

Enterprise SAP Cloud Identity And Access Governance

Safeguard organizational assets, maintain regulatory compliance, and optimize operational efficiency through centralized identity management.

The Identity Governance Transformation

Manual Access Management

- Fragmented security protocols
- Siloed user directories
- High risk of unauthorized access

Centralized SAP Cloud IAG

- Unified identity lifecycle
- Role-based access control
- Seamless HRMS integration

Automated Compliance

- Mitigated security risks
- Streamlined access requests
- Optimized operational efficiency

Core Training Parameters

32 - 40 Hours

Comprehensive capability building

Instructor-Led

Expert-guided group training

Virtual / On-Site / Off-Site

Flexible delivery modes

10,000+ Trainers

Global delivery capability

Certificate

Recognized proof of completion

The Capability Activation Curve

Foundational Knowledge

Basic understanding of the SAP cloud platform architecture.

Identity Architecture

Mastering SAP Cloud Identity Authentication and Provisioning Services.

Risk And Role Design

Executing access risk analysis and designing streamlined roles.

Advanced Governance

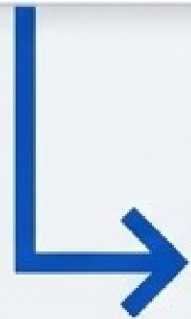

Automating access requests and implementing Privilege Access Management (PAM).

The Structural Learning Framework

Phase 1 - Foundation And Identity Services

Modules: Introduction, Security Architecture, Identity Authentication Service (IAS).

Descriptor: Establishing the core security layer and authentication methods.

Phase 2 - Provisioning And Master Data

Modules: Identity Provisioning Service (IPS), Master Data Setup, Job Analysis.

Descriptor: Automating user lifecycles and centralizing access control.

