

Store Management Corporate Training Course

Drive Team Excellence and Achieve
Operational Excellence with Advanced
Inventory Optimization Skills

The Paradigm Shift in Store Operations

Reactive Control

High storage costs, inefficient manual inventory handling, and unoptimized spatial layouts leading to resource waste.

Edstellar Expert-Led Training

Instructor-led integration of layout planning, dynamic categorization, and technology-driven oversight.

✓ Proactive Optimization

✓ Maximized profitability, data-driven decision-making, and streamlined processes ensuring sustainable business growth.

The Training Program Framework

16 - 24
Hours

The Capability Activation Staircase

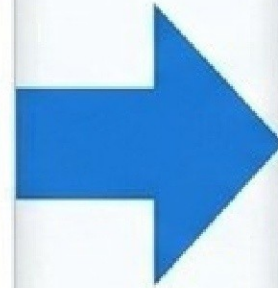

The Three-Phase Optimization Curriculum

Phase 1: Spatial and Inventory Dynamics

12 Modules

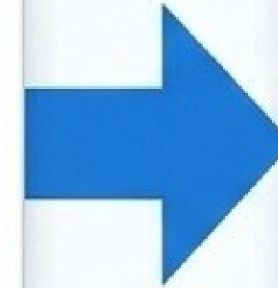

Focuses on space optimization, layout planning, FIFO principles, and efficient material flow.

Phase 2: Systems, Technology, and Infrastructure

9 Modules

Covers pallet racking, static and mobile shelving, barcoding, RFID, and system integration.

