

Entrust Identity Enterprise Corporate Training

Empowering Teams With Advanced Identity
Management And Cybersecurity Skills

The Security Posture Evolution

Old State

Fragmented Access

-  Unauthorized Risk
-  Complex User Friction

Entrust Identity Enterprise Training

-  MFA Implementation
-  SSO Deployment
-  Identity Federation

Outcome

Centralized Identity Management

-  Mitigated Cybersecurity Threats
-  Seamless User Experience

Foundational Program Metrics

**40 - 45
Hours**

Duration

Instructor-Led

Delivery Type

**Virtual / On-
Site / Off-Site**

Modalities

**10,000+
Trainers**

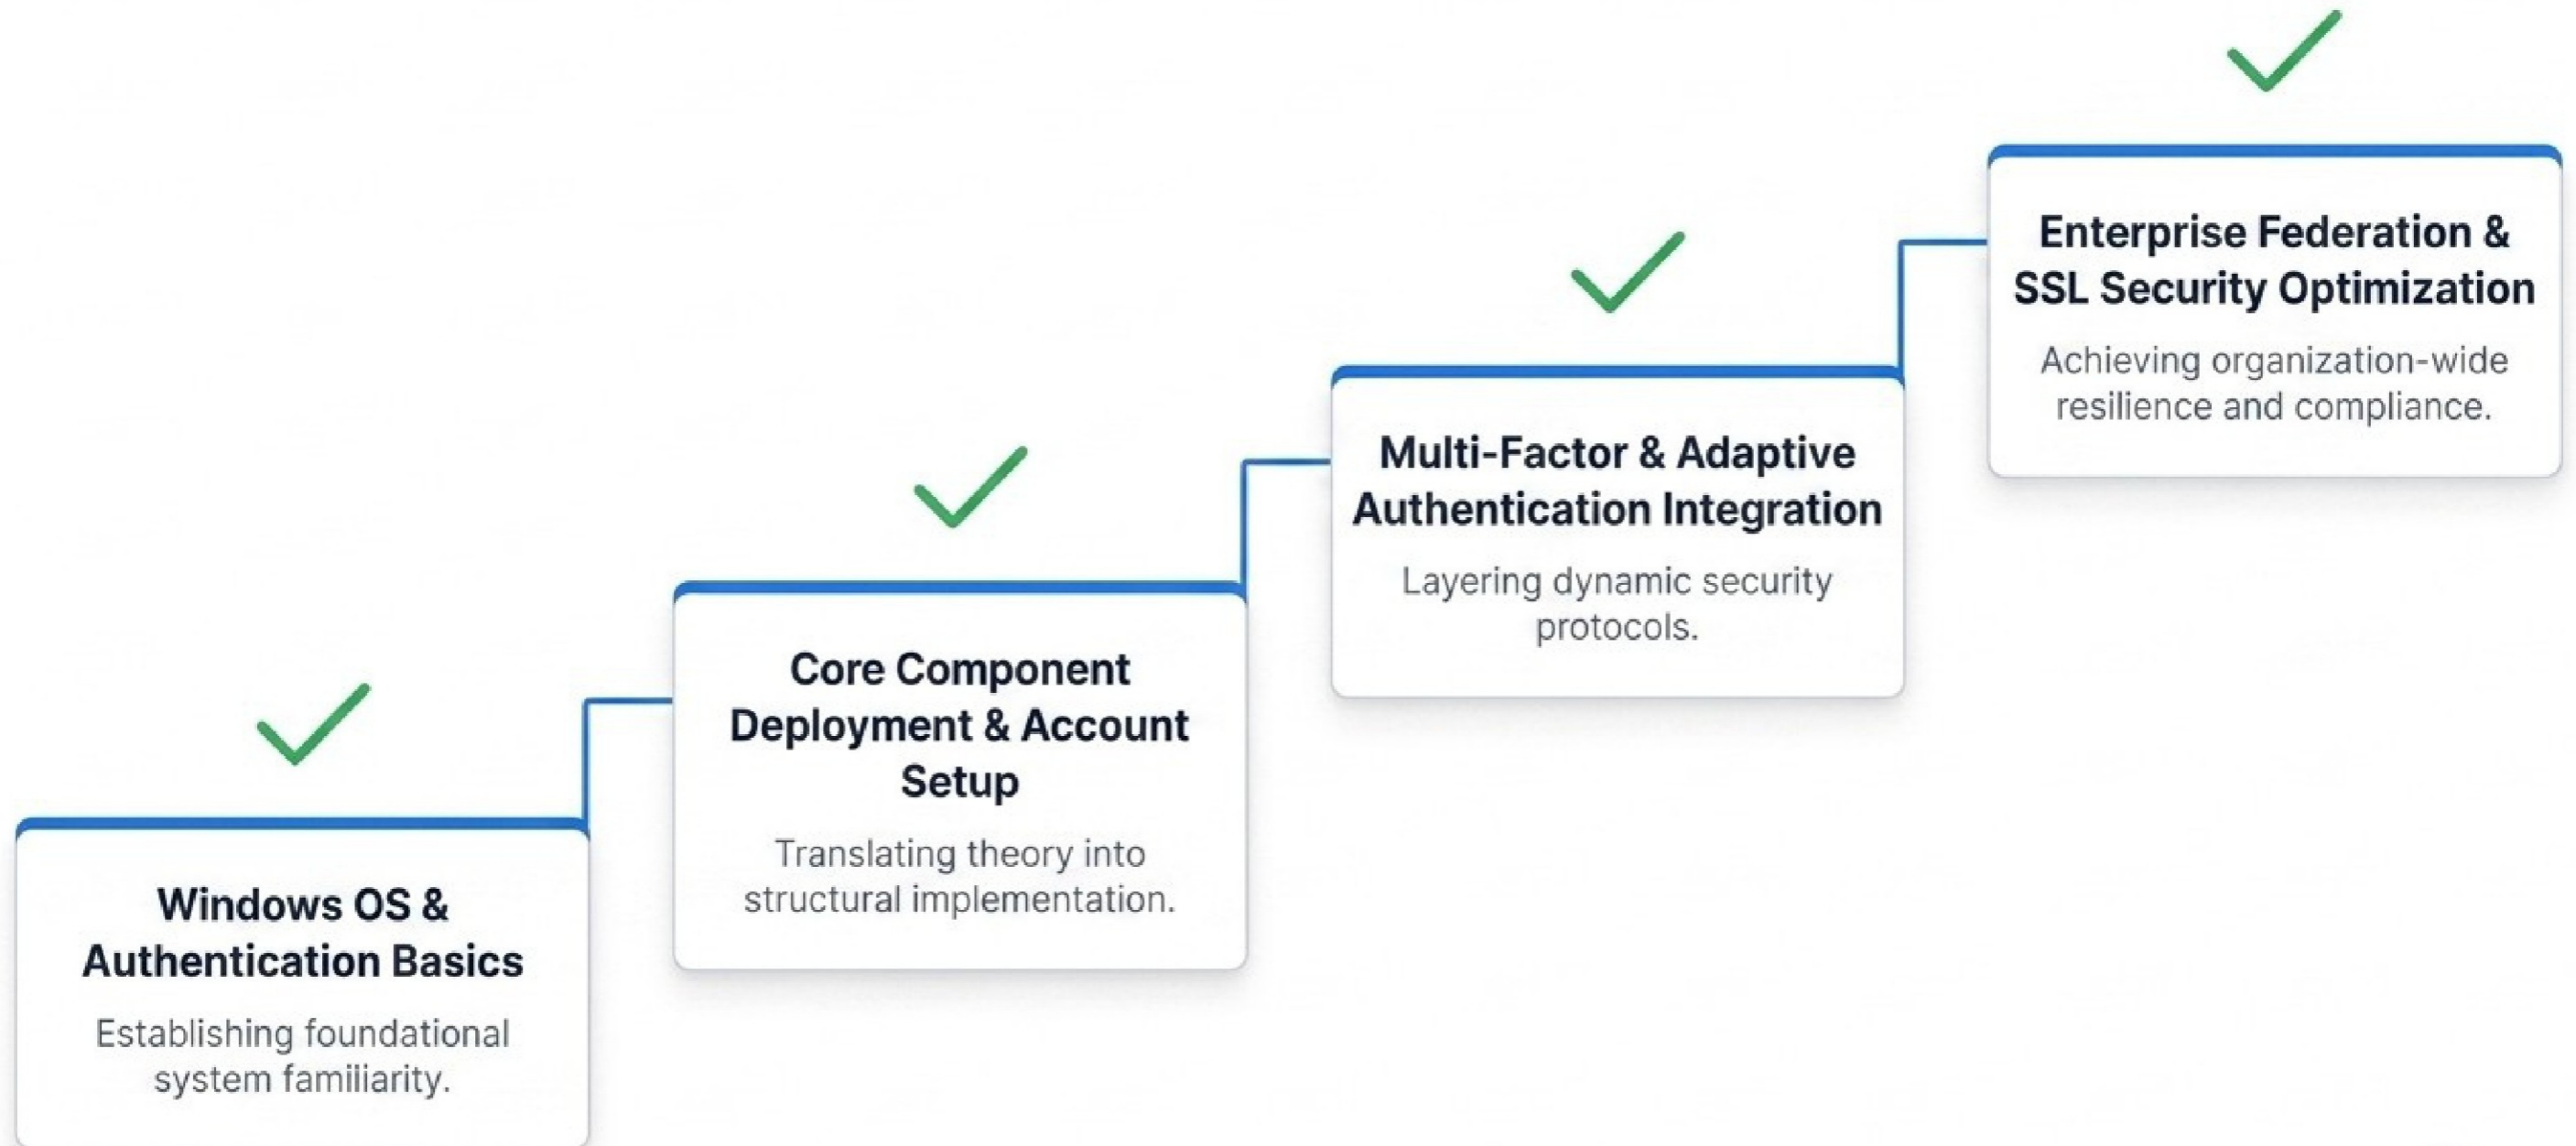

Global Network

**Certificate Of
Completion**

Credential

The Capability Activation Staircase

Structured Knowledge Deployment Phases

Phase 1: Core Infrastructure & Accounts

(Modules 1-5)

Establishing the foundation of secure identity management.

Phase 2: Advanced Authentication Matrices

(Modules 6-12)

Implementing dynamic, multi-layered access controls.

