

Corporate Cloud Penetration Testing Training

Equip Your Teams To Identify Vulnerabilities, Assess Risks, And Fortify Cloud Infrastructure Against Cyber Threats

Cloud Security Fundamentals

Body Copy
Cloud Models & Services
Shared Responsibility
Security Architectures
Compliance Frameworks

Penetration Testing Methodologies

Body Copy
Scope Definition
Information Gathering
Vulnerability Analysis
Exploitation Techniques
Reporting & Remediation

Tools & Practical Simulations

Body Copy
Industry-Standard Tools
Cloud-Native Services
Real-World Labs
Red Teaming Exercises
Threat Modeling

Training Path to Cloud Security Expertise

The Security Capability Shift

Enterprise Training Specifications

24 - 32 Hours

Comprehensive Training Duration

Instructor-Led Group Training

Expert Facilitation For Corporate Teams

Virtual, On-Site, Or Off-Site

Flexible Delivery Modalities

10,000+ Verified Trainers

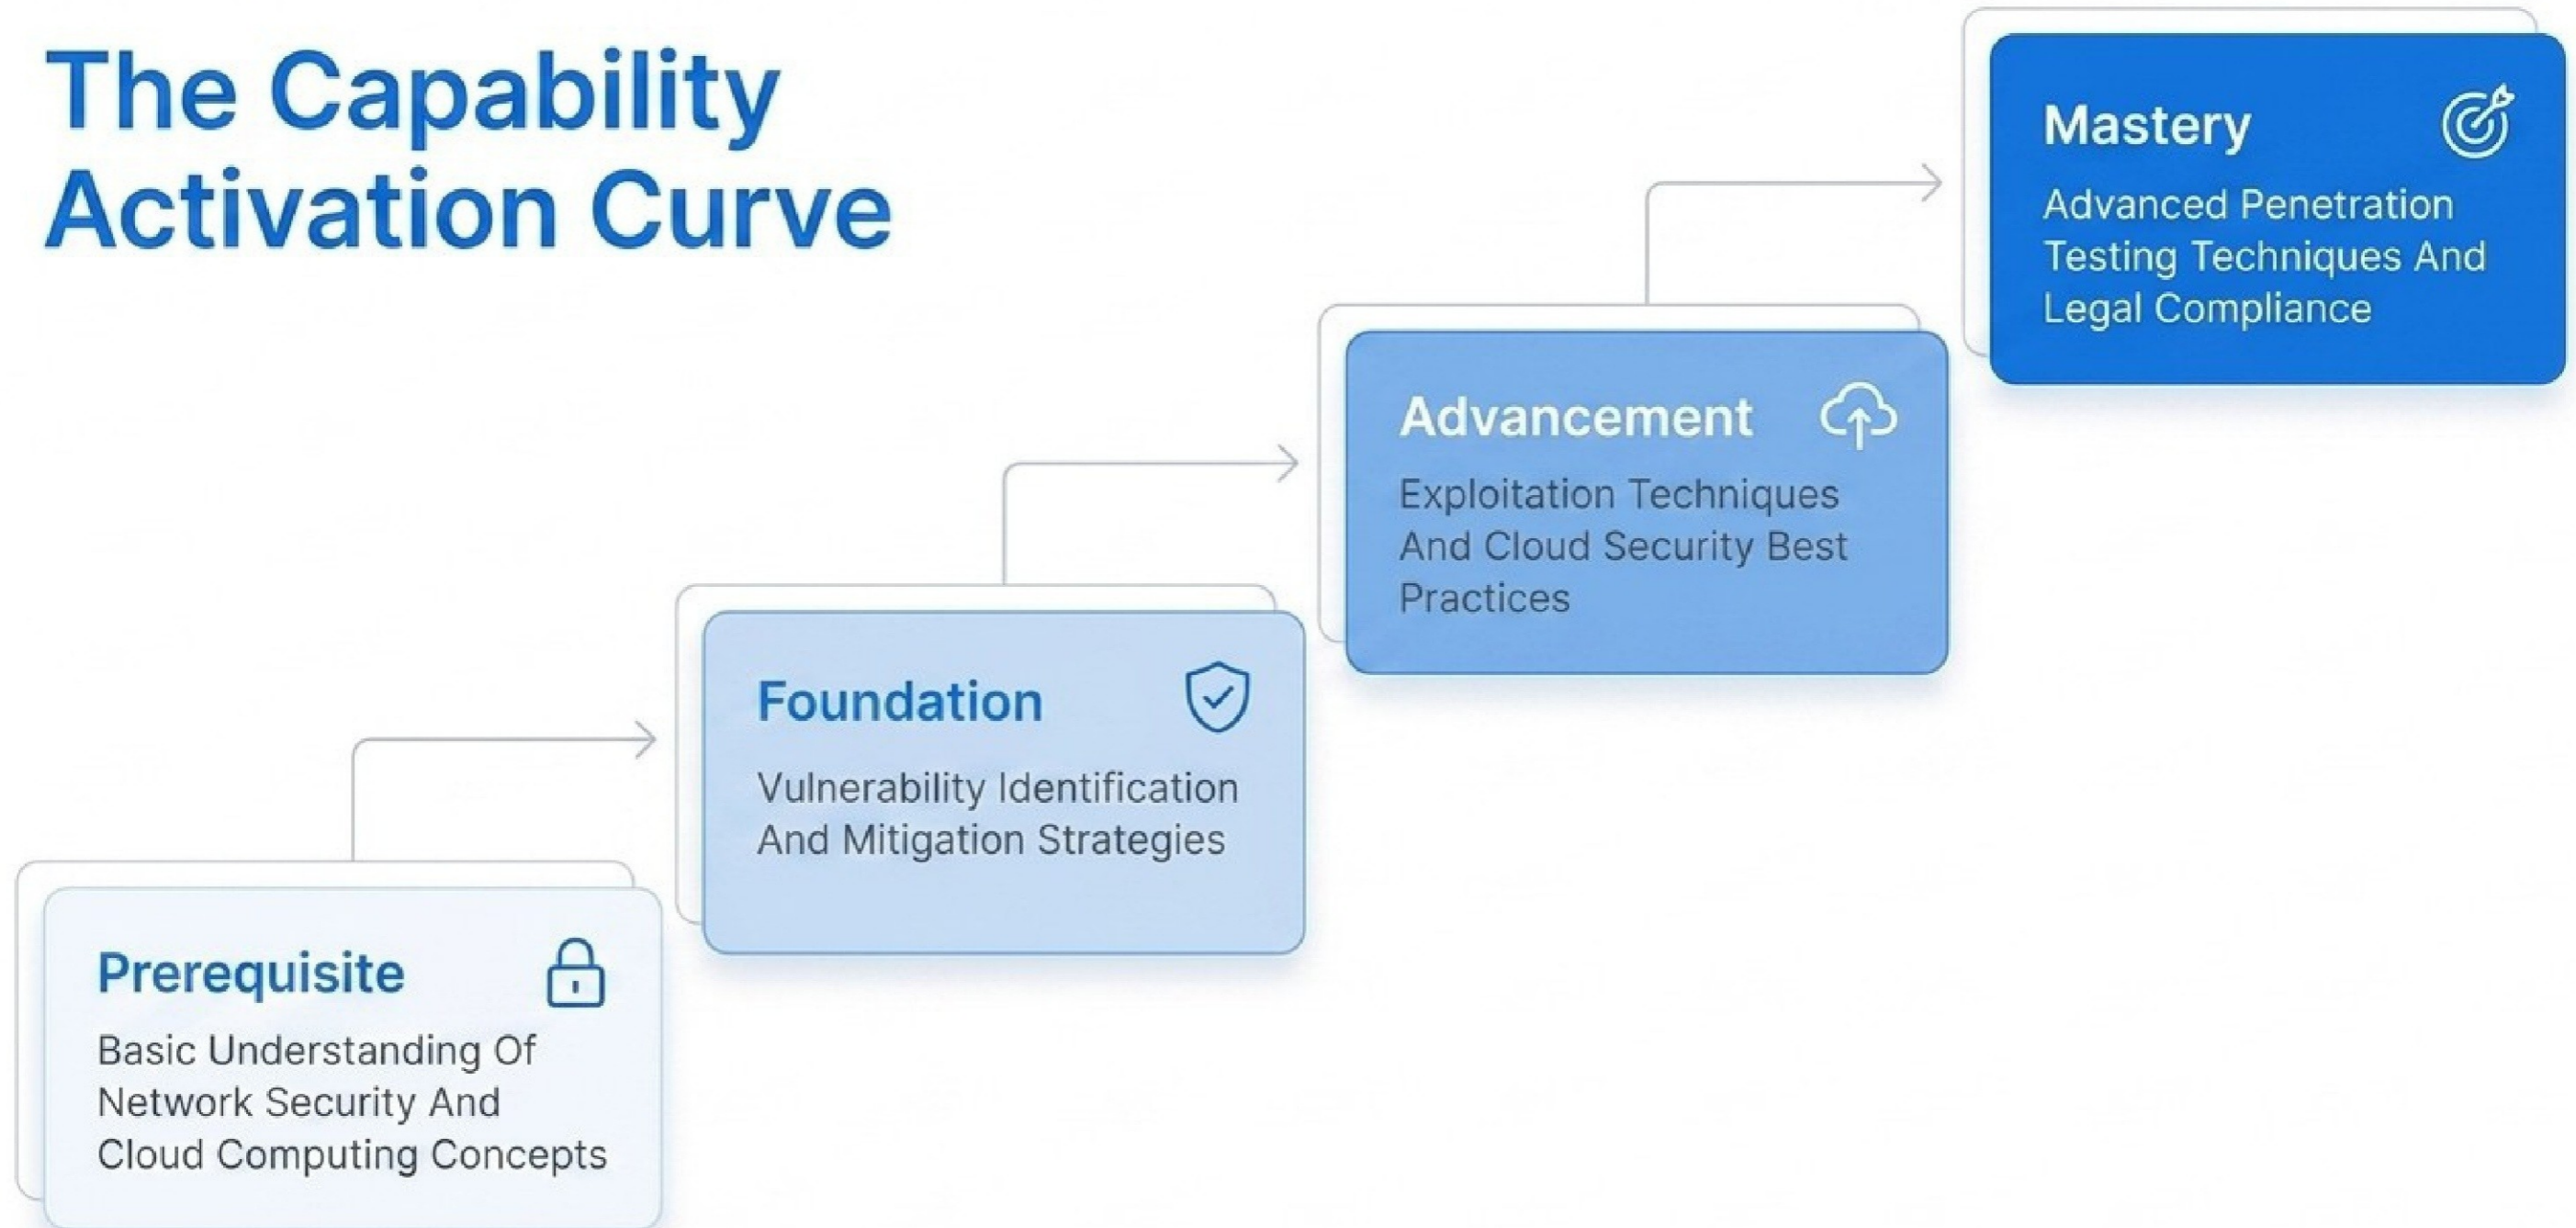

Global Subject Matter Experts

Course Completion Certificate

Validated Enterprise Skills

The Capability Activation Curve

Comprehensive Curriculum Architecture

Phase 1: Foundation And Identity

Architecture, Discovery, And Recon At Scale; Attacking Identity Systems

Mapping cloud components and exploiting access management weaknesses.

Phase 2: Cloud Services And Applications

Attacking And Abusing Cloud Services; Vulnerabilities In Cloud-Native Applications

Leveraging storage vulnerabilities and securing microservices architectures.

