

MijnPerspectief

A secure method of communication between you and Perspectief

Why MijnPerspectief?

You can hold online consultations with the company doctor or other health professionals.

You can download the documentation you need for the Employee Insurance Agency (UWV) yourself in the case of a long-term absence.

You can quickly and easily sign an online authorisation for medical information requests.

Communications are privacy-proof as we use two factor authentication

You always have insight into upcoming appointments and who the point of contact is.

Reports from the company doctor and other health professionals always reach you securely.

The retention period for documents and data is set automatically.

Learn more about the advantages on the following pages.

perspectief

MijnPerspectief is a highly secure Perspectief environment that gives you access to your personal absence from work file. Perspectief is an occupational health & safety service provider that supports you and your employer via a variety of services. If you become ill or find yourself in another Perspectief process, Perspectief will always contact you via MijnPerspectief. We share reports, feedback and information from our professionals directly via MijnPerspectief. In addition, we send invitations for appointments with the company doctor or other health professionals and request medical information via MijnPerspectief.

How does MijnPerspectief work?

When the need arises, you will receive a personal email at the address submitted by you or your employer asking you to create an account for MijnPerspectief. You can use any email address you choose for this. If you already have an account, you will receive an email telling you that there is a new message for you in MijnPerspectief.

Why MijnPerspectief?

We work with sensitive personal information and naturally want to avoid your information getting into the wrong hands. We may only communicate directly with you about your medical information. Under privacy guidelines, this information may not end up in a different environment, such as your employer's HR system. Using email brings with it a high risk of data leaks. We can pass on information to you securely via MijnPerspectief. This is partly because we use two factor authentication, but also because we have control over the information that we share with you via MijnPerspectief. If incorrect information is provided for whatever reason, we can subsequently withdraw this information ourselves. The only thing we share with your employer is any work-related adjustments and/or recommendations.

Other advantages of MijnPerspectief

- Reports from the company doctor or other health professionals always reach you securely.
- You always have insight into upcoming appointments and who the point of contact is.
- You can download the documentation you need for the Employee Insurance Agency (UWV) yourself in the case of a long-term absence.
- You have the option of holding an online consultation with the company doctor or other health professionals via MijnPerspectief.
- Requests for medical information are much easier and quicker as you can sign an online authorisation. This eliminates the need for sending the documents by post. Moreover, a QR code on the authorisation and medical information enables us to link the information to the correct file straight away.
- The retention period for documents and data is set automatically. This includes the deletion of personal data (two years after termination of employment) or financial information (seven years after termination of employment).

Dynamic questionnaires

We use MijnPerspectief for questionnaires as well. These are short questionnaires that you receive when you report sick for work and take about 10 minutes to complete. We ask you to complete these questionnaires via MijnPerspectief so that we can give you the best-possible advice and support tailored to your situation/absence from work. You can also do this via MijnPerspectief. More information on the dynamic questionnaires can be found [here](#).

Download the app

Via the MijnPerspectief app, you have a secure environment giving you:

- full insight into your absence from work file
- direct access to all your messages
- an overview of all your appointments

The app can be downloaded via Google Play and the App Store.