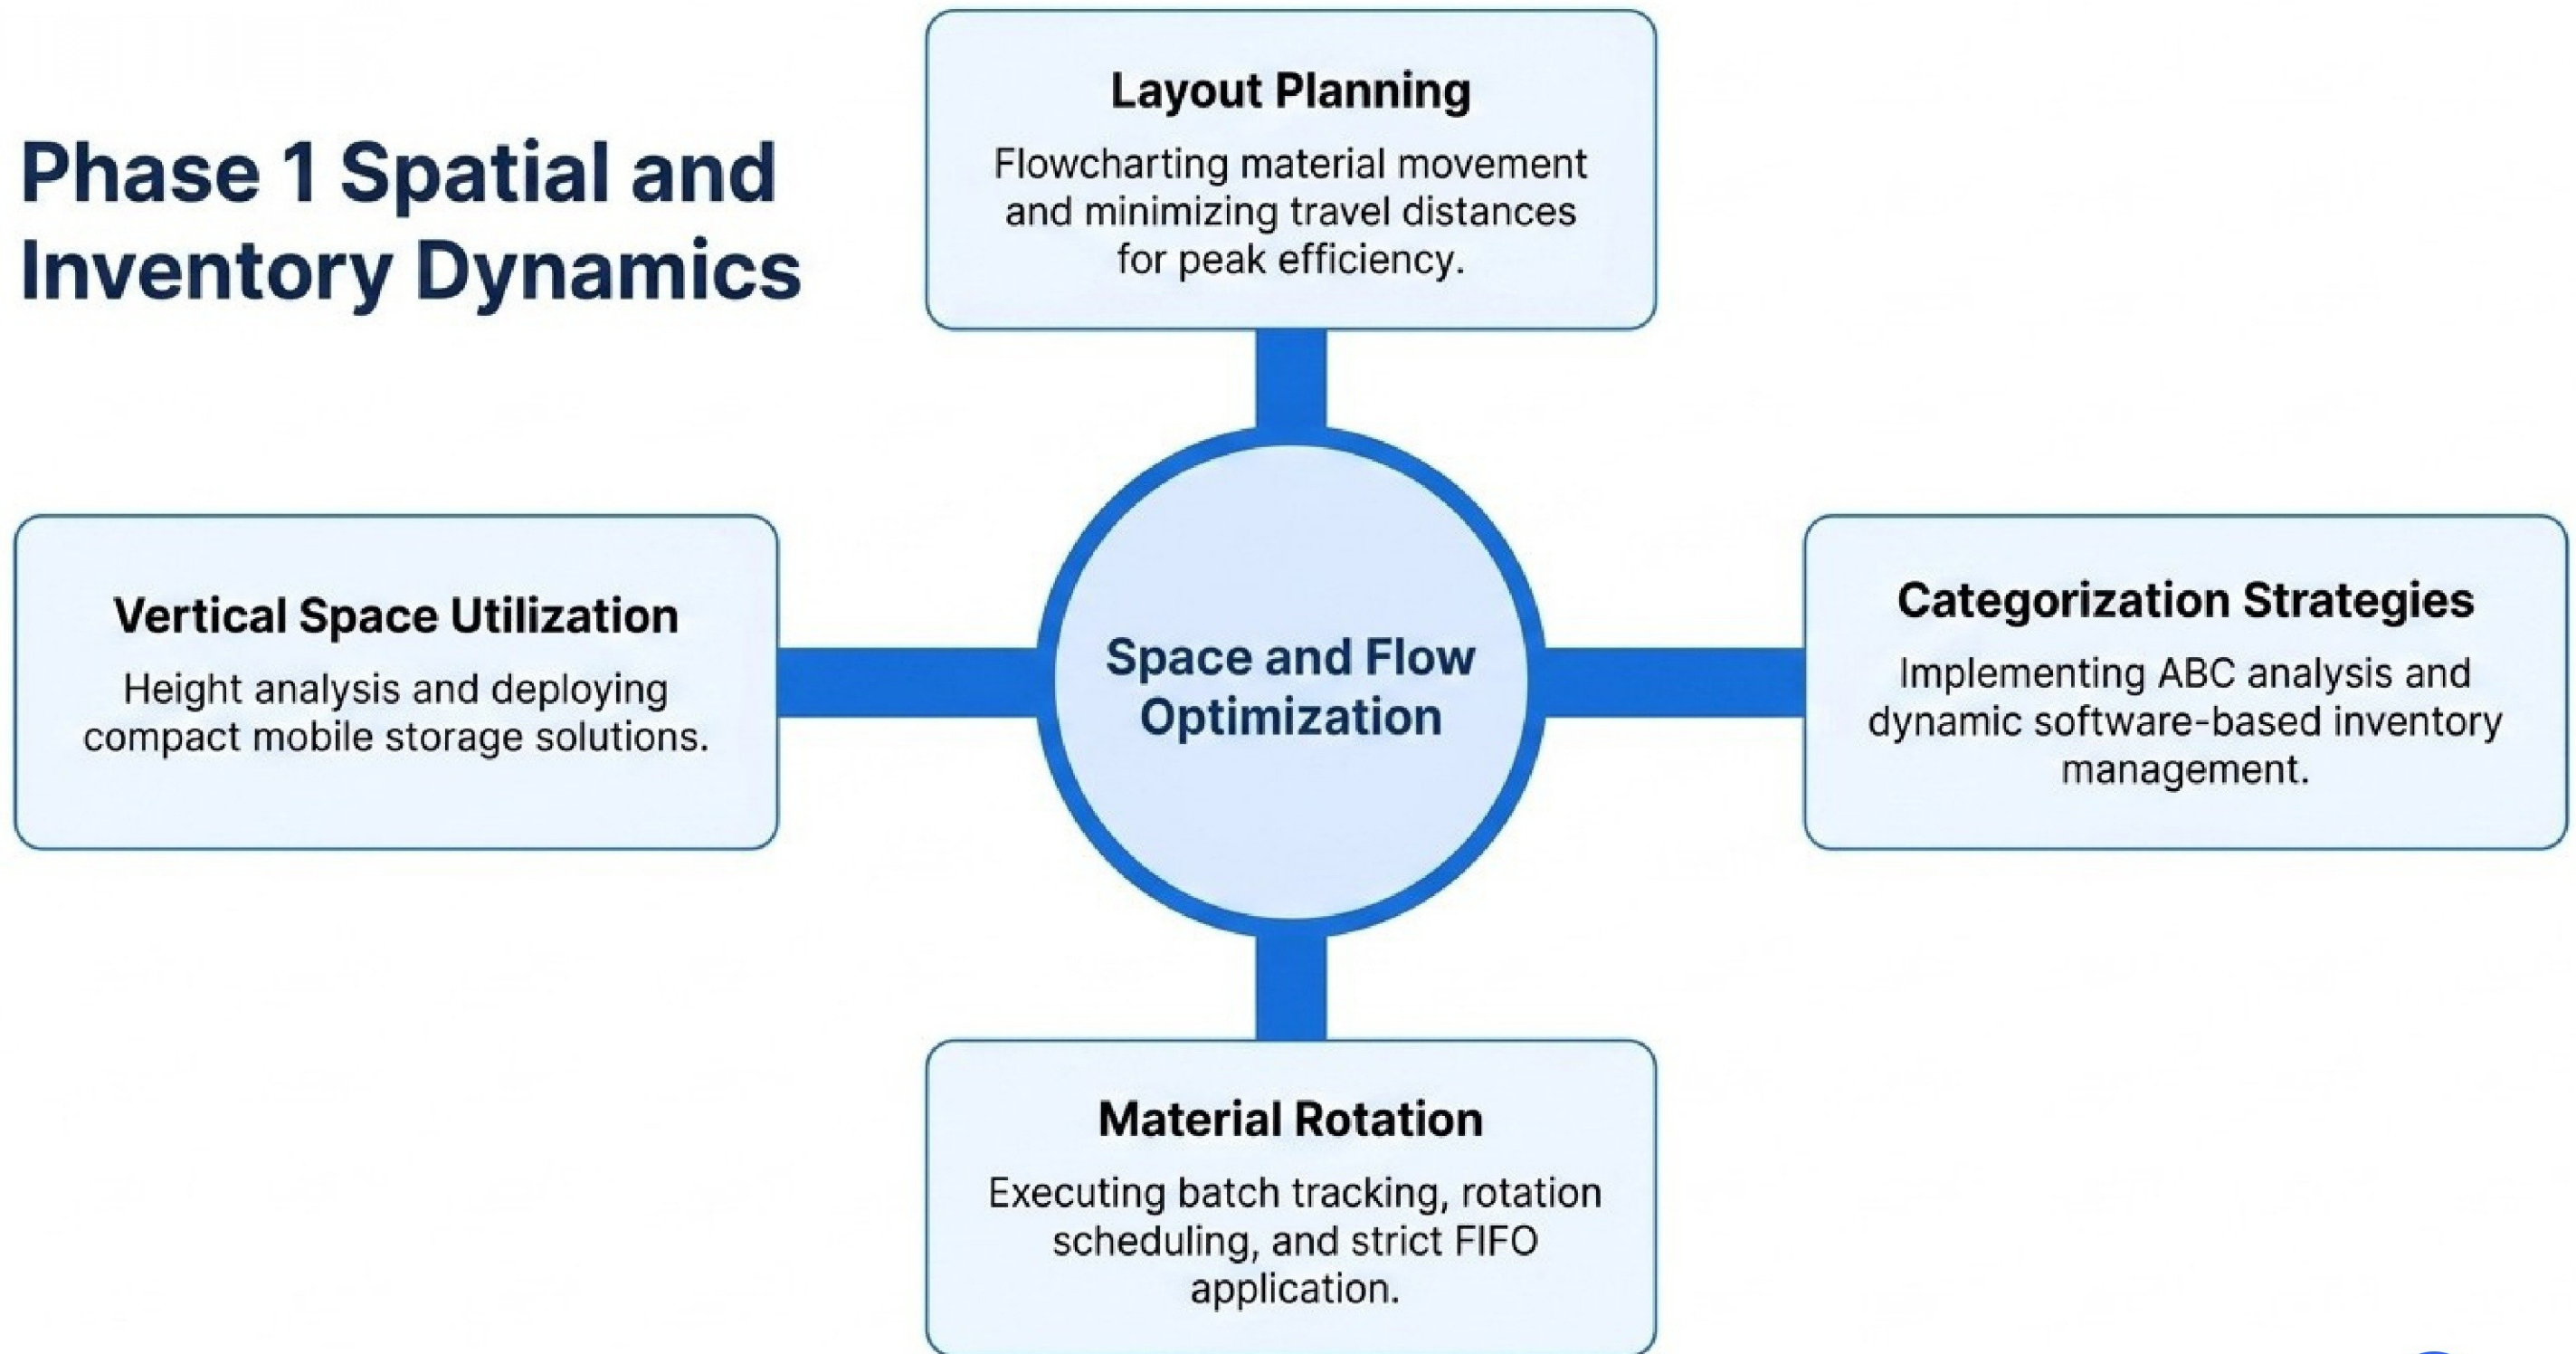

Phase 3: Safety, Compliance, and Continuous Improvement

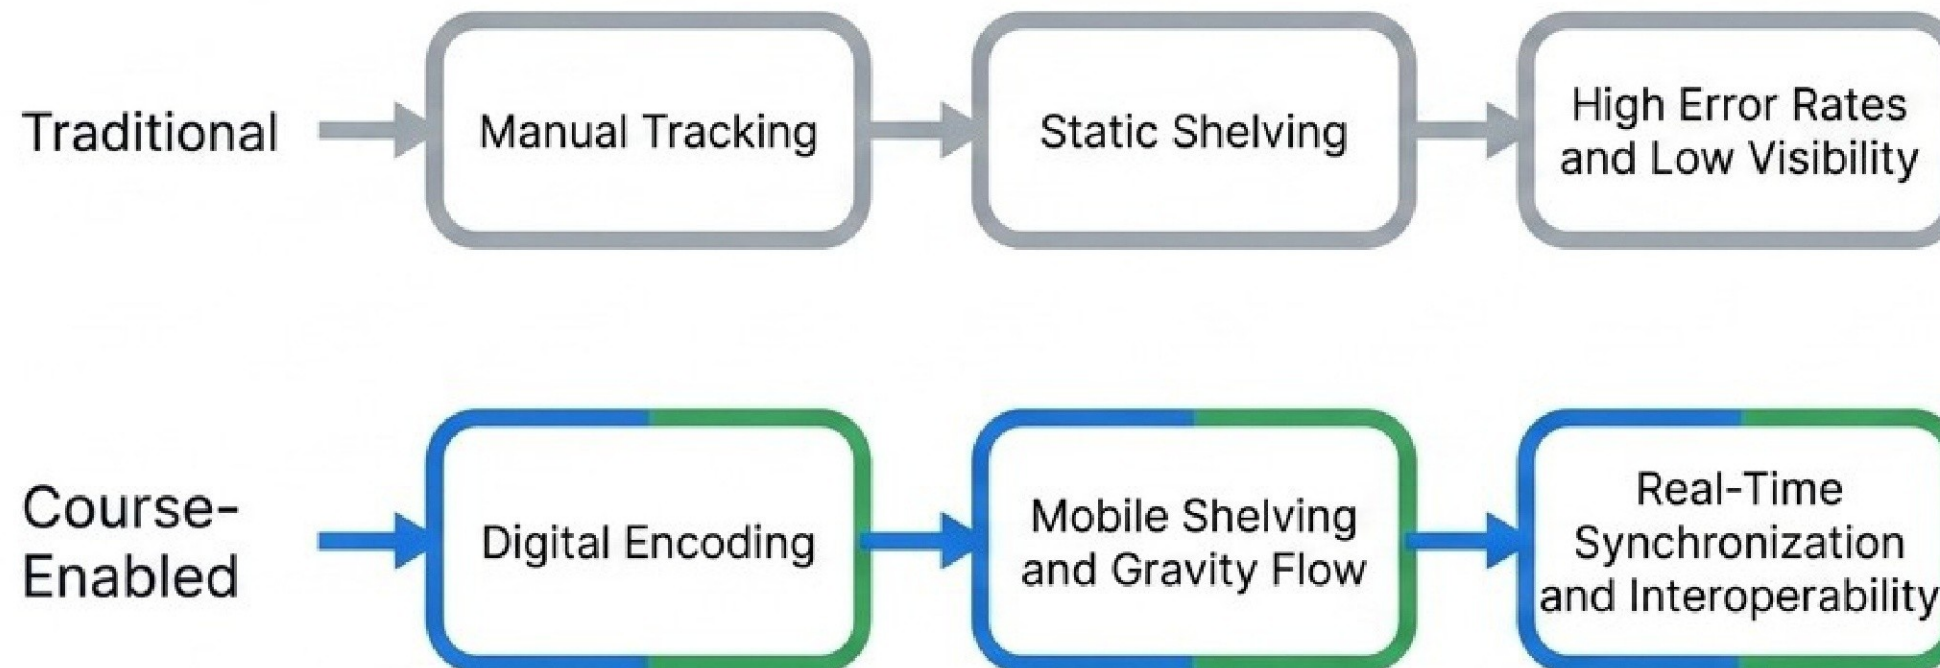

5 Modules

Addresses OSHA guidelines, numbering systems, labeling practices, and inventory accuracy.

Phase 1 Spatial and Inventory Dynamics

Phase 2 Systems, Technology, and Infrastructure

Key Systems Assessed

- Pallet Racking (Selective and Drive-in)
- Mobile Shelving and Gravity Flow Systems
- Barcoding and RFID Technology
- Enterprise Resource Planning (ERP) Integration

