Protection you install. Relationships that last.

With LeakSecure you'll be closer to your customers than ever before with a 24/7 connection to their whole plumbing system from your dashboard.

ASSEMBLED IN USA

LEAKSECURE® PRO

Measured. Not Guessed.
Patented quad-path ultrasonic flow sensing, plus water quality (TDS), pressure, air temperature, and humidity in one device.

A Leak Test every week.
A pressure test on the whole plumbing system, with the result on the homeowner's phone.

Pair it. Hand it off. Watch it connect.
Encrypted Bluetooth-to-Wi-Fi setup in the PRO app. Run a Leak Test before you leave the driveway.

Stocked where you already shop.
Available at leading plumbing wholesale distributors nationwide. Homeowners get LeakSecure only through a pro.

One device on the main line, installed in one visit, connected to your dashboard for years.

Standard issue for certified partners.

Certification comes with the PRO app, training and your Key Account Manager (KAM).
