

Corporate BlueCat Training Course

Drive Team Excellence With Expert-Led BlueCat Training

Empower your teams with expert-led BlueCat training to optimize network operations.

The Evolution Of Network Infrastructure Management

Manual IP Allocation

Disconnected DNS and DHCP services leading to IP conflicts and unreliable connectivity.

Edstellar BlueCat Integration

Comprehensive training on DDI solutions, IPAM modeling, and routine automation.

Optimized Operations

Reliable and secure connectivity, streamlined workflows, and fortified business continuity.

Executive Summary: Program Specifications

16 - 24 hrs

Instructor-led
Group Training

Virtual, On-site,
or Off-site

Certificate

The Capability Activation Progression

Strategic Curriculum Framework

Phase 1: Introduction To BlueCat Fundamentals

Modules 1 - 4

Navigating the BlueCat interface, basic operations, and key features of DNS, DHCP, and IPAM solutions.

Phase 2: BlueCat IPAM Essentials

Modules 1 - 4

Understanding IP address management concepts, network structures, and creating DNS zones and DHCP scopes.

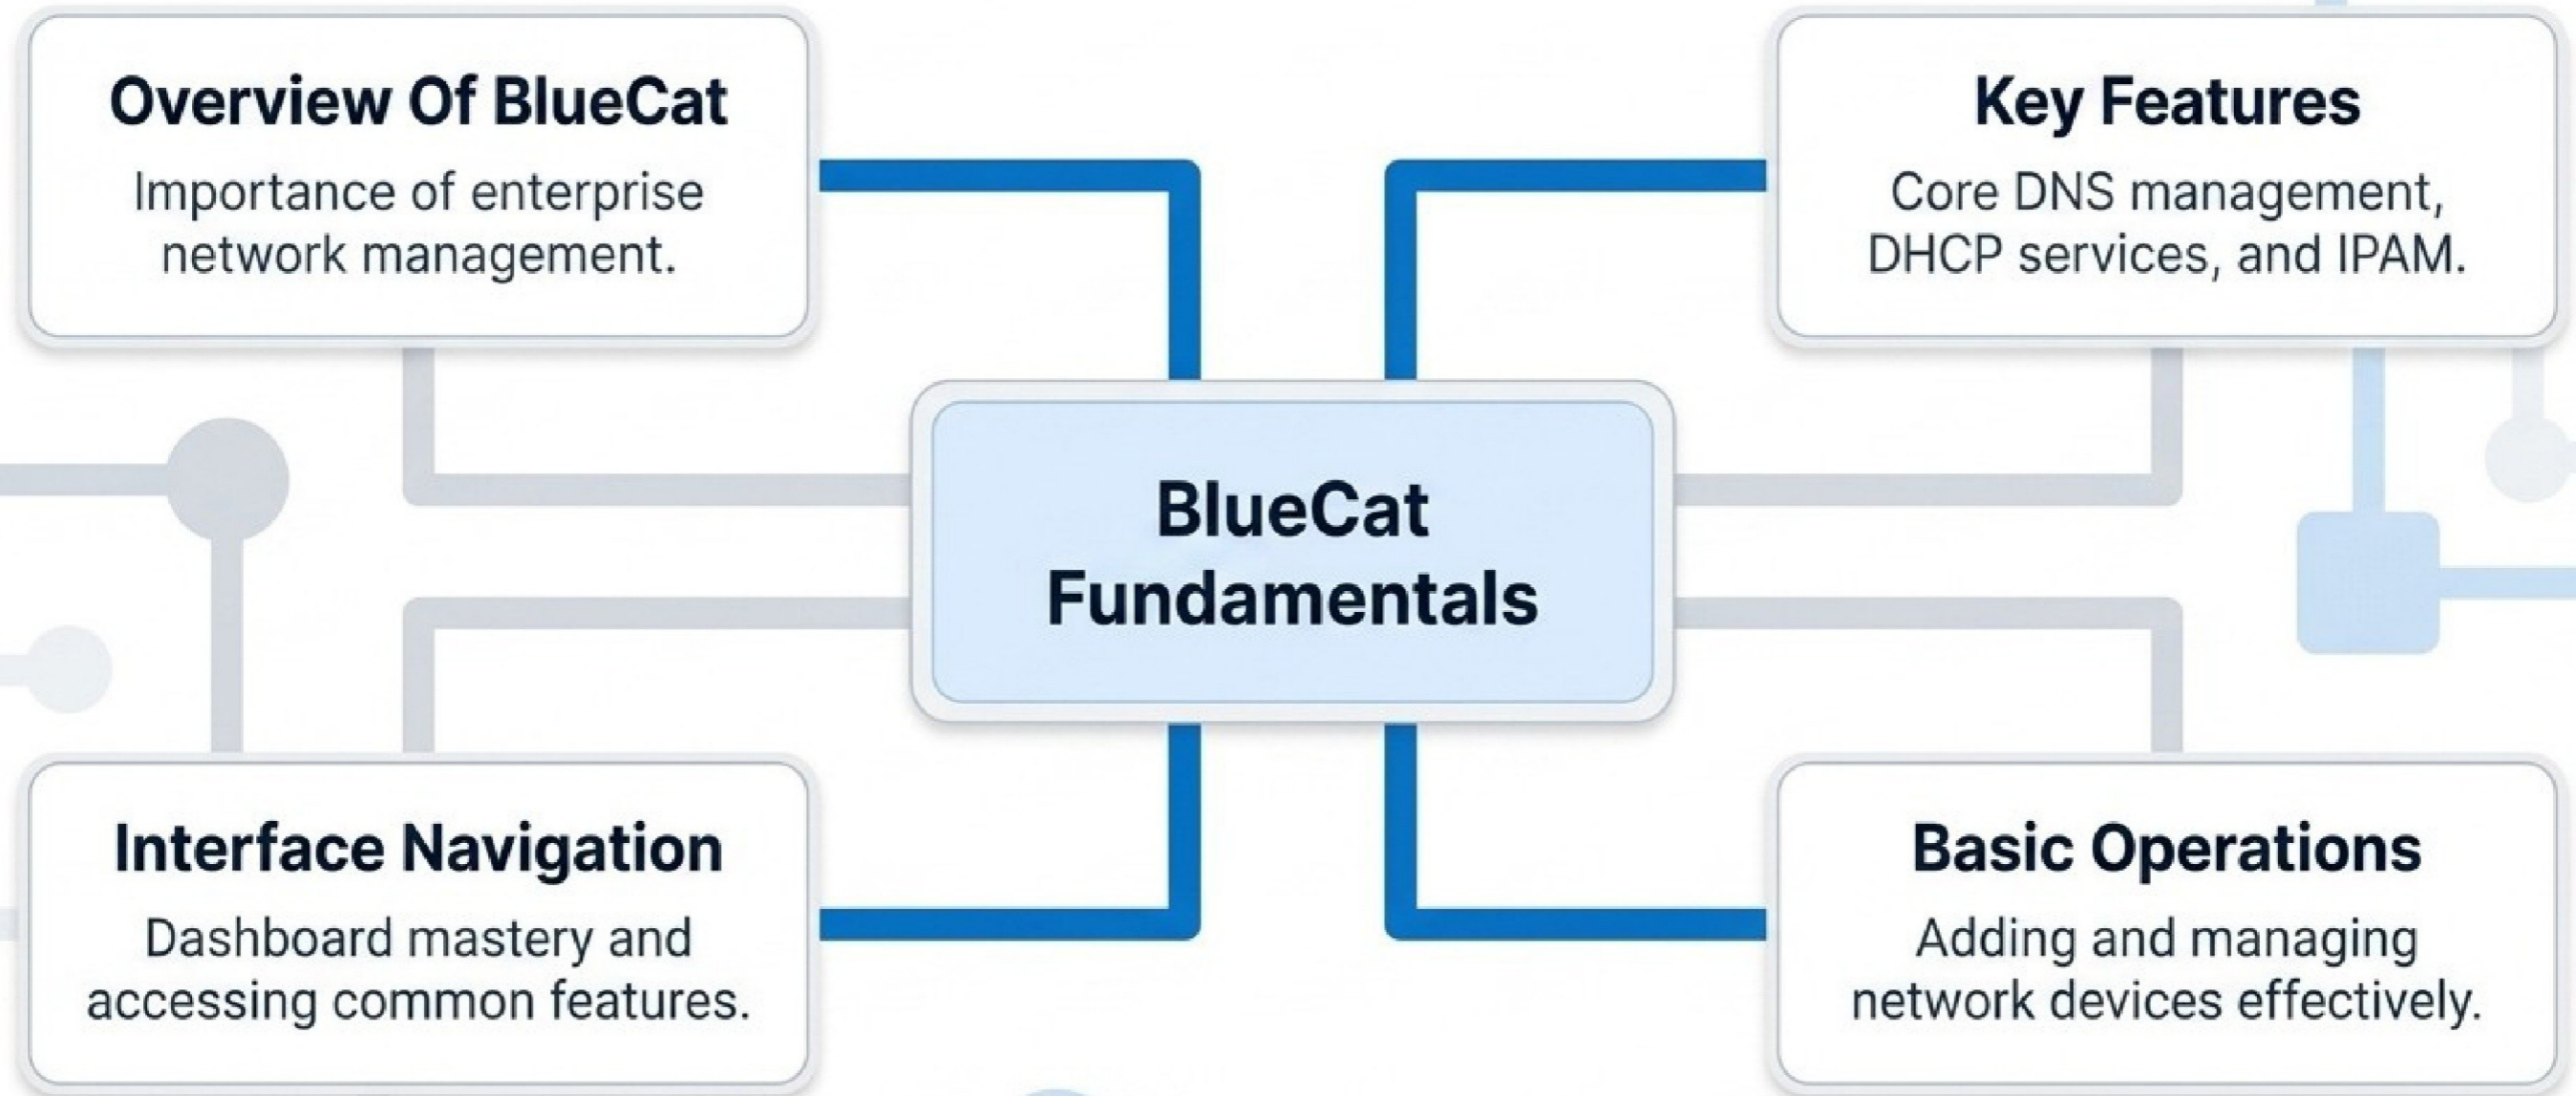

Phase 3: ATG System System Admin Content

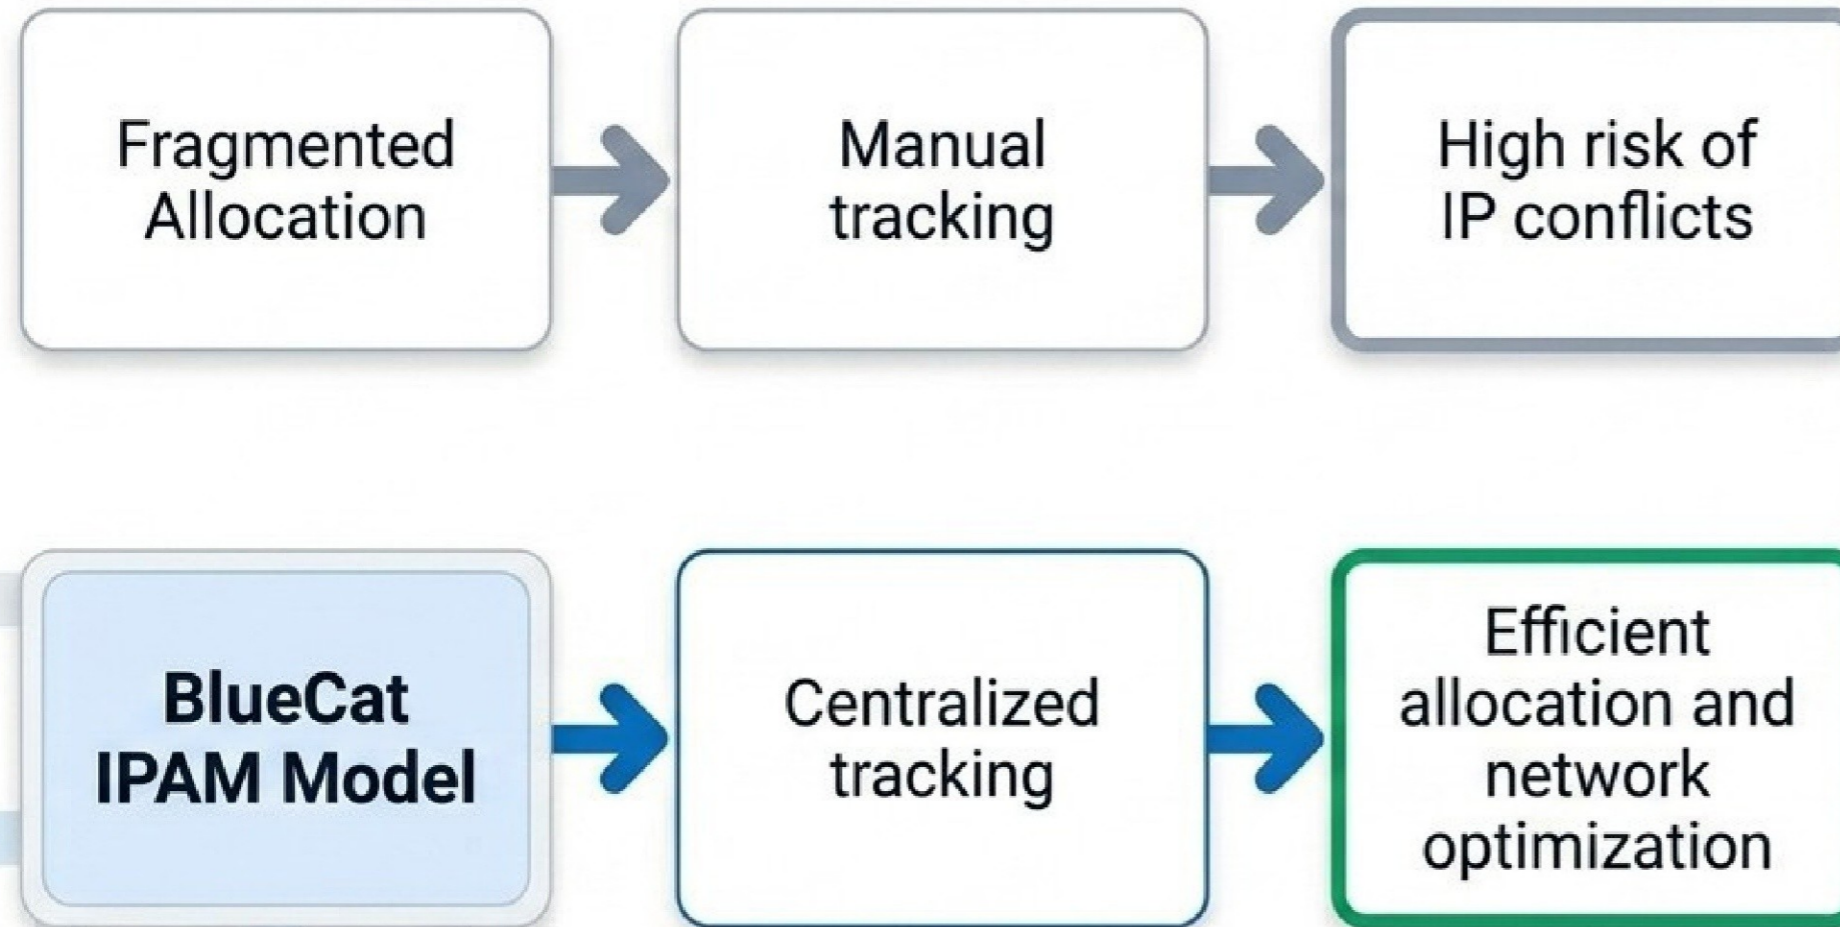

Modules 1 - 4

ATG architecture deployment, configuring repositories, tuning server performance, and implementing security best practices.