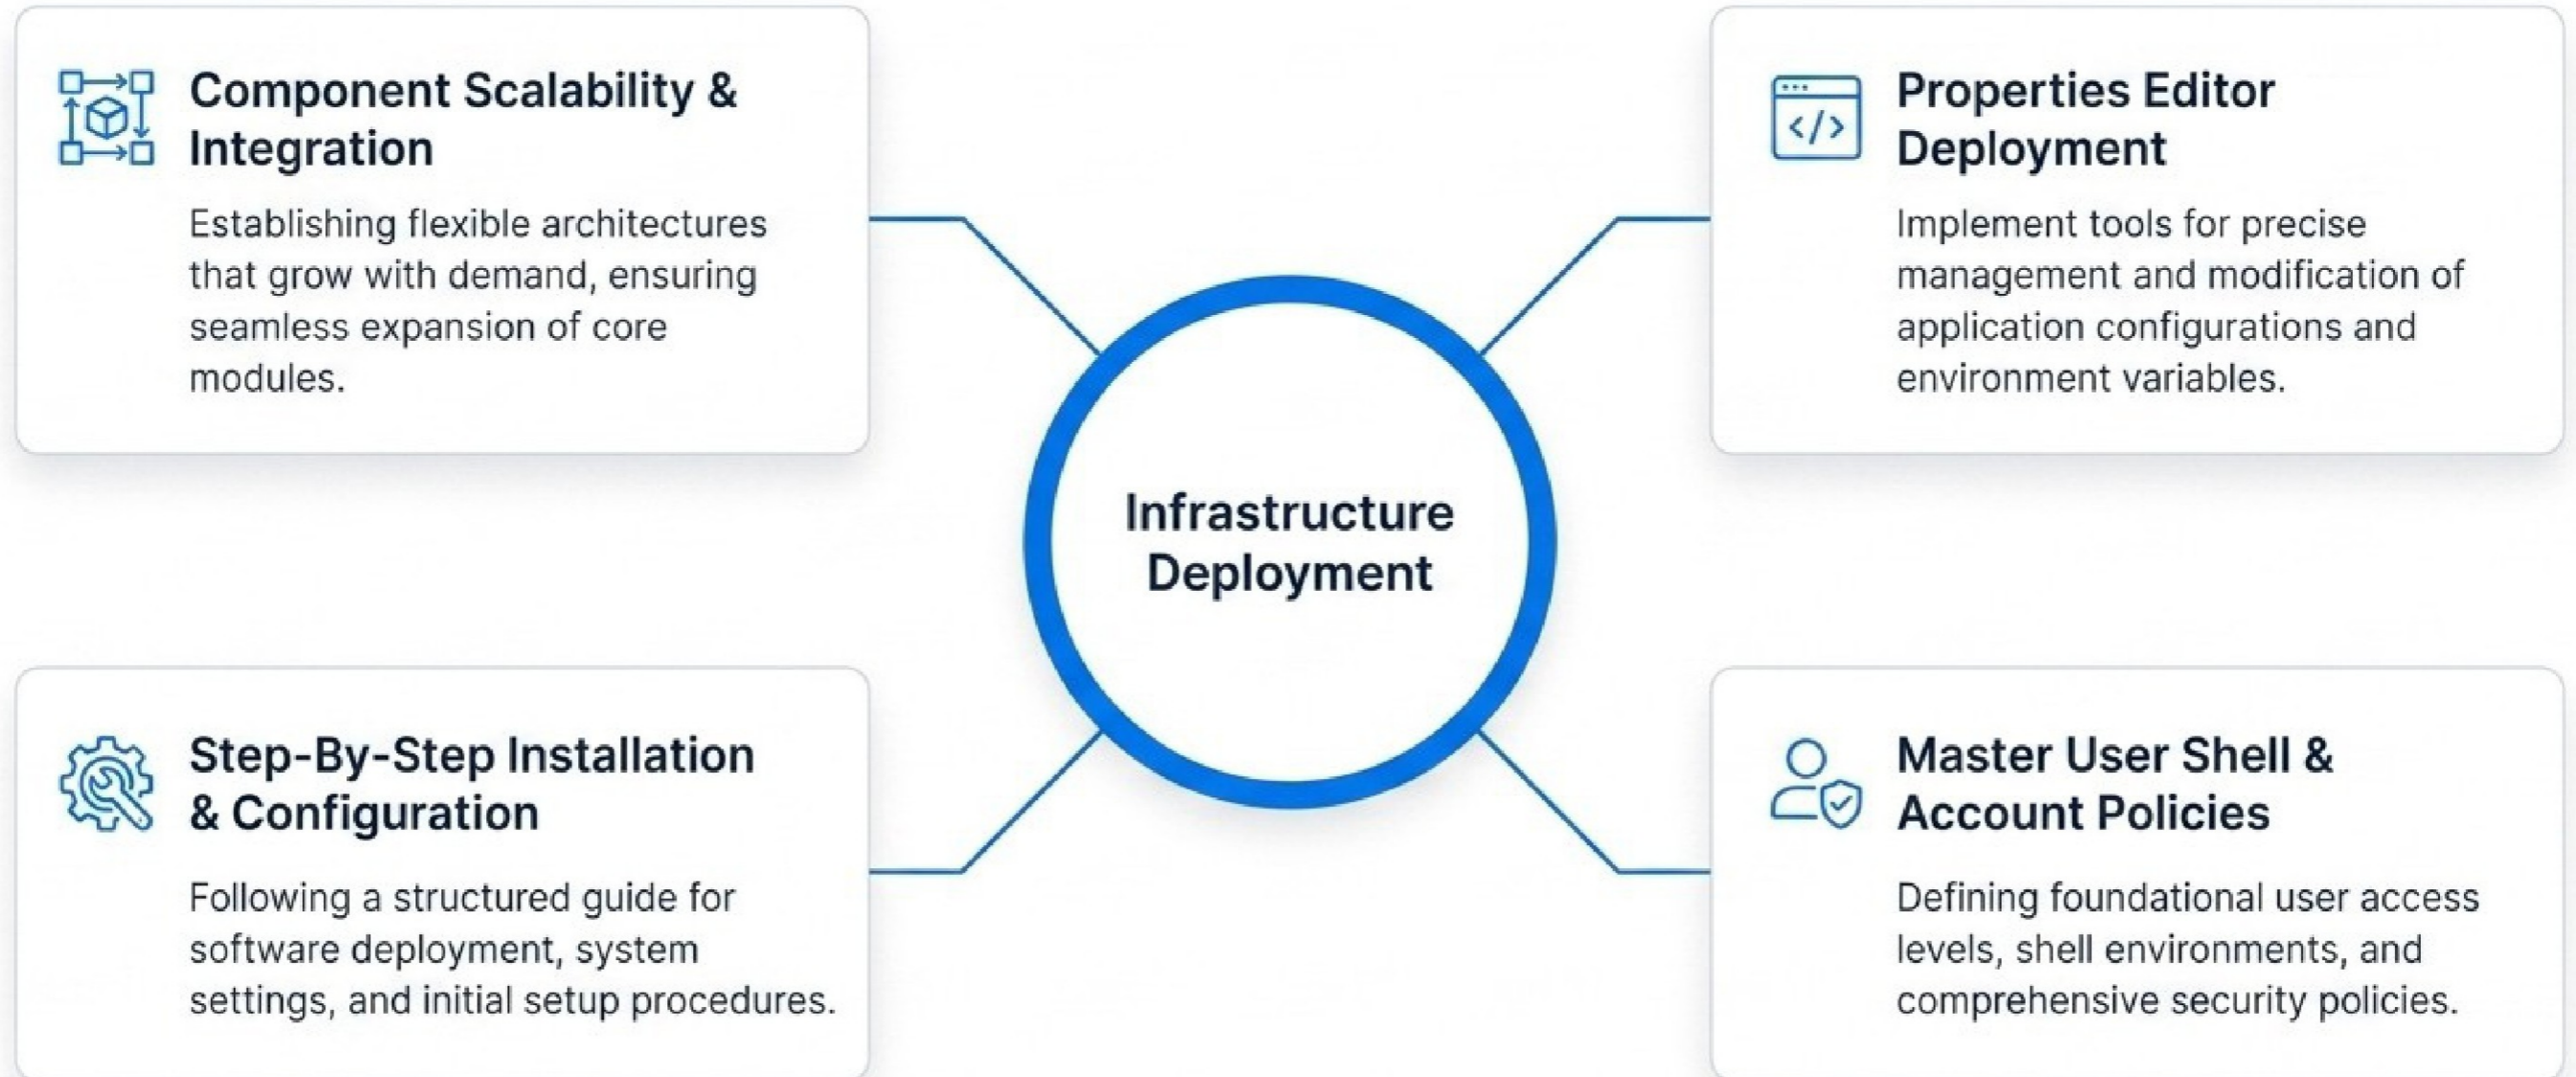

Phase 3: Adaptive Enterprise