

Automate your company's background checks

In a time of increasing security requirements and compliance challenges, it is crucial to ensure that both employees and business partners meet current regulations. P-Secure is the innovative solution that automates your background checks and reduces the time from days to minutes - with just a name and email as a starting point.

Automated, secure and user friendly screening process in 5 simple steps

With P-Secure, you get a proven process that automatically ensures reliable background checks every time. From the first click to the final report, you are guided through an intuitive process that eliminates manual tasks and ensures high quality.

With P-Secure you are able to...

Customize screenings to your needs
Create exactly the screening types that match your company's requirements. Choose from a comprehensive catalog of screening elements - from basic ID verification to in-depth background checks. Combine elements such as criminal record, driver's license, CV verification and much more into a tailored screening process.

Generate background check reports
Export detailed reports for each background check you conduct. Easily share reports with relevant stakeholders both inside and outside the organization.

Comply with EU security requirements
Stay ahead of all regulatory requirements for critical infrastructure. P-Secure automatically ensures compliance with the latest EU directives such as NIS2 and CER, allowing you to focus on your core business without compliance concerns.

Use comprehensive watchlists
Enhance your security procedures with access to recognized international sanction lists (e.g. EU, UN, OFAC, UK, Canada, Japan etc.) and other watchlists (e.g. PEP lists). Create and maintain your own specialized watchlists tailored to your industry and specific security needs.

Automate future screenings
Eliminate manual planning of periodic background checks. Set up the system to automatically initiate new screenings when employee approvals expire. Get notified when it's time for renewal, and let P-Secure handle the process without manual intervention.

Pass audits without concerns
Document all your compliance activities effortlessly. P-Secure automatically stores detailed documentation for all screenings, approvals, and follow-ups. During audits, you can present complete history and documentation with just a few clicks.

Pricing

See all prices

Background screenings are typically expensive and time-consuming, limiting how many employees are screened. With P-Secure, you get unlimited background screenings on a fixed number of applicants, so you can screen systematically at all relevant levels without worrying about cost per screening.

Basic The price below is for unlimited background checks on 10 employees 575 DKK/mo. billed yearly 250 DKK/mo. per extra domain administrator	Extended The price below is for unlimited background checks on 10 employees 825 DKK/mo. billed yearly 250 DKK/mo. per extra domain administrator

Why companies choose P-Secure

Fully automated
P-Secure offers a user-friendly case management system that can efficiently handle a large volume of simultaneous background checks, providing your company with a flexible and scalable solution that fits your organization's screening needs.

GDPR compliant
P-Secure enables easy compliance with GDPR, regulatory requirements and audit processes, ensuring that companies can maintain high standards for data protection and integrity.

Collects user consent
P-Secure simplifies GDPR compliance, regulatory requirements and audit processes, ensuring companies maintain high standards for data protection and integrity.

Objective assessment
All background checks are conducted thoroughly in accordance with predefined screening criteria and carefully selected data sources, ensuring a reliable and precise evaluation of candidates or individuals going through the process.

Our trusted clients include

What our customers say

"We are extremely pleased with P-Secure, which has streamlined our onboarding of new employees. The platform is user-friendly, provides great overview and has excellent support. P-Secure has truly been a game-changer for our onboarding process and has significantly reduced our workload. This has given us more time to focus on more complex cases.

Rasmus Skov
Lufthavnsvikar

"P-Secure has transformed our complex process into something simpler, secure, and incredibly time-efficient. The team at P-Secure is always available on the phone, and their approach to support is truly refreshing - no question is too small, and we consistently receive patient, personalized assistance."
