

Board BI Corporate Training Course

Driving Data-Driven Decisions With Unified Business Intelligence And Corporate Performance Management

The Analytics Evolution Paradigm

Siloed Data Management

Fragmented reporting causing operational inefficiencies and intuition-based decision making.

Edstellar Board BI Integration

Equipping teams to unify multidimensional data sources through expert-led group training.

Optimized Business Performance

Seamless forecasting, mitigated risks, and data-driven strategic planning across the enterprise.

Enterprise Learning Fundamentals

24 - 32 Hours

Duration

**Instructor-Led
Group Training**

Format

**Virtual / On-Site
/ Off-Site**

Delivery

**10,000+
Trainers**

Global Network

**Course
Completion
Certificate**

The Capability Activation Staircase

Structured Phased Deployment

Phase 1: Platform Foundation

Modules: Platform Overview, Product Architecture

Mastering the BI and Performance Management all-in-one toolkit and layered functional architecture.

Phase 2: Operations And Security

Modules: Security, Data Integration

Implementing multi-tiered security models and virtualized data federation across enterprise sources.

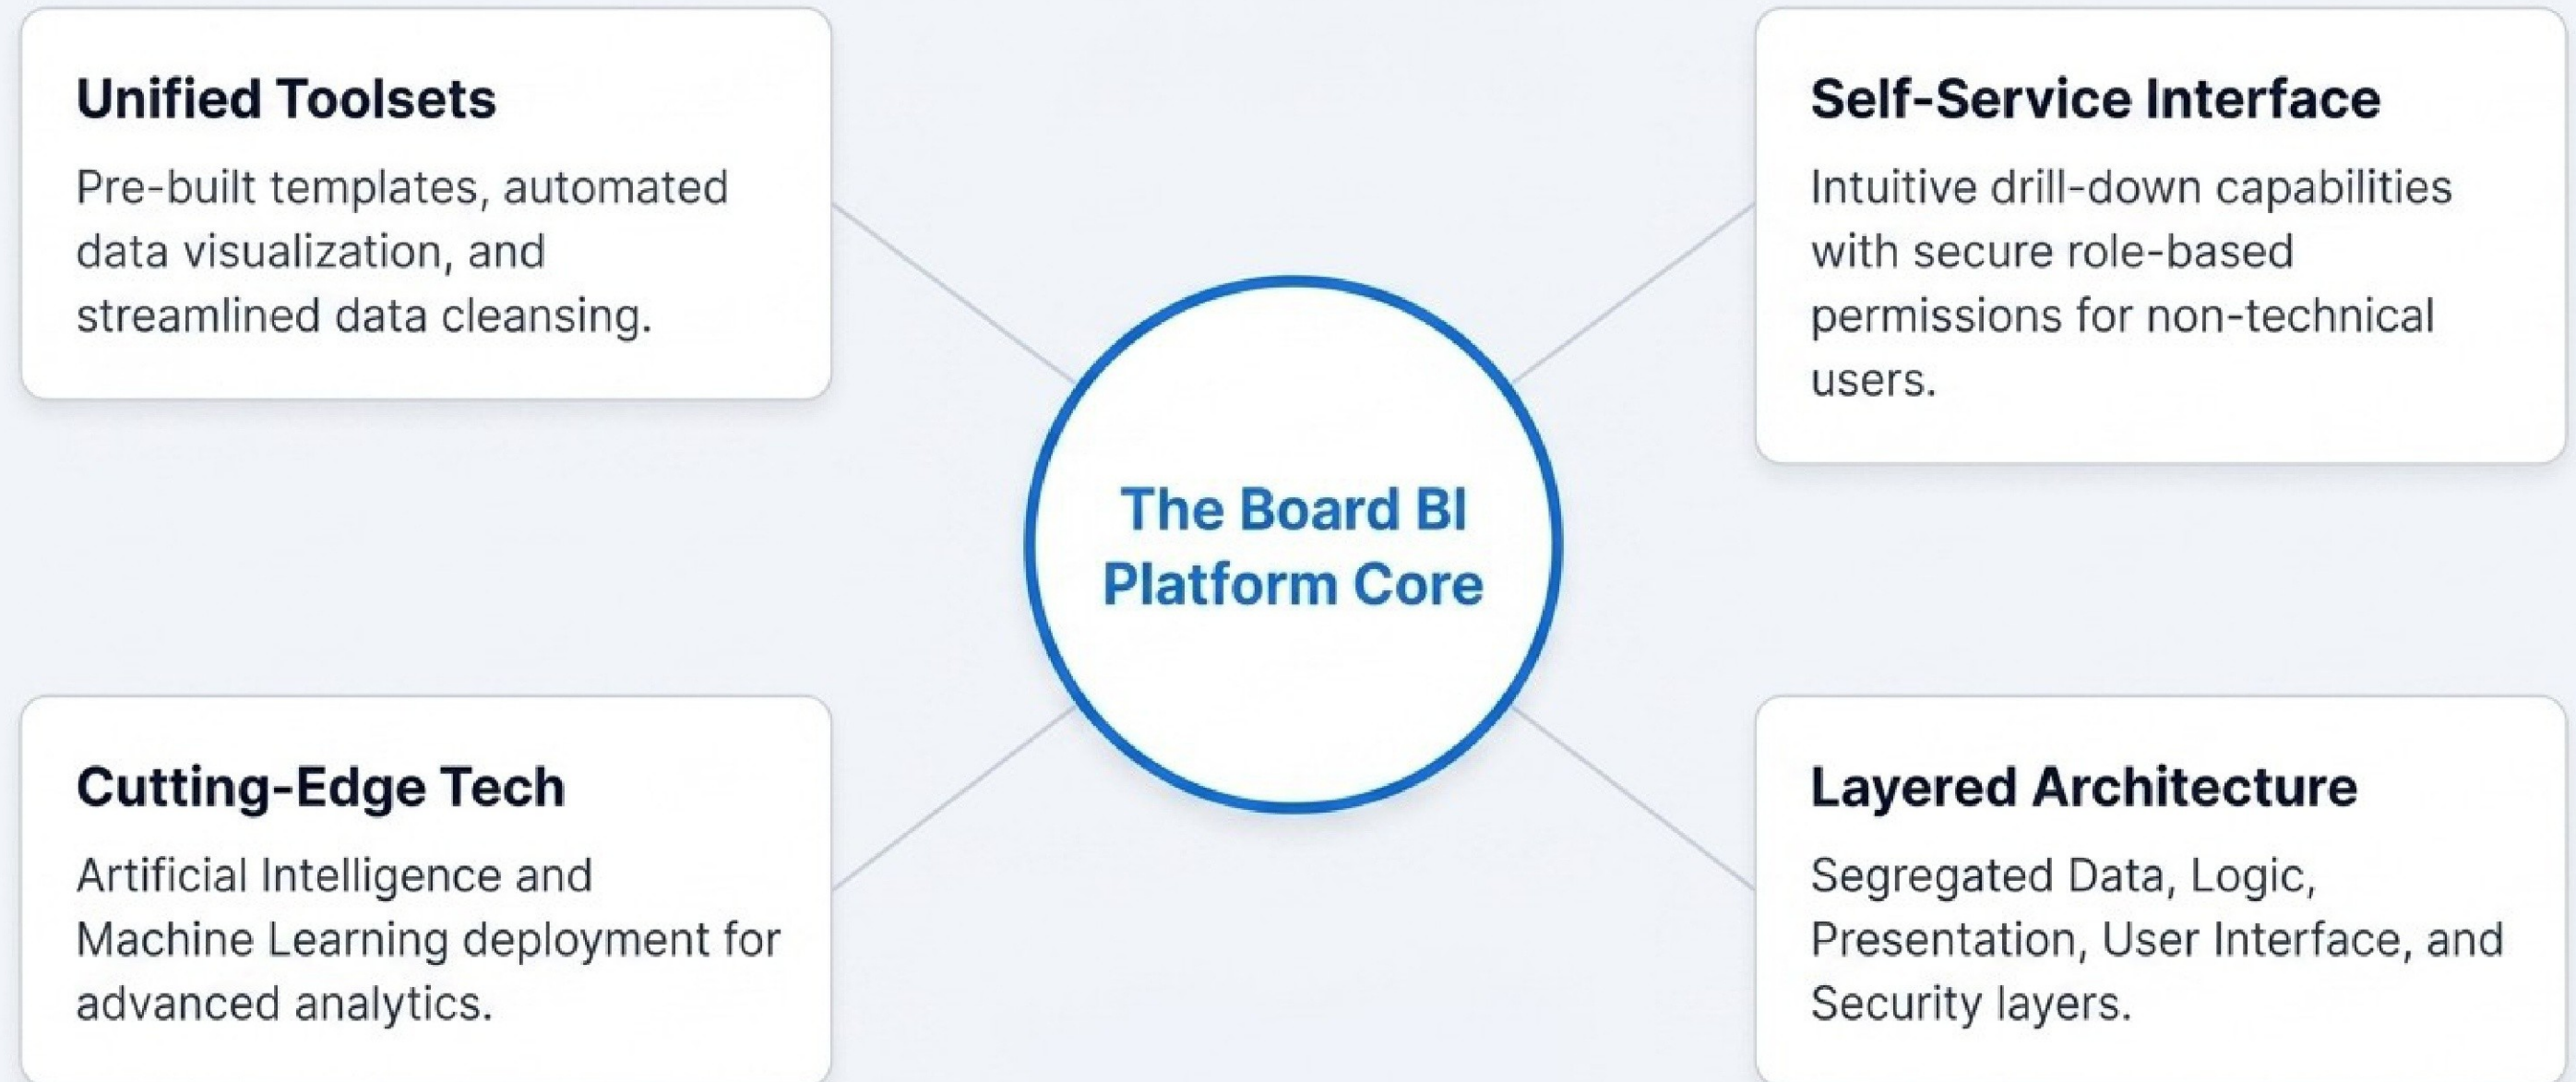

Phase 3: Scale And Integration

Modules: Performance And Scalability, Portal Integration

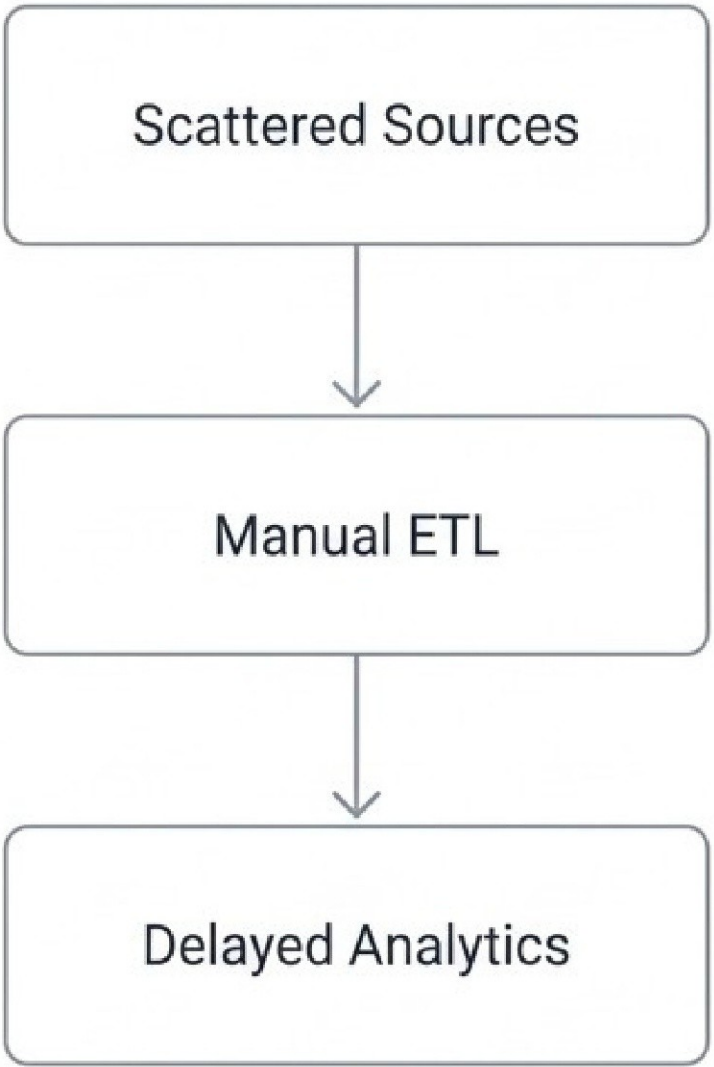

Leveraging HBMP technology for in-memory processing and external web service collaboration.

Architectural Foundation Core

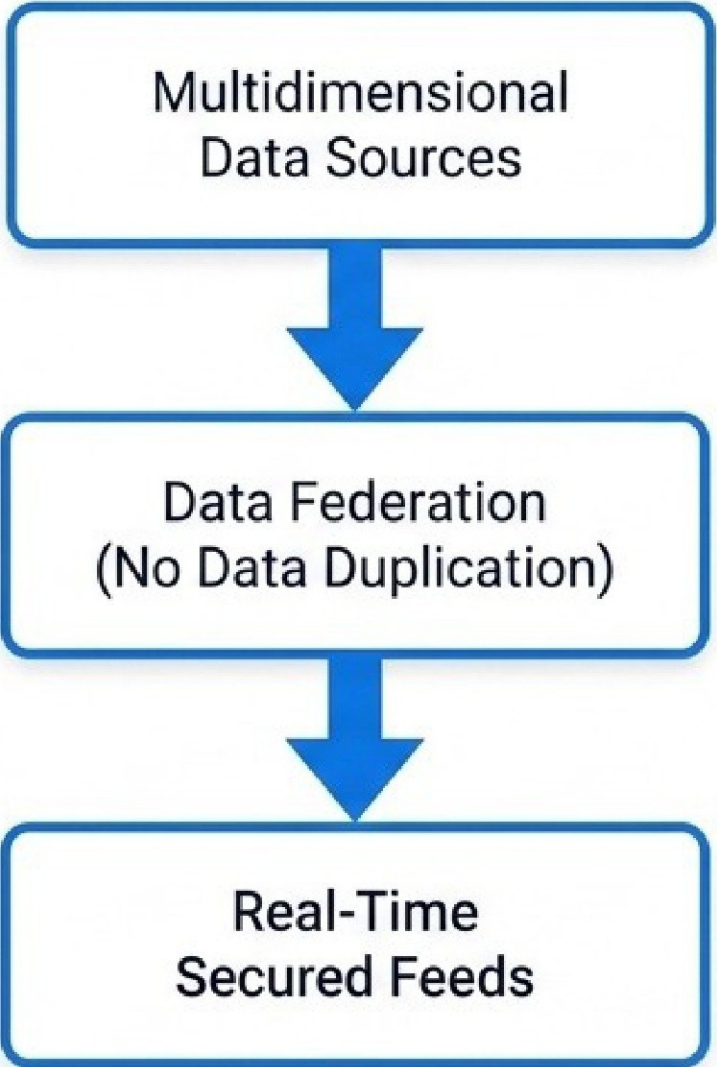

Secure Data Integration Pathways

Path A (Traditional)