Phase 1: Foundational DDI Competencies

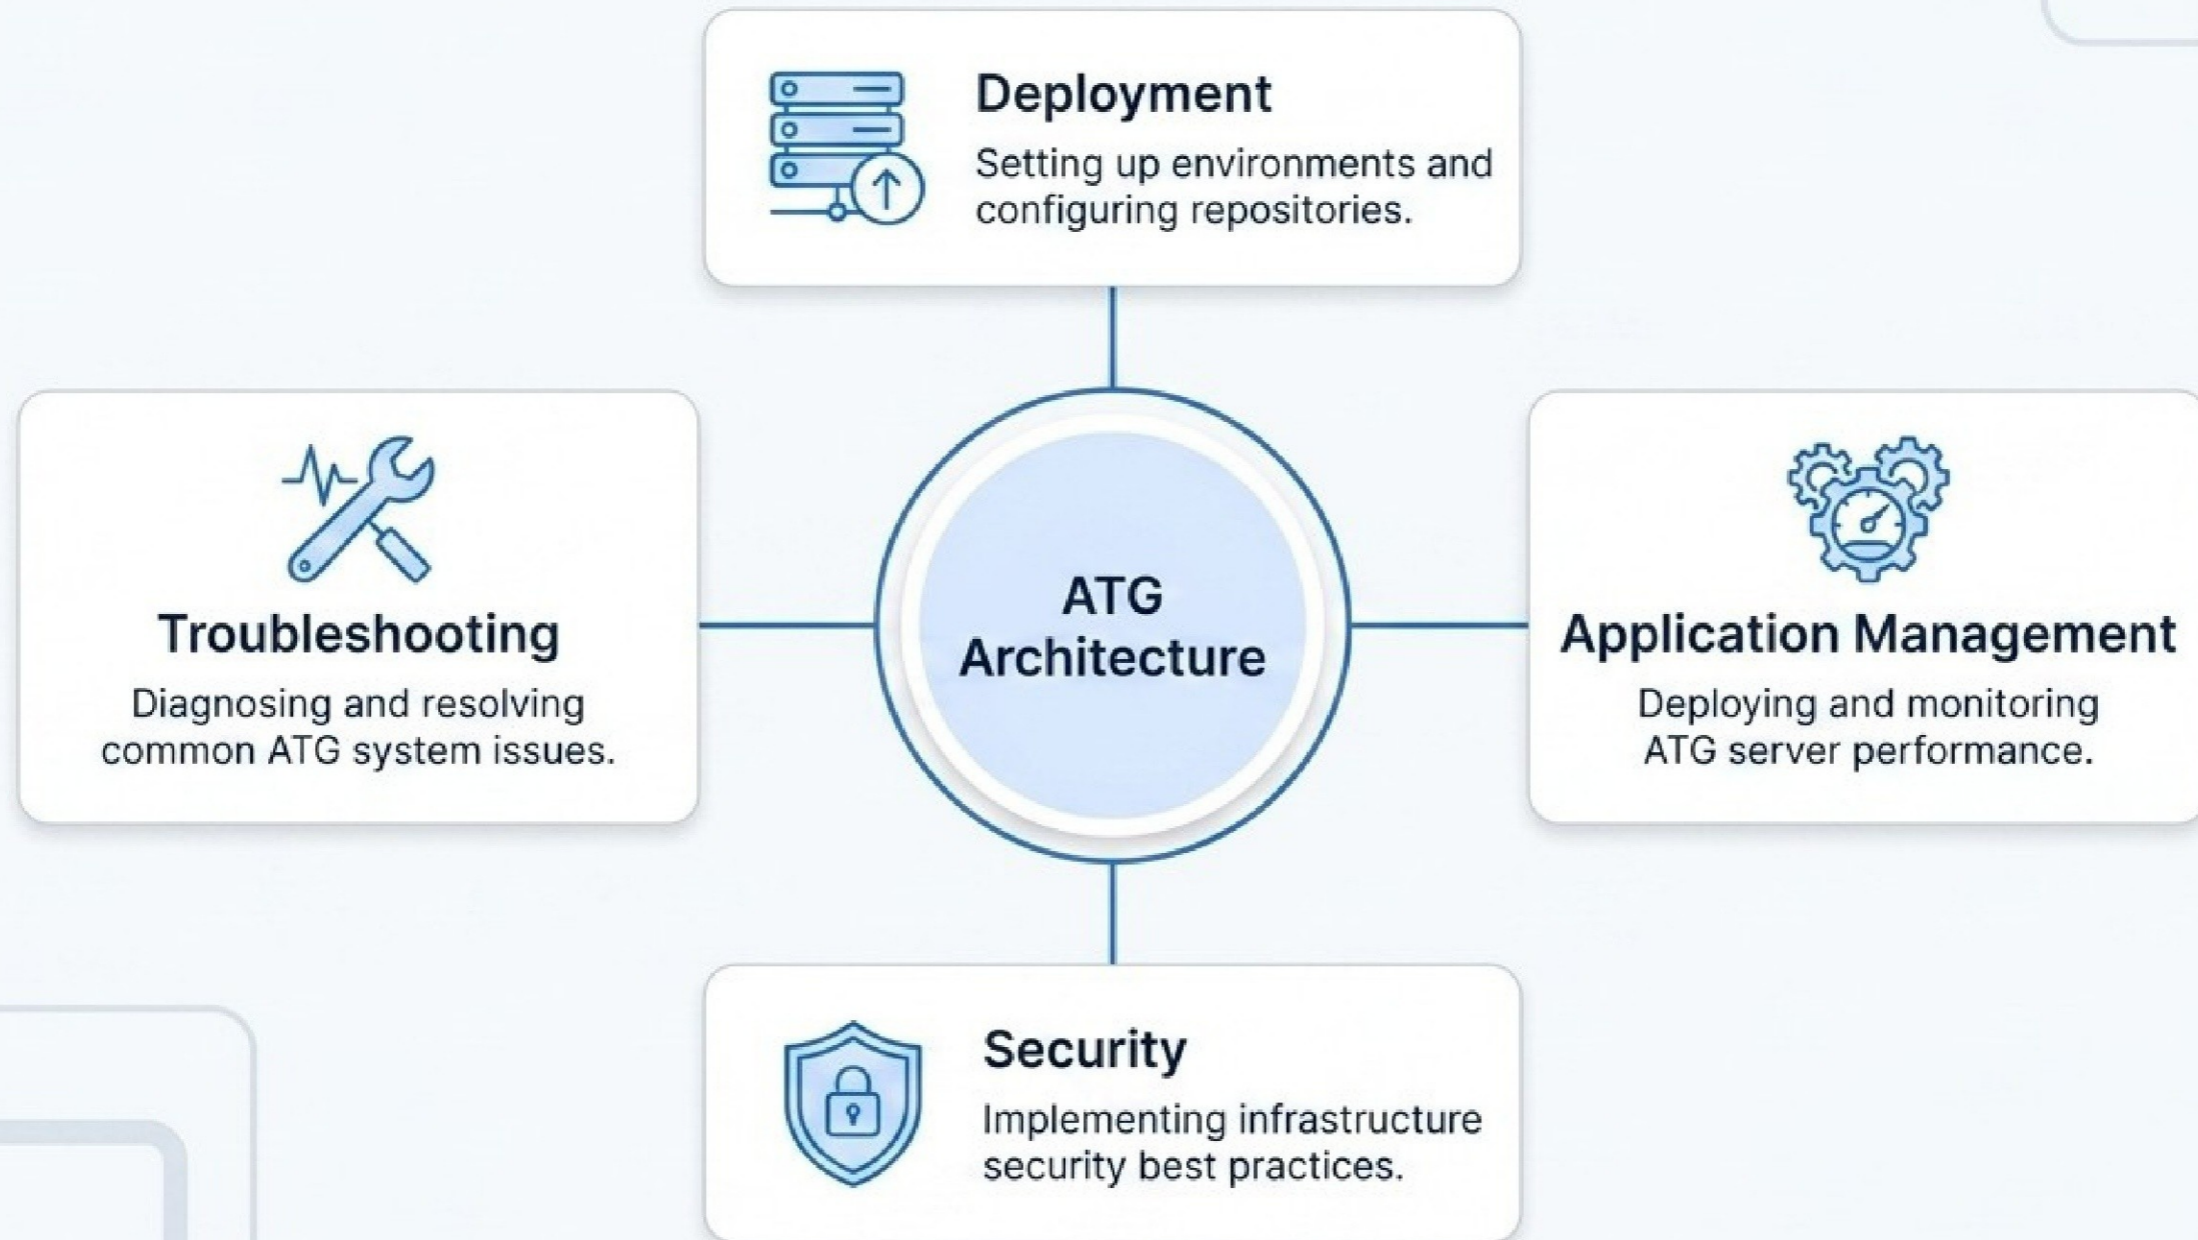

Phase 2: Advanced IPAM And Automation Strategy

Essential Tools

- ✓ IP Address Planning Strategies
- ✓ Managing IP Blocks And Subnets
- ✓ Configuring DHCP Reservations
- ✓ DNS Records And Functions

