The Capability Activation Curve

Master Curriculum Architecture

Phase 1: Foundation & Architecture

Introduction to Ruby, Rails Setup, MVC Framework, Instant Startup

Mastering the language basics and project initialization.

Phase 2: Database & Backend Logic

Active Record, Action Controller, Action View

Managing data flow, routing, and dynamic front-end rendering.

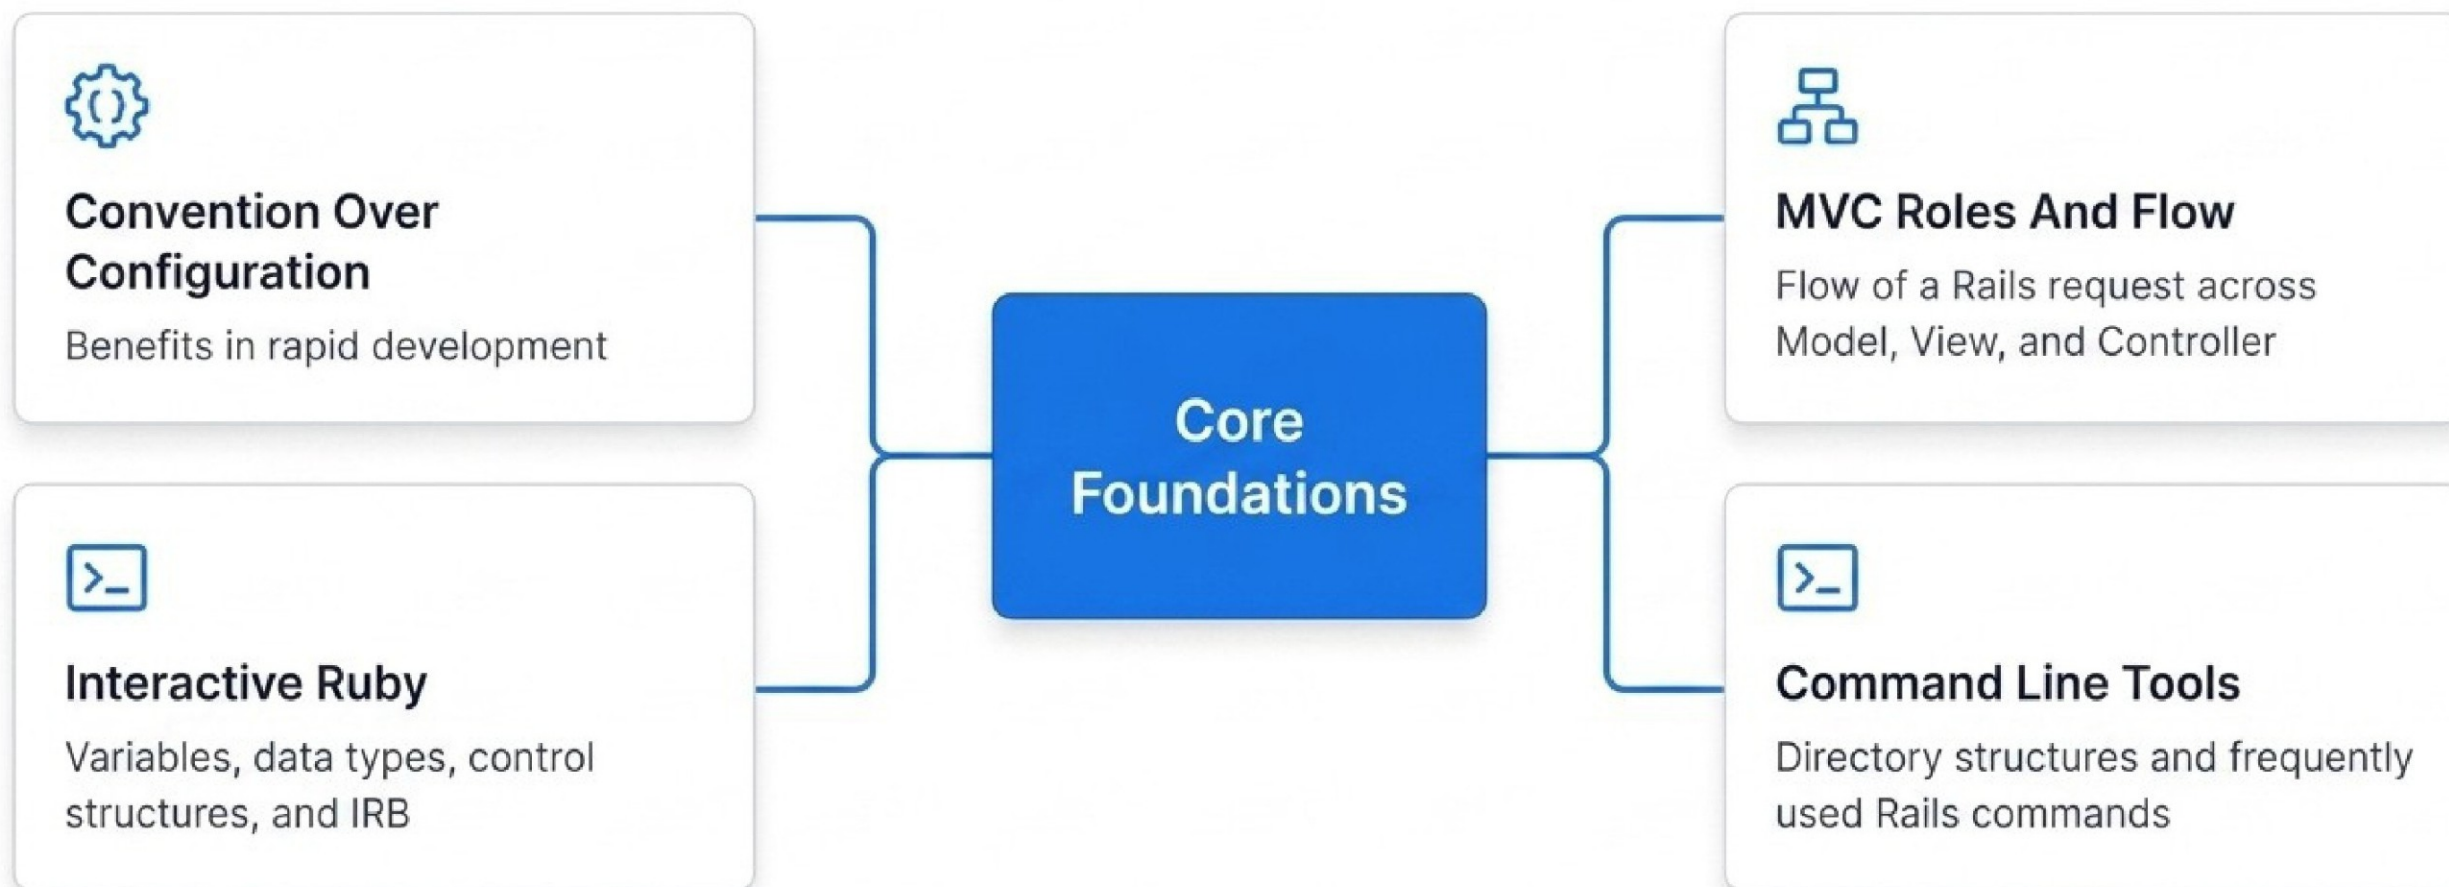

Phase 3: Production Readiness

Action Mailer, Gems Integration, Deployment

Preparing the application for scale and cloud deployment.

Phase 1: Establishing Technical Foundations

Phase 2: Accelerated Backend Development

Traditional Development

Manual queries

Complex routing

Slower prototyping

Rails-Enabled

Active Record ORM

RESTful routing

Rapid application development

CRUD Operations

Interacting with databases efficiently.

Database Migrations

Creating, applying, and rolling back changes.