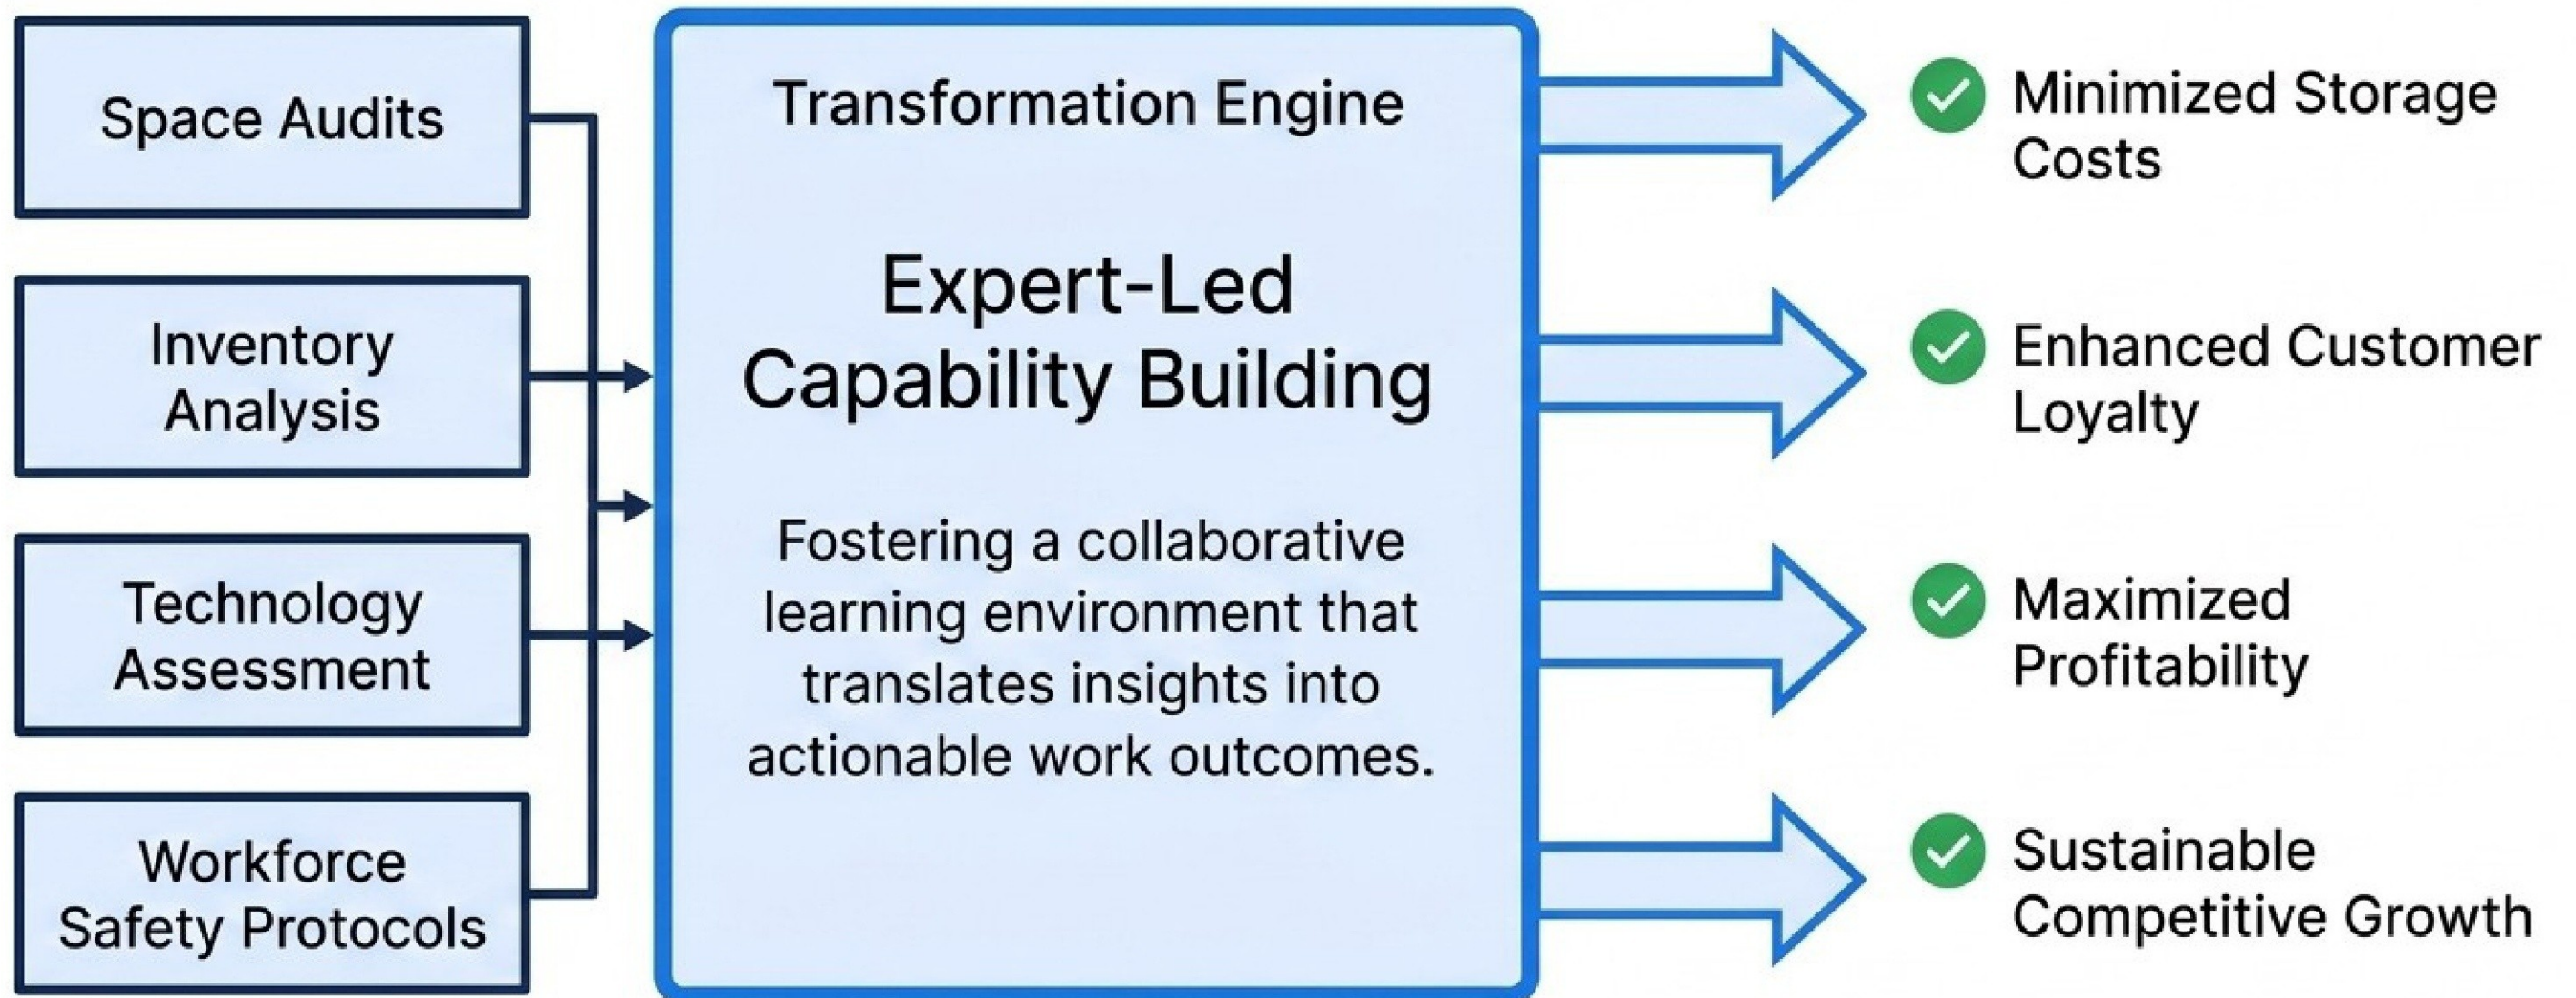

Phase 3 Safety, Compliance, and Continuous Improvement

The Operational Capability Diagnostic

Operational Domain	Strategic Training Intervention	Business Outcome
Inventory Freshness and Waste	Implementation of strict FIFO and proper material rotation techniques	Minimized waste and maintained product integrity across the supply chain
Warehouse Congestion	Logical grouping, cross-traffic reduction, and clear pathway design	Optimized workflow facilitating efficient material flow
Inaccurate Stock Levels	Integration of barcoding, RFID, and cycle counting reconciliation	Enhanced tracking visibility and data-driven decision-making

Driving Quantifiable Business Value

Target Audience Alignment

Flexible Global Delivery Modalities

Virtual Live Instructor-Led

- Global reach from various locations without traveling
- Consistent training quality ensuring uniform learning outcomes
- Interactive tools utilized to enhance learning engagement

On-site

- Higher engagement through direct face-to-face interaction
- Workplace environment tailored precisely to learning requirements
- Demonstration of processes for practical hands-on understanding

Off-site

- Distraction-free environment improving learning focus
- Dedicated schedule away from the office elevating effectiveness
- Boosts employee morale and reflects commitment to development

Proof of Impact

“Edstellar’s Management training programs have greatly improved our teams’ ability to lead with clarity, confidence, and operational efficiency. The sessions combine practical leadership frameworks, real-world case studies, and hands-on exercises that strengthen decision-making, cross-functional collaboration, and execution excellence across departments, driving measurable improvements in overall business performance.”

Meera Rao

HR & L&D Head

A Global Services Company

Enabling Talent Transformation Globally

A light blue world map is centered in the background of the slide, showing the outlines of continents and countries.

100+

Countries with delivery capabilities covering global teams.

10+

Languages supporting localized comprehension and application.

Delivering scale and consistency for small teams to large multinational corporations.

Optimize Your Store Operations Today

Empower your workforce with expert-led training designed to meet your specific operational needs and translate into real performance gains.