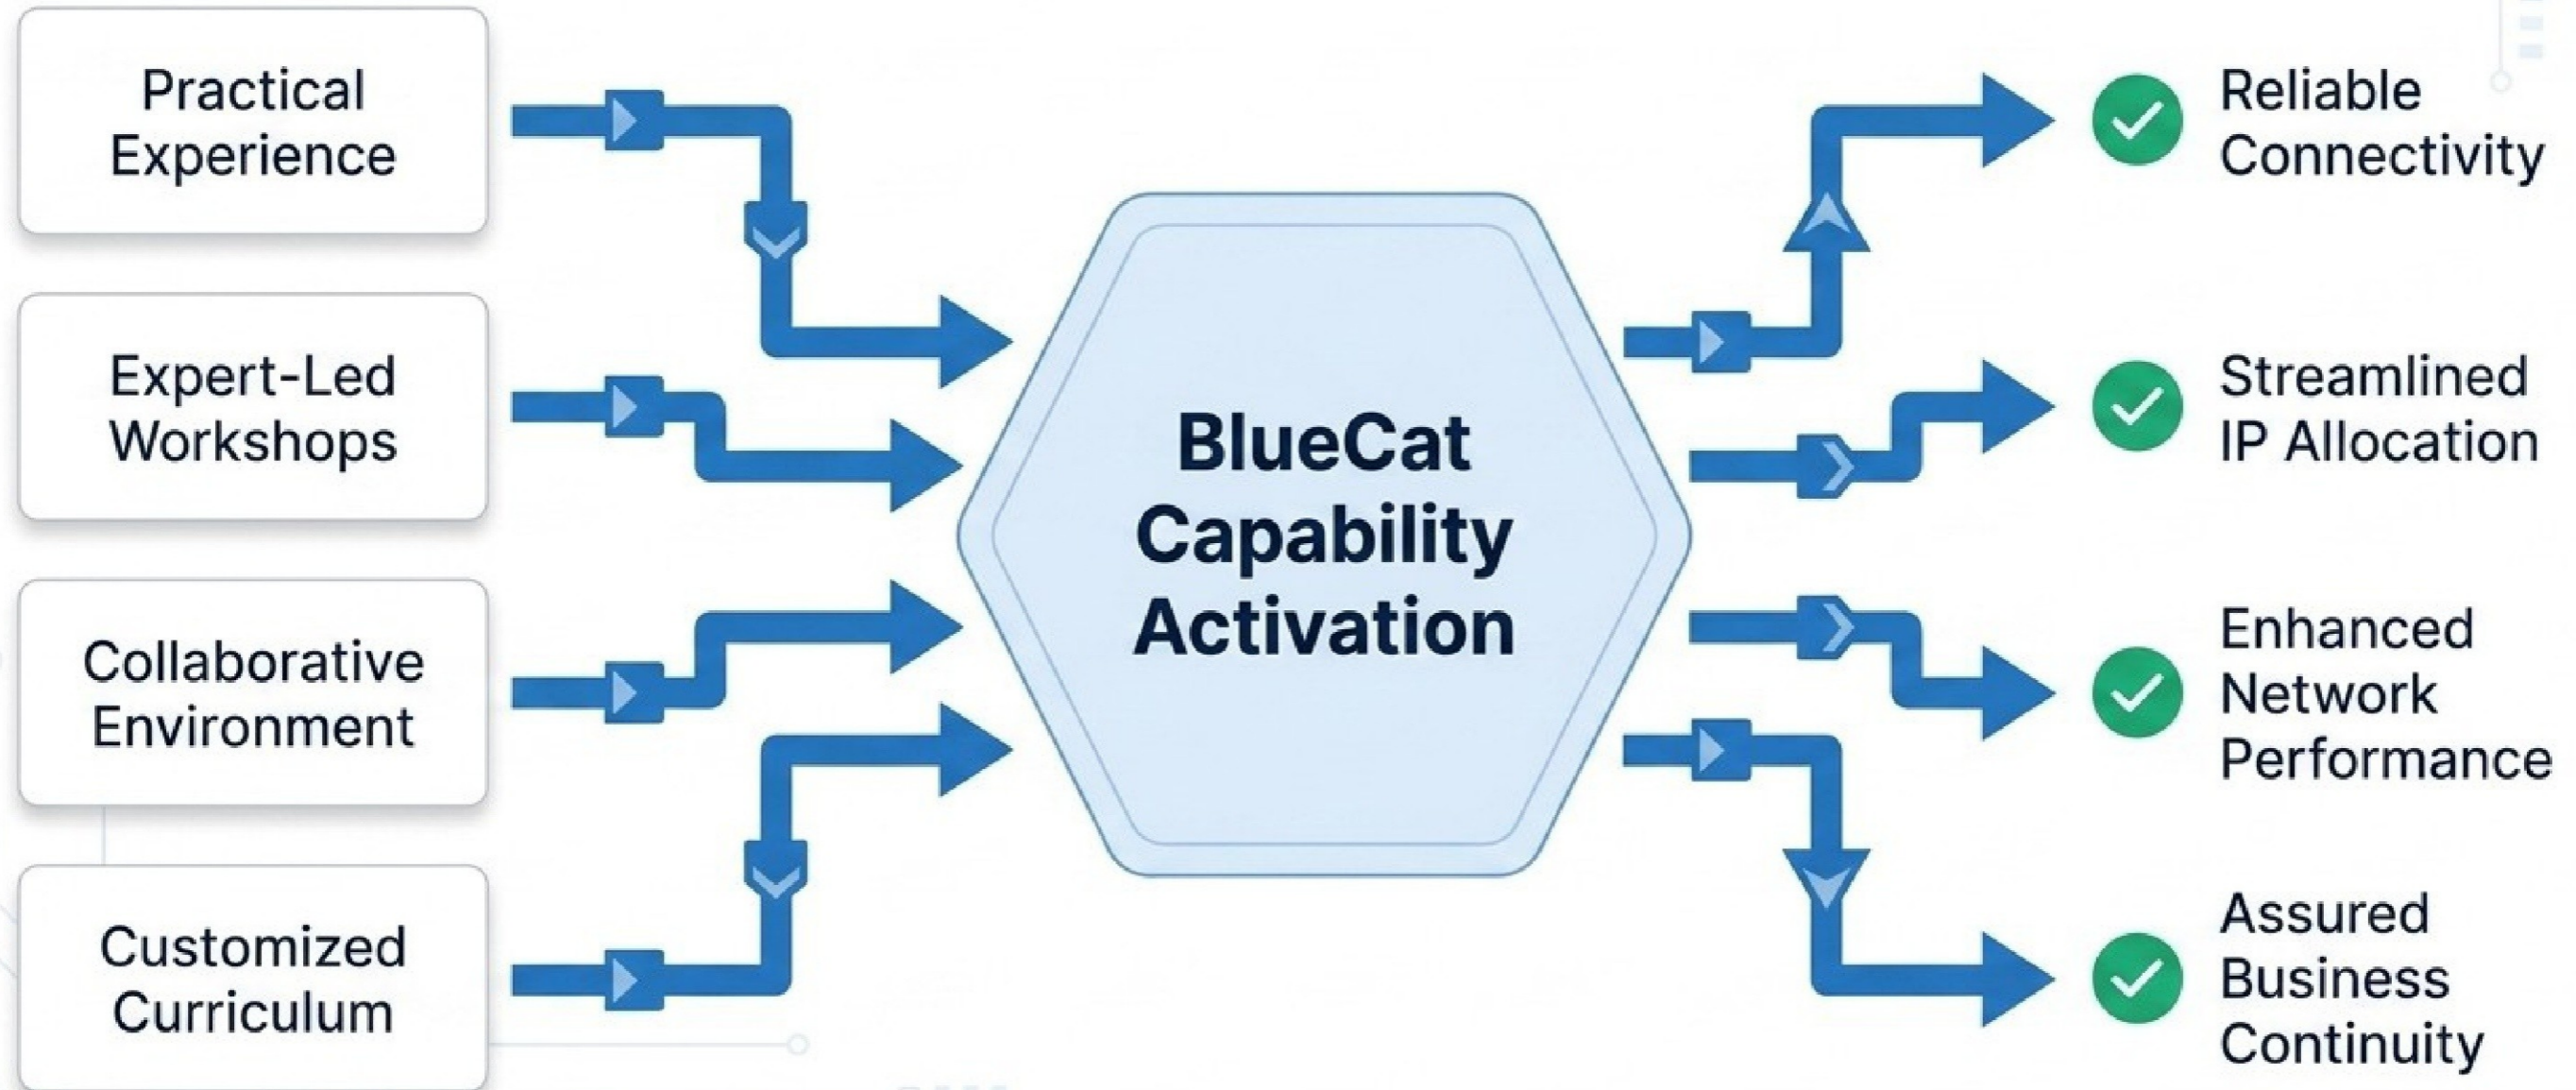

Phase 3: Enterprise System Administration

Skill Application And Business Impact Matrix

Technical Skill	Application Focus	Business Impact
DNS & DHCP Configuration	Setting up proper domain resolution and assigning IP addresses	Ensures reliable connectivity and minimizes IP conflicts
IP Address Management	Administration and tracking of IP address spaces	Maintains connectivity and optimizes network performance
Automation & Security	Safeguarding systems and minimizing human intervention	Protects sensitive information and ensures strict compliance

The Organizational Value Transformation

Target Audience Alignment

Flexible Enterprise Delivery Architecture

Virtual Live Instructor-Led

- Scale learning by accommodating large global groups.
- Ensure uniform learning outcomes with consistent quality.
- Utilize interactive tools to enhance engagement without travel.

On-site Face-to-Face

- Achieve higher engagement through direct in-person interaction.
- Tailor the workplace environment to specific learning requirements.
- Improve team collaboration and direct hands-on process demonstration.

Off-site Face-to-Face

- Improve focus within a dedicated, distraction-free environment.
- Enhance team bonding through specialized off-site activities.
- Boost employee morale by demonstrating commitment to development.

Proof of Impact

"The BlueCat training exceeded my expectations in every way. As a Network Engineer, I gained comprehensive knowledge of practical applications that transformed my approach to technical mastery. The knowledge gained has been immediately applicable to mission-critical projects and initiatives. The instructor's expertise in expert-led workshops made complex concepts crystal clear and actionable."
