

Empowering Cloud Infrastructure Excellence

Drive Team Excellence With Expert-Led Architecting
With Google Compute Engine Corporate Training.

The Cloud Transformation Paradigm

Old State

Traditional Infrastructure

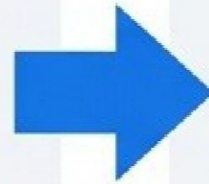

Static scaling limitations

Resource silos and inefficiencies

Isolated network management

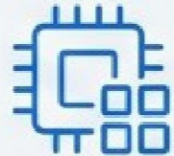

Turning Point

Google Compute Engine Integration

On-demand virtual machines

Advanced instance configurations

Integrated Identity and Access Management (IAM)

Outcome

Scalable Enterprise Architecture

Dynamic infrastructure agility

Robust security and compliance

High-performance global connectivity

Program Architecture At-A-Glance

24 - 32 Hrs

Instructor-Led

Virtual /
On-Site /
Off-Site

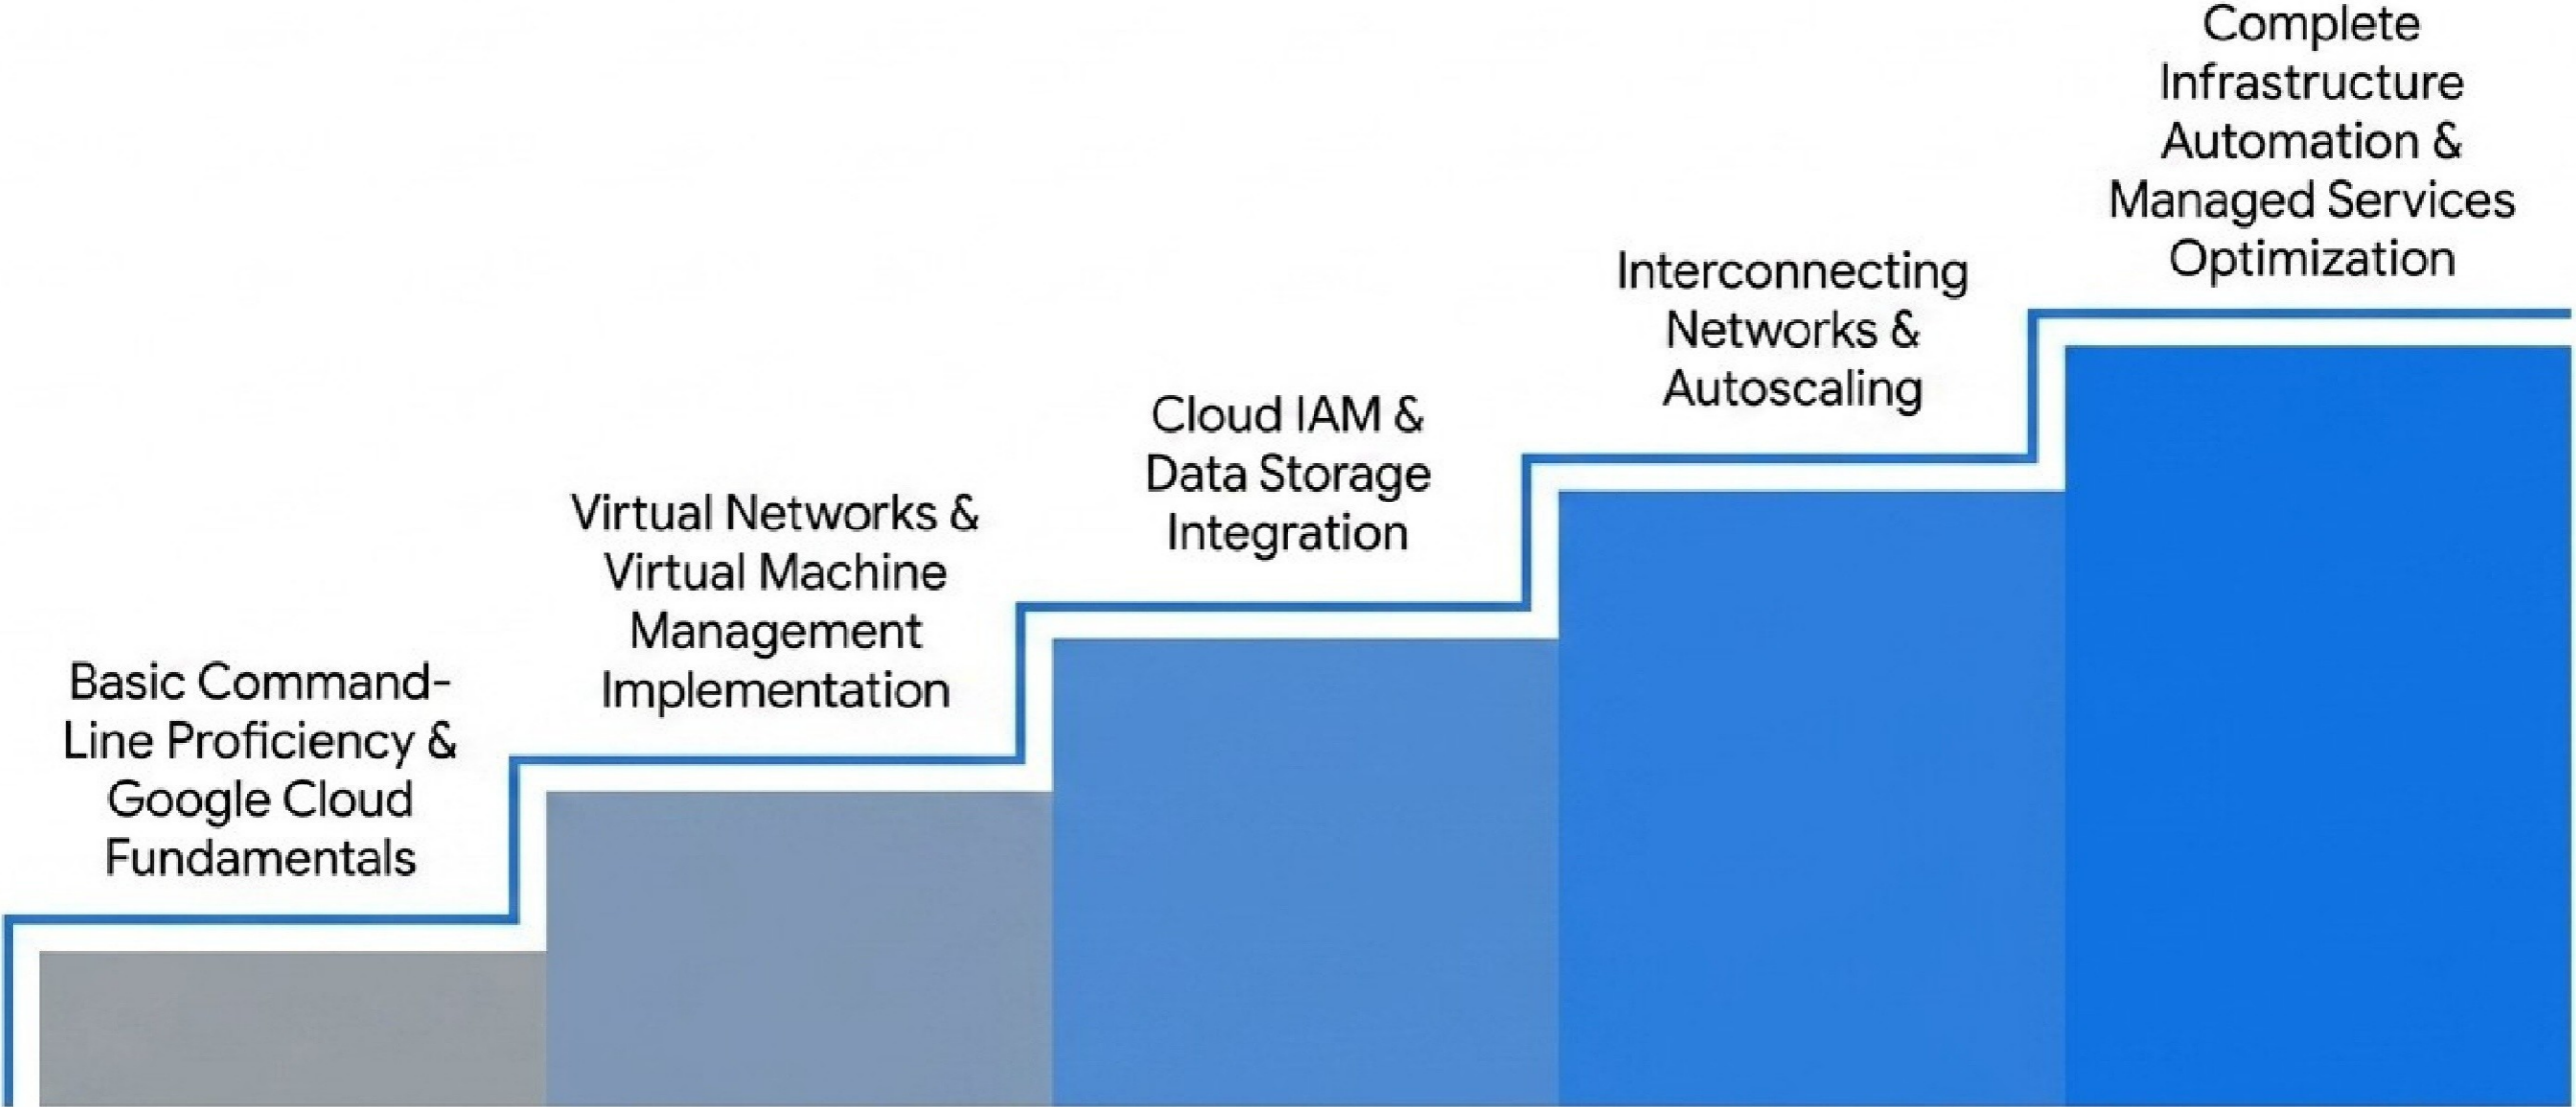

100+ Countries
& 10+
Languages

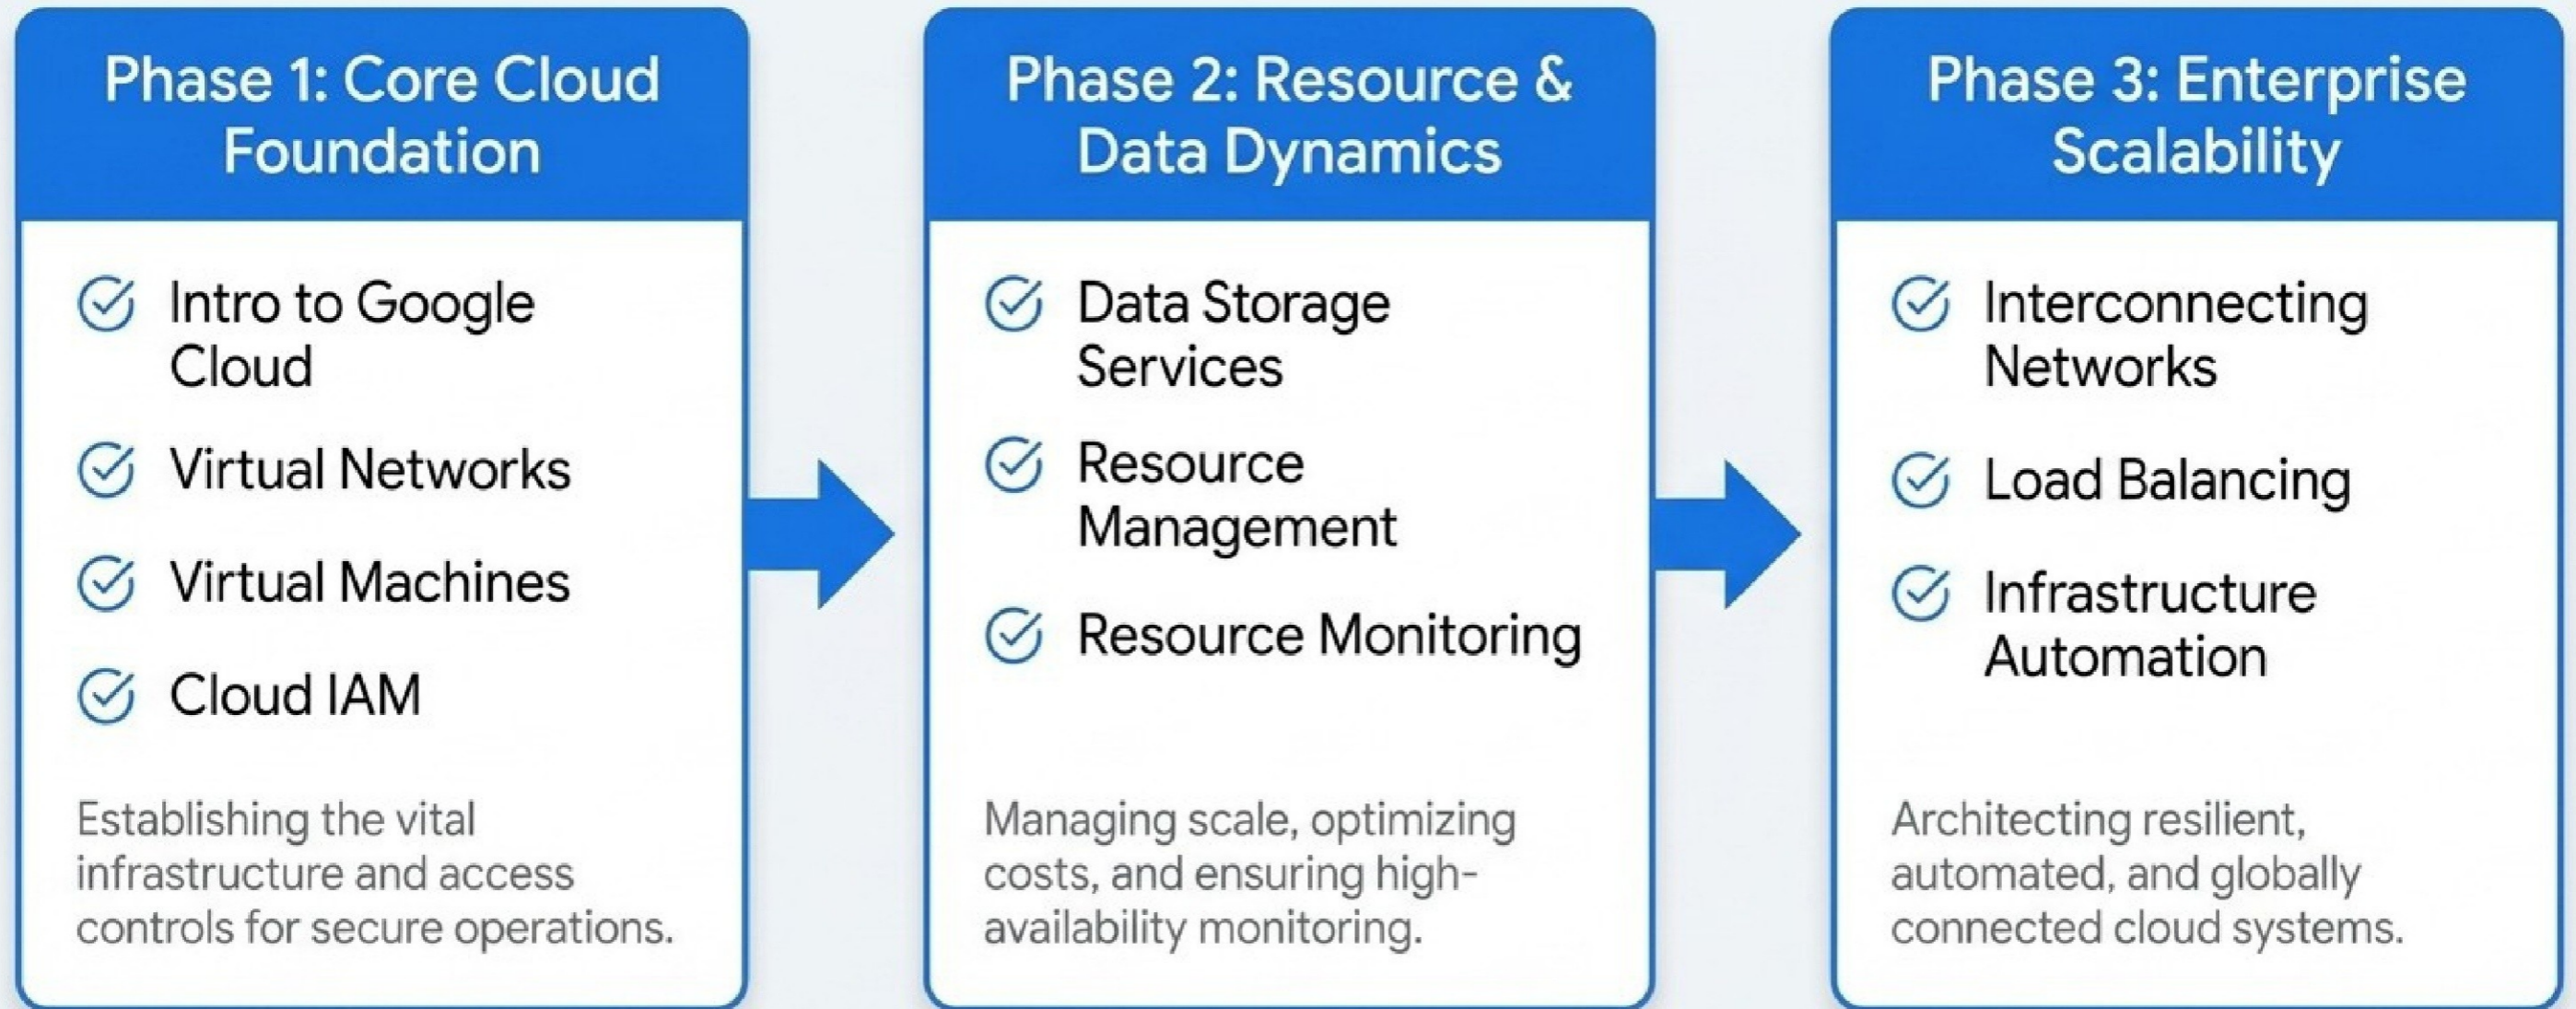