Phase 3: Infrastructure And Capstone

Infrastructure Attacks And Red Teaming; Capstone Event

Assessing network segmentation and executing simulated collaborative penetration tests.

Phase 1: Architecture And Identity Systems

Phase 2: Cloud Services And Native Applications

Path A

Path B

Targeted Attack Vectors

- Exploiting Cloud Storage Services
- Abusing Messaging And Queuing Services
- Attacking Serverless Architectures (Event Injection)
- Exploiting Microservices Vulnerabilities (SQL, XSS, CSRF)

Phase 3: Infrastructure And Capstone Simulation

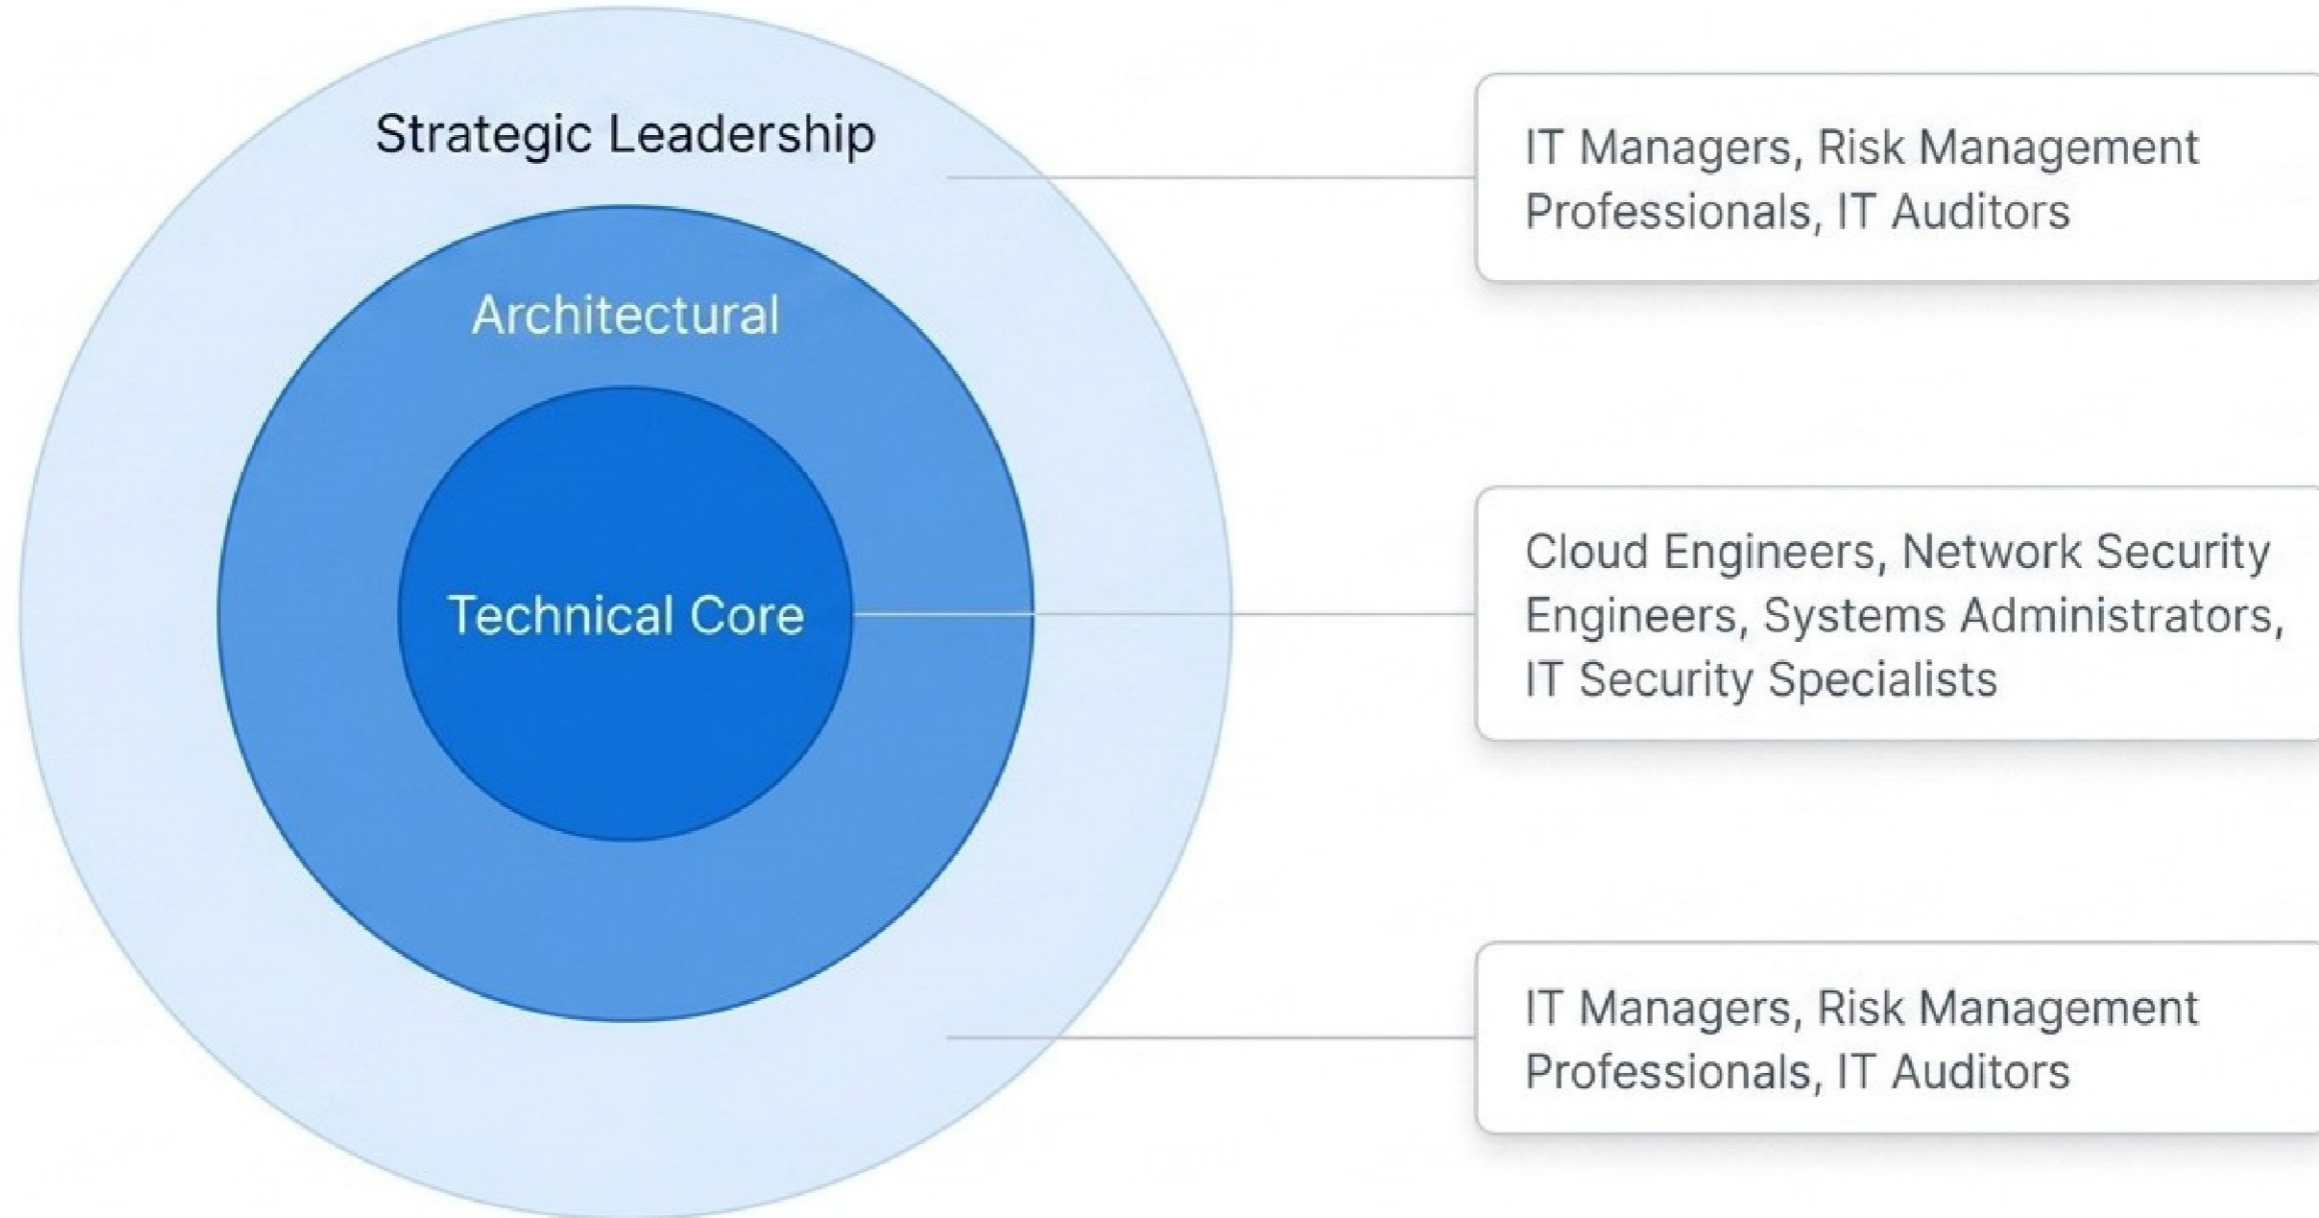

Strategic Training Diagnostic Matrix

Target Organization Profile	Primary Logistical Challenge	Edstellar Platform Solution
Large Enterprises	Scale And Complexity With Diverse Learning Needs	Unified Dashboard To Scale Training By 5x - 10x 