Phase 3 - Risk Management And Governance

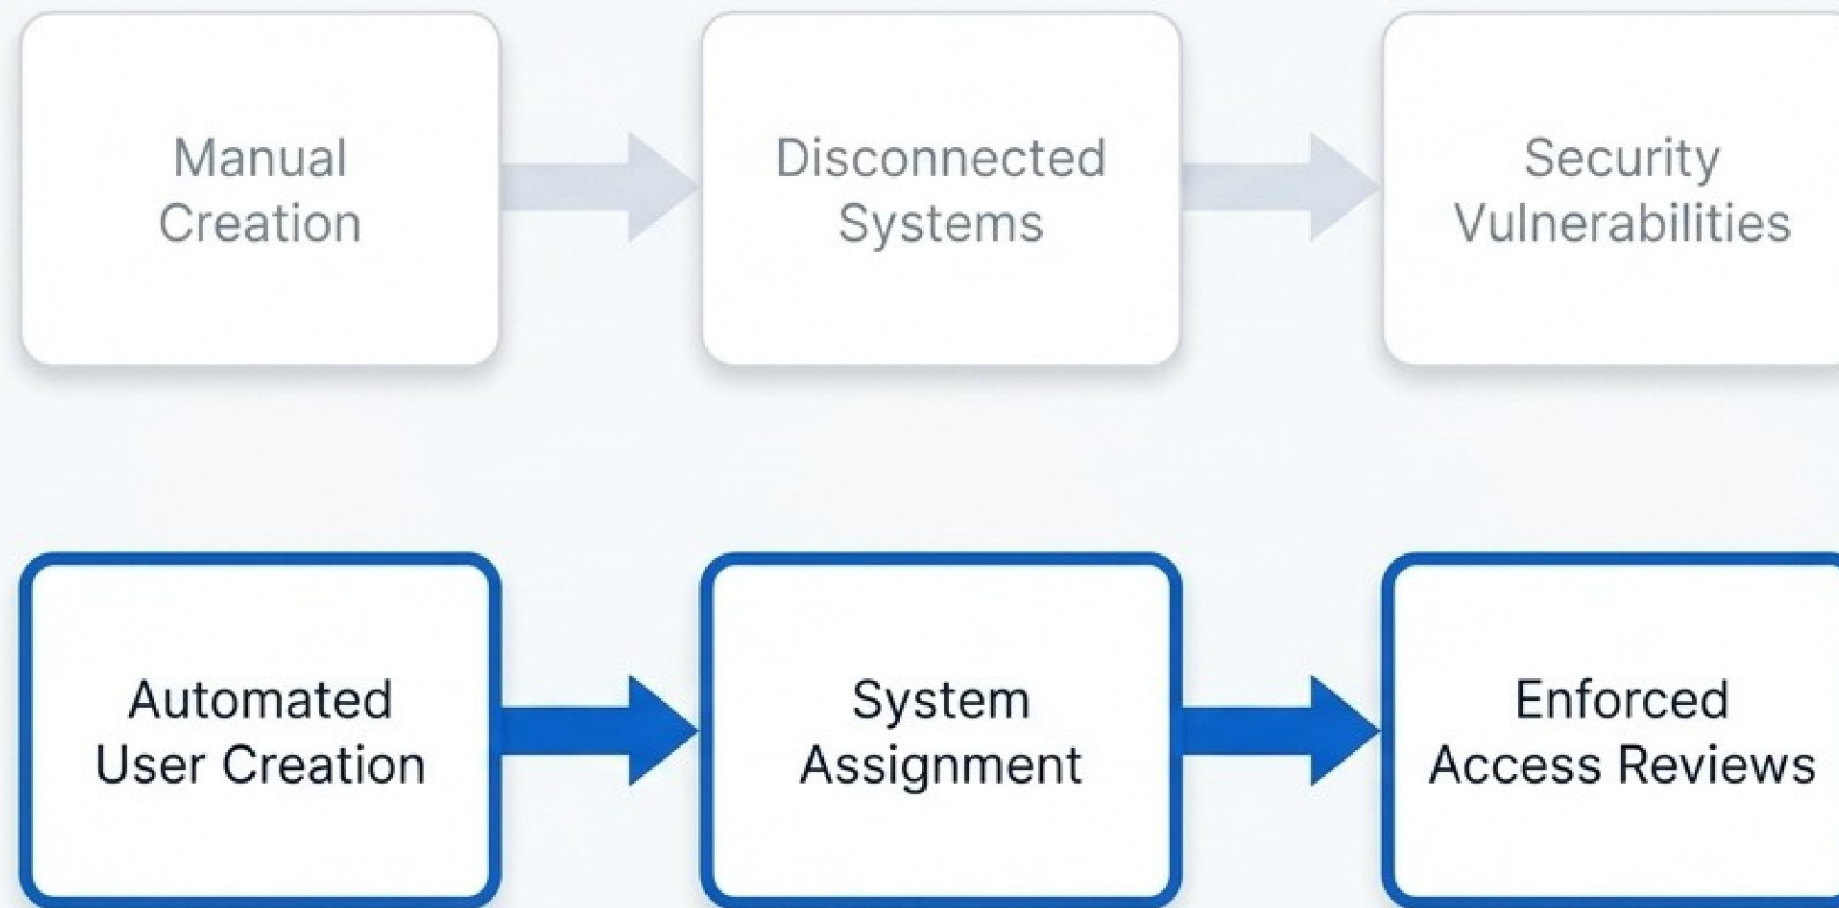

Modules: Risk Analysis, Role Designer, Access Requests, Access Certification.

Descriptor: Enforcing compliance and evaluating access privileges continuously.