Security

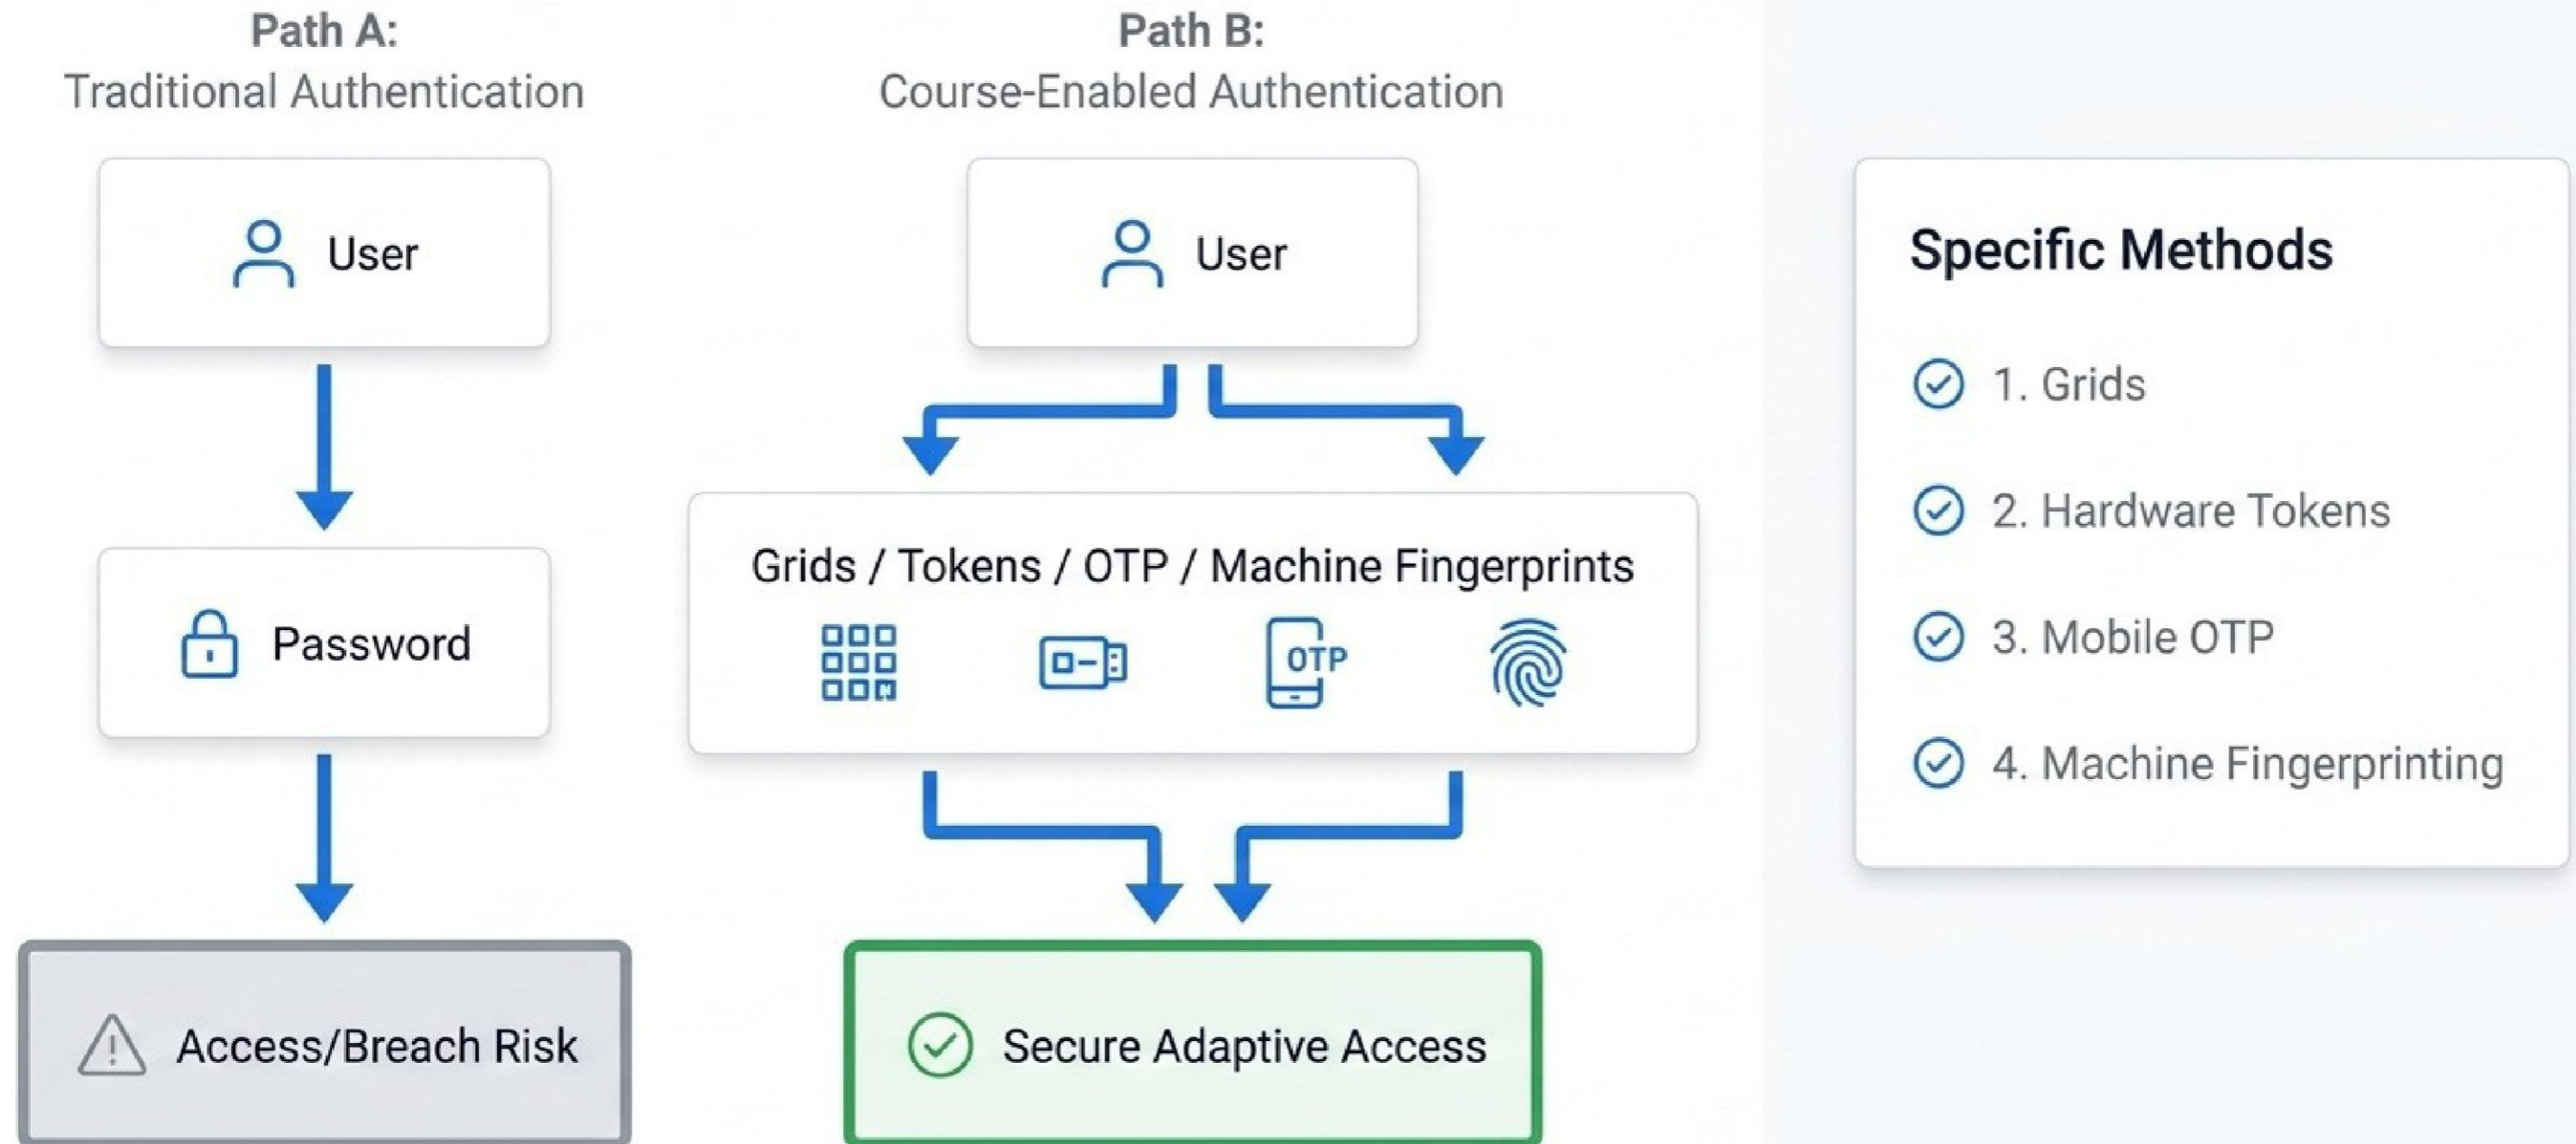

(Modules 13-20)

Scaling security through federation, policies, and disaster recovery.

