

Enterprise Mastery in Azure Cloud Administration

Empower your technical teams to design, secure, and optimize scalable Microsoft Azure environments.

The Evolution of Cloud Infrastructure Management

Fragmented Infrastructure

Siloed data centers, manual resource provisioning, and disjointed identity management leading to operational bottlenecks.

The Shift to Azure

Organizations migrating to Microsoft Azure require unified governance, centralized security, and automated scalability.

Optimized Cloud Agility

Teams equipped with advanced Azure Administrator capabilities to drive cost-efficiency, robust security, and seamless global connectivity.

Program Delivery and Parameters

Duration:
32 - 40 Hours

Instructor-Led
Group Training

Virtual, On-Site,
or Off-Site

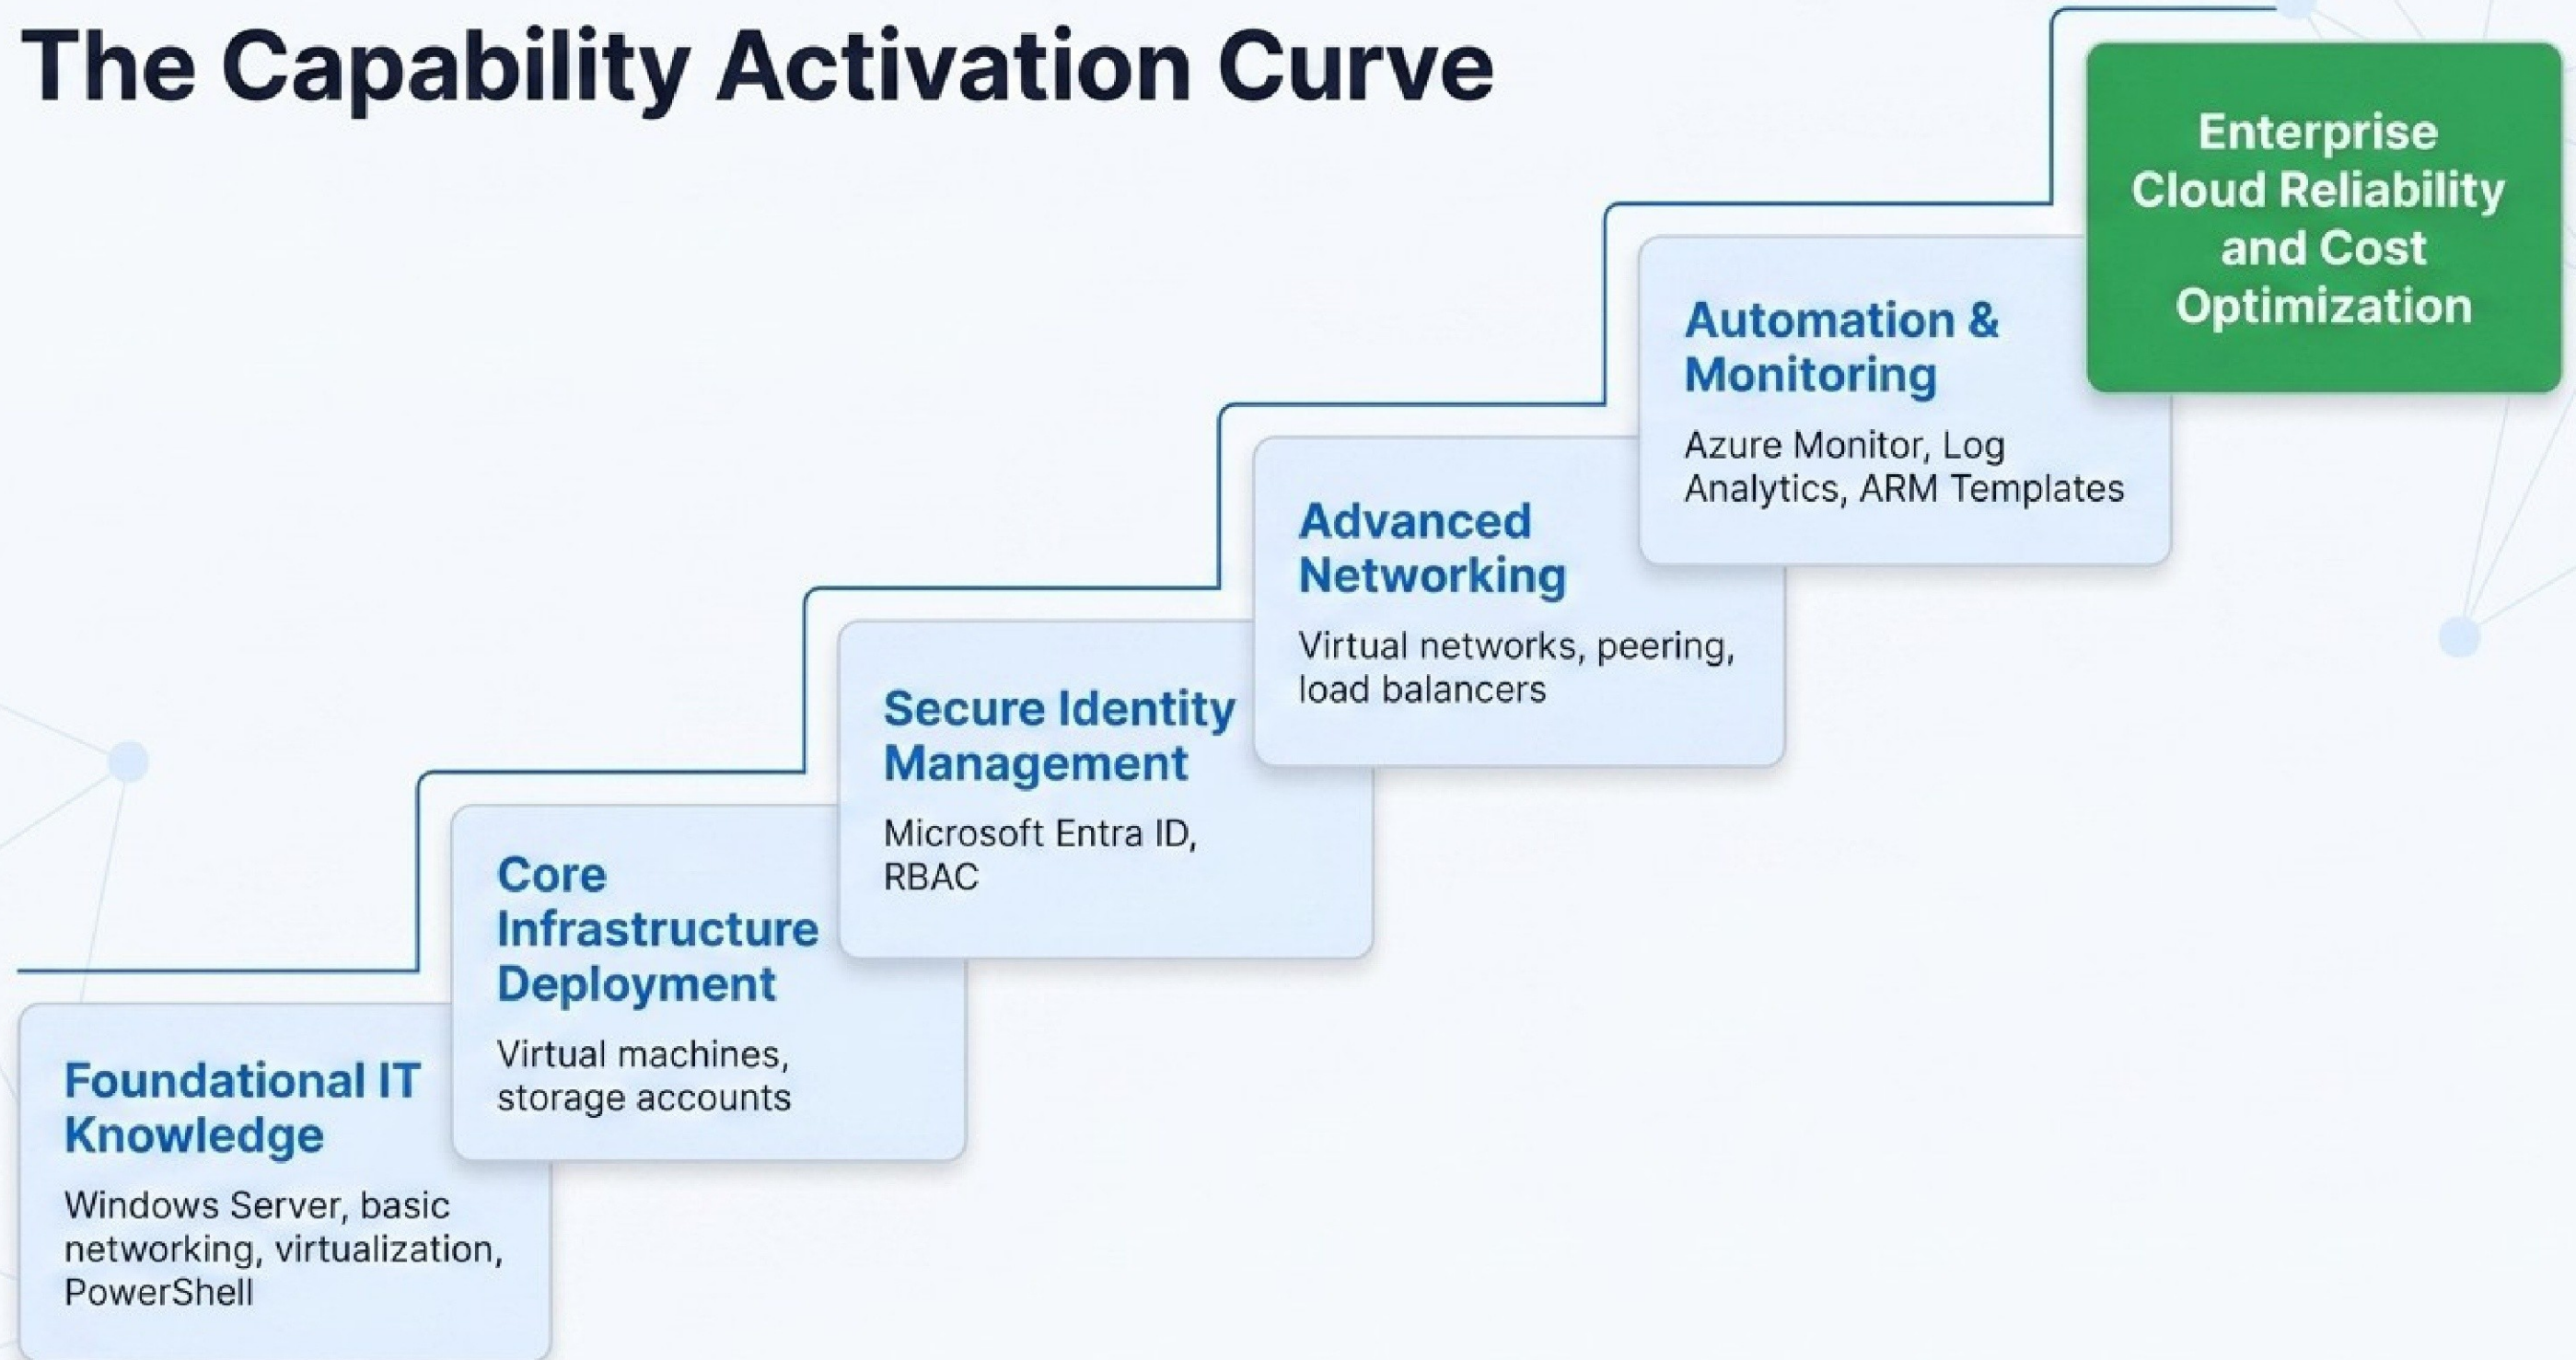

10,000+
Trainers
Globally

Course
Completion
Certificate
Included

The Capability Activation Curve

Structured Framework for Azure Administration

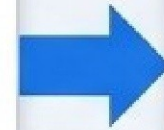

Identity and Core Compute

Modules 1-9. Focus on Entra ID, user governance, Role-Based Access Control, and Virtual Machine deployment.