Foundation And Architecture Integration

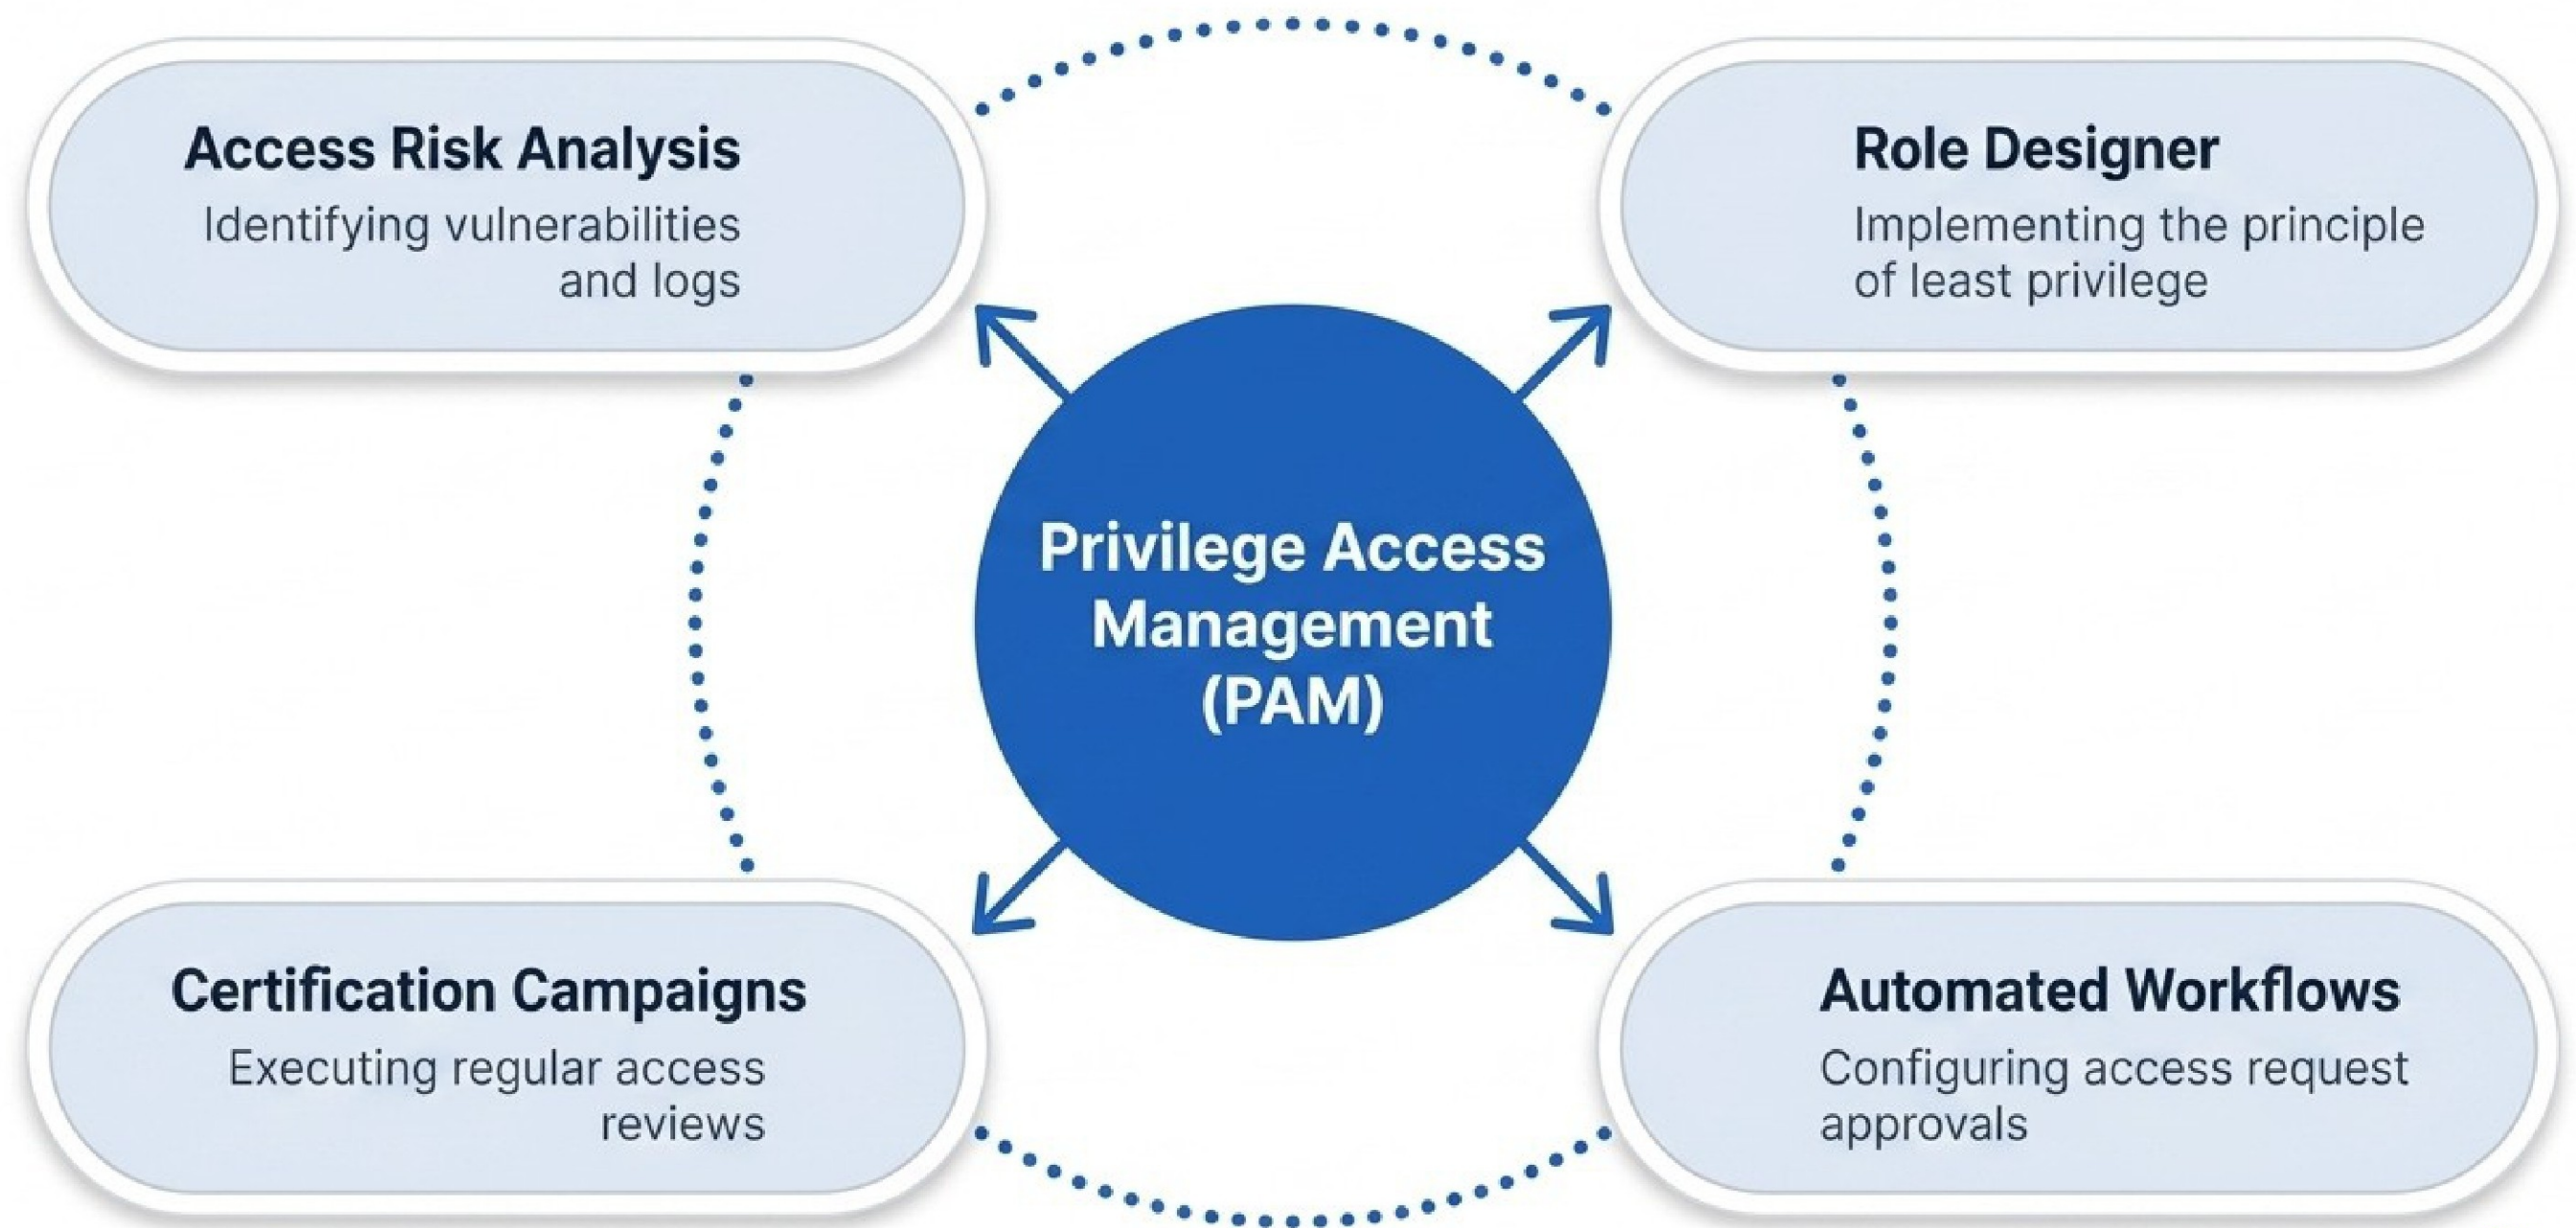

The Access Provisioning Transformation

Acquired Skills

1. Identity Management
2. Role-Based Access