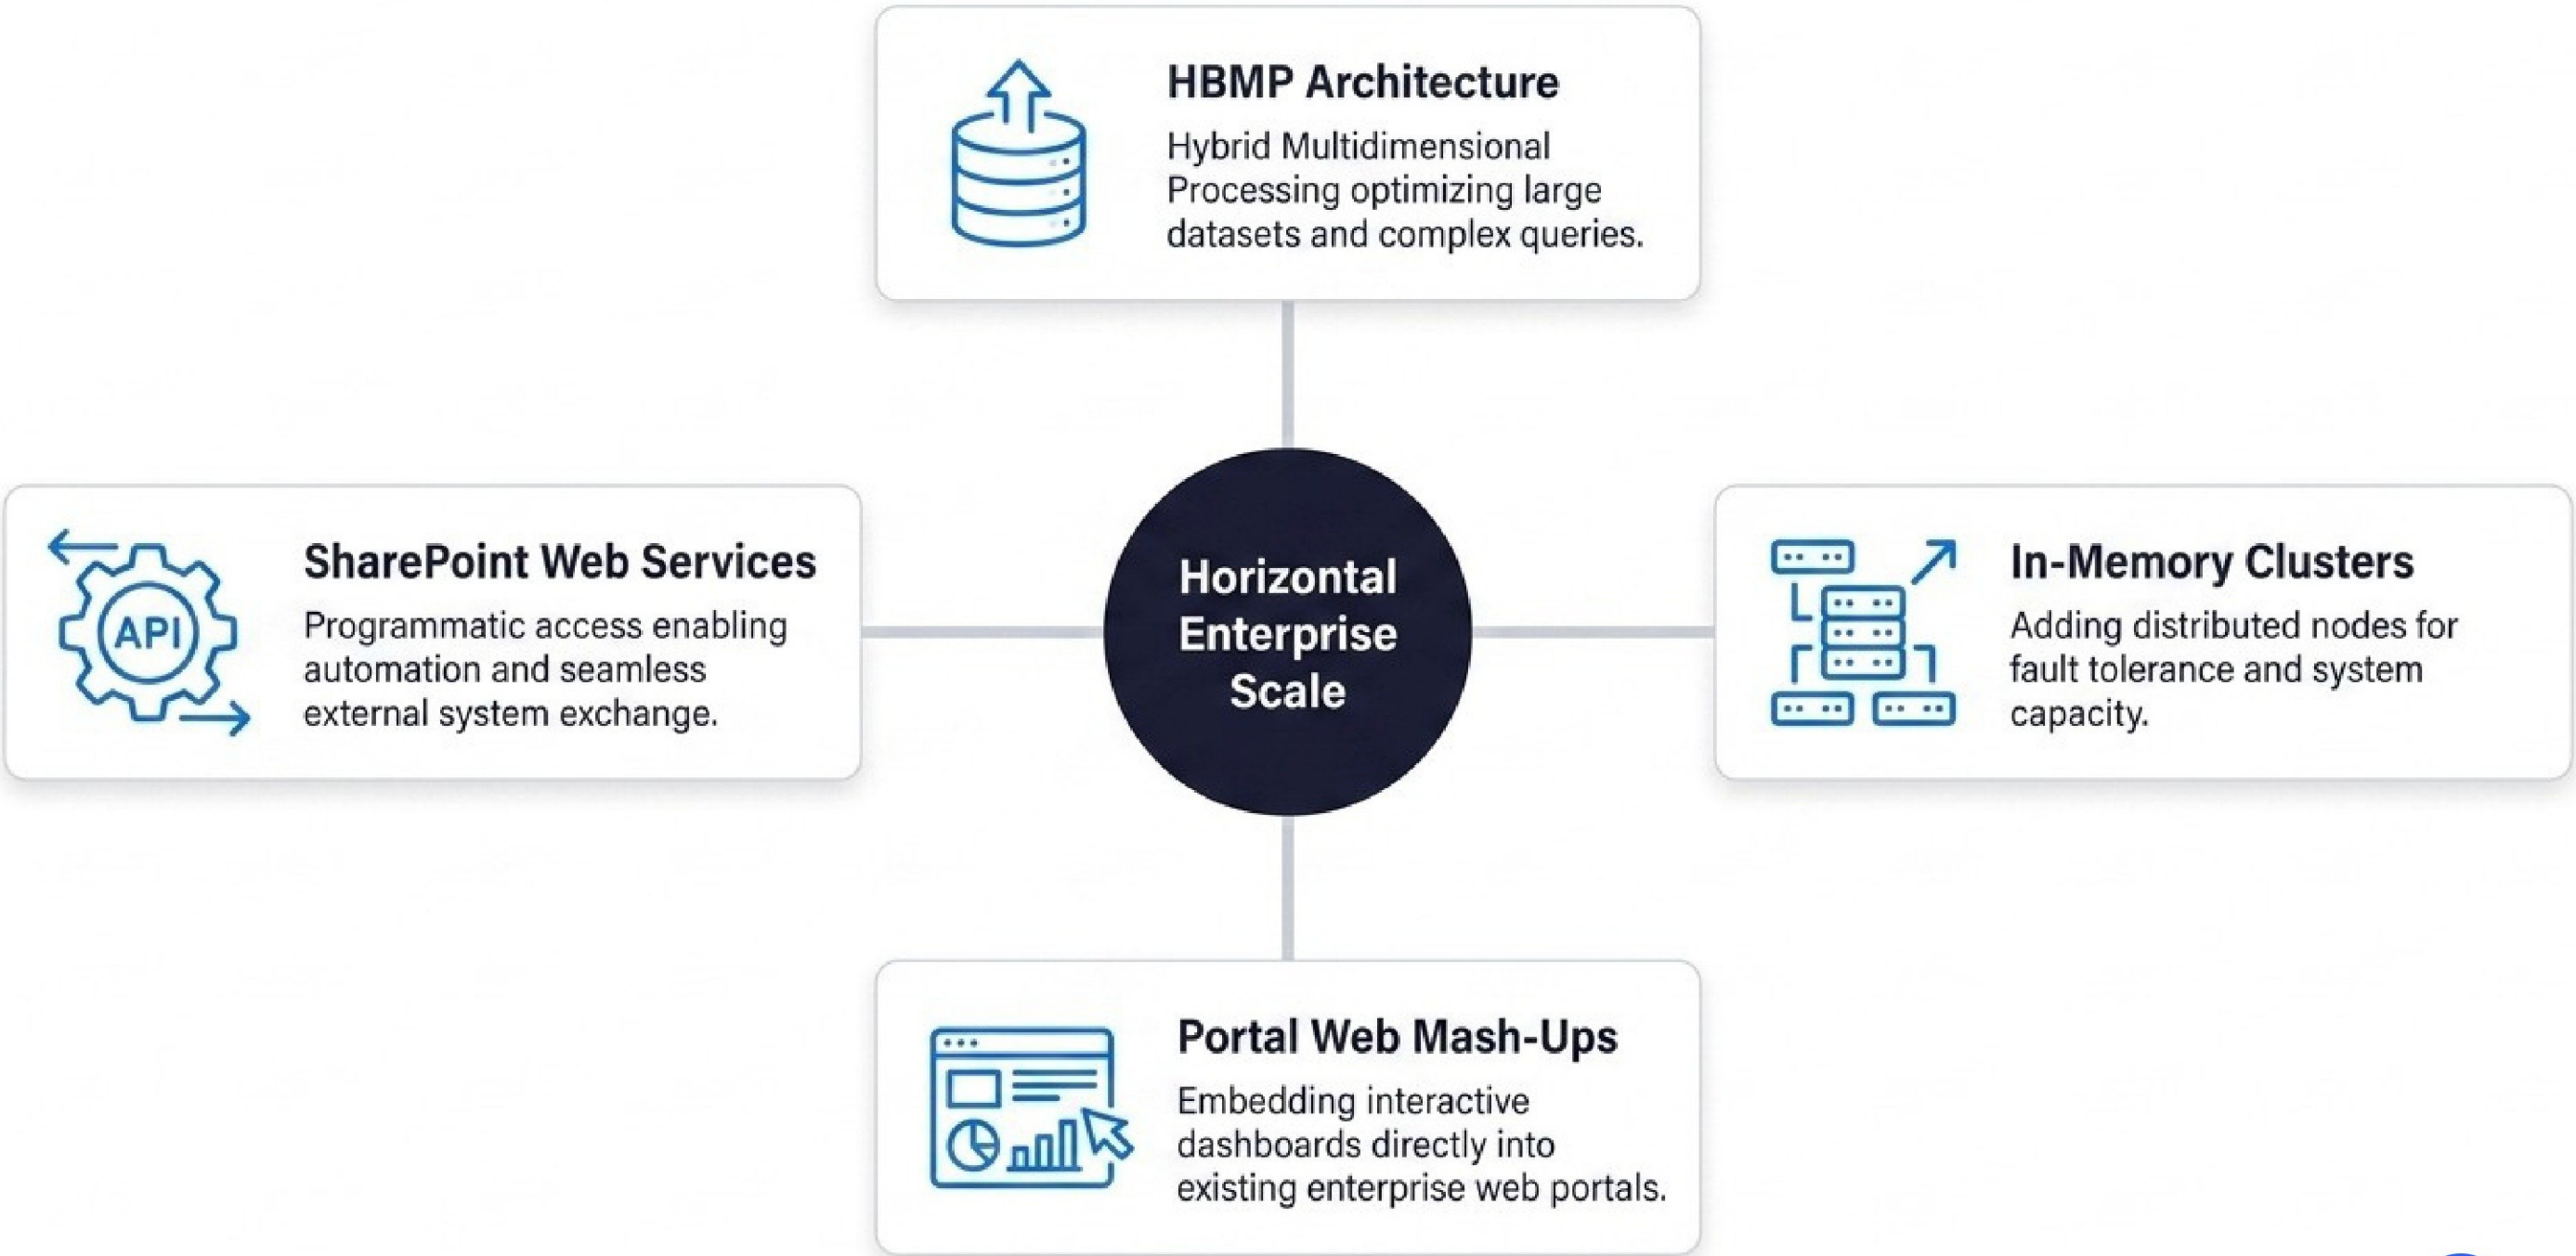

Path B (Board BI Enabled)

Security & Operations Focus

-  Multi-Tiered Security Models
-  Single Sign-On (SSO) & MFA Integration
-  Role-Based & Applications Authorization
-  Row-Level Security (RLS) & Data Masking