Course
Completion
Certificate

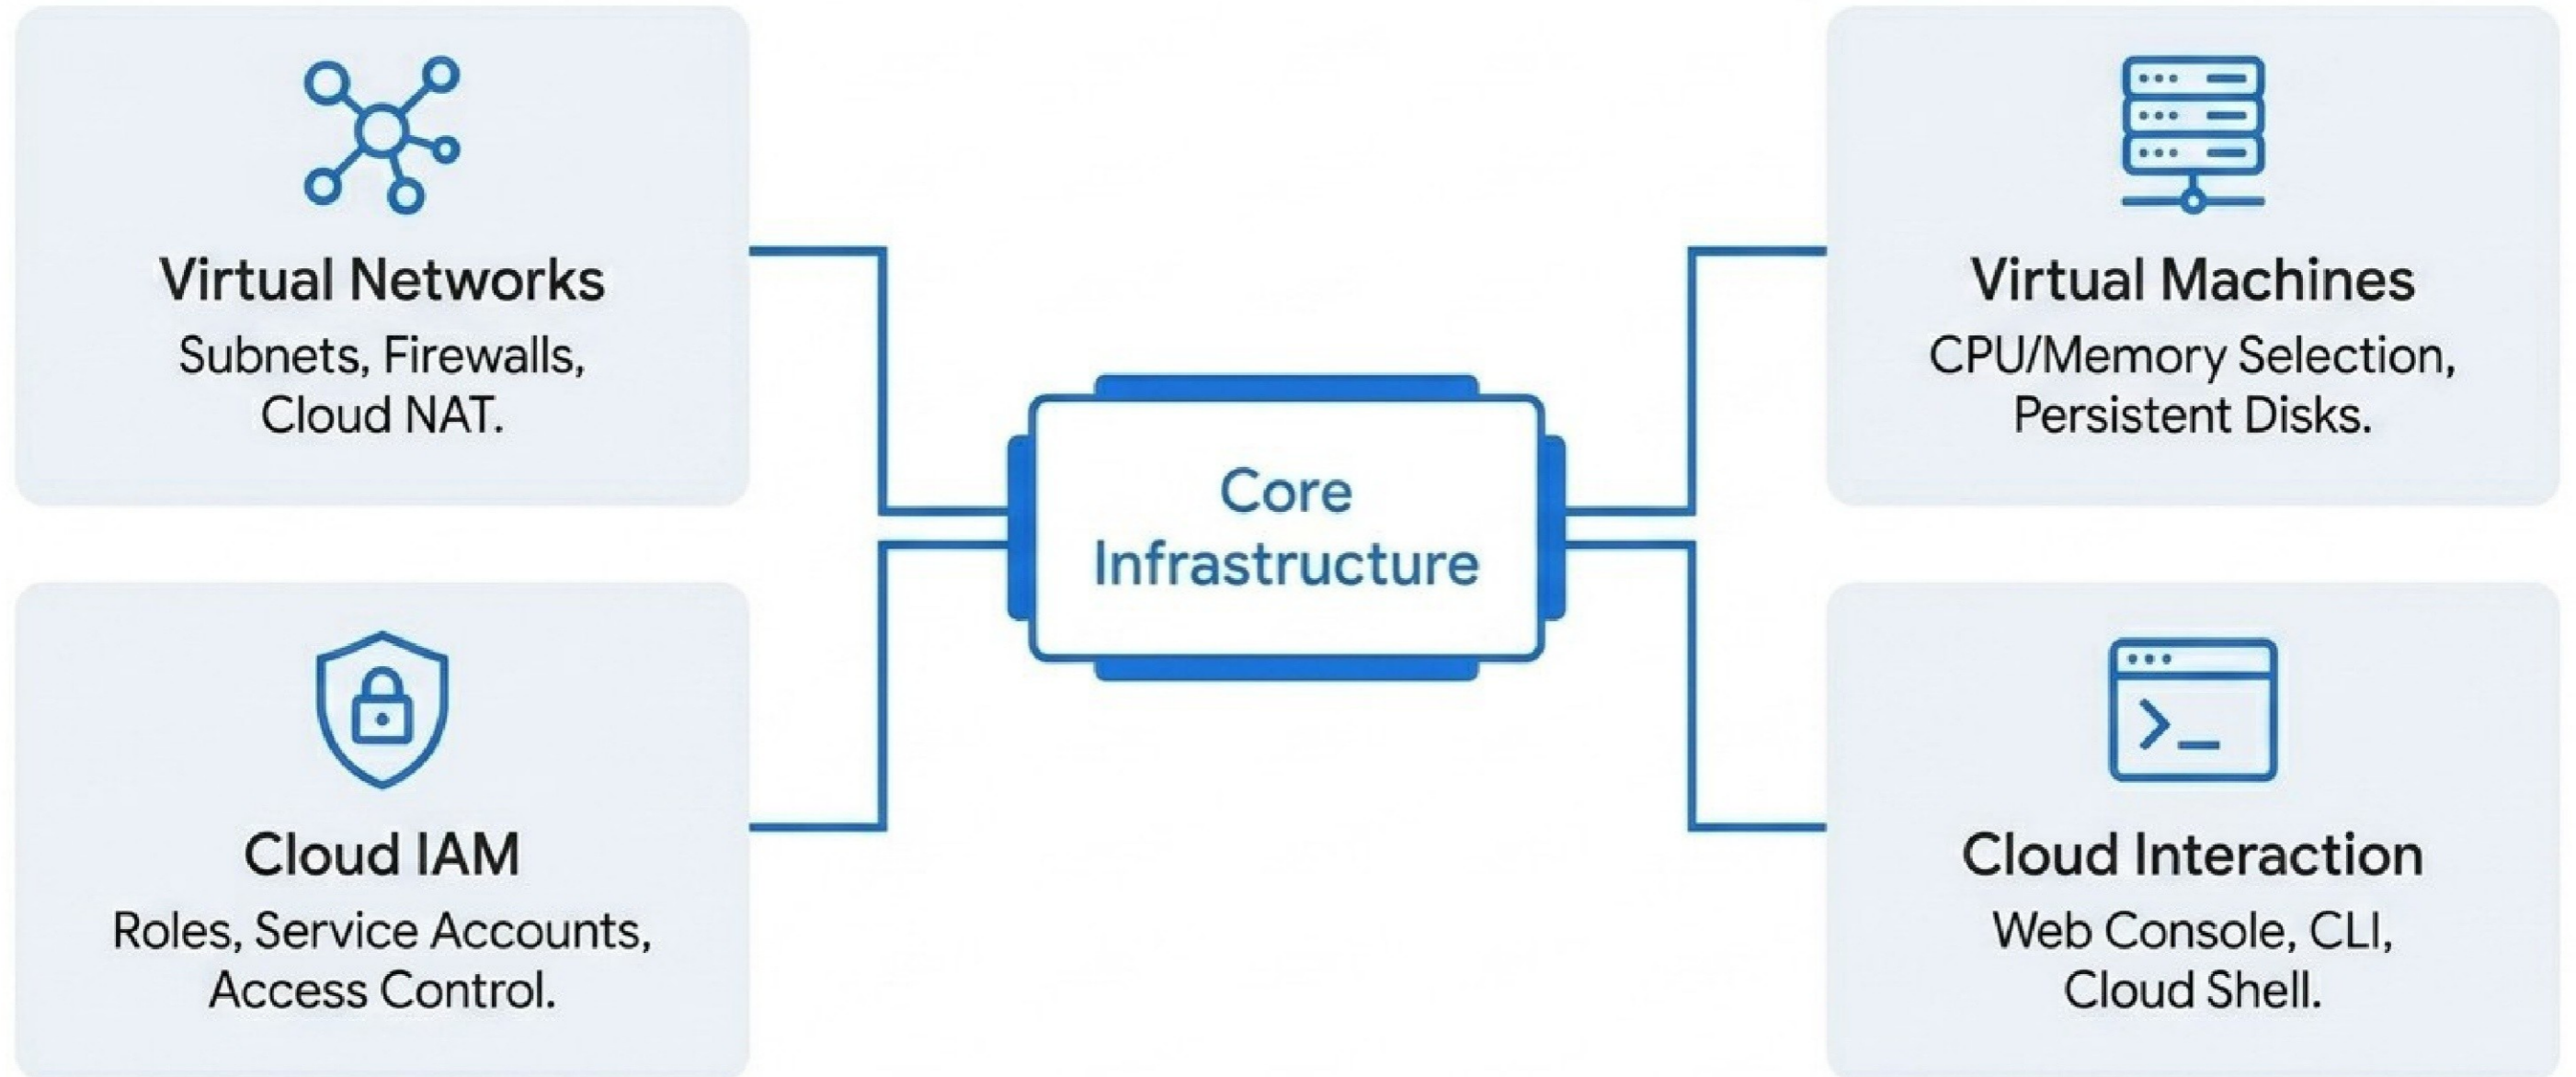

The Capability Activation Curve

Strategic Curriculum Framework

Establishing The Core Foundation

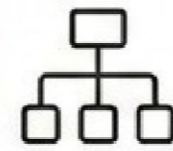

Mastering Resource Dynamics

Traditional Storage:
Static, siloed infrastructure.