3. Compliance Monitoring
4. User Provisioning

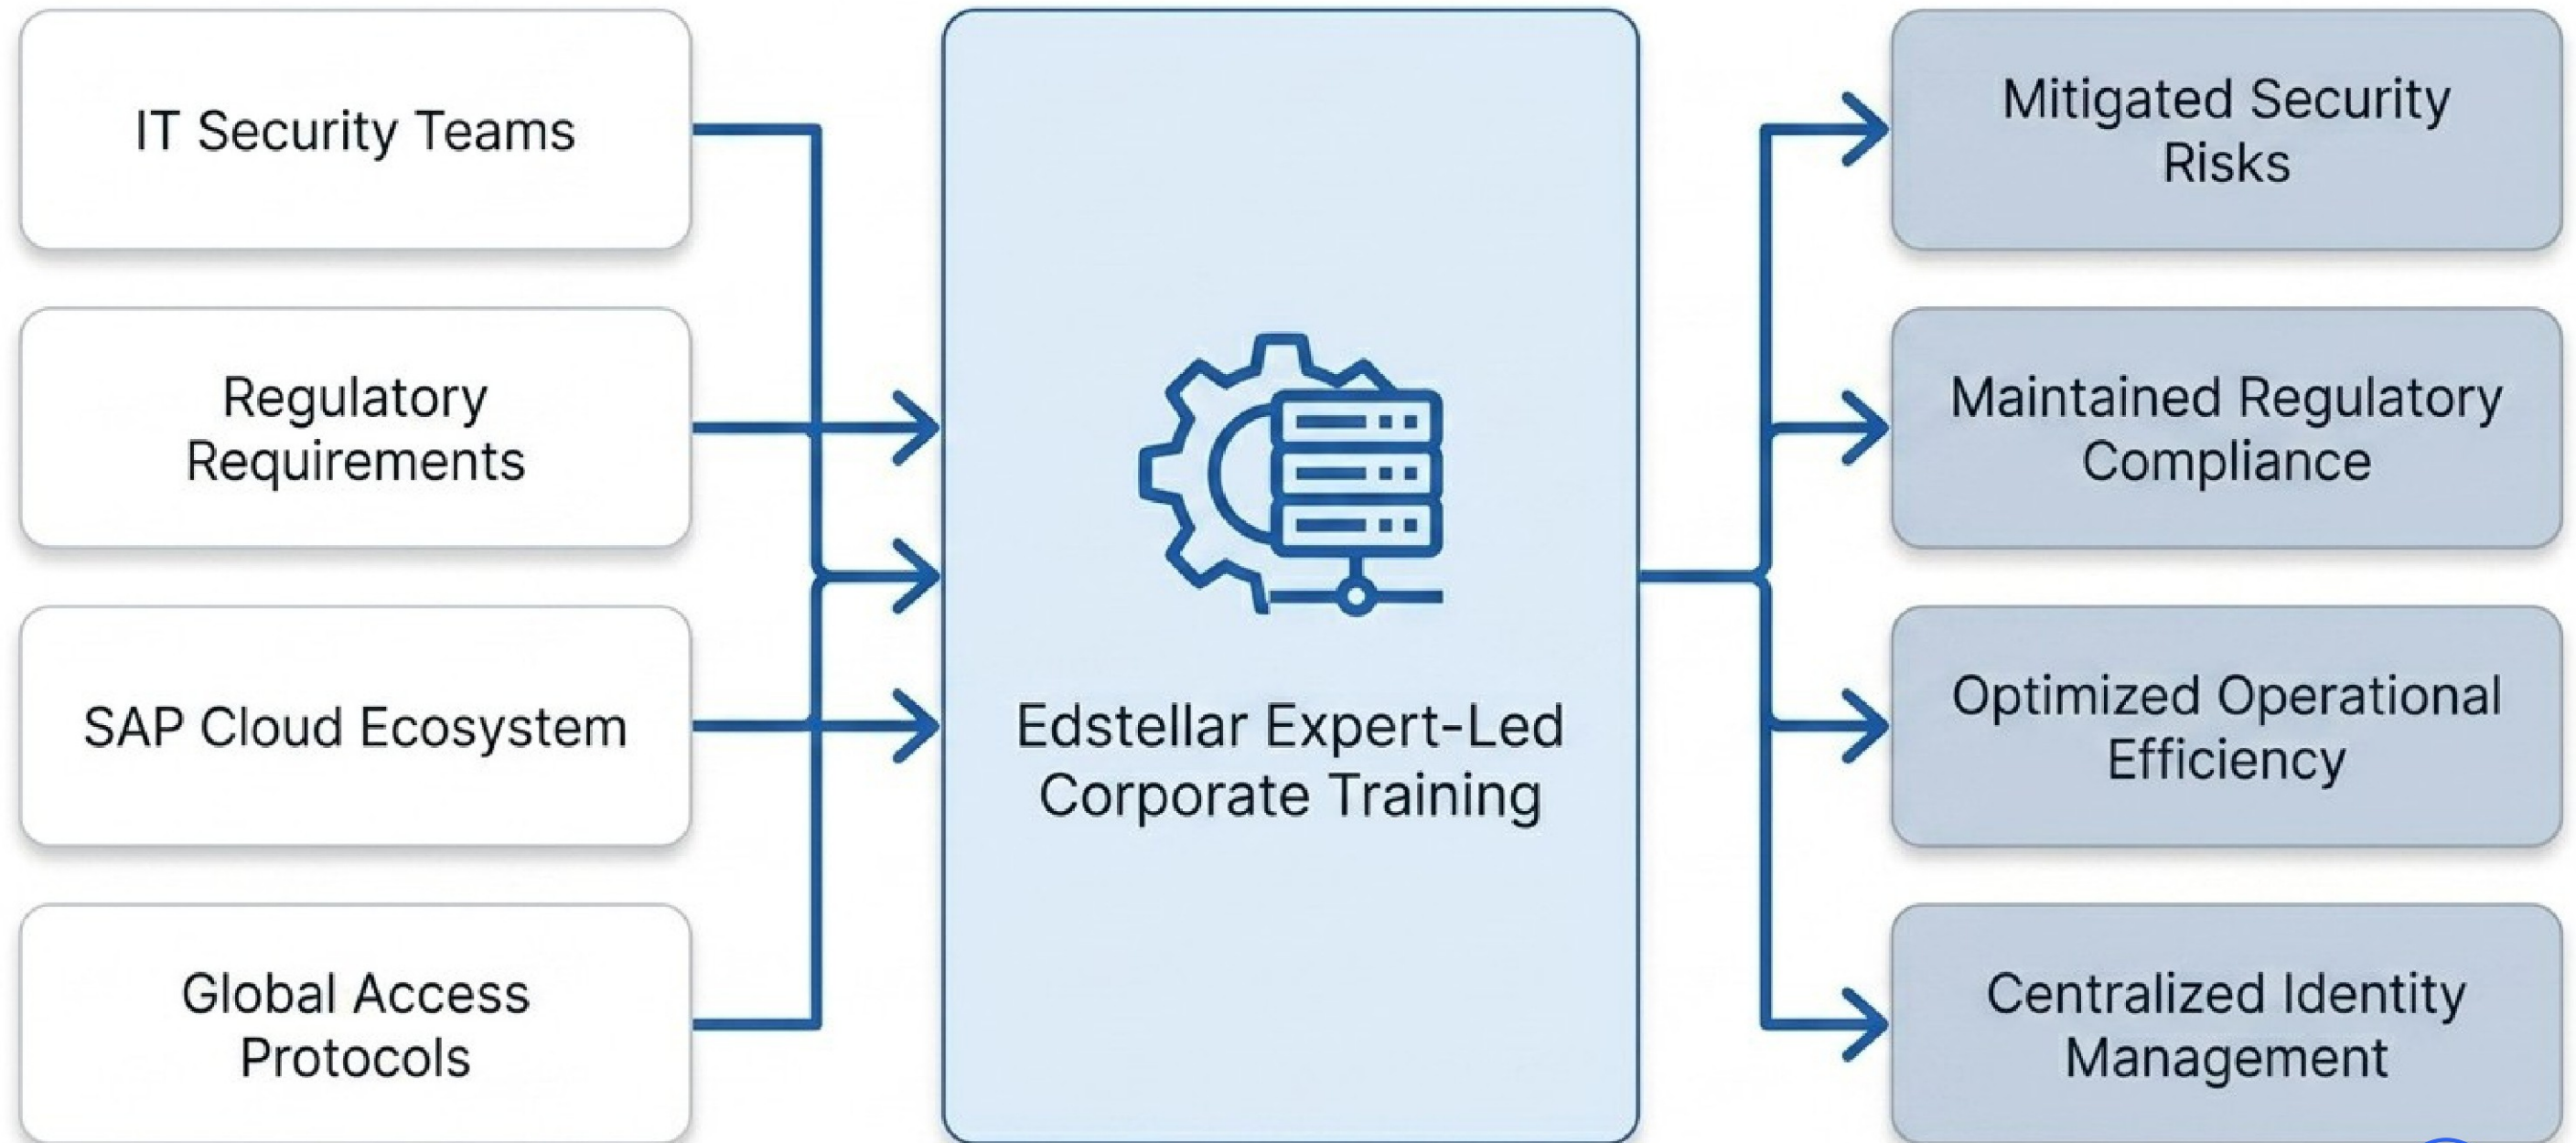

Advanced Enterprise Governance

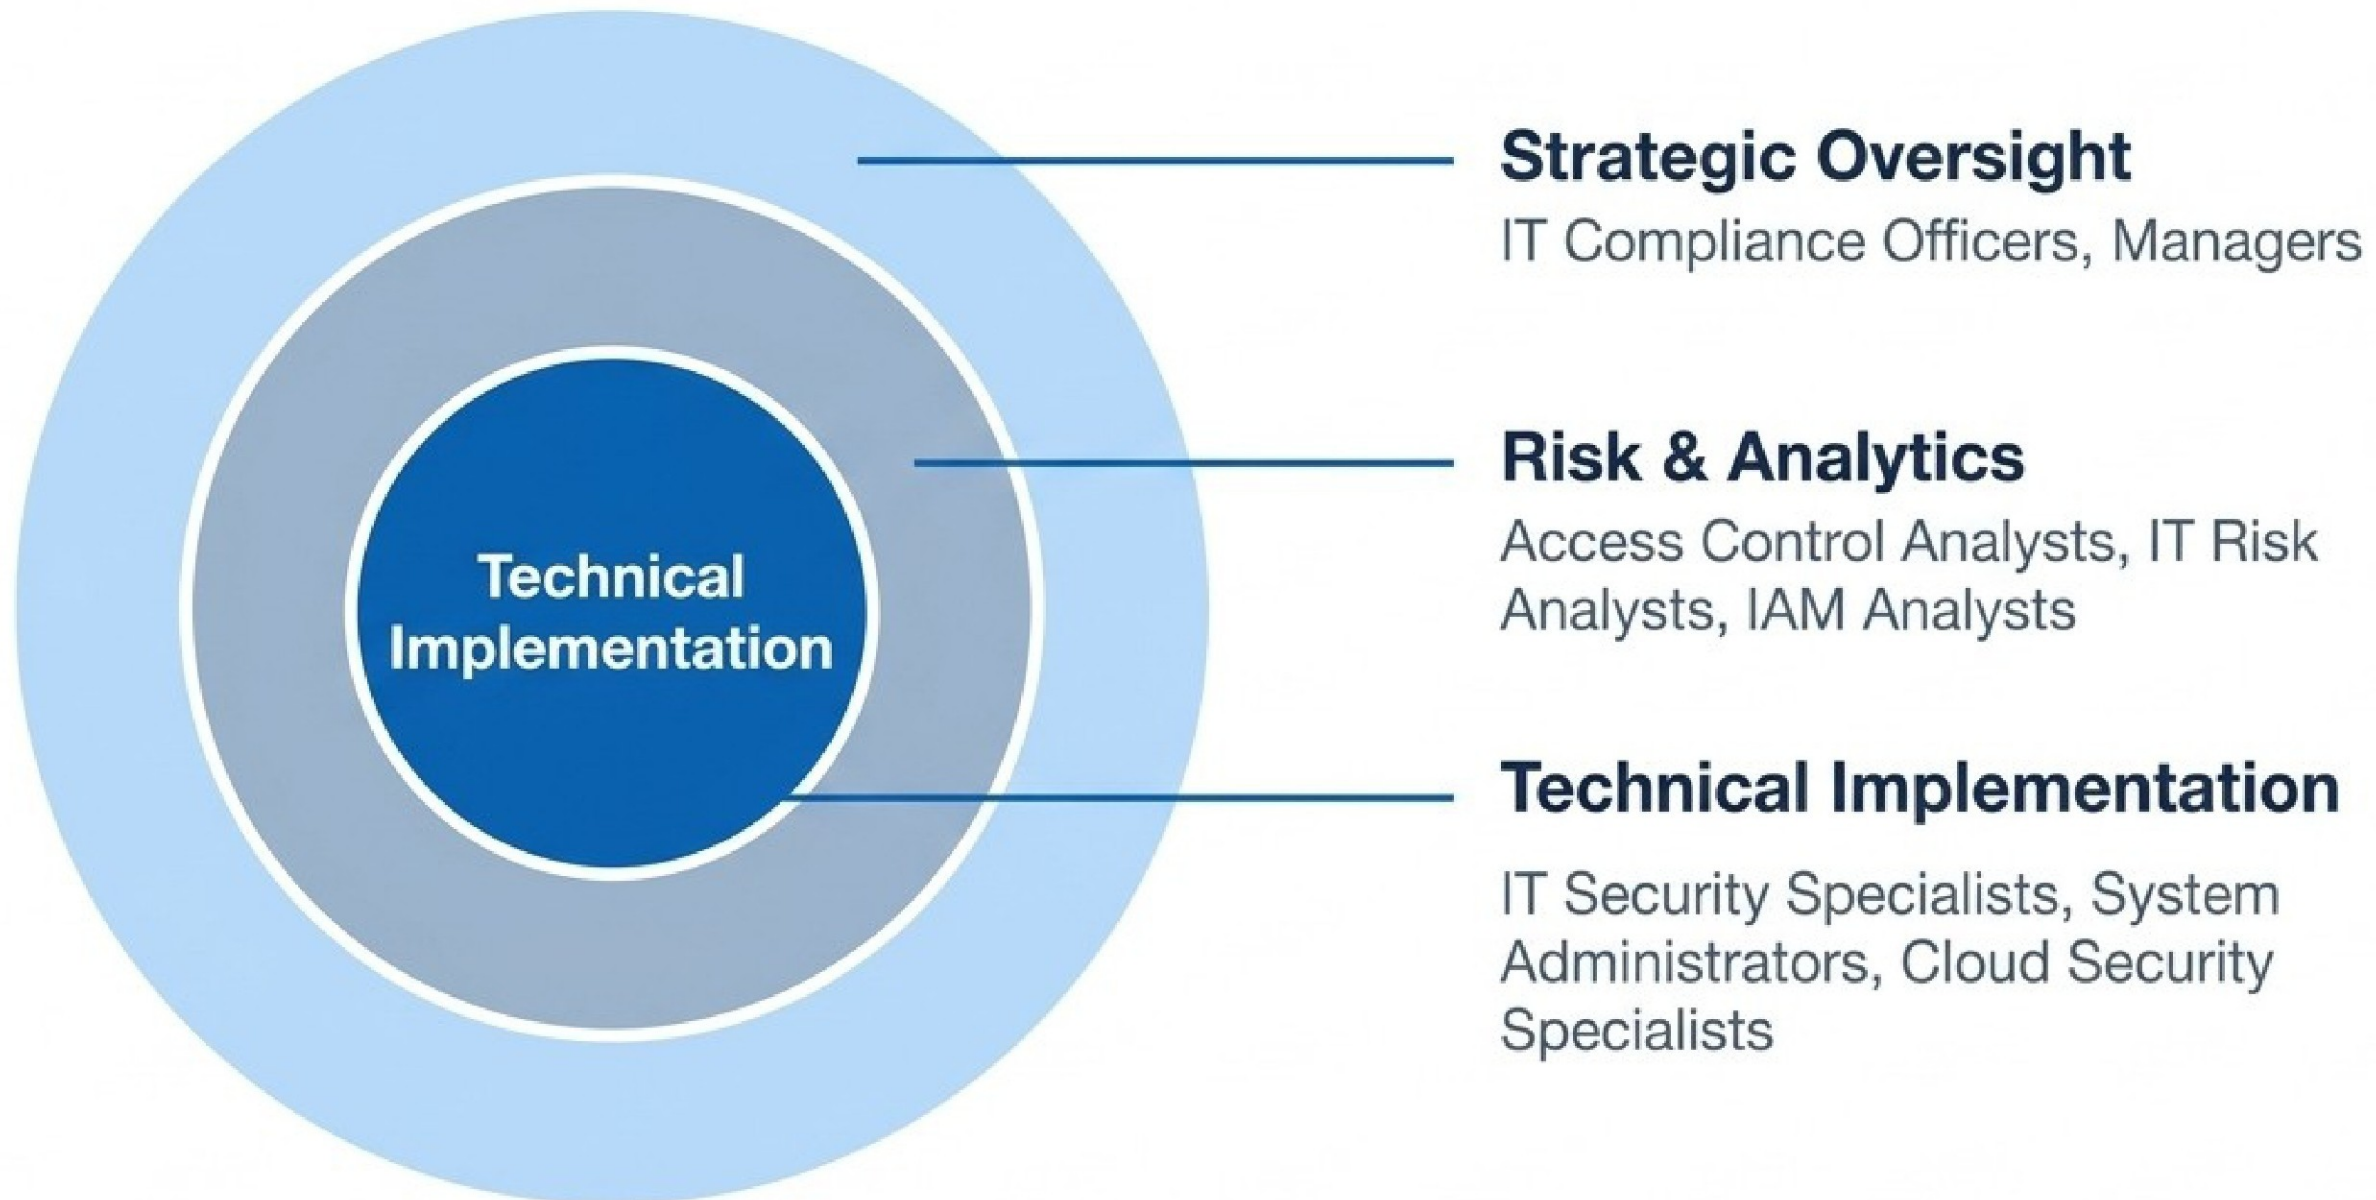

The Governance Capability Matrix

	Security Posture	Operational Efficiency	Regulatory Compliance
Authentication	 Multi-Factor Integration	 Single Sign-On (SSO)	 Adaptive Authentication
Provisioning	 Identity Lifecycle Control	 Automated User Assignment	 Separation Of Duties (SOD)
Governance	 Privilege Access Monitoring	 Seamless SAP Integration	 Access Certification Campaigns

