## **Bibliography**

Version 2.0

January 2026

# Preface

## Explanatory note

The following should be read in conjunction with the ST01 Dimensions, Criteria and Indicators document, which outlines the dimensions, criteria and indicators for the FAST-Infra Label.

## Versions of this document

This is version 2.0 of the FAST-Infra Label Bibliography, issued in January 2026. This version is proposed to replace version 1, dated November 2024 and introduces the following changes:

- **Streamlining of references** by removing less established ones.
- **Updating of references** to align with those cited in the ST01 Dimensions, Criteria and Indicators document.

## Objective of this document

This document, the FAST-Infra Label Bibliography, provides the references and associated links used for each indicator of the FAST-Infra Label. The references are colour-coded according to their type, consistent with the ST01 Dimensions, Criteria and Indicators document, as shown in Table P1.

*Table P1 Colour-coding for references.*
