Globally

Course Completion
Certificate

The Capability Activation Curve

Comprehensive Three-Phase Curriculum

Phase 1: Foundation and Traffic Processing

Modules 1-4

Covers BIG-IP architecture, HTTP request flow, and the threat landscape.

Phase 2: Policy Deployment and Tuning

Modules 5-9

Focuses on positive security models, attack signatures, and threat campaigns.

Phase 3: Advanced Mitigation and Integration

Modules 10-18

Details Bot Defense, Layer 7 DoS, DataSafe encryption, and vulnerability scanners.

Phase 1: Foundation and Traffic Processing

Phase 2: Policy Deployment and Tuning

Phase 2 Tools

Defining staging and enforcement modes

Creating user-defined attack signatures

Building positive security policies

Securing HTTP headers and cookies

Phase 3: Advanced Mitigation and Integration

Threat Mitigation Diagnostic Matrix

Enterprise Threat Type	F5 WAF Solution Capability	Skill Gained by Employee
Automated Bot Attacks	Bot signatures and F5 fingerprinting	Classify clients and secure microservices architectures.
Resource Exhaustion	TPS-based Layer 7 DoS protection	Apply behavioral and stress-based detection profiles.
Credential Abuse	Login page flow control	Configure automatic detection to mitigate brute force.

The Business Transformation Engine

Target Audience Alignment

Flexible Modalities to Fit Your Operations

Virtual Live Instructor-Led

- Expert-led live sessions delivered anywhere.
- Interactive tools keep remote learners engaged.
- Scale to large groups across sites.

On-site

- Immersive learning at your office.
- Content tailored to your workplace.
- Live demos and hands-on practice.

Off-site

- Focused learning away from distractions.
- Uninterrupted schedule for retention.
- Built-in group activities for bonding.

Proof of Impact

“This F5 Setting up Advanced WAF course was exactly what I needed to advance my career. As a IT Security Manager, mastering advanced methodologies has become crucial for my success. The in-depth coverage of practical frameworks I use daily. My ability to architect solutions and solve complex problems has improved substantially. The real-world examples and deep dive into expert-led workshops were particularly valuable for my professional growth.”