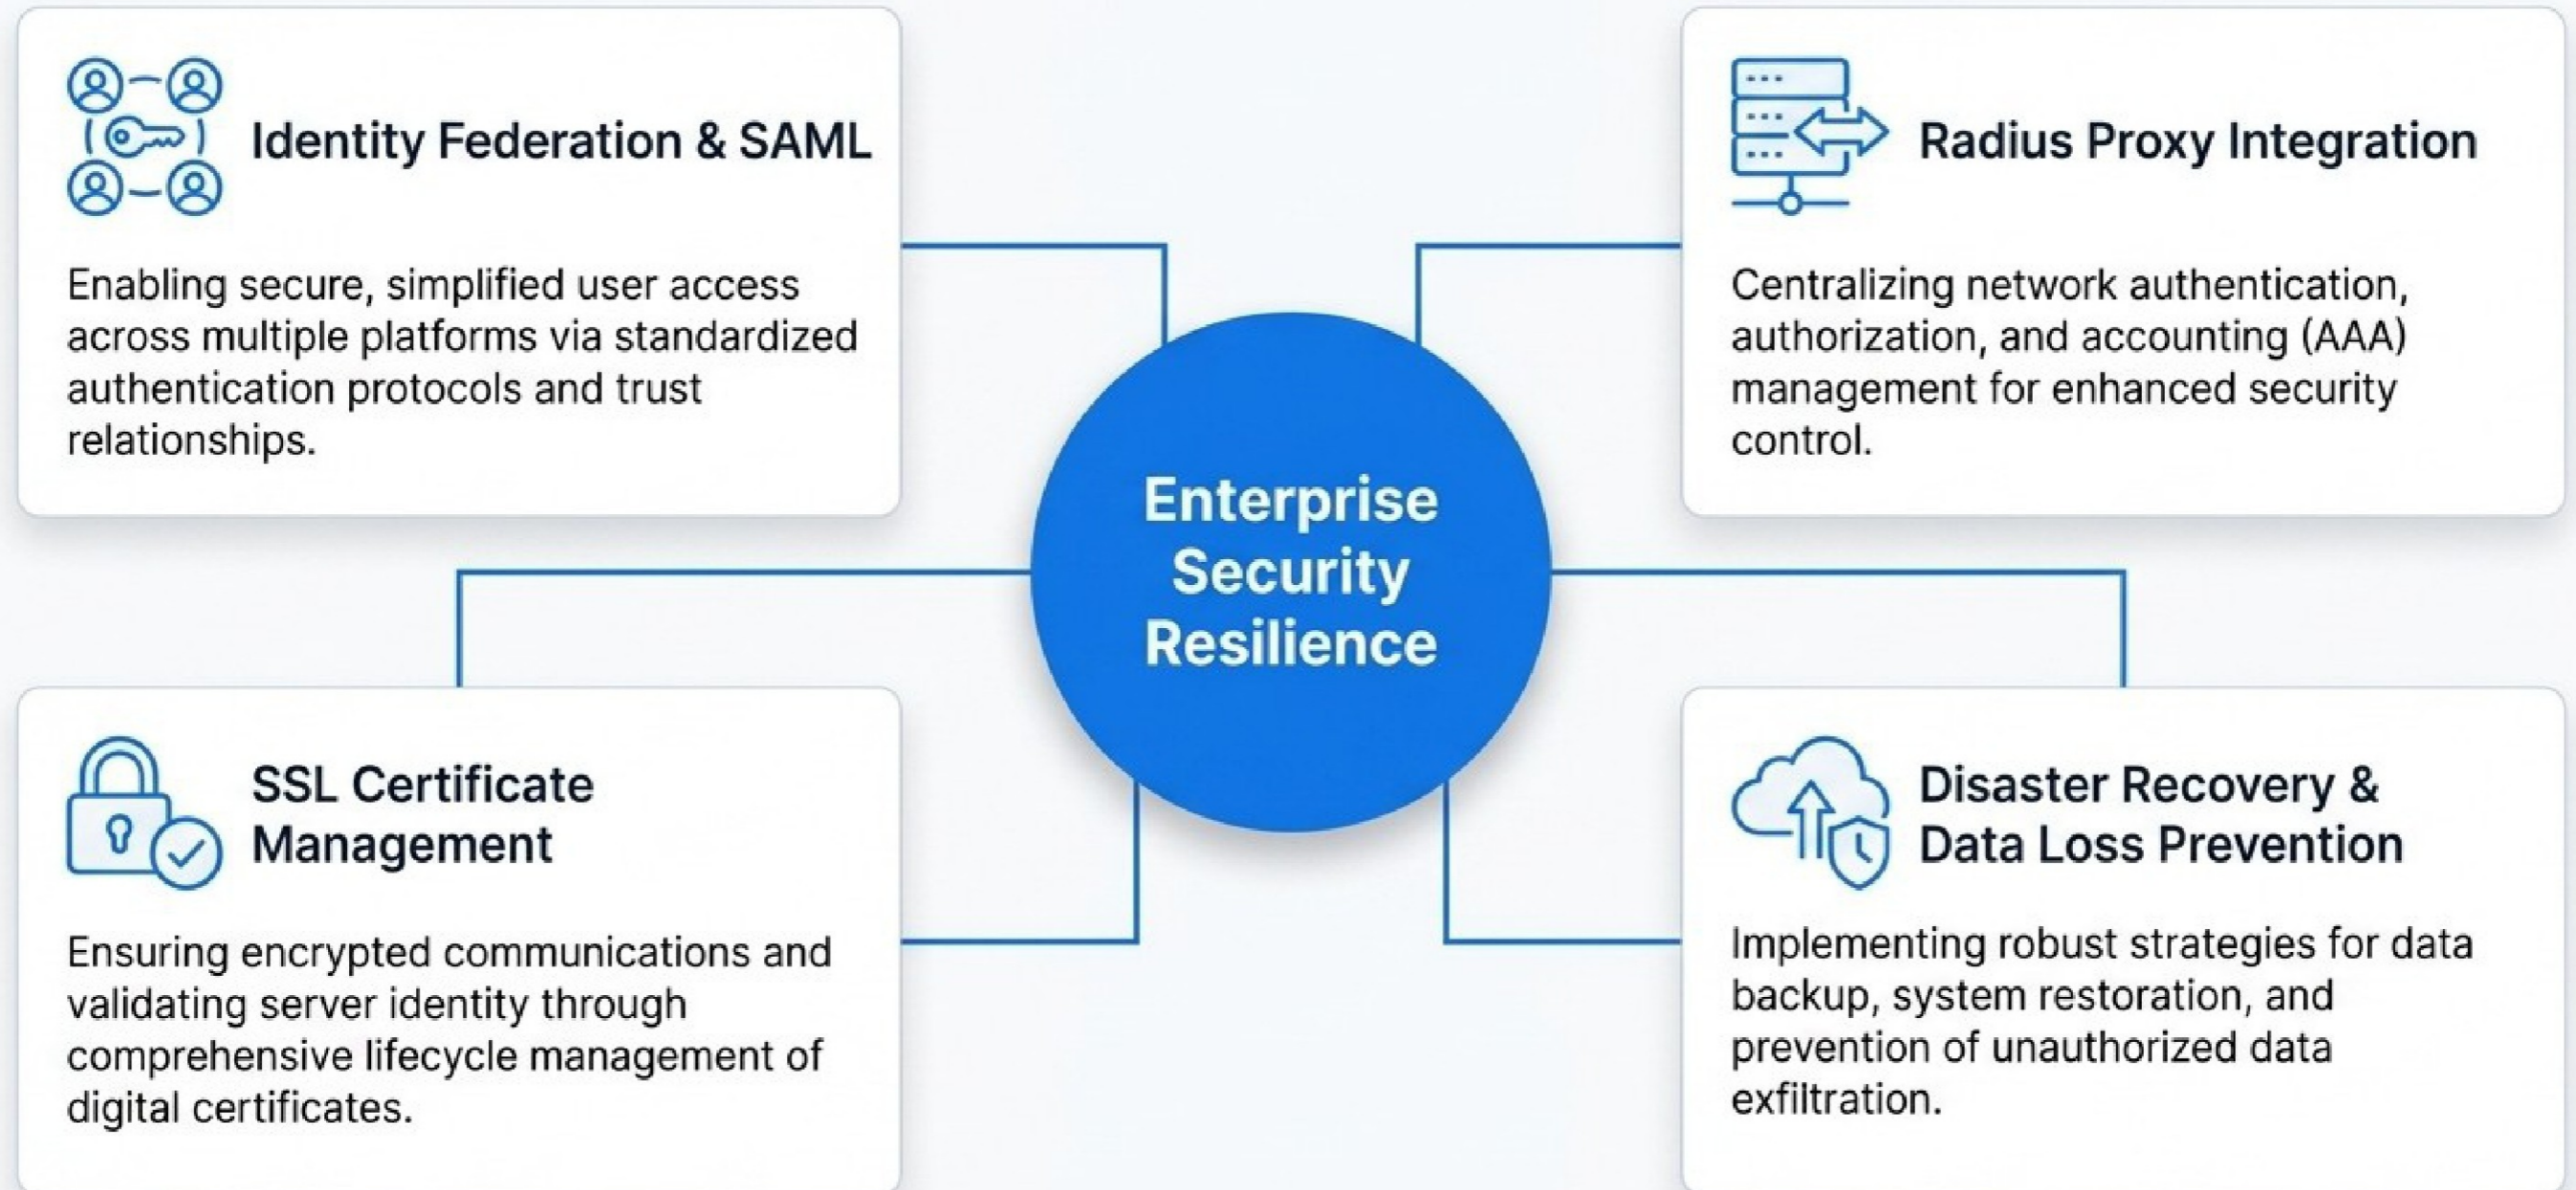

Phase 1: Core Infrastructure And Deployment

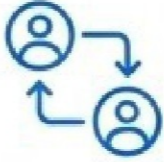

Phase 2: Multi-Layered Authentication Architecture

Phase 3: Adaptive Enterprise Security Implementation

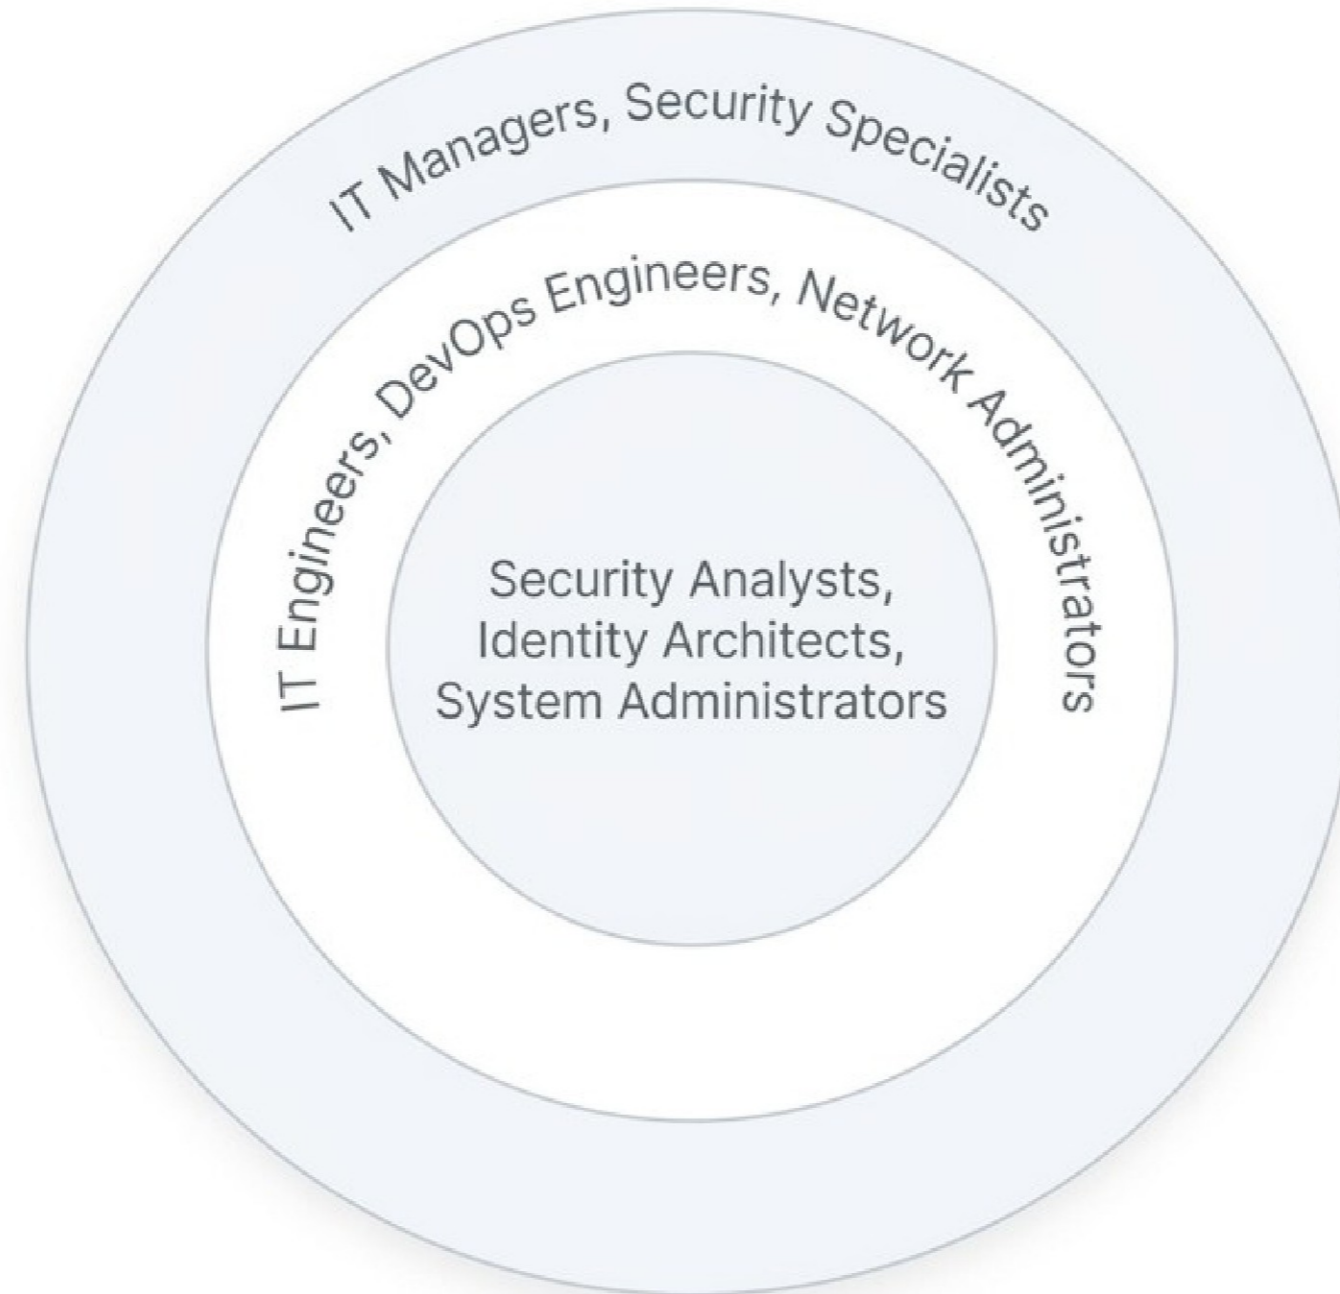

Solving Complex Identity Challenges

Enterprise Challenge	Platform Feature	Capability Outcome
 Unauthorized Access Vulnerability	 Multi-Factor Authentication (MFA)	 Design And Implement Zero-Trust Security Measures.
 High User Friction & IT Load	 Single Sign-On & Self-Service	 Streamline Experience Without Compromising Security.
 Regulatory & Compliance Risk	 Custom Configurations & Audit Logs	 Analyze And Meet Specific Compliance Standards.

The Organizational Value Engine

Target Audience Alignment

Flexible Corporate Delivery Frameworks

Virtual Live

- Global reach scaling
- Consistent outcomes
- Interactive tool integration

On-Site Face-To-Face

- Tailored environment
- Team collaboration
- Direct hands-on process demonstration

Off-Site Face-To-Face

- Distraction-free immersion
- Team bonding
- Dedicated focus scheduling

Proof of Impact

“Attending the Entrust Identity Enterprise training was transformational for my professional development... I’ve confidently led multiple high-visibility initiatives leveraging this comprehensive knowledge. This course has become foundational to my continued success.”

Nancy Palmer

Senior Software Engineer

Enterprise Software Development Firm

Enterprise-Grade Global Delivery

**Delivery Capability
Across 100+ Countries.**

Expert Instruction In 10 Languages.

English, Español, 普通话, Deutsch, العربية, Português,
हिन्दी, Français, 日本語, Italiano.