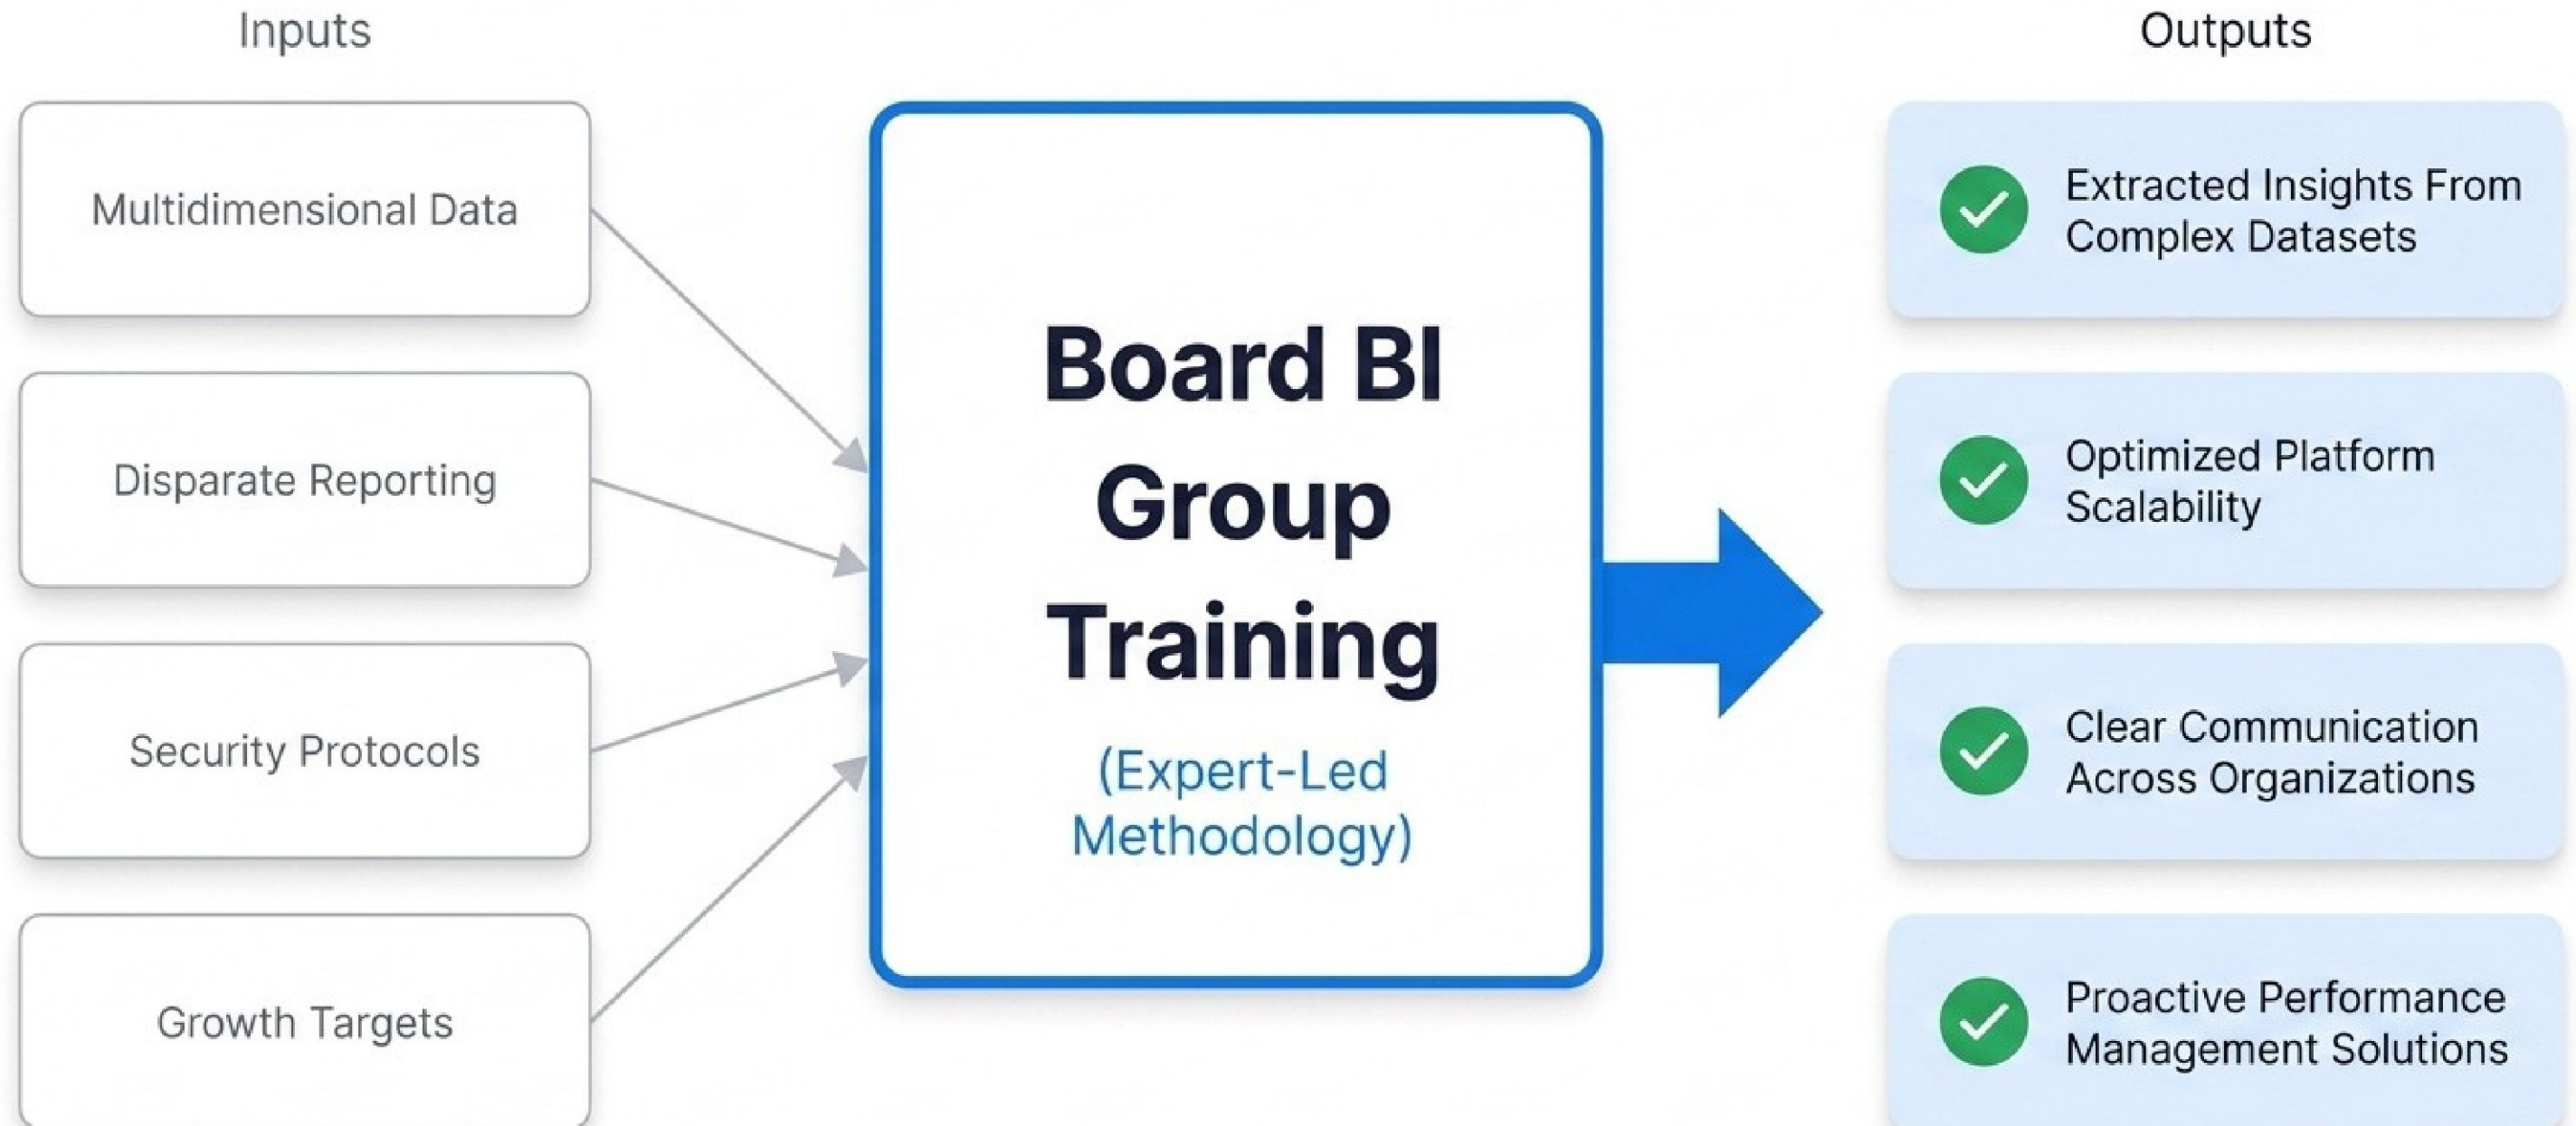

Enterprise Scalability Expansion

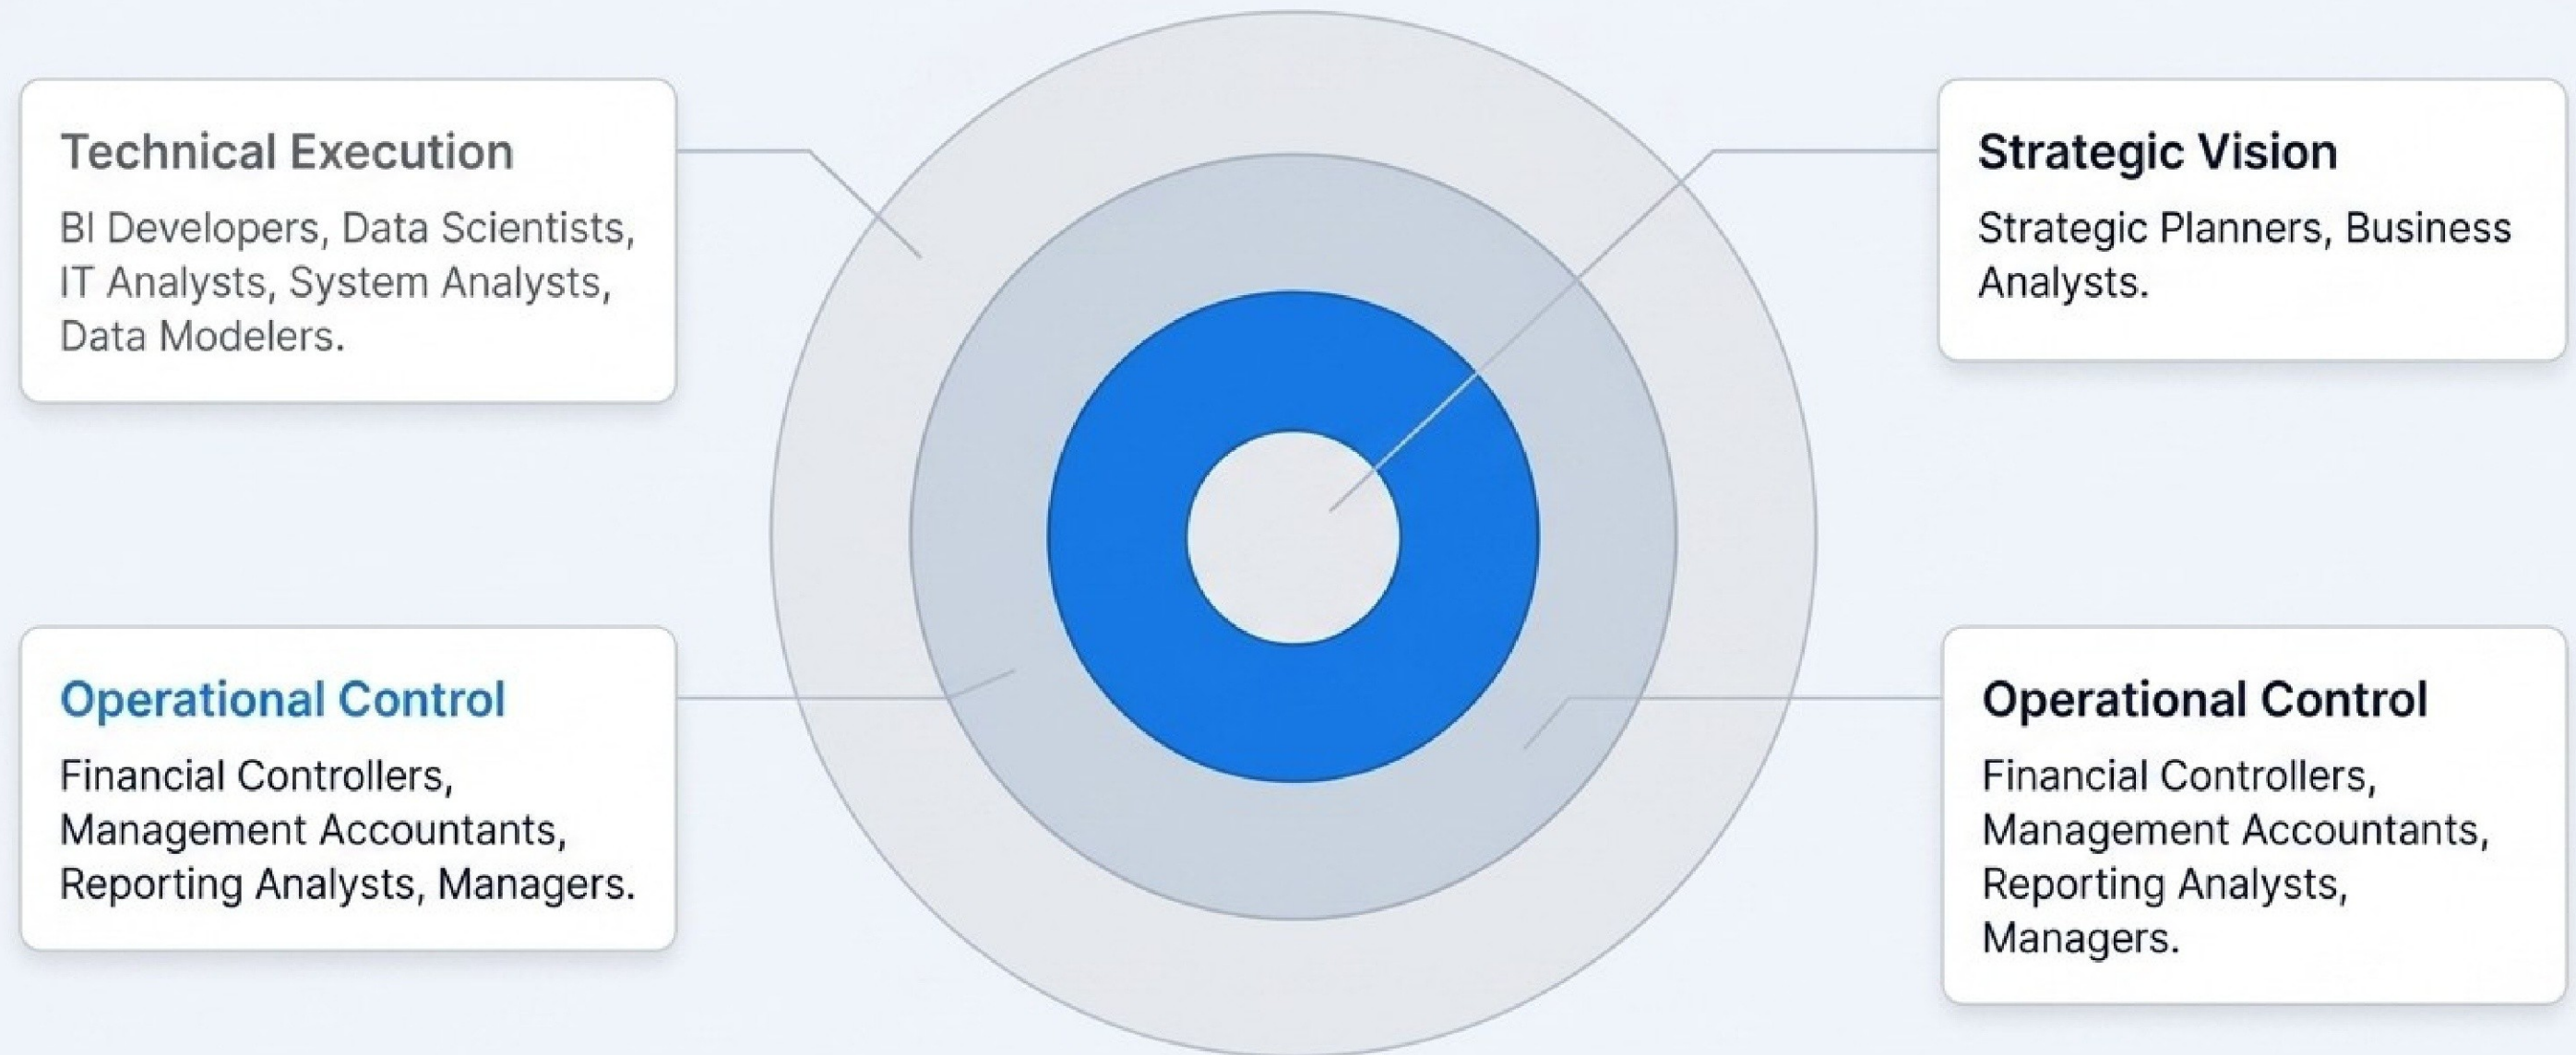

Capability Diagnostic Matrix

Core Skill Acquired	Platform Enabler	Business Outcome
Advanced Data Integration	Virtualized Data Federation	Unifies data streams without movement, improving enterprise consistency.
Predictive Forecasting	HBMP Calculation Engine	Enables proactive business strategies based on complex historical modeling.
Security And Compliance	Granular Row-Level Security (RLS)	Hides sensitive information and audits data modifications reliably.

The Value Transformation Engine

Target Audience Alignment

Adaptable Enterprise Delivery

Virtual Live Instructor-Led

- Global reach for teams in various locations
- Uniform learning outcomes without travel needs
- Interactive tools to maximize participant engagement

On-Site Face-To-Face

- High engagement through direct face-to-face interaction
- Workplace tailored exactly to learning requirements
- Real-time doubt clarification and process demonstration

Off-Site Face-To-Face

- Distraction-free dynamic learning environments
- Improved team bonding through focused activities
- Boosted morale showing commitment to employee development

Proof Of Impact

“The Board BI training provided me with comprehensive capabilities that elevated my expertise. As a Data Analyst, I needed to understand strategic frameworks deeply, and this course delivered perfectly. The practical modules with practical simulations gave me hands-on experience with industry best practices. I’ve been able to drive meaningful innovation and improvement within my department. Highly recommend for anyone serious about this field.”