Network and Security Integration

Modules 10-18. Focus on virtual networks, load balancers, security groups, and storage security.

Operations, Automation, and Monitoring

Modules 19-30. Focus on backup strategies, Azure Monitor, ARM templates, and resource scalability.

Phase 1: Identity Governance and Core Compute

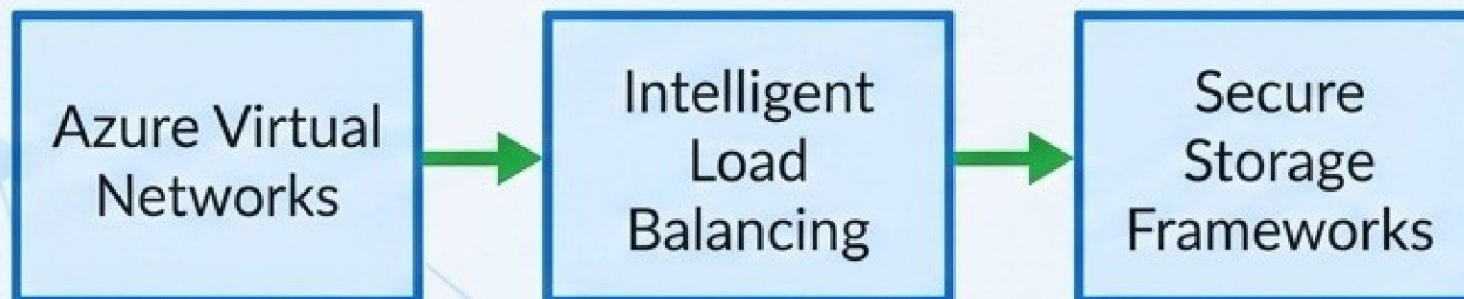

Phase 2: Advanced Networking and Security

The Traditional way

The Course-Enabled way

Network Security Groups (NSGs)

