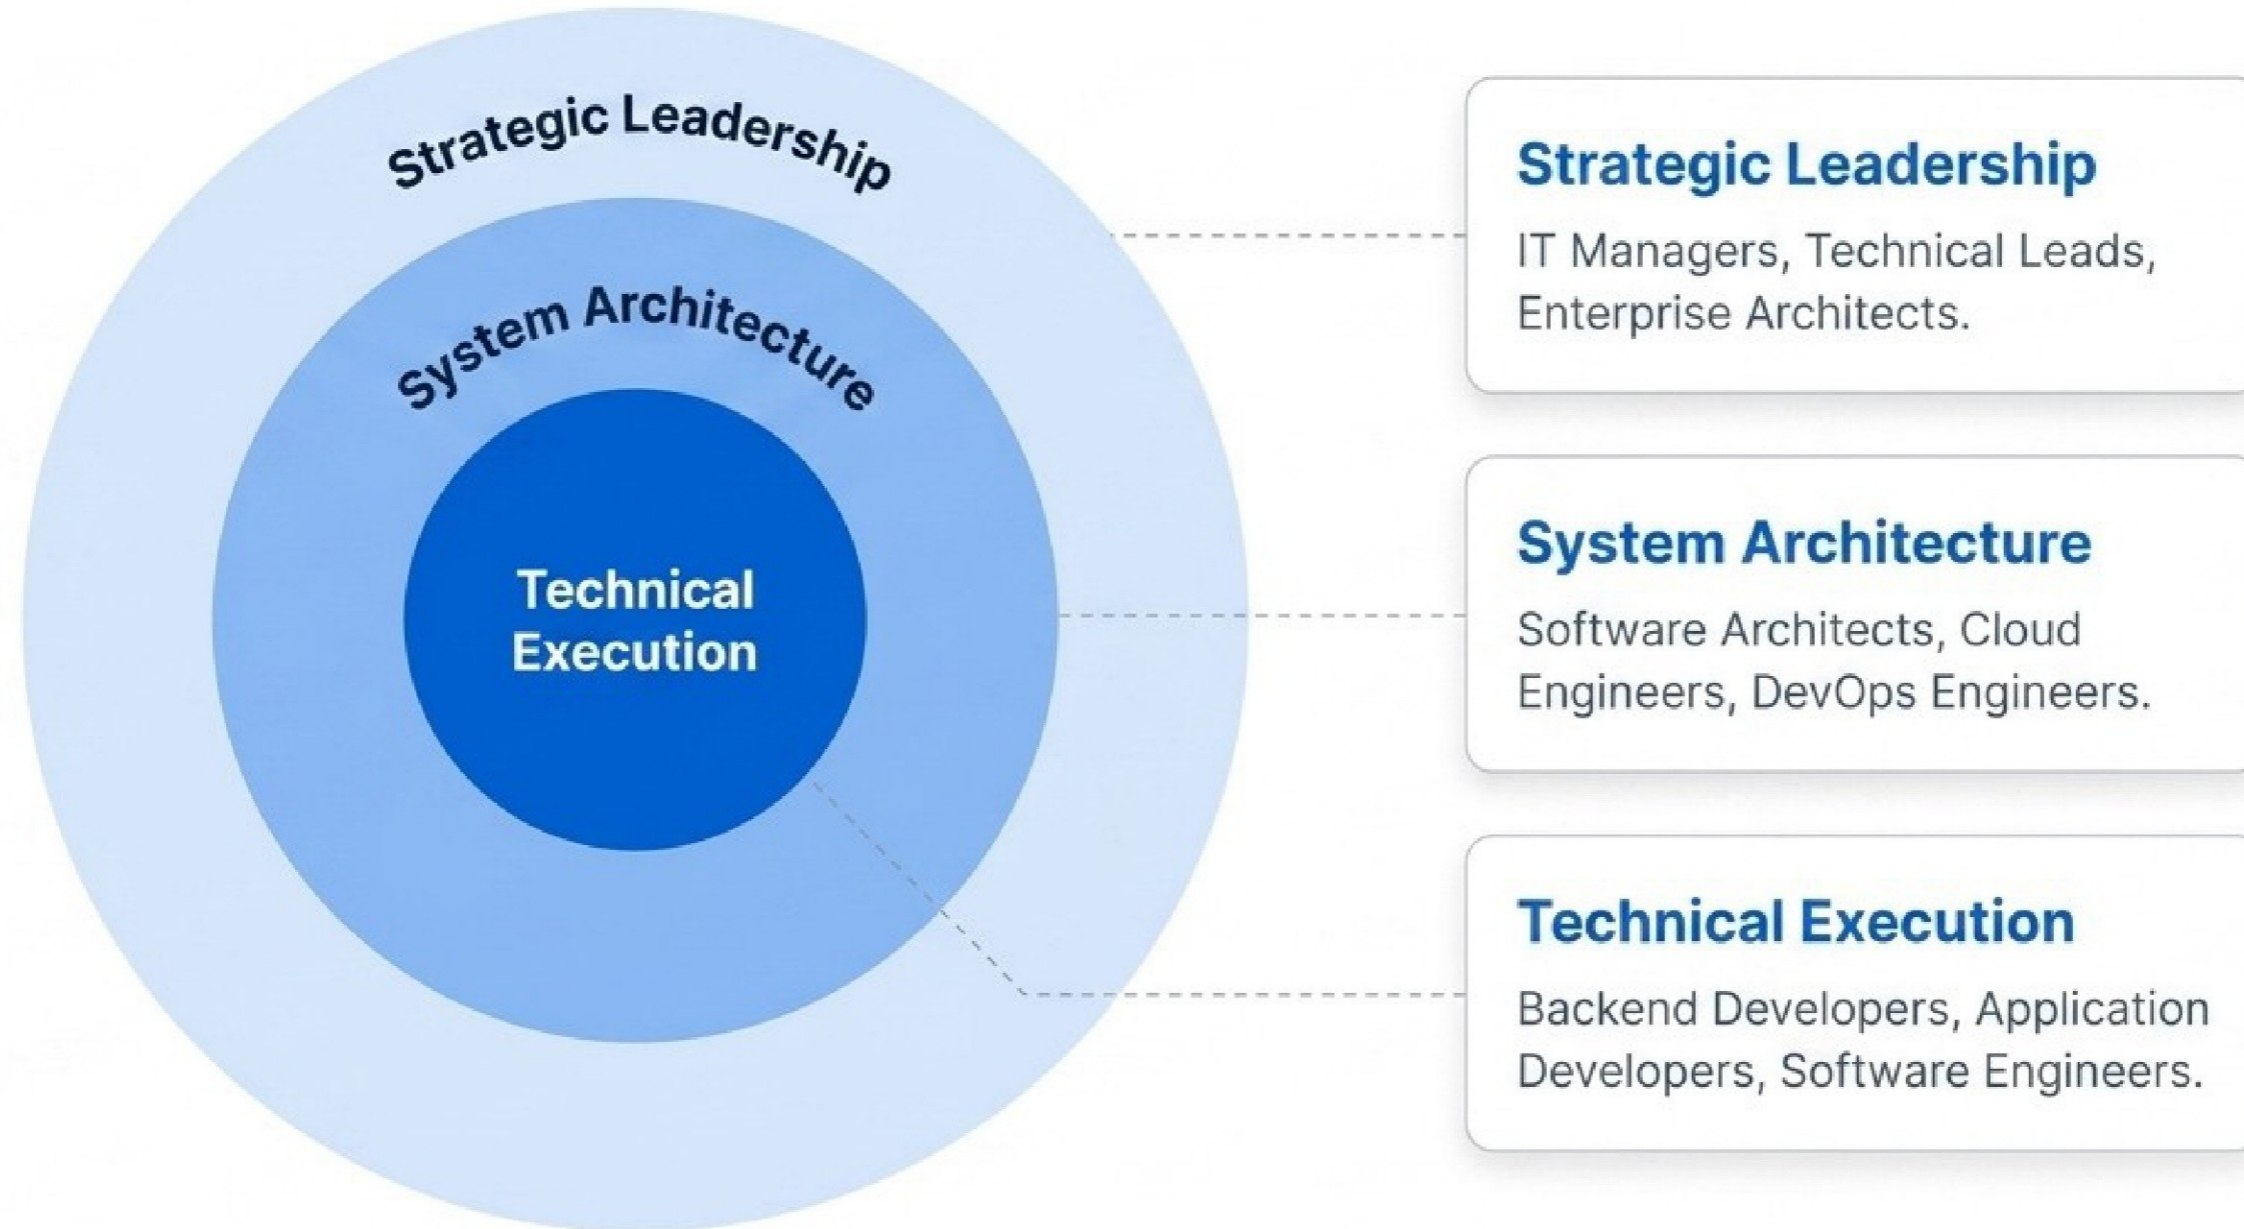

Organizational Upskilling Matrix

	Large Organizations	Small & Medium Businesses	The Edstellar Solution
Scale & Operations	Training in multiple geographies	Lack of training infrastructure	Centralized unified dashboard
Quality & Consistency	Over-reliance on multiple vendors	Vendor reliability constraints	10,000+ verified, consistent trainers
Customization & Delivery	Diverse learning needs	Budget and customization challenges	Tailor-made scalable licenses

The Return on Learning Investment

Target Audience Alignment

Flexible Enterprise Delivery Modes

Virtual Live Instructor-Led

- ✓ Scale learning for large global groups
- ✓ Attend without the need for travel
- ✓ Interactive tools to enhance engagement

On-Site Face-To-Face

- ✓ Tailored specifically to the workplace environment
- ✓ Direct interaction for hands-on process demonstration
- ✓ Improved team collaboration and knowledge sharing

Off-Site Face-To-Face

- ✓ Distraction-free environment for deep learning
- ✓ Dedicated schedules away from office routines
- ✓ Boosts employee morale and team bonding

Proof of Impact

The Microservices Architecture training exceeded my expectations in every way. As a Senior Software Engineer, I gained comprehensive knowledge of industry best practices that transformed my approach to practical and immediately applicable. I've confidently led multiple high-visibility initiatives leveraging this comprehensive knowledge. The instructor's expertise in practical simulations made complex concepts crystal clear and actionable.

Vernon Grant

Senior Software Engineer

IT Services and Solutions Provider

Global Enterprise Delivery

Delivery Capability Across 100+ Countries

Training Available in 10 Languages

English, Español, 普通话, Deutsch, العربية, Português, हिंदी, Français, 日本語, Italiano
