About

Hi, my name is Kirill. I'm a UX/UI designer with 3+ years of experience.

I have experience creating projects for early-stage startups and brands to architect and reimagine their businesses. Worked beginning creating sites and apps for mobile platforms, ending with creating admin panels and an HRM system. Most of the projects were completed for customers from Europe, the USA, and Australia. I have a basic understanding of the basics of HTML and CSS coding.

I am looking for a job with a pleasant team)) I want to be part of exciting projects and work with interesting tasks.