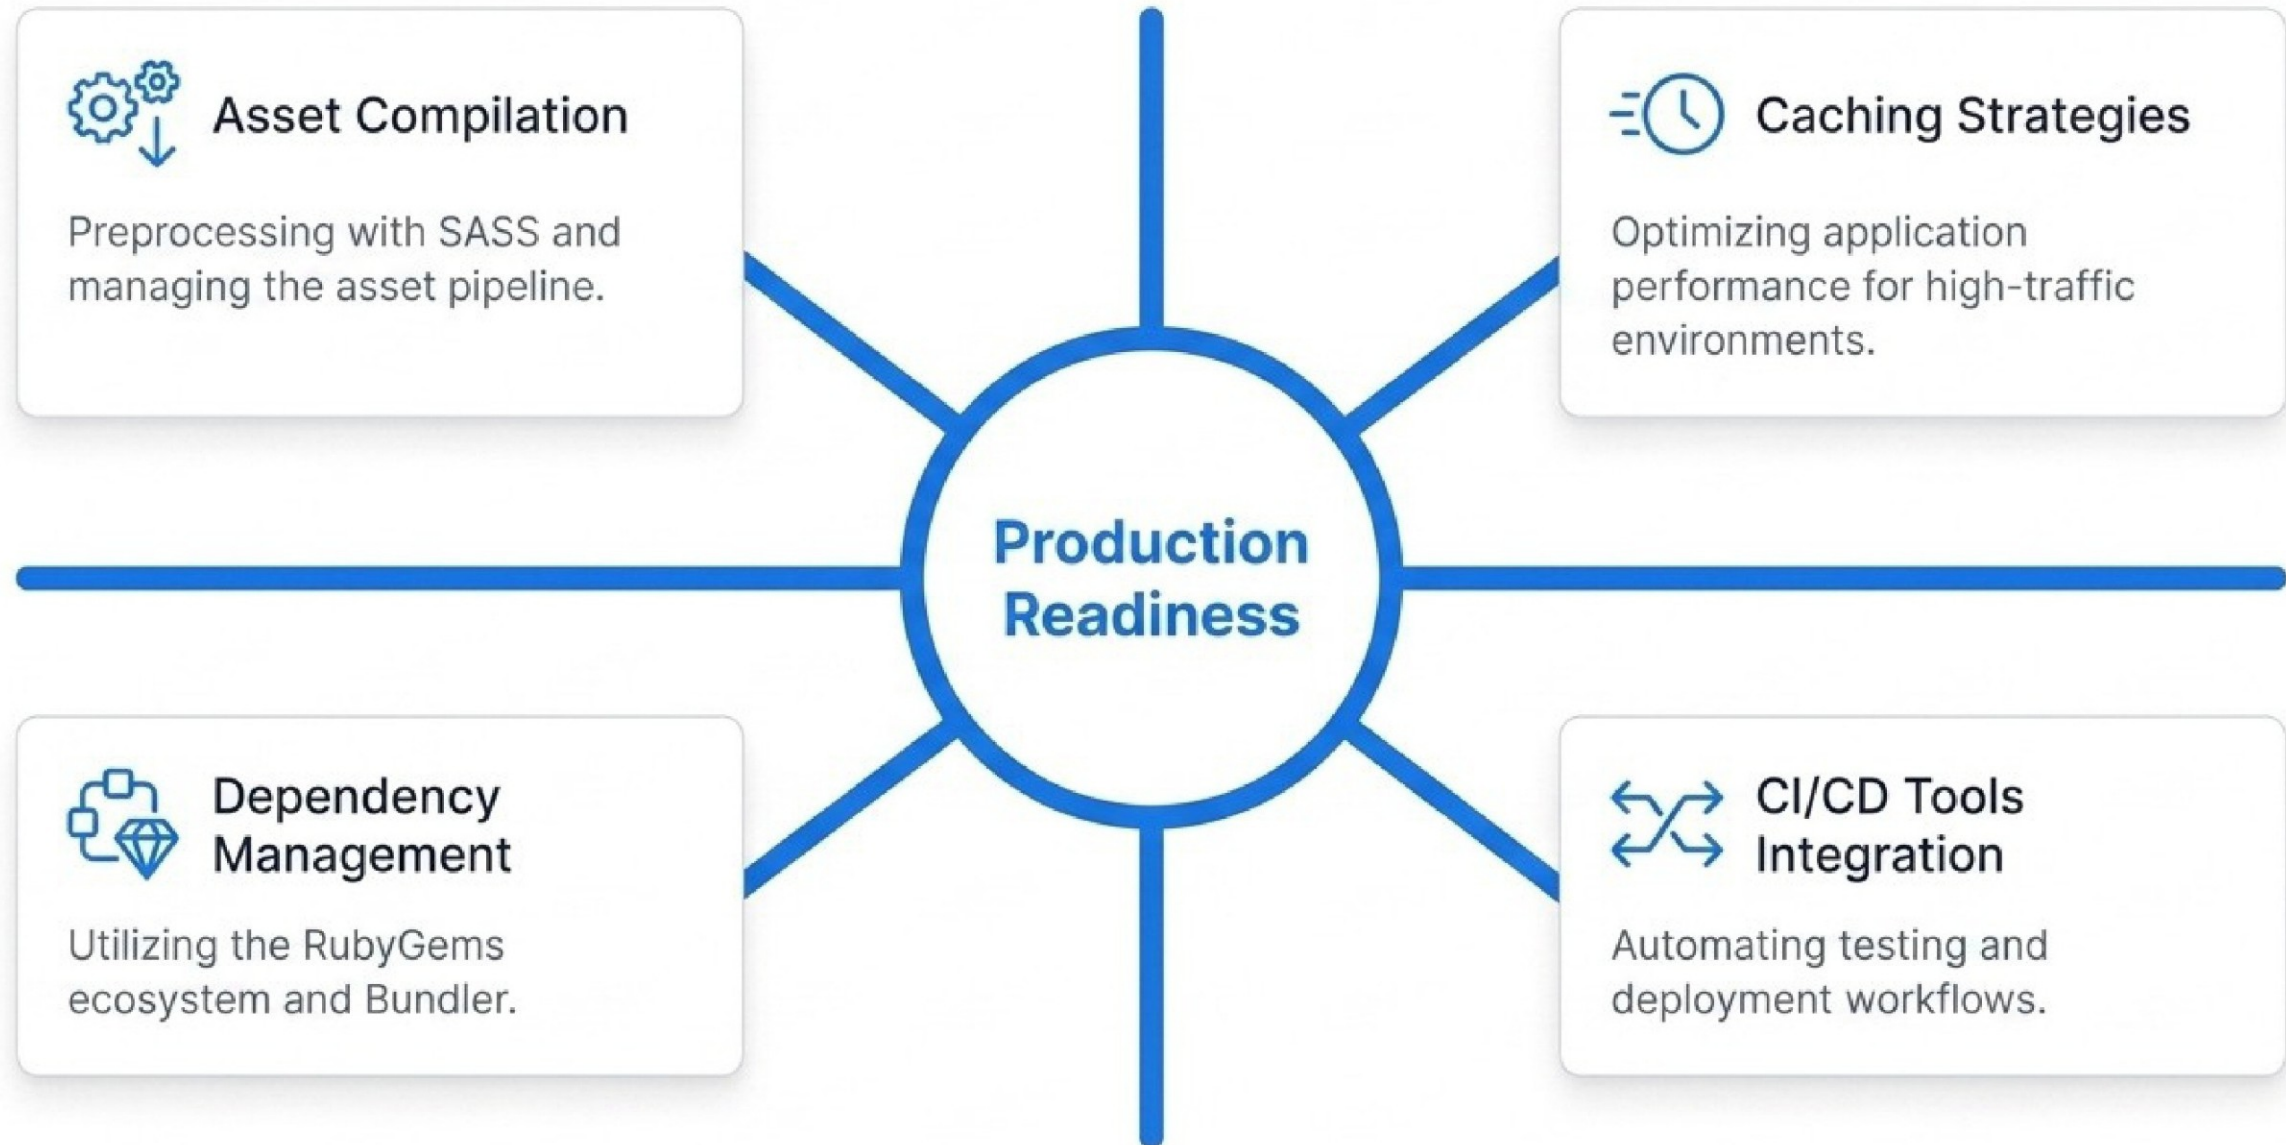

Strong Parameters

Securing data handling and parameter access.

Form Helpers

Processing form data and embedding Ruby in HTML (ERB).

Phase 3: Scaling For Production Readiness

Organizational Impact Diagnostic

Challenge	Edstellar Solution	Business Impact
Training in Multiple Geographies	Virtual Live & In-person Training Across 1000+ Locations	Scale Training By 5x - 10x
Non-centralized Training Logistics	Unified Training Management Platform Dashboard	Reduce Training Admin Overhead By 25%
Budget Constraints & Vendor Sourcing	Tailor-made Enterprise Trainee Licenses	Reduce Training Cost By 15% - 30%

The Enterprise Transformation Engine

Target Audience Alignment

Flexible Enterprise Delivery Modalities

Virtual Live

- ✓ Seamless schedule integration
- ✓ Consistent quality across global locations
- ✓ Scales for large groups

On-Site Face-To-Face

- ✓ Immersive in-office learning
- ✓ Tailored workplace environment
- ✓ Improves team collaboration

Off-Site Face-To-Face

- ✓ Distraction-free focused environment
- ✓ Improves team bonding
- ✓ Dedicated schedule away from office setup

Proof of Impact

“This Ruby on Rails course equipped me with comprehensive industry best practices expertise that I’ve seamlessly integrated into our organizational practice. The hands-on modules covering hands-on exercises and real-world design solutions that consistently deliver measurable business results. Our solution delivery efficiency and quality have increased substantially across the board...”
