

GEAR UP FOR WOW JOBS

Welcome to WOW Jobs! You will have the opportunity to interview with companies in the Tallahassee area who are looking for talented people like YOU.

IMPORTANT STUFF

What is WOW Jobs?

Your future starts here! WOW Jobs is your chance to connect with top employers, explore career opportunities, and interview for real jobs—part-time or full-time! If you're planning to jump straight into the workforce, WOW Jobs helps you take that next big step with confidence.

Who should attend?

If you're a high school senior looking to jump straight into a full-time job after graduation — or if you're planning to work part-time while going to college — this is for you!

How should I prepare?

You'll be meeting real employers and doing actual interviews at WOW Jobs — so come prepared to impress! Check out the list of employers ahead of time and practice your interview skills. Plus, your resume is your ticket in! Make sure to finish your resume in Xello by March 31.

Who will I interview with?

First, a team of HR experts will check out your resume and match you with two companies that fit your interests and experience. After you finish those two interviews, you can head back to the HR table and choose two more companies you want to meet with. You're guaranteed at least four interviews — and if there's extra time, you can squeeze in even more! It's a great chance to connect and show off what you've got.

YOU'VE ATTENDED WOW JOBS. NOW WHAT?

CHECK YOUR EMAIL, VOICEMAIL, AND TEXT MESSAGES OFTEN

Companies you interview with might reach out to get you started on their official job applications and set up second interviews. They may also schedule things like background checks and drug screens. Basically, if they're interested — they'll be following up to get you hired!

RESPOND TO COMPANIES PROMPTLY FOR THE NEXT STEPS

When a company reaches out, make sure you reply quickly so you don't miss any next steps. Keep your counselor in the loop about how things are going with your job applications. And if a company offered you a job at WOW 2.0 but you haven't heard back yet, let your counselor know — the WOW team's got your back and can help get things moving!