Course-Enabled Cloud Storage:
Cloud SQL, Spanner,
Bigtable, Firestore.

Resource Manager
Hierarchy

Quota & Budget Alerts
Management

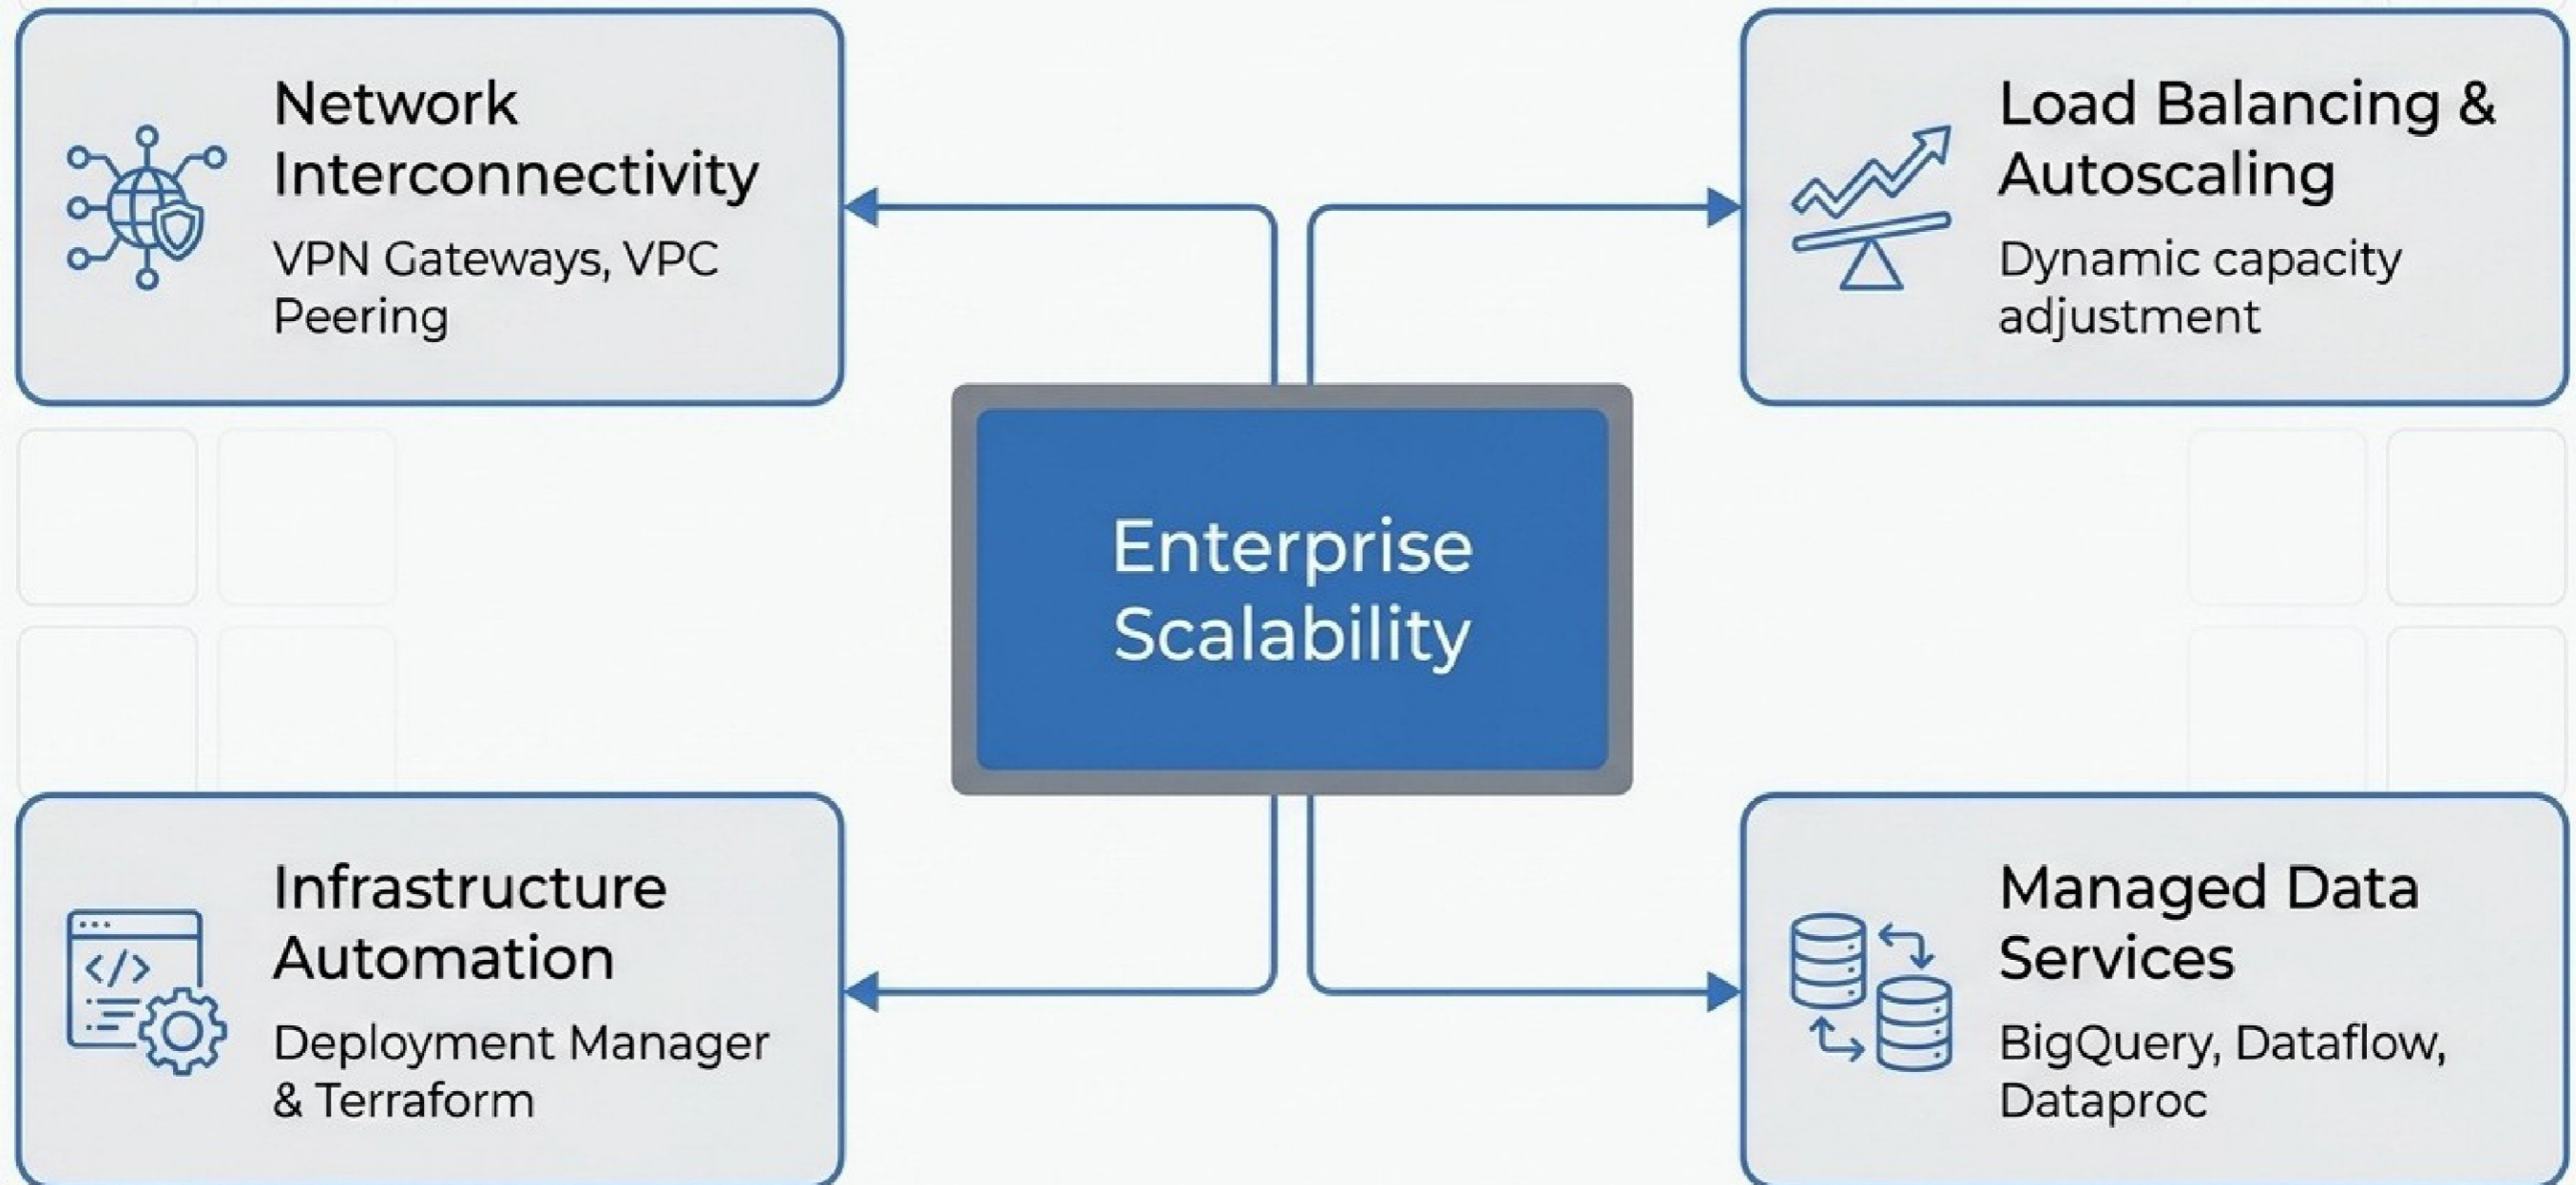

BigQuery Billing
Analysis

Cloud Monitoring &
Error Reporting

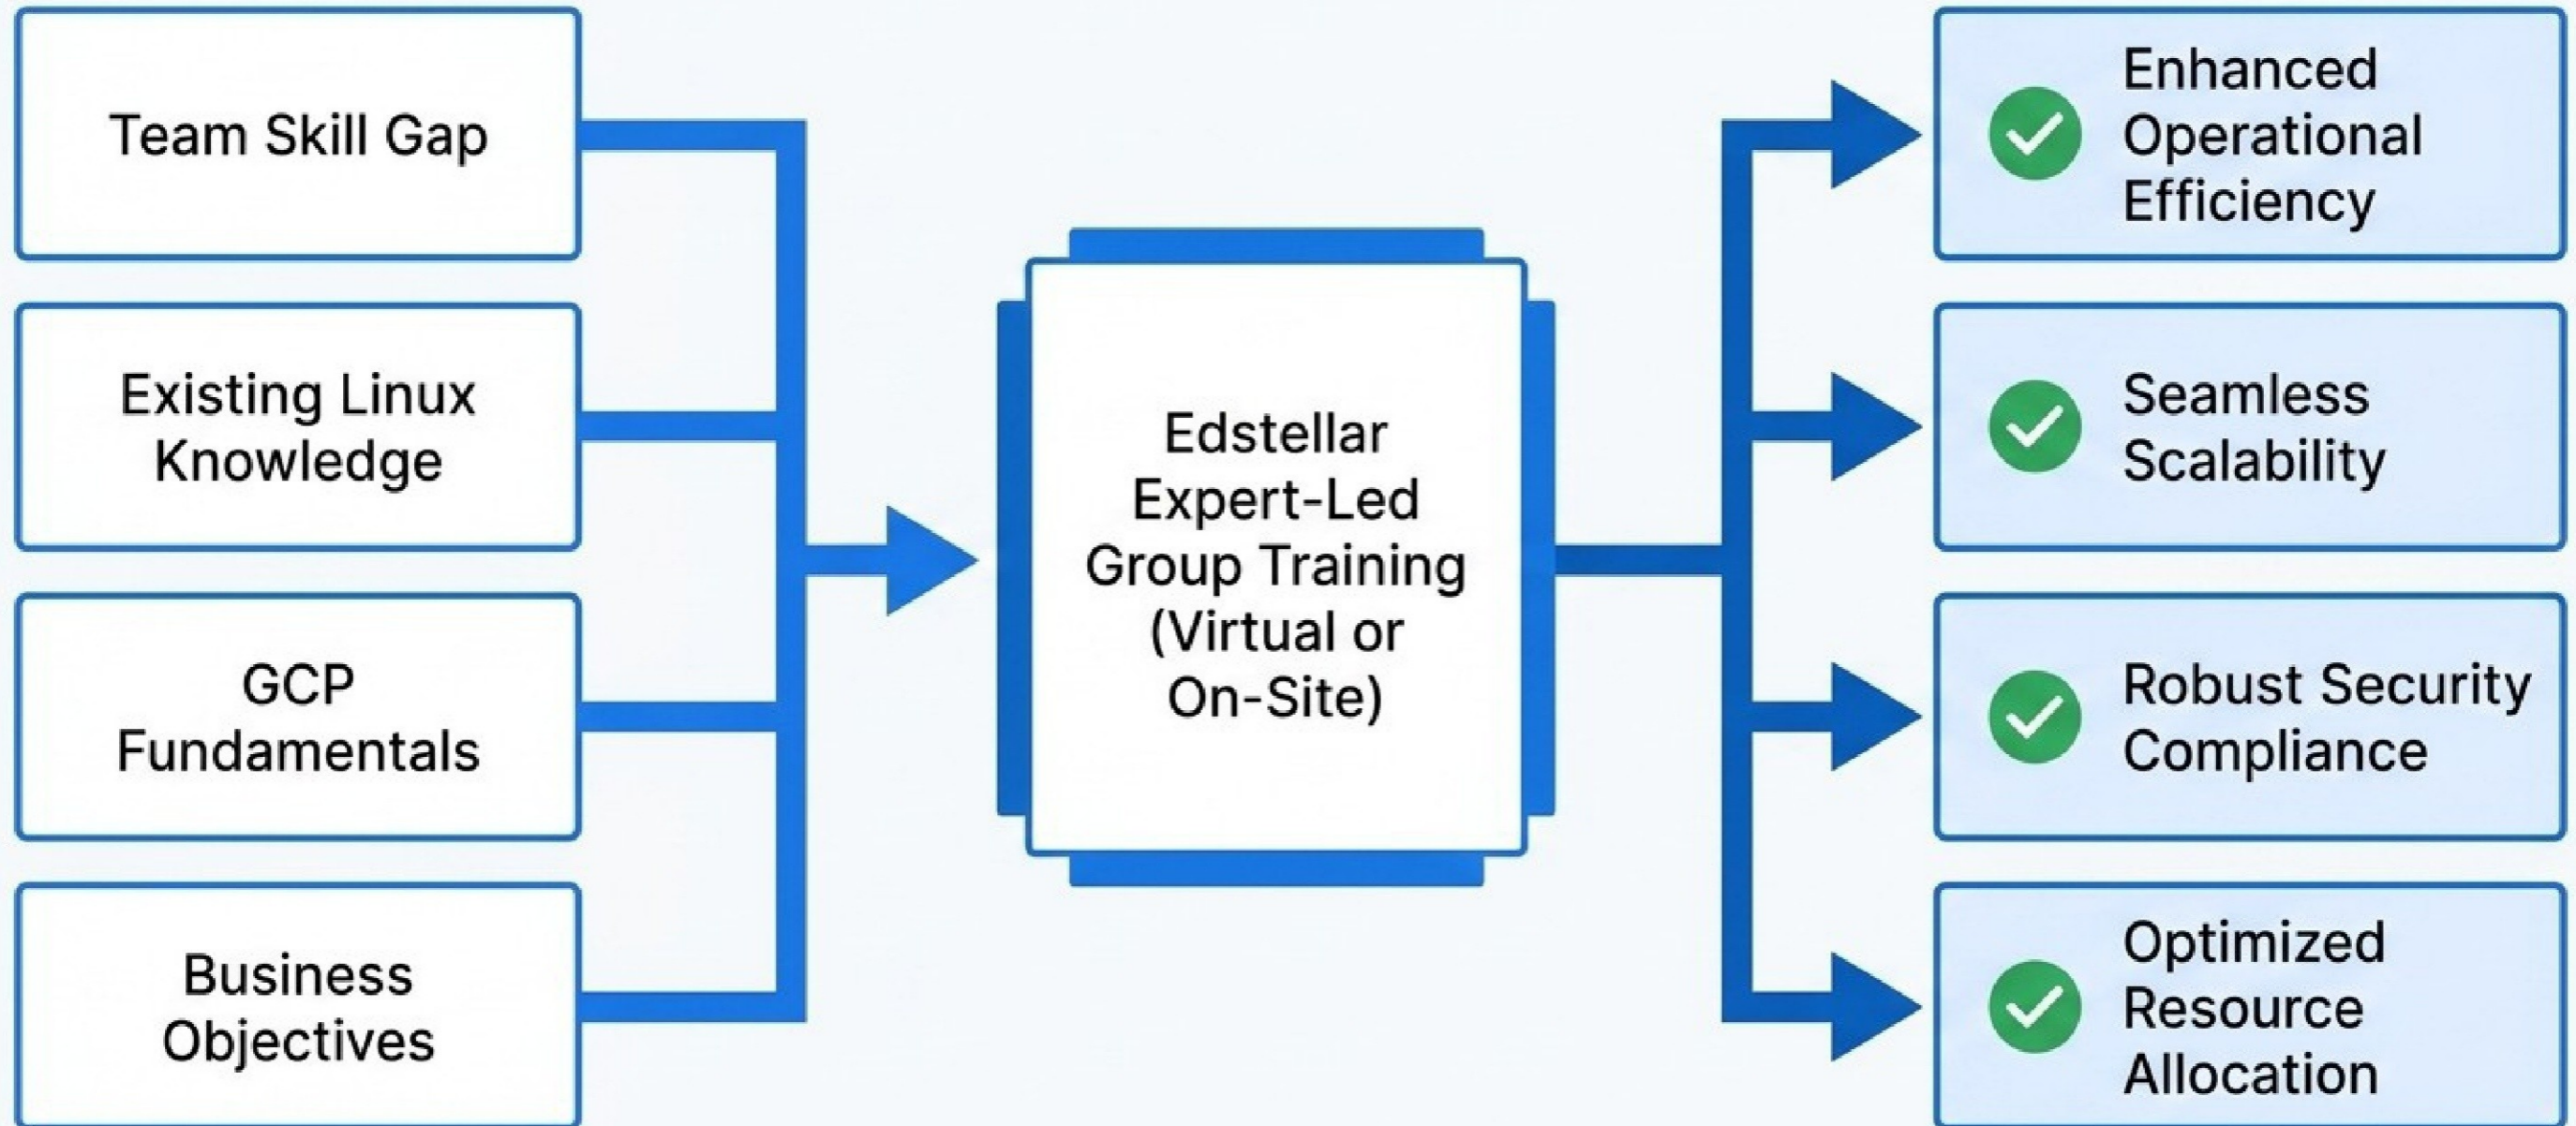

Scaling Enterprise Operations

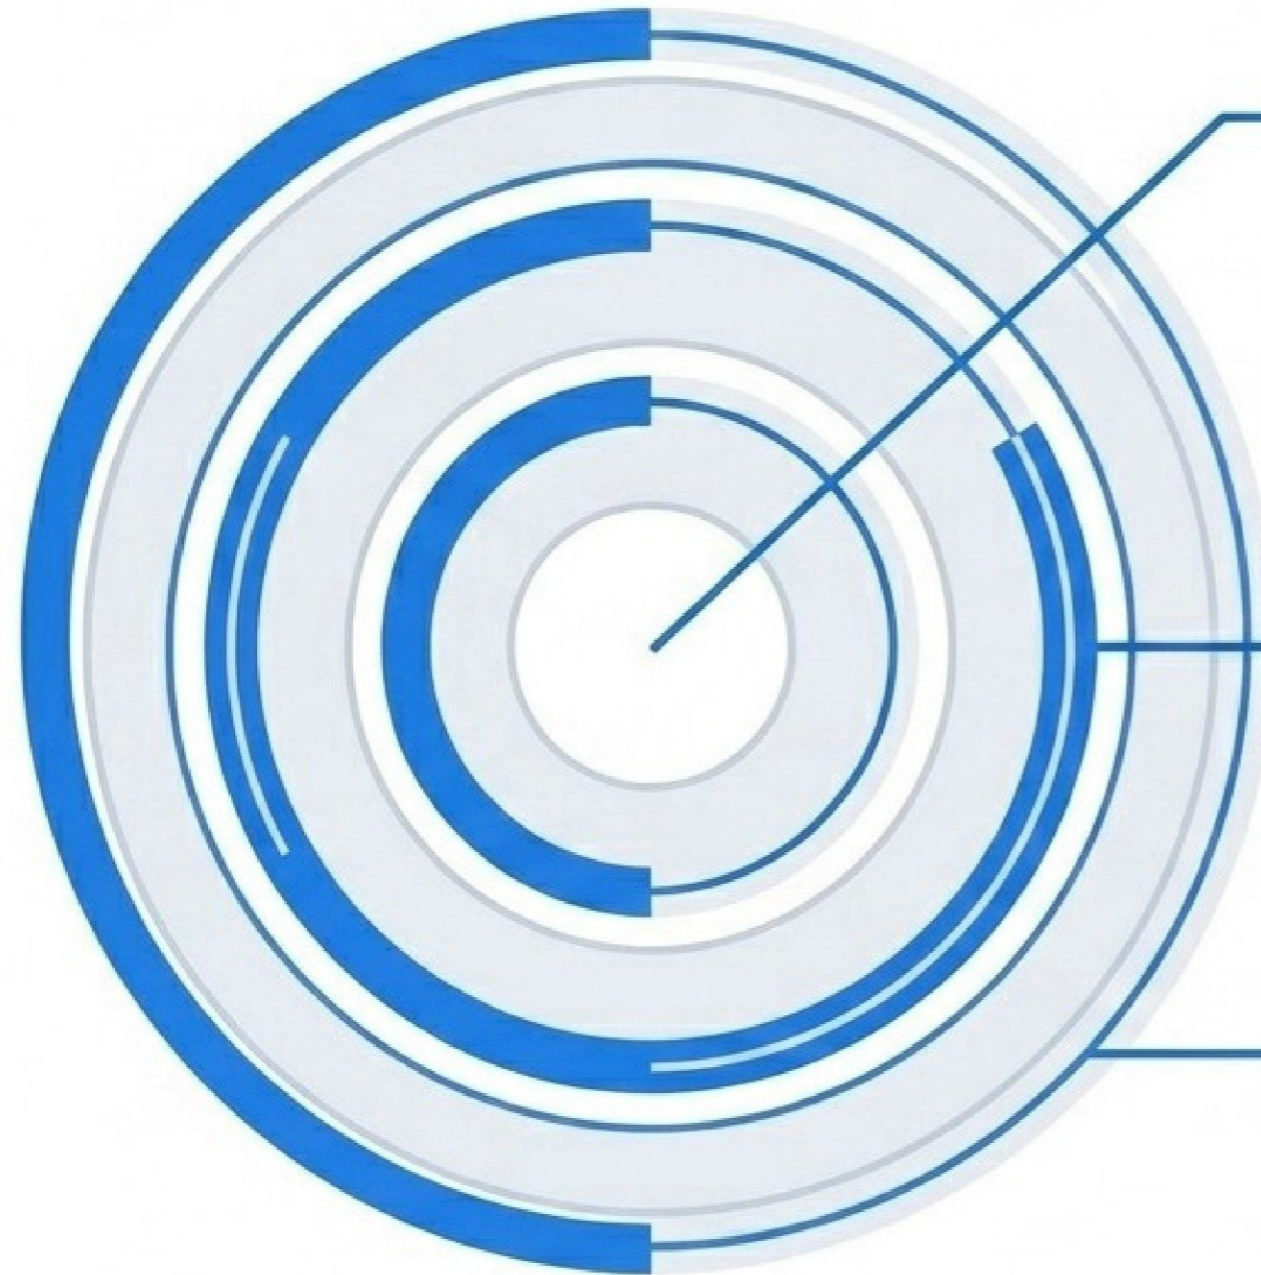

Capability Impact Diagnostic

Role	Skill & Concept	Outcome