Small & Medium Businesses	Lack Of Training Infrastructure And Budget Constraints	Customized Pricing Packages (Starter / Growth) 
Global Teams	Training Across Geographies And Scheduling Conflicts	Delivery Across 100+ Countries In 10+ Languages 

Organizational Impact And ROI Engine

Target Audience Alignment

Flexible Enterprise Delivery Modalities

Virtual Live Instructor-Led

- ✓ Global Reach For Uniform Learning
- ✓ No Travel Requirements
- ✓ Highly Scalable For Large Corporate Groups

On-Site Face-To-Face

- ✓ Higher Engagement Through Direct Interaction
- ✓ Tailored To Your Workplace Environment
- ✓ Improves Team Collaboration And Knowledge Sharing

Off-Site Face-To-Face

- ✓ Distraction-Free Dynamic Learning Environment
- ✓ Enhances Team Bonding Through Activities
- ✓ Dedicated Schedule Away From Office Setup

Proof Of Impact

“Edstellar’s IT & Technical training programs have been instrumental in strengthening our engineering teams and building future-ready capabilities. The hands-on approach, practical cloud scenarios, and expert guidance helped our teams improve technical depth, problem-solving skills, and execution across multiple projects.”

Aditi Rao

L&D Head

A Global Technology Company

Global Deployment Capabilities

Delivery Capability Across **100+ Countries**

Extensive reach of 100+ countries that flat-veccor experiene around through new each morida.

Training Available In **10 Languages**

English, Español, 普通话, Deutsch, العربية, Português, हिंदी, Français, 日本語, Italiano

Elevate Your Organizational Security

Validating Acquired Skills And Driving
Organizational Success.

**Transform Your Security
Posture Today.**