The Value Realization Engine

Target Audience Alignment

The Corporate Delivery Framework

Virtual Live Instructor-Led

- ✓ Global reach from any location
- ✓ Consistent, uniform learning outcomes
- ✓ Highly interactive digital tools

On-Site Face-To-Face

- ✓ Tailored to workplace environment
- ✓ High team collaboration
- ✓ Direct interaction for complex doubts

Off-Site Face-To-Face

- ✓ Distraction-free environment
- ✓ Improved team bonding
- ✓ Boosted employee morale

Proof of Impact

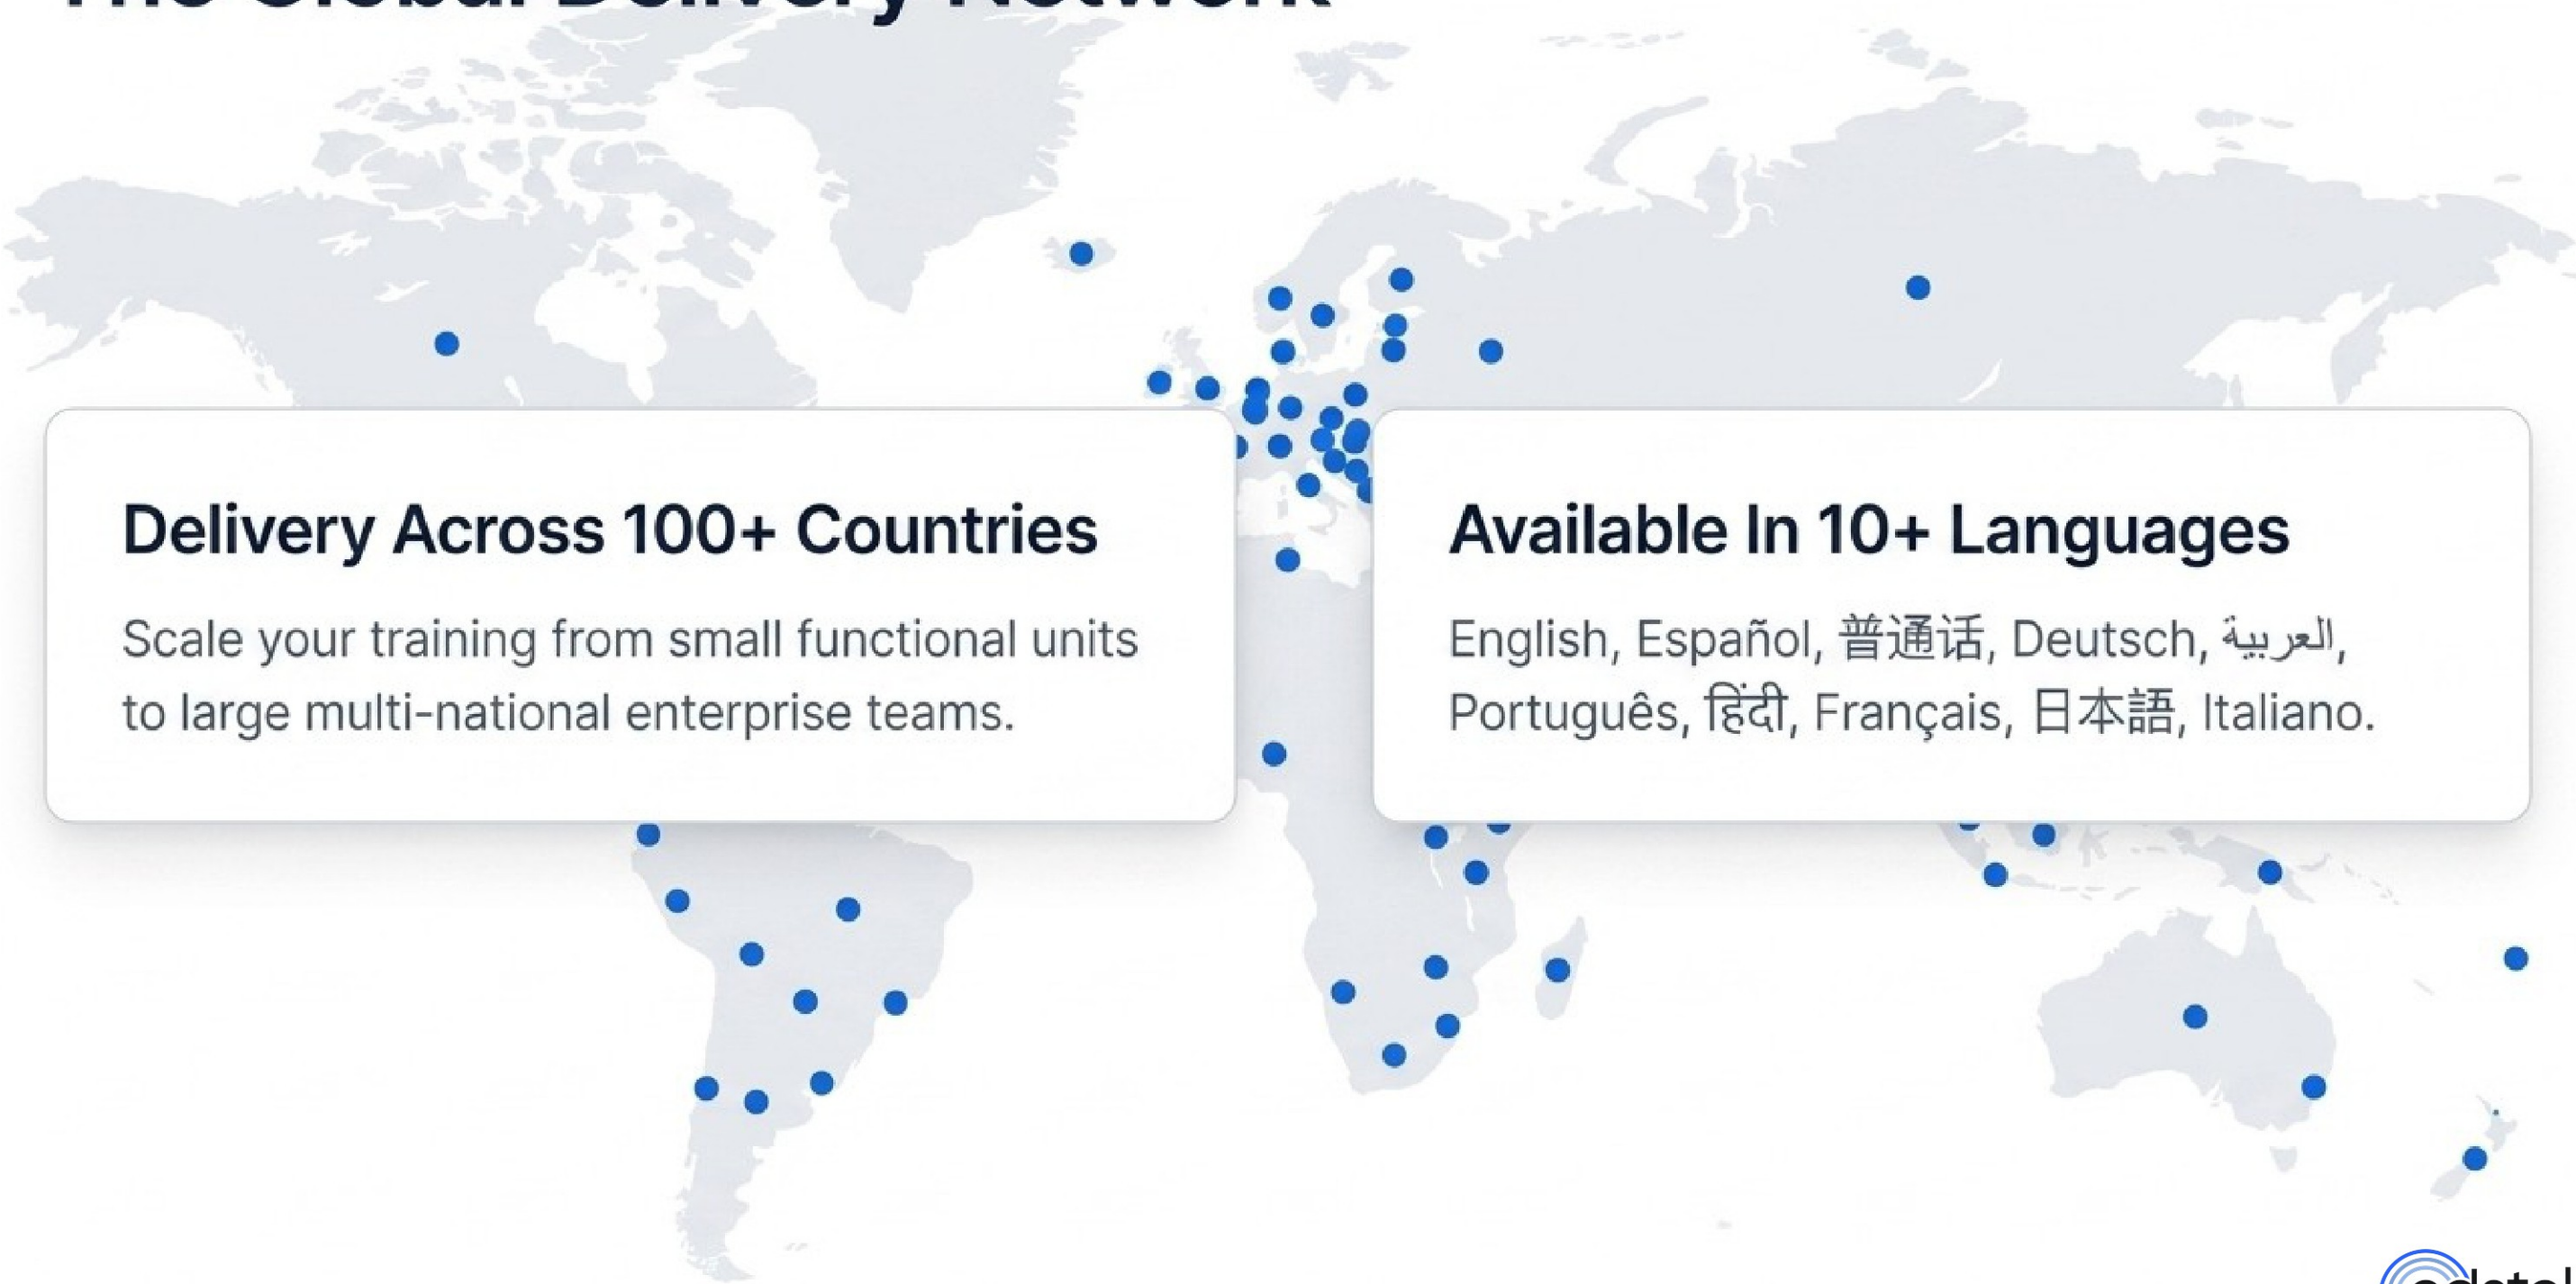

The SAP Cloud Identity and Access Governance (IAG) training exceeded my expectations in every way. As a Senior Cloud Migration Specialist, I gained comprehensive knowledge of industry best practices that incredibly practical and immediately applicable. My ability to architect solutions and solve complex problems has improved substantially.”

Johnny Hopkins

Senior Cloud Migration Specialist

Cloud Computing Solutions Provider

The Global Delivery Network

Delivery Across 100+ Countries

Scale your training from small functional units to large multi-national enterprise teams.

Available In 10+ Languages

English, Español, 普通话, Deutsch, العربية, Português, हिंदी, Français, 日本語, Italiano.

Initiate Your Team Transformation

Validates acquired skills and contributes to organizational success.