Azure Virtual Network Peering

Azure Application Gateway

Encrypted Azure Blob Storage

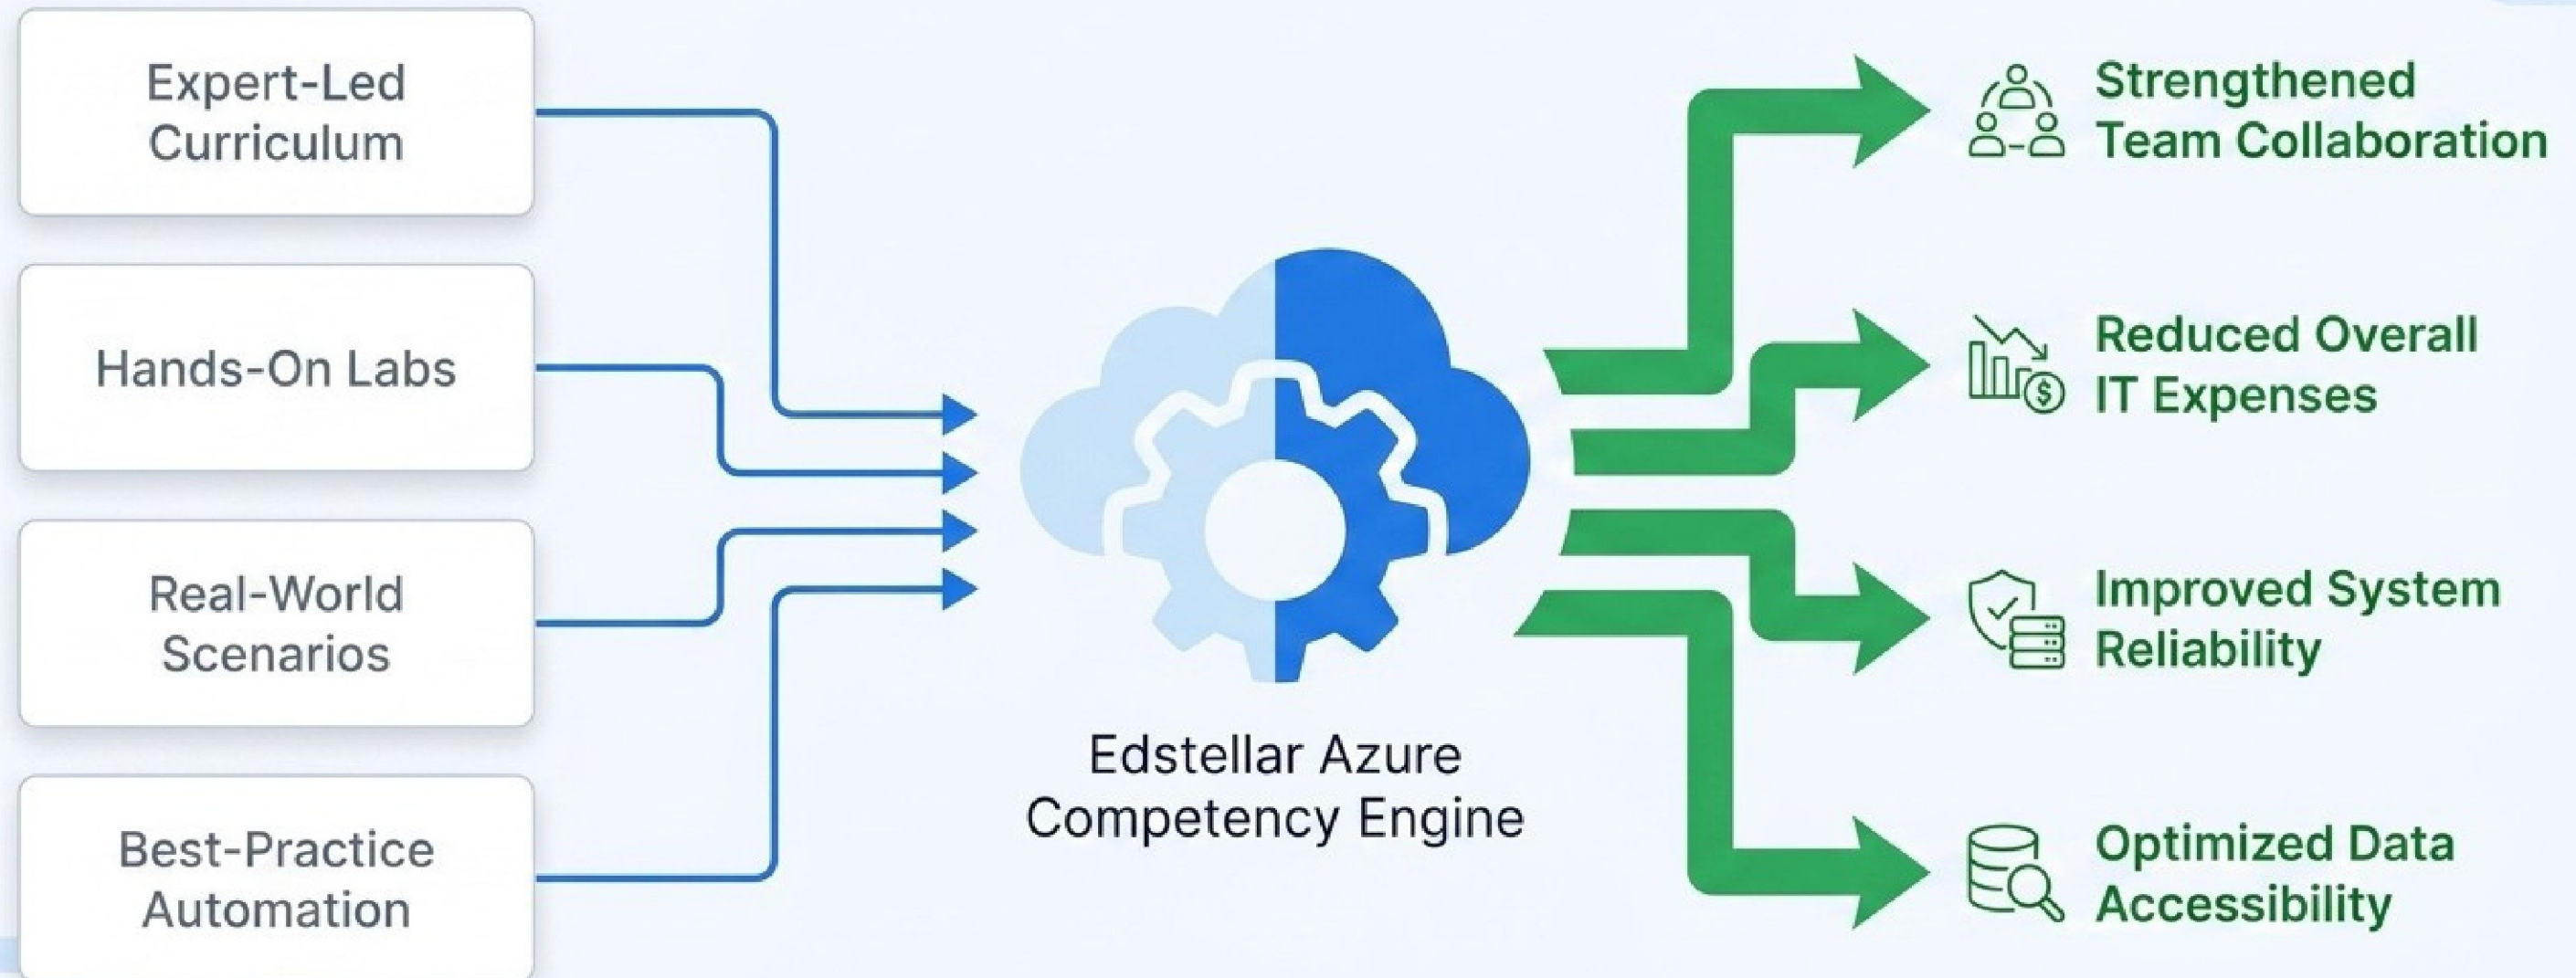

Phase 3: Automation, Reliability, and Optimization

Aligning Azure Capabilities with Business Needs

Operational Challenge	Azure Administrator Capability	Business Outcome
High IT Expenses & Waste	 Subscription & Resource Scaling	 Cost-effective Resource Management
Data Breaches & Compliance Risks	 Entra ID, RBAC & Storage Security	 Robust Protection of Organizational Data
Manual Administrative Bottlenecks	 ARM Templates & PowerShell Scripting	 Streamlined Tasks & Increased Efficiency

The Integration Engine for Enterprise Agility

Target Audience Alignment

Flexible Group Training Formats

Virtual Live Instructor-Led

Global reach without travel, consistent quality across regions, interactive digital tools for large groups.

On-Site Face-to-Face

Immersive learning, tailored workplace environments, enhanced team collaboration and direct interaction.

Off-Site Face-to-Face

Distraction-free focus, dedicated schedule, boosts morale and team bonding away from the office.

Proof of Impact

"The Microsoft Azure Administrator training exceeded my expectations in every way. As a Principal Azure Engineer, I gained comprehensive knowledge of Azure administration that transformed my approach to cloud incredibly practical and immediately applicable. I now handle complex technical scenarios with enhanced confidence and systematic efficiency."

Michelle Hopkins

Principal Azure Engineer

Enterprise Cloud Consulting Company

Enterprise Delivery at Global Scale

Delivery Capability Across
100+ Countries

Instruction Available in 10+
Languages (Including English,
Spanish, Mandarin, German,
French, Japanese)

Accelerate Your Cloud Operations Today

Equip your teams with the architectural knowledge to deploy, secure, and optimize Microsoft Azure infrastructure. Partner with Edstellar to customize your group training program.