Cloud Engineers	<ul style="list-style-type: none">✔ Virtual Machine Management ✔ CPU/Memory Optimization	<ul style="list-style-type: none">✔ Efficient Resource Utilization
System Administrators	<ul style="list-style-type: none">✔ Security Implementation ✔ Cloud IAM & Firewalls	<ul style="list-style-type: none">✔ Data Confidentiality & Compliance
Network Engineers	<ul style="list-style-type: none">✔ Networking Configuration ✔ Interconnect & Load Balancing	<ul style="list-style-type: none">✔ Reliable Connectivity & Seamless Data Transfer

The ROI Transformation Engine

Target Audience Alignment

Technical Execution

Cloud Engineers, Software Engineers, Back-End Developers.

Operational Architecture

Infrastructure Engineers, Network Engineers, System Administrators, DevOps.

Strategic Management

Solution Architects, System Architects, IT Managers.

Adaptive Delivery Frameworks

Virtual Live

- Global reach capability
- Consistent training quality
- Scalable for large groups

On-Site Face-To-Face

- High engagement interaction
- Tailored workplace environment
- Improved team collaboration

Off-Site Face-To-Face

- Distraction-free learning
- Boosted employee morale
- Focused schedule

Proof of Impact

“The Architecting with Google Compute Engine training exceeded my expectations in every way... The instructor’s expertise in interactive labs made complex concepts crystal clear and actionable.”

Stewart Palmer

Senior Software Engineer

IT Services and Solutions Provider

Worldwide Delivery Ecosystem

100+
